

JSS 1-3 Compost and Soil Garden Flashcards 721-740

721. SOIL ORGANIC MATTER	Soil organic matter consists of carbon-containing materials at different stages ...
722. COMPOST FEEDSTOCK	Feedstock selection influences carbon, nitrogen, moisture, structure, contaminan...
723. CARBON-TO-NITROGEN RATIO	The carbon-to-nitrogen ratio describes the relative amounts of carbon and nitrog...
724. MICROBIAL DECOMPOSITION	Microorganisms transform organic materials while using carbon, nutrients, water,...
725. AEROBIC PROCESS	Aerobic decomposition occurs in the presence of oxygen and is supported by adequ...
726. MOISTURE MANAGEMENT	Compost moisture must support microbial activity without filling too much pore s...
727. COMPOST TEMPERATURE	Temperature patterns reflect biological activity, pile size, moisture, aeration,...
728. THERMOPHILIC PHASE	The thermophilic phase is a high-temperature stage associated with rapid microbi...
729. TURNING FREQUENCY	Turning frequency affects aeration, mixing, moisture redistribution, and tempera...
730. VOLUME REDUCTION	Organic material volume commonly decreases as particles break down and carbon is...
731. MATURITY	Compost maturity indicates that active decomposition has slowed and the material...
732. COMPOST QUALITY	Compost quality can be evaluated using maturity, contamination, particle conditi...
733. SOIL TEXTURE	Soil texture is determined by the relative proportions of sand, silt, and clay a...
734. SOIL STRUCTURE	Soil structure describes how particles form aggregates and pore networks that in...
735. SOIL pH	Soil pH affects chemical reactions and nutrient availability and is measured on ...
736. NUTRIENT CYCLING	Nutrient cycling moves elements among residues, organisms, soil organic matter, ...
737. COMPOST APPLICATION RATE	Application rate expresses the mass or volume of compost added per unit area or ...
738. SOIL RESPONSE	Soil response to compost may include changes in organic matter, structure, nutri...
739. CROP RESPONSE	Crop response can be evaluated using establishment, growth, condition, yield, an...
740. COMPOST-SOIL EVALUATION	Evaluation integrates compost process records, quality, application rate, soil c...
