

Nursery
FARM-TO-FOOD ACTIVITY SYSTEM

FF-001 to FF-100

SEE FOOD -> NAME IT -> MATCH IT -> HANDLE SAFELY -> TELL ITS JOURNEY

Purpose	Connect school-garden learning to food origin, harvest, handling, quality, preparation pathways, food literacy and waste reduction.
Food-safety boundary	These are education activities, not authorization for unrestricted tasting or processing. School food-safety rules and teacher supervision take priority.
Core learning chain	GARDEN -> CROP -> HARVEST -> HANDLE -> SORT/MEASURE -> PREPARE/PROCESS PATHWAY -> FOOD -> CHOICE -> WASTE/RESOURCE
Connections	Use with GrowMeal practical cards, journals, mission cards, vocabulary and assessment items.

GARDEN 01 - Alphabet Garden

Ten activities move learners from identifying where food comes from to reasoning about handling, quality, loss, choices and resource recovery.

FF-001 - FOOD ORIGIN

Garden	Alphabet Garden
Learning objective	Help children connect the Alphabet Garden to the idea of food origin through safe observation, matching, sorting, drawing and talk.
Materials	Picture cards, clean produce examples where approved, baskets/trays, crayons, labels, handwashing supplies.
DIY / low-cost	Use locally available baskets, clean reused food-grade containers, handmade labels, paper process cards and simple balances/measuring vessels where suitable.
Activity pathway	1. Show a garden or food example. 2. Name where it comes from. 3. Let children match, count, sort or draw. 4. Demonstrate clean hands and gentle handling. 5. Ask children to tell one step from garden to food.
Evidence to record	Correct match, simple count/sort, drawing or oral explanation.
Farm-to-Food challenge	Can the learner show what happens before and after the selected step?
Safety	No tasting unless the school has separately approved a supervised food activity. Wash hands before and after handling produce. Use only clean, teacher-approved samples and containers. Teachers control knives, heat, electrical equipment, chemicals and any processing machinery.
Journal connection	Record the evidence, sequence, measurement, process map or reflection in the level-appropriate GrowMeal journal.
Mission/assessment	Use the evidence to complete a related Garden Mission and assess knowledge, practical, data or problem-solving competence.

Reflection: Where could food quality be protected, waste reduced, or the garden-to-food connection explained more clearly?

FF-002 - HARVEST READINESS

Garden	Alphabet Garden
Learning objective	Help children connect the Alphabet Garden to the idea of harvest readiness through safe observation, matching, sorting, drawing and talk.
Materials	Picture cards, clean produce examples where approved, baskets/trays, crayons, labels, handwashing supplies.
DIY / low-cost	Use locally available baskets, clean reused food-grade containers, handmade labels, paper process cards and simple balances/measuring vessels where suitable.
Activity pathway	1. Show a garden or food example. 2. Name where it comes from. 3. Let children match, count, sort or draw. 4. Demonstrate clean hands and gentle handling. 5. Ask children to tell one step from garden to food.
Evidence to record	Correct match, simple count/sort, drawing or oral explanation.
Farm-to-Food challenge	Can the learner show what happens before and after the selected step?
Safety	No tasting unless the school has separately approved a supervised food activity. Wash hands before and after handling produce. Use only clean, teacher-approved samples and containers. Teachers control knives, heat, electrical equipment, chemicals and any processing machinery.
Journal connection	Record the evidence, sequence, measurement, process map or reflection in the level-appropriate GrowMeal journal.
Mission/assessment	Use the evidence to complete a related Garden Mission and assess knowledge, practical, data or problem-solving competence.

Reflection: Where could food quality be protected, waste reduced, or the garden-to-food connection explained more clearly?

FF-003 - SAFE HANDLING

Garden	Alphabet Garden
Learning objective	Help children connect the Alphabet Garden to the idea of safe handling through safe observation, matching, sorting, drawing and talk.
Materials	Picture cards, clean produce examples where approved, baskets/trays, crayons, labels, handwashing supplies.
DIY / low-cost	Use locally available baskets, clean reused food-grade containers, handmade labels, paper process cards and simple balances/measuring vessels where suitable.
Activity pathway	1. Show a garden or food example. 2. Name where it comes from. 3. Let children match, count, sort or draw. 4. Demonstrate clean hands and gentle handling. 5. Ask children to tell one step from garden to food.
Evidence to record	Correct match, simple count/sort, drawing or oral explanation.
Farm-to-Food challenge	Can the learner show what happens before and after the selected step?
Safety	No tasting unless the school has separately approved a supervised food activity. Wash hands before and after handling produce. Use only clean, teacher-approved samples and containers. Teachers control knives, heat, electrical equipment, chemicals and any processing machinery.
Journal connection	Record the evidence, sequence, measurement, process map or reflection in the level-appropriate GrowMeal journal.
Mission/assessment	Use the evidence to complete a related Garden Mission and assess knowledge, practical, data or problem-solving competence.

Reflection: Where could food quality be protected, waste reduced, or the garden-to-food connection explained more clearly?

FF-004 - SORTING & QUALITY

Garden	Alphabet Garden
Learning objective	Help children connect the Alphabet Garden to the idea of sorting & quality through safe observation, matching, sorting, drawing and talk.
Materials	Picture cards, clean produce examples where approved, baskets/trays, crayons, labels, handwashing supplies.
DIY / low-cost	Use locally available baskets, clean reused food-grade containers, handmade labels, paper process cards and simple balances/measuring vessels where suitable.
Activity pathway	1. Show a garden or food example. 2. Name where it comes from. 3. Let children match, count, sort or draw. 4. Demonstrate clean hands and gentle handling. 5. Ask children to tell one step from garden to food.
Evidence to record	Correct match, simple count/sort, drawing or oral explanation.
Farm-to-Food challenge	Can the learner show what happens before and after the selected step?
Safety	No tasting unless the school has separately approved a supervised food activity. Wash hands before and after handling produce. Use only clean, teacher-approved samples and containers. Teachers control knives, heat, electrical equipment, chemicals and any processing machinery.
Journal connection	Record the evidence, sequence, measurement, process map or reflection in the level-appropriate GrowMeal journal.
Mission/assessment	Use the evidence to complete a related Garden Mission and assess knowledge, practical, data or problem-solving competence.

Reflection: Where could food quality be protected, waste reduced, or the garden-to-food connection explained more clearly?

FF-005 - FARM-TO-FOOD JOURNEY

Garden	Alphabet Garden
Learning objective	Help children connect the Alphabet Garden to the idea of farm-to-food journey through safe observation, matching, sorting, drawing and talk.
Materials	Picture cards, clean produce examples where approved, baskets/trays, crayons, labels, handwashing supplies.
DIY / low-cost	Use locally available baskets, clean reused food-grade containers, handmade labels, paper process cards and simple balances/measuring vessels where suitable.
Activity pathway	1. Show a garden or food example. 2. Name where it comes from. 3. Let children match, count, sort or draw. 4. Demonstrate clean hands and gentle handling. 5. Ask children to tell one step from garden to food.
Evidence to record	Correct match, simple count/sort, drawing or oral explanation.
Farm-to-Food challenge	Can the learner show what happens before and after the selected step?
Safety	No tasting unless the school has separately approved a supervised food activity. Wash hands before and after handling produce. Use only clean, teacher-approved samples and containers. Teachers control knives, heat, electrical equipment, chemicals and any processing machinery.
Journal connection	Record the evidence, sequence, measurement, process map or reflection in the level-appropriate GrowMeal journal.
Mission/assessment	Use the evidence to complete a related Garden Mission and assess knowledge, practical, data or problem-solving competence.

Reflection: Where could food quality be protected, waste reduced, or the garden-to-food connection explained more clearly?

FF-006 - MEASUREMENT & YIELD

Garden	Alphabet Garden
Learning objective	Help children connect the Alphabet Garden to the idea of measurement & yield through safe observation, matching, sorting, drawing and talk.
Materials	Picture cards, clean produce examples where approved, baskets/trays, crayons, labels, handwashing supplies.
DIY / low-cost	Use locally available baskets, clean reused food-grade containers, handmade labels, paper process cards and simple balances/measuring vessels where suitable.
Activity pathway	1. Show a garden or food example. 2. Name where it comes from. 3. Let children match, count, sort or draw. 4. Demonstrate clean hands and gentle handling. 5. Ask children to tell one step from garden to food.
Evidence to record	Correct match, simple count/sort, drawing or oral explanation.
Farm-to-Food challenge	Can the learner show what happens before and after the selected step?
Safety	No tasting unless the school has separately approved a supervised food activity. Wash hands before and after handling produce. Use only clean, teacher-approved samples and containers. Teachers control knives, heat, electrical equipment, chemicals and any processing machinery.
Journal connection	Record the evidence, sequence, measurement, process map or reflection in the level-appropriate GrowMeal journal.
Mission/assessment	Use the evidence to complete a related Garden Mission and assess knowledge, practical, data or problem-solving competence.

Reflection: Where could food quality be protected, waste reduced, or the garden-to-food connection explained more clearly?

FF-007 - STORAGE & LOSS

Garden	Alphabet Garden
Learning objective	Help children connect the Alphabet Garden to the idea of storage & loss through safe observation, matching, sorting, drawing and talk.
Materials	Picture cards, clean produce examples where approved, baskets/trays, crayons, labels, handwashing supplies.
DIY / low-cost	Use locally available baskets, clean reused food-grade containers, handmade labels, paper process cards and simple balances/measuring vessels where suitable.
Activity pathway	1. Show a garden or food example. 2. Name where it comes from. 3. Let children match, count, sort or draw. 4. Demonstrate clean hands and gentle handling. 5. Ask children to tell one step from garden to food.
Evidence to record	Correct match, simple count/sort, drawing or oral explanation.
Farm-to-Food challenge	Can the learner show what happens before and after the selected step?
Safety	No tasting unless the school has separately approved a supervised food activity. Wash hands before and after handling produce. Use only clean, teacher-approved samples and containers. Teachers control knives, heat, electrical equipment, chemicals and any processing machinery.
Journal connection	Record the evidence, sequence, measurement, process map or reflection in the level-appropriate GrowMeal journal.
Mission/assessment	Use the evidence to complete a related Garden Mission and assess knowledge, practical, data or problem-solving competence.

Reflection: Where could food quality be protected, waste reduced, or the garden-to-food connection explained more clearly?

FF-008 - PREPARATION PATHWAY

Garden	Alphabet Garden
Learning objective	Help children connect the Alphabet Garden to the idea of preparation pathway through safe observation, matching, sorting, drawing and talk.
Materials	Picture cards, clean produce examples where approved, baskets/trays, crayons, labels, handwashing supplies.
DIY / low-cost	Use locally available baskets, clean reused food-grade containers, handmade labels, paper process cards and simple balances/measuring vessels where suitable.
Activity pathway	1. Show a garden or food example. 2. Name where it comes from. 3. Let children match, count, sort or draw. 4. Demonstrate clean hands and gentle handling. 5. Ask children to tell one step from garden to food.
Evidence to record	Correct match, simple count/sort, drawing or oral explanation.
Farm-to-Food challenge	Can the learner show what happens before and after the selected step?
Safety	No tasting unless the school has separately approved a supervised food activity. Wash hands before and after handling produce. Use only clean, teacher-approved samples and containers. Teachers control knives, heat, electrical equipment, chemicals and any processing machinery.
Journal connection	Record the evidence, sequence, measurement, process map or reflection in the level-appropriate GrowMeal journal.
Mission/assessment	Use the evidence to complete a related Garden Mission and assess knowledge, practical, data or problem-solving competence.

Reflection: Where could food quality be protected, waste reduced, or the garden-to-food connection explained more clearly?

FF-009 - FOOD CHOICE & LITERACY

Garden	Alphabet Garden
Learning objective	Help children connect the Alphabet Garden to the idea of food choice & literacy through safe observation, matching, sorting, drawing and talk.
Materials	Picture cards, clean produce examples where approved, baskets/trays, crayons, labels, handwashing supplies.
DIY / low-cost	Use locally available baskets, clean reused food-grade containers, handmade labels, paper process cards and simple balances/measuring vessels where suitable.
Activity pathway	1. Show a garden or food example. 2. Name where it comes from. 3. Let children match, count, sort or draw. 4. Demonstrate clean hands and gentle handling. 5. Ask children to tell one step from garden to food.
Evidence to record	Correct match, simple count/sort, drawing or oral explanation.
Farm-to-Food challenge	Can the learner show what happens before and after the selected step?
Safety	No tasting unless the school has separately approved a supervised food activity. Wash hands before and after handling produce. Use only clean, teacher-approved samples and containers. Teachers control knives, heat, electrical equipment, chemicals and any processing machinery.
Journal connection	Record the evidence, sequence, measurement, process map or reflection in the level-appropriate GrowMeal journal.
Mission/assessment	Use the evidence to complete a related Garden Mission and assess knowledge, practical, data or problem-solving competence.

Reflection: Where could food quality be protected, waste reduced, or the garden-to-food connection explained more clearly?

FF-010 - WASTE-TO-RESOURCE

Garden	Alphabet Garden
Learning objective	Help children connect the Alphabet Garden to the idea of waste-to-resource through safe observation, matching, sorting, drawing and talk.
Materials	Picture cards, clean produce examples where approved, baskets/trays, crayons, labels, handwashing supplies.
DIY / low-cost	Use locally available baskets, clean reused food-grade containers, handmade labels, paper process cards and simple balances/measuring vessels where suitable.
Activity pathway	1. Show a garden or food example. 2. Name where it comes from. 3. Let children match, count, sort or draw. 4. Demonstrate clean hands and gentle handling. 5. Ask children to tell one step from garden to food.
Evidence to record	Correct match, simple count/sort, drawing or oral explanation.
Farm-to-Food challenge	Can the learner show what happens before and after the selected step?
Safety	No tasting unless the school has separately approved a supervised food activity. Wash hands before and after handling produce. Use only clean, teacher-approved samples and containers. Teachers control knives, heat, electrical equipment, chemicals and any processing machinery.
Journal connection	Record the evidence, sequence, measurement, process map or reflection in the level-appropriate GrowMeal journal.
Mission/assessment	Use the evidence to complete a related Garden Mission and assess knowledge, practical, data or problem-solving competence.

Reflection: Where could food quality be protected, waste reduced, or the garden-to-food connection explained more clearly?

GARDEN 02 - Number Garden

Ten activities move learners from identifying where food comes from to reasoning about handling, quality, loss, choices and resource recovery.

FF-011 - FOOD ORIGIN

Garden	Number Garden
Learning objective	Help children connect the Number Garden to the idea of food origin through safe observation, matching, sorting, drawing and talk.
Materials	Picture cards, clean produce examples where approved, baskets/trays, crayons, labels, handwashing supplies.
DIY / low-cost	Use locally available baskets, clean reused food-grade containers, handmade labels, paper process cards and simple balances/measuring vessels where suitable.
Activity pathway	1. Show a garden or food example. 2. Name where it comes from. 3. Let children match, count, sort or draw. 4. Demonstrate clean hands and gentle handling. 5. Ask children to tell one step from garden to food.
Evidence to record	Correct match, simple count/sort, drawing or oral explanation.
Farm-to-Food challenge	Can the learner show what happens before and after the selected step?
Safety	No tasting unless the school has separately approved a supervised food activity. Wash hands before and after handling produce. Use only clean, teacher-approved samples and containers. Teachers control knives, heat, electrical equipment, chemicals and any processing machinery.
Journal connection	Record the evidence, sequence, measurement, process map or reflection in the level-appropriate GrowMeal journal.
Mission/assessment	Use the evidence to complete a related Garden Mission and assess knowledge, practical, data or problem-solving competence.

Reflection: Where could food quality be protected, waste reduced, or the garden-to-food connection explained more clearly?

FF-012 - HARVEST READINESS

Garden	Number Garden
Learning objective	Help children connect the Number Garden to the idea of harvest readiness through safe observation, matching, sorting, drawing and talk.
Materials	Picture cards, clean produce examples where approved, baskets/trays, crayons, labels, handwashing supplies.
DIY / low-cost	Use locally available baskets, clean reused food-grade containers, handmade labels, paper process cards and simple balances/measuring vessels where suitable.
Activity pathway	1. Show a garden or food example. 2. Name where it comes from. 3. Let children match, count, sort or draw. 4. Demonstrate clean hands and gentle handling. 5. Ask children to tell one step from garden to food.
Evidence to record	Correct match, simple count/sort, drawing or oral explanation.
Farm-to-Food challenge	Can the learner show what happens before and after the selected step?
Safety	No tasting unless the school has separately approved a supervised food activity. Wash hands before and after handling produce. Use only clean, teacher-approved samples and containers. Teachers control knives, heat, electrical equipment, chemicals and any processing machinery.
Journal connection	Record the evidence, sequence, measurement, process map or reflection in the level-appropriate GrowMeal journal.
Mission/assessment	Use the evidence to complete a related Garden Mission and assess knowledge, practical, data or problem-solving competence.

Reflection: Where could food quality be protected, waste reduced, or the garden-to-food connection explained more clearly?

FF-013 - SAFE HANDLING

Garden	Number Garden
Learning objective	Help children connect the Number Garden to the idea of safe handling through safe observation, matching, sorting, drawing and talk.
Materials	Picture cards, clean produce examples where approved, baskets/trays, crayons, labels, handwashing supplies.
DIY / low-cost	Use locally available baskets, clean reused food-grade containers, handmade labels, paper process cards and simple balances/measuring vessels where suitable.
Activity pathway	1. Show a garden or food example. 2. Name where it comes from. 3. Let children match, count, sort or draw. 4. Demonstrate clean hands and gentle handling. 5. Ask children to tell one step from garden to food.
Evidence to record	Correct match, simple count/sort, drawing or oral explanation.
Farm-to-Food challenge	Can the learner show what happens before and after the selected step?
Safety	No tasting unless the school has separately approved a supervised food activity. Wash hands before and after handling produce. Use only clean, teacher-approved samples and containers. Teachers control knives, heat, electrical equipment, chemicals and any processing machinery.
Journal connection	Record the evidence, sequence, measurement, process map or reflection in the level-appropriate GrowMeal journal.
Mission/assessment	Use the evidence to complete a related Garden Mission and assess knowledge, practical, data or problem-solving competence.

Reflection: Where could food quality be protected, waste reduced, or the garden-to-food connection explained more clearly?

FF-014 - SORTING & QUALITY

Garden	Number Garden
Learning objective	Help children connect the Number Garden to the idea of sorting & quality through safe observation, matching, sorting, drawing and talk.
Materials	Picture cards, clean produce examples where approved, baskets/trays, crayons, labels, handwashing supplies.
DIY / low-cost	Use locally available baskets, clean reused food-grade containers, handmade labels, paper process cards and simple balances/measuring vessels where suitable.
Activity pathway	1. Show a garden or food example. 2. Name where it comes from. 3. Let children match, count, sort or draw. 4. Demonstrate clean hands and gentle handling. 5. Ask children to tell one step from garden to food.
Evidence to record	Correct match, simple count/sort, drawing or oral explanation.
Farm-to-Food challenge	Can the learner show what happens before and after the selected step?
Safety	No tasting unless the school has separately approved a supervised food activity. Wash hands before and after handling produce. Use only clean, teacher-approved samples and containers. Teachers control knives, heat, electrical equipment, chemicals and any processing machinery.
Journal connection	Record the evidence, sequence, measurement, process map or reflection in the level-appropriate GrowMeal journal.
Mission/assessment	Use the evidence to complete a related Garden Mission and assess knowledge, practical, data or problem-solving competence.

Reflection: Where could food quality be protected, waste reduced, or the garden-to-food connection explained more clearly?

FF-015 - FARM-TO-FOOD JOURNEY

Garden	Number Garden
Learning objective	Help children connect the Number Garden to the idea of farm-to-food journey through safe observation, matching, sorting, drawing and talk.
Materials	Picture cards, clean produce examples where approved, baskets/trays, crayons, labels, handwashing supplies.
DIY / low-cost	Use locally available baskets, clean reused food-grade containers, handmade labels, paper process cards and simple balances/measuring vessels where suitable.
Activity pathway	1. Show a garden or food example. 2. Name where it comes from. 3. Let children match, count, sort or draw. 4. Demonstrate clean hands and gentle handling. 5. Ask children to tell one step from garden to food.
Evidence to record	Correct match, simple count/sort, drawing or oral explanation.
Farm-to-Food challenge	Can the learner show what happens before and after the selected step?
Safety	No tasting unless the school has separately approved a supervised food activity. Wash hands before and after handling produce. Use only clean, teacher-approved samples and containers. Teachers control knives, heat, electrical equipment, chemicals and any processing machinery.
Journal connection	Record the evidence, sequence, measurement, process map or reflection in the level-appropriate GrowMeal journal.
Mission/assessment	Use the evidence to complete a related Garden Mission and assess knowledge, practical, data or problem-solving competence.

Reflection: Where could food quality be protected, waste reduced, or the garden-to-food connection explained more clearly?

FF-016 - MEASUREMENT & YIELD

Garden	Number Garden
Learning objective	Help children connect the Number Garden to the idea of measurement & yield through safe observation, matching, sorting, drawing and talk.
Materials	Picture cards, clean produce examples where approved, baskets/trays, crayons, labels, handwashing supplies.
DIY / low-cost	Use locally available baskets, clean reused food-grade containers, handmade labels, paper process cards and simple balances/measuring vessels where suitable.
Activity pathway	1. Show a garden or food example. 2. Name where it comes from. 3. Let children match, count, sort or draw. 4. Demonstrate clean hands and gentle handling. 5. Ask children to tell one step from garden to food.
Evidence to record	Correct match, simple count/sort, drawing or oral explanation.
Farm-to-Food challenge	Can the learner show what happens before and after the selected step?
Safety	No tasting unless the school has separately approved a supervised food activity. Wash hands before and after handling produce. Use only clean, teacher-approved samples and containers. Teachers control knives, heat, electrical equipment, chemicals and any processing machinery.
Journal connection	Record the evidence, sequence, measurement, process map or reflection in the level-appropriate GrowMeal journal.
Mission/assessment	Use the evidence to complete a related Garden Mission and assess knowledge, practical, data or problem-solving competence.

Reflection: Where could food quality be protected, waste reduced, or the garden-to-food connection explained more clearly?

FF-017 - STORAGE & LOSS

Garden	Number Garden
Learning objective	Help children connect the Number Garden to the idea of storage & loss through safe observation, matching, sorting, drawing and talk.
Materials	Picture cards, clean produce examples where approved, baskets/trays, crayons, labels, handwashing supplies.
DIY / low-cost	Use locally available baskets, clean reused food-grade containers, handmade labels, paper process cards and simple balances/measuring vessels where suitable.
Activity pathway	1. Show a garden or food example. 2. Name where it comes from. 3. Let children match, count, sort or draw. 4. Demonstrate clean hands and gentle handling. 5. Ask children to tell one step from garden to food.
Evidence to record	Correct match, simple count/sort, drawing or oral explanation.
Farm-to-Food challenge	Can the learner show what happens before and after the selected step?
Safety	No tasting unless the school has separately approved a supervised food activity. Wash hands before and after handling produce. Use only clean, teacher-approved samples and containers. Teachers control knives, heat, electrical equipment, chemicals and any processing machinery.
Journal connection	Record the evidence, sequence, measurement, process map or reflection in the level-appropriate GrowMeal journal.
Mission/assessment	Use the evidence to complete a related Garden Mission and assess knowledge, practical, data or problem-solving competence.

Reflection: Where could food quality be protected, waste reduced, or the garden-to-food connection explained more clearly?

FF-018 - PREPARATION PATHWAY

Garden	Number Garden
Learning objective	Help children connect the Number Garden to the idea of preparation pathway through safe observation, matching, sorting, drawing and talk.
Materials	Picture cards, clean produce examples where approved, baskets/trays, crayons, labels, handwashing supplies.
DIY / low-cost	Use locally available baskets, clean reused food-grade containers, handmade labels, paper process cards and simple balances/measuring vessels where suitable.
Activity pathway	1. Show a garden or food example. 2. Name where it comes from. 3. Let children match, count, sort or draw. 4. Demonstrate clean hands and gentle handling. 5. Ask children to tell one step from garden to food.
Evidence to record	Correct match, simple count/sort, drawing or oral explanation.
Farm-to-Food challenge	Can the learner show what happens before and after the selected step?
Safety	No tasting unless the school has separately approved a supervised food activity. Wash hands before and after handling produce. Use only clean, teacher-approved samples and containers. Teachers control knives, heat, electrical equipment, chemicals and any processing machinery.
Journal connection	Record the evidence, sequence, measurement, process map or reflection in the level-appropriate GrowMeal journal.
Mission/assessment	Use the evidence to complete a related Garden Mission and assess knowledge, practical, data or problem-solving competence.

Reflection: Where could food quality be protected, waste reduced, or the garden-to-food connection explained more clearly?

FF-019 - FOOD CHOICE & LITERACY

Garden	Number Garden
Learning objective	Help children connect the Number Garden to the idea of food choice & literacy through safe observation, matching, sorting, drawing and talk.
Materials	Picture cards, clean produce examples where approved, baskets/trays, crayons, labels, handwashing supplies.
DIY / low-cost	Use locally available baskets, clean reused food-grade containers, handmade labels, paper process cards and simple balances/measuring vessels where suitable.
Activity pathway	1. Show a garden or food example. 2. Name where it comes from. 3. Let children match, count, sort or draw. 4. Demonstrate clean hands and gentle handling. 5. Ask children to tell one step from garden to food.
Evidence to record	Correct match, simple count/sort, drawing or oral explanation.
Farm-to-Food challenge	Can the learner show what happens before and after the selected step?
Safety	No tasting unless the school has separately approved a supervised food activity. Wash hands before and after handling produce. Use only clean, teacher-approved samples and containers. Teachers control knives, heat, electrical equipment, chemicals and any processing machinery.
Journal connection	Record the evidence, sequence, measurement, process map or reflection in the level-appropriate GrowMeal journal.
Mission/assessment	Use the evidence to complete a related Garden Mission and assess knowledge, practical, data or problem-solving competence.

Reflection: Where could food quality be protected, waste reduced, or the garden-to-food connection explained more clearly?

FF-020 - WASTE-TO-RESOURCE

Garden	Number Garden
Learning objective	Help children connect the Number Garden to the idea of waste-to-resource through safe observation, matching, sorting, drawing and talk.
Materials	Picture cards, clean produce examples where approved, baskets/trays, crayons, labels, handwashing supplies.
DIY / low-cost	Use locally available baskets, clean reused food-grade containers, handmade labels, paper process cards and simple balances/measuring vessels where suitable.
Activity pathway	1. Show a garden or food example. 2. Name where it comes from. 3. Let children match, count, sort or draw. 4. Demonstrate clean hands and gentle handling. 5. Ask children to tell one step from garden to food.
Evidence to record	Correct match, simple count/sort, drawing or oral explanation.
Farm-to-Food challenge	Can the learner show what happens before and after the selected step?
Safety	No tasting unless the school has separately approved a supervised food activity. Wash hands before and after handling produce. Use only clean, teacher-approved samples and containers. Teachers control knives, heat, electrical equipment, chemicals and any processing machinery.
Journal connection	Record the evidence, sequence, measurement, process map or reflection in the level-appropriate GrowMeal journal.
Mission/assessment	Use the evidence to complete a related Garden Mission and assess knowledge, practical, data or problem-solving competence.

Reflection: Where could food quality be protected, waste reduced, or the garden-to-food connection explained more clearly?

GARDEN 03 - Geometry Garden

Ten activities move learners from identifying where food comes from to reasoning about handling, quality, loss, choices and resource recovery.

FF-021 - FOOD ORIGIN

Garden	Geometry Garden
Learning objective	Help children connect the Geometry Garden to the idea of food origin through safe observation, matching, sorting, drawing and talk.
Materials	Picture cards, clean produce examples where approved, baskets/trays, crayons, labels, handwashing supplies.
DIY / low-cost	Use locally available baskets, clean reused food-grade containers, handmade labels, paper process cards and simple balances/measuring vessels where suitable.
Activity pathway	1. Show a garden or food example. 2. Name where it comes from. 3. Let children match, count, sort or draw. 4. Demonstrate clean hands and gentle handling. 5. Ask children to tell one step from garden to food.
Evidence to record	Correct match, simple count/sort, drawing or oral explanation.
Farm-to-Food challenge	Can the learner show what happens before and after the selected step?
Safety	No tasting unless the school has separately approved a supervised food activity. Wash hands before and after handling produce. Use only clean, teacher-approved samples and containers. Teachers control knives, heat, electrical equipment, chemicals and any processing machinery.
Journal connection	Record the evidence, sequence, measurement, process map or reflection in the level-appropriate GrowMeal journal.
Mission/assessment	Use the evidence to complete a related Garden Mission and assess knowledge, practical, data or problem-solving competence.

Reflection: Where could food quality be protected, waste reduced, or the garden-to-food connection explained more clearly?

FF-022 - HARVEST READINESS

Garden	Geometry Garden
Learning objective	Help children connect the Geometry Garden to the idea of harvest readiness through safe observation, matching, sorting, drawing and talk.
Materials	Picture cards, clean produce examples where approved, baskets/trays, crayons, labels, handwashing supplies.
DIY / low-cost	Use locally available baskets, clean reused food-grade containers, handmade labels, paper process cards and simple balances/measuring vessels where suitable.
Activity pathway	1. Show a garden or food example. 2. Name where it comes from. 3. Let children match, count, sort or draw. 4. Demonstrate clean hands and gentle handling. 5. Ask children to tell one step from garden to food.
Evidence to record	Correct match, simple count/sort, drawing or oral explanation.
Farm-to-Food challenge	Can the learner show what happens before and after the selected step?
Safety	No tasting unless the school has separately approved a supervised food activity. Wash hands before and after handling produce. Use only clean, teacher-approved samples and containers. Teachers control knives, heat, electrical equipment, chemicals and any processing machinery.
Journal connection	Record the evidence, sequence, measurement, process map or reflection in the level-appropriate GrowMeal journal.
Mission/assessment	Use the evidence to complete a related Garden Mission and assess knowledge, practical, data or problem-solving competence.

Reflection: Where could food quality be protected, waste reduced, or the garden-to-food connection explained more clearly?

FF-023 - SAFE HANDLING

Garden	Geometry Garden
Learning objective	Help children connect the Geometry Garden to the idea of safe handling through safe observation, matching, sorting, drawing and talk.
Materials	Picture cards, clean produce examples where approved, baskets/trays, crayons, labels, handwashing supplies.
DIY / low-cost	Use locally available baskets, clean reused food-grade containers, handmade labels, paper process cards and simple balances/measuring vessels where suitable.
Activity pathway	1. Show a garden or food example. 2. Name where it comes from. 3. Let children match, count, sort or draw. 4. Demonstrate clean hands and gentle handling. 5. Ask children to tell one step from garden to food.
Evidence to record	Correct match, simple count/sort, drawing or oral explanation.
Farm-to-Food challenge	Can the learner show what happens before and after the selected step?
Safety	No tasting unless the school has separately approved a supervised food activity. Wash hands before and after handling produce. Use only clean, teacher-approved samples and containers. Teachers control knives, heat, electrical equipment, chemicals and any processing machinery.
Journal connection	Record the evidence, sequence, measurement, process map or reflection in the level-appropriate GrowMeal journal.
Mission/assessment	Use the evidence to complete a related Garden Mission and assess knowledge, practical, data or problem-solving competence.

Reflection: Where could food quality be protected, waste reduced, or the garden-to-food connection explained more clearly?

FF-024 - SORTING & QUALITY

Garden	Geometry Garden
Learning objective	Help children connect the Geometry Garden to the idea of sorting & quality through safe observation, matching, sorting, drawing and talk.
Materials	Picture cards, clean produce examples where approved, baskets/trays, crayons, labels, handwashing supplies.
DIY / low-cost	Use locally available baskets, clean reused food-grade containers, handmade labels, paper process cards and simple balances/measuring vessels where suitable.
Activity pathway	1. Show a garden or food example. 2. Name where it comes from. 3. Let children match, count, sort or draw. 4. Demonstrate clean hands and gentle handling. 5. Ask children to tell one step from garden to food.
Evidence to record	Correct match, simple count/sort, drawing or oral explanation.
Farm-to-Food challenge	Can the learner show what happens before and after the selected step?
Safety	No tasting unless the school has separately approved a supervised food activity. Wash hands before and after handling produce. Use only clean, teacher-approved samples and containers. Teachers control knives, heat, electrical equipment, chemicals and any processing machinery.
Journal connection	Record the evidence, sequence, measurement, process map or reflection in the level-appropriate GrowMeal journal.
Mission/assessment	Use the evidence to complete a related Garden Mission and assess knowledge, practical, data or problem-solving competence.

Reflection: Where could food quality be protected, waste reduced, or the garden-to-food connection explained more clearly?

FF-025 - FARM-TO-FOOD JOURNEY

Garden	Geometry Garden
Learning objective	Help children connect the Geometry Garden to the idea of farm-to-food journey through safe observation, matching, sorting, drawing and talk.
Materials	Picture cards, clean produce examples where approved, baskets/trays, crayons, labels, handwashing supplies.
DIY / low-cost	Use locally available baskets, clean reused food-grade containers, handmade labels, paper process cards and simple balances/measuring vessels where suitable.
Activity pathway	1. Show a garden or food example. 2. Name where it comes from. 3. Let children match, count, sort or draw. 4. Demonstrate clean hands and gentle handling. 5. Ask children to tell one step from garden to food.
Evidence to record	Correct match, simple count/sort, drawing or oral explanation.
Farm-to-Food challenge	Can the learner show what happens before and after the selected step?
Safety	No tasting unless the school has separately approved a supervised food activity. Wash hands before and after handling produce. Use only clean, teacher-approved samples and containers. Teachers control knives, heat, electrical equipment, chemicals and any processing machinery.
Journal connection	Record the evidence, sequence, measurement, process map or reflection in the level-appropriate GrowMeal journal.
Mission/assessment	Use the evidence to complete a related Garden Mission and assess knowledge, practical, data or problem-solving competence.

Reflection: Where could food quality be protected, waste reduced, or the garden-to-food connection explained more clearly?

FF-026 - MEASUREMENT & YIELD

Garden	Geometry Garden
Learning objective	Help children connect the Geometry Garden to the idea of measurement & yield through safe observation, matching, sorting, drawing and talk.
Materials	Picture cards, clean produce examples where approved, baskets/trays, crayons, labels, handwashing supplies.
DIY / low-cost	Use locally available baskets, clean reused food-grade containers, handmade labels, paper process cards and simple balances/measuring vessels where suitable.
Activity pathway	1. Show a garden or food example. 2. Name where it comes from. 3. Let children match, count, sort or draw. 4. Demonstrate clean hands and gentle handling. 5. Ask children to tell one step from garden to food.
Evidence to record	Correct match, simple count/sort, drawing or oral explanation.
Farm-to-Food challenge	Can the learner show what happens before and after the selected step?
Safety	No tasting unless the school has separately approved a supervised food activity. Wash hands before and after handling produce. Use only clean, teacher-approved samples and containers. Teachers control knives, heat, electrical equipment, chemicals and any processing machinery.
Journal connection	Record the evidence, sequence, measurement, process map or reflection in the level-appropriate GrowMeal journal.
Mission/assessment	Use the evidence to complete a related Garden Mission and assess knowledge, practical, data or problem-solving competence.

Reflection: Where could food quality be protected, waste reduced, or the garden-to-food connection explained more clearly?

FF-027 - STORAGE & LOSS

Garden	Geometry Garden
Learning objective	Help children connect the Geometry Garden to the idea of storage & loss through safe observation, matching, sorting, drawing and talk.
Materials	Picture cards, clean produce examples where approved, baskets/trays, crayons, labels, handwashing supplies.
DIY / low-cost	Use locally available baskets, clean reused food-grade containers, handmade labels, paper process cards and simple balances/measuring vessels where suitable.
Activity pathway	1. Show a garden or food example. 2. Name where it comes from. 3. Let children match, count, sort or draw. 4. Demonstrate clean hands and gentle handling. 5. Ask children to tell one step from garden to food.
Evidence to record	Correct match, simple count/sort, drawing or oral explanation.
Farm-to-Food challenge	Can the learner show what happens before and after the selected step?
Safety	No tasting unless the school has separately approved a supervised food activity. Wash hands before and after handling produce. Use only clean, teacher-approved samples and containers. Teachers control knives, heat, electrical equipment, chemicals and any processing machinery.
Journal connection	Record the evidence, sequence, measurement, process map or reflection in the level-appropriate GrowMeal journal.
Mission/assessment	Use the evidence to complete a related Garden Mission and assess knowledge, practical, data or problem-solving competence.

Reflection: Where could food quality be protected, waste reduced, or the garden-to-food connection explained more clearly?

FF-028 - PREPARATION PATHWAY

Garden	Geometry Garden
Learning objective	Help children connect the Geometry Garden to the idea of preparation pathway through safe observation, matching, sorting, drawing and talk.
Materials	Picture cards, clean produce examples where approved, baskets/trays, crayons, labels, handwashing supplies.
DIY / low-cost	Use locally available baskets, clean reused food-grade containers, handmade labels, paper process cards and simple balances/measuring vessels where suitable.
Activity pathway	1. Show a garden or food example. 2. Name where it comes from. 3. Let children match, count, sort or draw. 4. Demonstrate clean hands and gentle handling. 5. Ask children to tell one step from garden to food.
Evidence to record	Correct match, simple count/sort, drawing or oral explanation.
Farm-to-Food challenge	Can the learner show what happens before and after the selected step?
Safety	No tasting unless the school has separately approved a supervised food activity. Wash hands before and after handling produce. Use only clean, teacher-approved samples and containers. Teachers control knives, heat, electrical equipment, chemicals and any processing machinery.
Journal connection	Record the evidence, sequence, measurement, process map or reflection in the level-appropriate GrowMeal journal.
Mission/assessment	Use the evidence to complete a related Garden Mission and assess knowledge, practical, data or problem-solving competence.

Reflection: Where could food quality be protected, waste reduced, or the garden-to-food connection explained more clearly?

FF-029 - FOOD CHOICE & LITERACY

Garden	Geometry Garden
Learning objective	Help children connect the Geometry Garden to the idea of food choice & literacy through safe observation, matching, sorting, drawing and talk.
Materials	Picture cards, clean produce examples where approved, baskets/trays, crayons, labels, handwashing supplies.
DIY / low-cost	Use locally available baskets, clean reused food-grade containers, handmade labels, paper process cards and simple balances/measuring vessels where suitable.
Activity pathway	1. Show a garden or food example. 2. Name where it comes from. 3. Let children match, count, sort or draw. 4. Demonstrate clean hands and gentle handling. 5. Ask children to tell one step from garden to food.
Evidence to record	Correct match, simple count/sort, drawing or oral explanation.
Farm-to-Food challenge	Can the learner show what happens before and after the selected step?
Safety	No tasting unless the school has separately approved a supervised food activity. Wash hands before and after handling produce. Use only clean, teacher-approved samples and containers. Teachers control knives, heat, electrical equipment, chemicals and any processing machinery.
Journal connection	Record the evidence, sequence, measurement, process map or reflection in the level-appropriate GrowMeal journal.
Mission/assessment	Use the evidence to complete a related Garden Mission and assess knowledge, practical, data or problem-solving competence.

Reflection: Where could food quality be protected, waste reduced, or the garden-to-food connection explained more clearly?

FF-030 - WASTE-TO-RESOURCE

Garden	Geometry Garden
Learning objective	Help children connect the Geometry Garden to the idea of waste-to-resource through safe observation, matching, sorting, drawing and talk.
Materials	Picture cards, clean produce examples where approved, baskets/trays, crayons, labels, handwashing supplies.
DIY / low-cost	Use locally available baskets, clean reused food-grade containers, handmade labels, paper process cards and simple balances/measuring vessels where suitable.
Activity pathway	1. Show a garden or food example. 2. Name where it comes from. 3. Let children match, count, sort or draw. 4. Demonstrate clean hands and gentle handling. 5. Ask children to tell one step from garden to food.
Evidence to record	Correct match, simple count/sort, drawing or oral explanation.
Farm-to-Food challenge	Can the learner show what happens before and after the selected step?
Safety	No tasting unless the school has separately approved a supervised food activity. Wash hands before and after handling produce. Use only clean, teacher-approved samples and containers. Teachers control knives, heat, electrical equipment, chemicals and any processing machinery.
Journal connection	Record the evidence, sequence, measurement, process map or reflection in the level-appropriate GrowMeal journal.
Mission/assessment	Use the evidence to complete a related Garden Mission and assess knowledge, practical, data or problem-solving competence.

Reflection: Where could food quality be protected, waste reduced, or the garden-to-food connection explained more clearly?

GARDEN 04 - Leaf Garden

Ten activities move learners from identifying where food comes from to reasoning about handling, quality, loss, choices and resource recovery.

FF-031 - FOOD ORIGIN

Garden	Leaf Garden
Learning objective	Help children connect the Leaf Garden to the idea of food origin through safe observation, matching, sorting, drawing and talk.
Materials	Picture cards, clean produce examples where approved, baskets/trays, crayons, labels, handwashing supplies.
DIY / low-cost	Use locally available baskets, clean reused food-grade containers, handmade labels, paper process cards and simple balances/measuring vessels where suitable.
Activity pathway	1. Show a garden or food example. 2. Name where it comes from. 3. Let children match, count, sort or draw. 4. Demonstrate clean hands and gentle handling. 5. Ask children to tell one step from garden to food.
Evidence to record	Correct match, simple count/sort, drawing or oral explanation.
Farm-to-Food challenge	Can the learner show what happens before and after the selected step?
Safety	No tasting unless the school has separately approved a supervised food activity. Wash hands before and after handling produce. Use only clean, teacher-approved samples and containers. Teachers control knives, heat, electrical equipment, chemicals and any processing machinery.
Journal connection	Record the evidence, sequence, measurement, process map or reflection in the level-appropriate GrowMeal journal.
Mission/assessment	Use the evidence to complete a related Garden Mission and assess knowledge, practical, data or problem-solving competence.

Reflection: Where could food quality be protected, waste reduced, or the garden-to-food connection explained more clearly?

FF-032 - HARVEST READINESS

Garden	Leaf Garden
Learning objective	Help children connect the Leaf Garden to the idea of harvest readiness through safe observation, matching, sorting, drawing and talk.
Materials	Picture cards, clean produce examples where approved, baskets/trays, crayons, labels, handwashing supplies.
DIY / low-cost	Use locally available baskets, clean reused food-grade containers, handmade labels, paper process cards and simple balances/measuring vessels where suitable.
Activity pathway	1. Show a garden or food example. 2. Name where it comes from. 3. Let children match, count, sort or draw. 4. Demonstrate clean hands and gentle handling. 5. Ask children to tell one step from garden to food.
Evidence to record	Correct match, simple count/sort, drawing or oral explanation.
Farm-to-Food challenge	Can the learner show what happens before and after the selected step?
Safety	No tasting unless the school has separately approved a supervised food activity. Wash hands before and after handling produce. Use only clean, teacher-approved samples and containers. Teachers control knives, heat, electrical equipment, chemicals and any processing machinery.
Journal connection	Record the evidence, sequence, measurement, process map or reflection in the level-appropriate GrowMeal journal.
Mission/assessment	Use the evidence to complete a related Garden Mission and assess knowledge, practical, data or problem-solving competence.

Reflection: Where could food quality be protected, waste reduced, or the garden-to-food connection explained more clearly?

FF-033 - SAFE HANDLING

Garden	Leaf Garden
Learning objective	Help children connect the Leaf Garden to the idea of safe handling through safe observation, matching, sorting, drawing and talk.
Materials	Picture cards, clean produce examples where approved, baskets/trays, crayons, labels, handwashing supplies.
DIY / low-cost	Use locally available baskets, clean reused food-grade containers, handmade labels, paper process cards and simple balances/measuring vessels where suitable.
Activity pathway	1. Show a garden or food example. 2. Name where it comes from. 3. Let children match, count, sort or draw. 4. Demonstrate clean hands and gentle handling. 5. Ask children to tell one step from garden to food.
Evidence to record	Correct match, simple count/sort, drawing or oral explanation.
Farm-to-Food challenge	Can the learner show what happens before and after the selected step?
Safety	No tasting unless the school has separately approved a supervised food activity. Wash hands before and after handling produce. Use only clean, teacher-approved samples and containers. Teachers control knives, heat, electrical equipment, chemicals and any processing machinery.
Journal connection	Record the evidence, sequence, measurement, process map or reflection in the level-appropriate GrowMeal journal.
Mission/assessment	Use the evidence to complete a related Garden Mission and assess knowledge, practical, data or problem-solving competence.

Reflection: Where could food quality be protected, waste reduced, or the garden-to-food connection explained more clearly?

FF-034 - SORTING & QUALITY

Garden	Leaf Garden
Learning objective	Help children connect the Leaf Garden to the idea of sorting & quality through safe observation, matching, sorting, drawing and talk.
Materials	Picture cards, clean produce examples where approved, baskets/trays, crayons, labels, handwashing supplies.
DIY / low-cost	Use locally available baskets, clean reused food-grade containers, handmade labels, paper process cards and simple balances/measuring vessels where suitable.
Activity pathway	1. Show a garden or food example. 2. Name where it comes from. 3. Let children match, count, sort or draw. 4. Demonstrate clean hands and gentle handling. 5. Ask children to tell one step from garden to food.
Evidence to record	Correct match, simple count/sort, drawing or oral explanation.
Farm-to-Food challenge	Can the learner show what happens before and after the selected step?
Safety	No tasting unless the school has separately approved a supervised food activity. Wash hands before and after handling produce. Use only clean, teacher-approved samples and containers. Teachers control knives, heat, electrical equipment, chemicals and any processing machinery.
Journal connection	Record the evidence, sequence, measurement, process map or reflection in the level-appropriate GrowMeal journal.
Mission/assessment	Use the evidence to complete a related Garden Mission and assess knowledge, practical, data or problem-solving competence.

Reflection: Where could food quality be protected, waste reduced, or the garden-to-food connection explained more clearly?

FF-035 - FARM-TO-FOOD JOURNEY

Garden	Leaf Garden
Learning objective	Help children connect the Leaf Garden to the idea of farm-to-food journey through safe observation, matching, sorting, drawing and talk.
Materials	Picture cards, clean produce examples where approved, baskets/trays, crayons, labels, handwashing supplies.
DIY / low-cost	Use locally available baskets, clean reused food-grade containers, handmade labels, paper process cards and simple balances/measuring vessels where suitable.
Activity pathway	1. Show a garden or food example. 2. Name where it comes from. 3. Let children match, count, sort or draw. 4. Demonstrate clean hands and gentle handling. 5. Ask children to tell one step from garden to food.
Evidence to record	Correct match, simple count/sort, drawing or oral explanation.
Farm-to-Food challenge	Can the learner show what happens before and after the selected step?
Safety	No tasting unless the school has separately approved a supervised food activity. Wash hands before and after handling produce. Use only clean, teacher-approved samples and containers. Teachers control knives, heat, electrical equipment, chemicals and any processing machinery.
Journal connection	Record the evidence, sequence, measurement, process map or reflection in the level-appropriate GrowMeal journal.
Mission/assessment	Use the evidence to complete a related Garden Mission and assess knowledge, practical, data or problem-solving competence.

Reflection: Where could food quality be protected, waste reduced, or the garden-to-food connection explained more clearly?

FF-036 - MEASUREMENT & YIELD

Garden	Leaf Garden
Learning objective	Help children connect the Leaf Garden to the idea of measurement & yield through safe observation, matching, sorting, drawing and talk.
Materials	Picture cards, clean produce examples where approved, baskets/trays, crayons, labels, handwashing supplies.
DIY / low-cost	Use locally available baskets, clean reused food-grade containers, handmade labels, paper process cards and simple balances/measuring vessels where suitable.
Activity pathway	1. Show a garden or food example. 2. Name where it comes from. 3. Let children match, count, sort or draw. 4. Demonstrate clean hands and gentle handling. 5. Ask children to tell one step from garden to food.
Evidence to record	Correct match, simple count/sort, drawing or oral explanation.
Farm-to-Food challenge	Can the learner show what happens before and after the selected step?
Safety	No tasting unless the school has separately approved a supervised food activity. Wash hands before and after handling produce. Use only clean, teacher-approved samples and containers. Teachers control knives, heat, electrical equipment, chemicals and any processing machinery.
Journal connection	Record the evidence, sequence, measurement, process map or reflection in the level-appropriate GrowMeal journal.
Mission/assessment	Use the evidence to complete a related Garden Mission and assess knowledge, practical, data or problem-solving competence.

Reflection: Where could food quality be protected, waste reduced, or the garden-to-food connection explained more clearly?

FF-037 - STORAGE & LOSS

Garden	Leaf Garden
Learning objective	Help children connect the Leaf Garden to the idea of storage & loss through safe observation, matching, sorting, drawing and talk.
Materials	Picture cards, clean produce examples where approved, baskets/trays, crayons, labels, handwashing supplies.
DIY / low-cost	Use locally available baskets, clean reused food-grade containers, handmade labels, paper process cards and simple balances/measuring vessels where suitable.
Activity pathway	1. Show a garden or food example. 2. Name where it comes from. 3. Let children match, count, sort or draw. 4. Demonstrate clean hands and gentle handling. 5. Ask children to tell one step from garden to food.
Evidence to record	Correct match, simple count/sort, drawing or oral explanation.
Farm-to-Food challenge	Can the learner show what happens before and after the selected step?
Safety	No tasting unless the school has separately approved a supervised food activity. Wash hands before and after handling produce. Use only clean, teacher-approved samples and containers. Teachers control knives, heat, electrical equipment, chemicals and any processing machinery.
Journal connection	Record the evidence, sequence, measurement, process map or reflection in the level-appropriate GrowMeal journal.
Mission/assessment	Use the evidence to complete a related Garden Mission and assess knowledge, practical, data or problem-solving competence.

Reflection: Where could food quality be protected, waste reduced, or the garden-to-food connection explained more clearly?

FF-038 - PREPARATION PATHWAY

Garden	Leaf Garden
Learning objective	Help children connect the Leaf Garden to the idea of preparation pathway through safe observation, matching, sorting, drawing and talk.
Materials	Picture cards, clean produce examples where approved, baskets/trays, crayons, labels, handwashing supplies.
DIY / low-cost	Use locally available baskets, clean reused food-grade containers, handmade labels, paper process cards and simple balances/measuring vessels where suitable.
Activity pathway	1. Show a garden or food example. 2. Name where it comes from. 3. Let children match, count, sort or draw. 4. Demonstrate clean hands and gentle handling. 5. Ask children to tell one step from garden to food.
Evidence to record	Correct match, simple count/sort, drawing or oral explanation.
Farm-to-Food challenge	Can the learner show what happens before and after the selected step?
Safety	No tasting unless the school has separately approved a supervised food activity. Wash hands before and after handling produce. Use only clean, teacher-approved samples and containers. Teachers control knives, heat, electrical equipment, chemicals and any processing machinery.
Journal connection	Record the evidence, sequence, measurement, process map or reflection in the level-appropriate GrowMeal journal.
Mission/assessment	Use the evidence to complete a related Garden Mission and assess knowledge, practical, data or problem-solving competence.

Reflection: Where could food quality be protected, waste reduced, or the garden-to-food connection explained more clearly?

FF-039 - FOOD CHOICE & LITERACY

Garden	Leaf Garden
Learning objective	Help children connect the Leaf Garden to the idea of food choice & literacy through safe observation, matching, sorting, drawing and talk.
Materials	Picture cards, clean produce examples where approved, baskets/trays, crayons, labels, handwashing supplies.
DIY / low-cost	Use locally available baskets, clean reused food-grade containers, handmade labels, paper process cards and simple balances/measuring vessels where suitable.
Activity pathway	1. Show a garden or food example. 2. Name where it comes from. 3. Let children match, count, sort or draw. 4. Demonstrate clean hands and gentle handling. 5. Ask children to tell one step from garden to food.
Evidence to record	Correct match, simple count/sort, drawing or oral explanation.
Farm-to-Food challenge	Can the learner show what happens before and after the selected step?
Safety	No tasting unless the school has separately approved a supervised food activity. Wash hands before and after handling produce. Use only clean, teacher-approved samples and containers. Teachers control knives, heat, electrical equipment, chemicals and any processing machinery.
Journal connection	Record the evidence, sequence, measurement, process map or reflection in the level-appropriate GrowMeal journal.
Mission/assessment	Use the evidence to complete a related Garden Mission and assess knowledge, practical, data or problem-solving competence.

Reflection: Where could food quality be protected, waste reduced, or the garden-to-food connection explained more clearly?

FF-040 - WASTE-TO-RESOURCE

Garden	Leaf Garden
Learning objective	Help children connect the Leaf Garden to the idea of waste-to-resource through safe observation, matching, sorting, drawing and talk.
Materials	Picture cards, clean produce examples where approved, baskets/trays, crayons, labels, handwashing supplies.
DIY / low-cost	Use locally available baskets, clean reused food-grade containers, handmade labels, paper process cards and simple balances/measuring vessels where suitable.
Activity pathway	1. Show a garden or food example. 2. Name where it comes from. 3. Let children match, count, sort or draw. 4. Demonstrate clean hands and gentle handling. 5. Ask children to tell one step from garden to food.
Evidence to record	Correct match, simple count/sort, drawing or oral explanation.
Farm-to-Food challenge	Can the learner show what happens before and after the selected step?
Safety	No tasting unless the school has separately approved a supervised food activity. Wash hands before and after handling produce. Use only clean, teacher-approved samples and containers. Teachers control knives, heat, electrical equipment, chemicals and any processing machinery.
Journal connection	Record the evidence, sequence, measurement, process map or reflection in the level-appropriate GrowMeal journal.
Mission/assessment	Use the evidence to complete a related Garden Mission and assess knowledge, practical, data or problem-solving competence.

Reflection: Where could food quality be protected, waste reduced, or the garden-to-food connection explained more clearly?

GARDEN 05 - Butterfly Garden

Ten activities move learners from identifying where food comes from to reasoning about handling, quality, loss, choices and resource recovery.

FF-041 - FOOD ORIGIN

Garden	Butterfly Garden
Learning objective	Help children connect the Butterfly Garden to the idea of food origin through safe observation, matching, sorting, drawing and talk.
Materials	Picture cards, clean produce examples where approved, baskets/trays, crayons, labels, handwashing supplies.
DIY / low-cost	Use locally available baskets, clean reused food-grade containers, handmade labels, paper process cards and simple balances/measuring vessels where suitable.
Activity pathway	1. Show a garden or food example. 2. Name where it comes from. 3. Let children match, count, sort or draw. 4. Demonstrate clean hands and gentle handling. 5. Ask children to tell one step from garden to food.
Evidence to record	Correct match, simple count/sort, drawing or oral explanation.
Farm-to-Food challenge	Can the learner show what happens before and after the selected step?
Safety	No tasting unless the school has separately approved a supervised food activity. Wash hands before and after handling produce. Use only clean, teacher-approved samples and containers. Teachers control knives, heat, electrical equipment, chemicals and any processing machinery.
Journal connection	Record the evidence, sequence, measurement, process map or reflection in the level-appropriate GrowMeal journal.
Mission/assessment	Use the evidence to complete a related Garden Mission and assess knowledge, practical, data or problem-solving competence.

Reflection: Where could food quality be protected, waste reduced, or the garden-to-food connection explained more clearly?

FF-042 - HARVEST READINESS

Garden	Butterfly Garden
Learning objective	Help children connect the Butterfly Garden to the idea of harvest readiness through safe observation, matching, sorting, drawing and talk.
Materials	Picture cards, clean produce examples where approved, baskets/trays, crayons, labels, handwashing supplies.
DIY / low-cost	Use locally available baskets, clean reused food-grade containers, handmade labels, paper process cards and simple balances/measuring vessels where suitable.
Activity pathway	1. Show a garden or food example. 2. Name where it comes from. 3. Let children match, count, sort or draw. 4. Demonstrate clean hands and gentle handling. 5. Ask children to tell one step from garden to food.
Evidence to record	Correct match, simple count/sort, drawing or oral explanation.
Farm-to-Food challenge	Can the learner show what happens before and after the selected step?
Safety	No tasting unless the school has separately approved a supervised food activity. Wash hands before and after handling produce. Use only clean, teacher-approved samples and containers. Teachers control knives, heat, electrical equipment, chemicals and any processing machinery.
Journal connection	Record the evidence, sequence, measurement, process map or reflection in the level-appropriate GrowMeal journal.
Mission/assessment	Use the evidence to complete a related Garden Mission and assess knowledge, practical, data or problem-solving competence.

Reflection: Where could food quality be protected, waste reduced, or the garden-to-food connection explained more clearly?

FF-043 - SAFE HANDLING

Garden	Butterfly Garden
Learning objective	Help children connect the Butterfly Garden to the idea of safe handling through safe observation, matching, sorting, drawing and talk.
Materials	Picture cards, clean produce examples where approved, baskets/trays, crayons, labels, handwashing supplies.
DIY / low-cost	Use locally available baskets, clean reused food-grade containers, handmade labels, paper process cards and simple balances/measuring vessels where suitable.
Activity pathway	1. Show a garden or food example. 2. Name where it comes from. 3. Let children match, count, sort or draw. 4. Demonstrate clean hands and gentle handling. 5. Ask children to tell one step from garden to food.
Evidence to record	Correct match, simple count/sort, drawing or oral explanation.
Farm-to-Food challenge	Can the learner show what happens before and after the selected step?
Safety	No tasting unless the school has separately approved a supervised food activity. Wash hands before and after handling produce. Use only clean, teacher-approved samples and containers. Teachers control knives, heat, electrical equipment, chemicals and any processing machinery.
Journal connection	Record the evidence, sequence, measurement, process map or reflection in the level-appropriate GrowMeal journal.
Mission/assessment	Use the evidence to complete a related Garden Mission and assess knowledge, practical, data or problem-solving competence.

Reflection: Where could food quality be protected, waste reduced, or the garden-to-food connection explained more clearly?

FF-044 - SORTING & QUALITY

Garden	Butterfly Garden
Learning objective	Help children connect the Butterfly Garden to the idea of sorting & quality through safe observation, matching, sorting, drawing and talk.
Materials	Picture cards, clean produce examples where approved, baskets/trays, crayons, labels, handwashing supplies.
DIY / low-cost	Use locally available baskets, clean reused food-grade containers, handmade labels, paper process cards and simple balances/measuring vessels where suitable.
Activity pathway	1. Show a garden or food example. 2. Name where it comes from. 3. Let children match, count, sort or draw. 4. Demonstrate clean hands and gentle handling. 5. Ask children to tell one step from garden to food.
Evidence to record	Correct match, simple count/sort, drawing or oral explanation.
Farm-to-Food challenge	Can the learner show what happens before and after the selected step?
Safety	No tasting unless the school has separately approved a supervised food activity. Wash hands before and after handling produce. Use only clean, teacher-approved samples and containers. Teachers control knives, heat, electrical equipment, chemicals and any processing machinery.
Journal connection	Record the evidence, sequence, measurement, process map or reflection in the level-appropriate GrowMeal journal.
Mission/assessment	Use the evidence to complete a related Garden Mission and assess knowledge, practical, data or problem-solving competence.

Reflection: Where could food quality be protected, waste reduced, or the garden-to-food connection explained more clearly?

FF-045 - FARM-TO-FOOD JOURNEY

Garden	Butterfly Garden
Learning objective	Help children connect the Butterfly Garden to the idea of farm-to-food journey through safe observation, matching, sorting, drawing and talk.
Materials	Picture cards, clean produce examples where approved, baskets/trays, crayons, labels, handwashing supplies.
DIY / low-cost	Use locally available baskets, clean reused food-grade containers, handmade labels, paper process cards and simple balances/measuring vessels where suitable.
Activity pathway	1. Show a garden or food example. 2. Name where it comes from. 3. Let children match, count, sort or draw. 4. Demonstrate clean hands and gentle handling. 5. Ask children to tell one step from garden to food.
Evidence to record	Correct match, simple count/sort, drawing or oral explanation.
Farm-to-Food challenge	Can the learner show what happens before and after the selected step?
Safety	No tasting unless the school has separately approved a supervised food activity. Wash hands before and after handling produce. Use only clean, teacher-approved samples and containers. Teachers control knives, heat, electrical equipment, chemicals and any processing machinery.
Journal connection	Record the evidence, sequence, measurement, process map or reflection in the level-appropriate GrowMeal journal.
Mission/assessment	Use the evidence to complete a related Garden Mission and assess knowledge, practical, data or problem-solving competence.

Reflection: Where could food quality be protected, waste reduced, or the garden-to-food connection explained more clearly?

FF-046 - MEASUREMENT & YIELD

Garden	Butterfly Garden
Learning objective	Help children connect the Butterfly Garden to the idea of measurement & yield through safe observation, matching, sorting, drawing and talk.
Materials	Picture cards, clean produce examples where approved, baskets/trays, crayons, labels, handwashing supplies.
DIY / low-cost	Use locally available baskets, clean reused food-grade containers, handmade labels, paper process cards and simple balances/measuring vessels where suitable.
Activity pathway	1. Show a garden or food example. 2. Name where it comes from. 3. Let children match, count, sort or draw. 4. Demonstrate clean hands and gentle handling. 5. Ask children to tell one step from garden to food.
Evidence to record	Correct match, simple count/sort, drawing or oral explanation.
Farm-to-Food challenge	Can the learner show what happens before and after the selected step?
Safety	No tasting unless the school has separately approved a supervised food activity. Wash hands before and after handling produce. Use only clean, teacher-approved samples and containers. Teachers control knives, heat, electrical equipment, chemicals and any processing machinery.
Journal connection	Record the evidence, sequence, measurement, process map or reflection in the level-appropriate GrowMeal journal.
Mission/assessment	Use the evidence to complete a related Garden Mission and assess knowledge, practical, data or problem-solving competence.

Reflection: Where could food quality be protected, waste reduced, or the garden-to-food connection explained more clearly?

FF-047 - STORAGE & LOSS

Garden	Butterfly Garden
Learning objective	Help children connect the Butterfly Garden to the idea of storage & loss through safe observation, matching, sorting, drawing and talk.
Materials	Picture cards, clean produce examples where approved, baskets/trays, crayons, labels, handwashing supplies.
DIY / low-cost	Use locally available baskets, clean reused food-grade containers, handmade labels, paper process cards and simple balances/measuring vessels where suitable.
Activity pathway	1. Show a garden or food example. 2. Name where it comes from. 3. Let children match, count, sort or draw. 4. Demonstrate clean hands and gentle handling. 5. Ask children to tell one step from garden to food.
Evidence to record	Correct match, simple count/sort, drawing or oral explanation.
Farm-to-Food challenge	Can the learner show what happens before and after the selected step?
Safety	No tasting unless the school has separately approved a supervised food activity. Wash hands before and after handling produce. Use only clean, teacher-approved samples and containers. Teachers control knives, heat, electrical equipment, chemicals and any processing machinery.
Journal connection	Record the evidence, sequence, measurement, process map or reflection in the level-appropriate GrowMeal journal.
Mission/assessment	Use the evidence to complete a related Garden Mission and assess knowledge, practical, data or problem-solving competence.

Reflection: Where could food quality be protected, waste reduced, or the garden-to-food connection explained more clearly?

FF-048 - PREPARATION PATHWAY

Garden	Butterfly Garden
Learning objective	Help children connect the Butterfly Garden to the idea of preparation pathway through safe observation, matching, sorting, drawing and talk.
Materials	Picture cards, clean produce examples where approved, baskets/trays, crayons, labels, handwashing supplies.
DIY / low-cost	Use locally available baskets, clean reused food-grade containers, handmade labels, paper process cards and simple balances/measuring vessels where suitable.
Activity pathway	1. Show a garden or food example. 2. Name where it comes from. 3. Let children match, count, sort or draw. 4. Demonstrate clean hands and gentle handling. 5. Ask children to tell one step from garden to food.
Evidence to record	Correct match, simple count/sort, drawing or oral explanation.
Farm-to-Food challenge	Can the learner show what happens before and after the selected step?
Safety	No tasting unless the school has separately approved a supervised food activity. Wash hands before and after handling produce. Use only clean, teacher-approved samples and containers. Teachers control knives, heat, electrical equipment, chemicals and any processing machinery.
Journal connection	Record the evidence, sequence, measurement, process map or reflection in the level-appropriate GrowMeal journal.
Mission/assessment	Use the evidence to complete a related Garden Mission and assess knowledge, practical, data or problem-solving competence.

Reflection: Where could food quality be protected, waste reduced, or the garden-to-food connection explained more clearly?

FF-049 - FOOD CHOICE & LITERACY

Garden	Butterfly Garden
Learning objective	Help children connect the Butterfly Garden to the idea of food choice & literacy through safe observation, matching, sorting, drawing and talk.
Materials	Picture cards, clean produce examples where approved, baskets/trays, crayons, labels, handwashing supplies.
DIY / low-cost	Use locally available baskets, clean reused food-grade containers, handmade labels, paper process cards and simple balances/measuring vessels where suitable.
Activity pathway	1. Show a garden or food example. 2. Name where it comes from. 3. Let children match, count, sort or draw. 4. Demonstrate clean hands and gentle handling. 5. Ask children to tell one step from garden to food.
Evidence to record	Correct match, simple count/sort, drawing or oral explanation.
Farm-to-Food challenge	Can the learner show what happens before and after the selected step?
Safety	No tasting unless the school has separately approved a supervised food activity. Wash hands before and after handling produce. Use only clean, teacher-approved samples and containers. Teachers control knives, heat, electrical equipment, chemicals and any processing machinery.
Journal connection	Record the evidence, sequence, measurement, process map or reflection in the level-appropriate GrowMeal journal.
Mission/assessment	Use the evidence to complete a related Garden Mission and assess knowledge, practical, data or problem-solving competence.

Reflection: Where could food quality be protected, waste reduced, or the garden-to-food connection explained more clearly?

FF-050 - WASTE-TO-RESOURCE

Garden	Butterfly Garden
Learning objective	Help children connect the Butterfly Garden to the idea of waste-to-resource through safe observation, matching, sorting, drawing and talk.
Materials	Picture cards, clean produce examples where approved, baskets/trays, crayons, labels, handwashing supplies.
DIY / low-cost	Use locally available baskets, clean reused food-grade containers, handmade labels, paper process cards and simple balances/measuring vessels where suitable.
Activity pathway	1. Show a garden or food example. 2. Name where it comes from. 3. Let children match, count, sort or draw. 4. Demonstrate clean hands and gentle handling. 5. Ask children to tell one step from garden to food.
Evidence to record	Correct match, simple count/sort, drawing or oral explanation.
Farm-to-Food challenge	Can the learner show what happens before and after the selected step?
Safety	No tasting unless the school has separately approved a supervised food activity. Wash hands before and after handling produce. Use only clean, teacher-approved samples and containers. Teachers control knives, heat, electrical equipment, chemicals and any processing machinery.
Journal connection	Record the evidence, sequence, measurement, process map or reflection in the level-appropriate GrowMeal journal.
Mission/assessment	Use the evidence to complete a related Garden Mission and assess knowledge, practical, data or problem-solving competence.

Reflection: Where could food quality be protected, waste reduced, or the garden-to-food connection explained more clearly?

GARDEN 06 - ReBottle Garden

Ten activities move learners from identifying where food comes from to reasoning about handling, quality, loss, choices and resource recovery.

FF-051 - FOOD ORIGIN

Garden	ReBottle Garden
Learning objective	Help children connect the ReBottle Garden to the idea of food origin through safe observation, matching, sorting, drawing and talk.
Materials	Picture cards, clean produce examples where approved, baskets/trays, crayons, labels, handwashing supplies.
DIY / low-cost	Use locally available baskets, clean reused food-grade containers, handmade labels, paper process cards and simple balances/measuring vessels where suitable.
Activity pathway	1. Show a garden or food example. 2. Name where it comes from. 3. Let children match, count, sort or draw. 4. Demonstrate clean hands and gentle handling. 5. Ask children to tell one step from garden to food.
Evidence to record	Correct match, simple count/sort, drawing or oral explanation.
Farm-to-Food challenge	Can the learner show what happens before and after the selected step?
Safety	No tasting unless the school has separately approved a supervised food activity. Wash hands before and after handling produce. Use only clean, teacher-approved samples and containers. Teachers control knives, heat, electrical equipment, chemicals and any processing machinery.
Journal connection	Record the evidence, sequence, measurement, process map or reflection in the level-appropriate GrowMeal journal.
Mission/assessment	Use the evidence to complete a related Garden Mission and assess knowledge, practical, data or problem-solving competence.

Reflection: Where could food quality be protected, waste reduced, or the garden-to-food connection explained more clearly?

FF-052 - HARVEST READINESS

Garden	ReBottle Garden
Learning objective	Help children connect the ReBottle Garden to the idea of harvest readiness through safe observation, matching, sorting, drawing and talk.
Materials	Picture cards, clean produce examples where approved, baskets/trays, crayons, labels, handwashing supplies.
DIY / low-cost	Use locally available baskets, clean reused food-grade containers, handmade labels, paper process cards and simple balances/measuring vessels where suitable.
Activity pathway	1. Show a garden or food example. 2. Name where it comes from. 3. Let children match, count, sort or draw. 4. Demonstrate clean hands and gentle handling. 5. Ask children to tell one step from garden to food.
Evidence to record	Correct match, simple count/sort, drawing or oral explanation.
Farm-to-Food challenge	Can the learner show what happens before and after the selected step?
Safety	No tasting unless the school has separately approved a supervised food activity. Wash hands before and after handling produce. Use only clean, teacher-approved samples and containers. Teachers control knives, heat, electrical equipment, chemicals and any processing machinery.
Journal connection	Record the evidence, sequence, measurement, process map or reflection in the level-appropriate GrowMeal journal.
Mission/assessment	Use the evidence to complete a related Garden Mission and assess knowledge, practical, data or problem-solving competence.

Reflection: Where could food quality be protected, waste reduced, or the garden-to-food connection explained more clearly?

FF-053 - SAFE HANDLING

Garden	ReBottle Garden
Learning objective	Help children connect the ReBottle Garden to the idea of safe handling through safe observation, matching, sorting, drawing and talk.
Materials	Picture cards, clean produce examples where approved, baskets/trays, crayons, labels, handwashing supplies.
DIY / low-cost	Use locally available baskets, clean reused food-grade containers, handmade labels, paper process cards and simple balances/measuring vessels where suitable.
Activity pathway	1. Show a garden or food example. 2. Name where it comes from. 3. Let children match, count, sort or draw. 4. Demonstrate clean hands and gentle handling. 5. Ask children to tell one step from garden to food.
Evidence to record	Correct match, simple count/sort, drawing or oral explanation.
Farm-to-Food challenge	Can the learner show what happens before and after the selected step?
Safety	No tasting unless the school has separately approved a supervised food activity. Wash hands before and after handling produce. Use only clean, teacher-approved samples and containers. Teachers control knives, heat, electrical equipment, chemicals and any processing machinery.
Journal connection	Record the evidence, sequence, measurement, process map or reflection in the level-appropriate GrowMeal journal.
Mission/assessment	Use the evidence to complete a related Garden Mission and assess knowledge, practical, data or problem-solving competence.

Reflection: Where could food quality be protected, waste reduced, or the garden-to-food connection explained more clearly?

FF-054 - SORTING & QUALITY

Garden	ReBottle Garden
Learning objective	Help children connect the ReBottle Garden to the idea of sorting & quality through safe observation, matching, sorting, drawing and talk.
Materials	Picture cards, clean produce examples where approved, baskets/trays, crayons, labels, handwashing supplies.
DIY / low-cost	Use locally available baskets, clean reused food-grade containers, handmade labels, paper process cards and simple balances/measuring vessels where suitable.
Activity pathway	1. Show a garden or food example. 2. Name where it comes from. 3. Let children match, count, sort or draw. 4. Demonstrate clean hands and gentle handling. 5. Ask children to tell one step from garden to food.
Evidence to record	Correct match, simple count/sort, drawing or oral explanation.
Farm-to-Food challenge	Can the learner show what happens before and after the selected step?
Safety	No tasting unless the school has separately approved a supervised food activity. Wash hands before and after handling produce. Use only clean, teacher-approved samples and containers. Teachers control knives, heat, electrical equipment, chemicals and any processing machinery.
Journal connection	Record the evidence, sequence, measurement, process map or reflection in the level-appropriate GrowMeal journal.
Mission/assessment	Use the evidence to complete a related Garden Mission and assess knowledge, practical, data or problem-solving competence.

Reflection: Where could food quality be protected, waste reduced, or the garden-to-food connection explained more clearly?

FF-055 - FARM-TO-FOOD JOURNEY

Garden	ReBottle Garden
Learning objective	Help children connect the ReBottle Garden to the idea of farm-to-food journey through safe observation, matching, sorting, drawing and talk.
Materials	Picture cards, clean produce examples where approved, baskets/trays, crayons, labels, handwashing supplies.
DIY / low-cost	Use locally available baskets, clean reused food-grade containers, handmade labels, paper process cards and simple balances/measuring vessels where suitable.
Activity pathway	1. Show a garden or food example. 2. Name where it comes from. 3. Let children match, count, sort or draw. 4. Demonstrate clean hands and gentle handling. 5. Ask children to tell one step from garden to food.
Evidence to record	Correct match, simple count/sort, drawing or oral explanation.
Farm-to-Food challenge	Can the learner show what happens before and after the selected step?
Safety	No tasting unless the school has separately approved a supervised food activity. Wash hands before and after handling produce. Use only clean, teacher-approved samples and containers. Teachers control knives, heat, electrical equipment, chemicals and any processing machinery.
Journal connection	Record the evidence, sequence, measurement, process map or reflection in the level-appropriate GrowMeal journal.
Mission/assessment	Use the evidence to complete a related Garden Mission and assess knowledge, practical, data or problem-solving competence.

Reflection: Where could food quality be protected, waste reduced, or the garden-to-food connection explained more clearly?

FF-056 - MEASUREMENT & YIELD

Garden	ReBottle Garden
Learning objective	Help children connect the ReBottle Garden to the idea of measurement & yield through safe observation, matching, sorting, drawing and talk.
Materials	Picture cards, clean produce examples where approved, baskets/trays, crayons, labels, handwashing supplies.
DIY / low-cost	Use locally available baskets, clean reused food-grade containers, handmade labels, paper process cards and simple balances/measuring vessels where suitable.
Activity pathway	1. Show a garden or food example. 2. Name where it comes from. 3. Let children match, count, sort or draw. 4. Demonstrate clean hands and gentle handling. 5. Ask children to tell one step from garden to food.
Evidence to record	Correct match, simple count/sort, drawing or oral explanation.
Farm-to-Food challenge	Can the learner show what happens before and after the selected step?
Safety	No tasting unless the school has separately approved a supervised food activity. Wash hands before and after handling produce. Use only clean, teacher-approved samples and containers. Teachers control knives, heat, electrical equipment, chemicals and any processing machinery.
Journal connection	Record the evidence, sequence, measurement, process map or reflection in the level-appropriate GrowMeal journal.
Mission/assessment	Use the evidence to complete a related Garden Mission and assess knowledge, practical, data or problem-solving competence.

Reflection: Where could food quality be protected, waste reduced, or the garden-to-food connection explained more clearly?

FF-057 - STORAGE & LOSS

Garden	ReBottle Garden
Learning objective	Help children connect the ReBottle Garden to the idea of storage & loss through safe observation, matching, sorting, drawing and talk.
Materials	Picture cards, clean produce examples where approved, baskets/trays, crayons, labels, handwashing supplies.
DIY / low-cost	Use locally available baskets, clean reused food-grade containers, handmade labels, paper process cards and simple balances/measuring vessels where suitable.
Activity pathway	1. Show a garden or food example. 2. Name where it comes from. 3. Let children match, count, sort or draw. 4. Demonstrate clean hands and gentle handling. 5. Ask children to tell one step from garden to food.
Evidence to record	Correct match, simple count/sort, drawing or oral explanation.
Farm-to-Food challenge	Can the learner show what happens before and after the selected step?
Safety	No tasting unless the school has separately approved a supervised food activity. Wash hands before and after handling produce. Use only clean, teacher-approved samples and containers. Teachers control knives, heat, electrical equipment, chemicals and any processing machinery.
Journal connection	Record the evidence, sequence, measurement, process map or reflection in the level-appropriate GrowMeal journal.
Mission/assessment	Use the evidence to complete a related Garden Mission and assess knowledge, practical, data or problem-solving competence.

Reflection: Where could food quality be protected, waste reduced, or the garden-to-food connection explained more clearly?

FF-058 - PREPARATION PATHWAY

Garden	ReBottle Garden
Learning objective	Help children connect the ReBottle Garden to the idea of preparation pathway through safe observation, matching, sorting, drawing and talk.
Materials	Picture cards, clean produce examples where approved, baskets/trays, crayons, labels, handwashing supplies.
DIY / low-cost	Use locally available baskets, clean reused food-grade containers, handmade labels, paper process cards and simple balances/measuring vessels where suitable.
Activity pathway	1. Show a garden or food example. 2. Name where it comes from. 3. Let children match, count, sort or draw. 4. Demonstrate clean hands and gentle handling. 5. Ask children to tell one step from garden to food.
Evidence to record	Correct match, simple count/sort, drawing or oral explanation.
Farm-to-Food challenge	Can the learner show what happens before and after the selected step?
Safety	No tasting unless the school has separately approved a supervised food activity. Wash hands before and after handling produce. Use only clean, teacher-approved samples and containers. Teachers control knives, heat, electrical equipment, chemicals and any processing machinery.
Journal connection	Record the evidence, sequence, measurement, process map or reflection in the level-appropriate GrowMeal journal.
Mission/assessment	Use the evidence to complete a related Garden Mission and assess knowledge, practical, data or problem-solving competence.

Reflection: Where could food quality be protected, waste reduced, or the garden-to-food connection explained more clearly?

FF-059 - FOOD CHOICE & LITERACY

Garden	ReBottle Garden
Learning objective	Help children connect the ReBottle Garden to the idea of food choice & literacy through safe observation, matching, sorting, drawing and talk.
Materials	Picture cards, clean produce examples where approved, baskets/trays, crayons, labels, handwashing supplies.
DIY / low-cost	Use locally available baskets, clean reused food-grade containers, handmade labels, paper process cards and simple balances/measuring vessels where suitable.
Activity pathway	1. Show a garden or food example. 2. Name where it comes from. 3. Let children match, count, sort or draw. 4. Demonstrate clean hands and gentle handling. 5. Ask children to tell one step from garden to food.
Evidence to record	Correct match, simple count/sort, drawing or oral explanation.
Farm-to-Food challenge	Can the learner show what happens before and after the selected step?
Safety	No tasting unless the school has separately approved a supervised food activity. Wash hands before and after handling produce. Use only clean, teacher-approved samples and containers. Teachers control knives, heat, electrical equipment, chemicals and any processing machinery.
Journal connection	Record the evidence, sequence, measurement, process map or reflection in the level-appropriate GrowMeal journal.
Mission/assessment	Use the evidence to complete a related Garden Mission and assess knowledge, practical, data or problem-solving competence.

Reflection: Where could food quality be protected, waste reduced, or the garden-to-food connection explained more clearly?

FF-060 - WASTE-TO-RESOURCE

Garden	ReBottle Garden
Learning objective	Help children connect the ReBottle Garden to the idea of waste-to-resource through safe observation, matching, sorting, drawing and talk.
Materials	Picture cards, clean produce examples where approved, baskets/trays, crayons, labels, handwashing supplies.
DIY / low-cost	Use locally available baskets, clean reused food-grade containers, handmade labels, paper process cards and simple balances/measuring vessels where suitable.
Activity pathway	1. Show a garden or food example. 2. Name where it comes from. 3. Let children match, count, sort or draw. 4. Demonstrate clean hands and gentle handling. 5. Ask children to tell one step from garden to food.
Evidence to record	Correct match, simple count/sort, drawing or oral explanation.
Farm-to-Food challenge	Can the learner show what happens before and after the selected step?
Safety	No tasting unless the school has separately approved a supervised food activity. Wash hands before and after handling produce. Use only clean, teacher-approved samples and containers. Teachers control knives, heat, electrical equipment, chemicals and any processing machinery.
Journal connection	Record the evidence, sequence, measurement, process map or reflection in the level-appropriate GrowMeal journal.
Mission/assessment	Use the evidence to complete a related Garden Mission and assess knowledge, practical, data or problem-solving competence.

Reflection: Where could food quality be protected, waste reduced, or the garden-to-food connection explained more clearly?

GARDEN 07 - MicroGrow Garden

Ten activities move learners from identifying where food comes from to reasoning about handling, quality, loss, choices and resource recovery.

FF-061 - FOOD ORIGIN

Garden	MicroGrow Garden
Learning objective	Help children connect the MicroGrow Garden to the idea of food origin through safe observation, matching, sorting, drawing and talk.
Materials	Picture cards, clean produce examples where approved, baskets/trays, crayons, labels, handwashing supplies.
DIY / low-cost	Use locally available baskets, clean reused food-grade containers, handmade labels, paper process cards and simple balances/measuring vessels where suitable.
Activity pathway	1. Show a garden or food example. 2. Name where it comes from. 3. Let children match, count, sort or draw. 4. Demonstrate clean hands and gentle handling. 5. Ask children to tell one step from garden to food.
Evidence to record	Correct match, simple count/sort, drawing or oral explanation.
Farm-to-Food challenge	Can the learner show what happens before and after the selected step?
Safety	No tasting unless the school has separately approved a supervised food activity. Wash hands before and after handling produce. Use only clean, teacher-approved samples and containers. Teachers control knives, heat, electrical equipment, chemicals and any processing machinery.
Journal connection	Record the evidence, sequence, measurement, process map or reflection in the level-appropriate GrowMeal journal.
Mission/assessment	Use the evidence to complete a related Garden Mission and assess knowledge, practical, data or problem-solving competence.

Reflection: Where could food quality be protected, waste reduced, or the garden-to-food connection explained more clearly?

FF-062 - HARVEST READINESS

Garden	MicroGrow Garden
Learning objective	Help children connect the MicroGrow Garden to the idea of harvest readiness through safe observation, matching, sorting, drawing and talk.
Materials	Picture cards, clean produce examples where approved, baskets/trays, crayons, labels, handwashing supplies.
DIY / low-cost	Use locally available baskets, clean reused food-grade containers, handmade labels, paper process cards and simple balances/measuring vessels where suitable.
Activity pathway	1. Show a garden or food example. 2. Name where it comes from. 3. Let children match, count, sort or draw. 4. Demonstrate clean hands and gentle handling. 5. Ask children to tell one step from garden to food.
Evidence to record	Correct match, simple count/sort, drawing or oral explanation.
Farm-to-Food challenge	Can the learner show what happens before and after the selected step?
Safety	No tasting unless the school has separately approved a supervised food activity. Wash hands before and after handling produce. Use only clean, teacher-approved samples and containers. Teachers control knives, heat, electrical equipment, chemicals and any processing machinery.
Journal connection	Record the evidence, sequence, measurement, process map or reflection in the level-appropriate GrowMeal journal.
Mission/assessment	Use the evidence to complete a related Garden Mission and assess knowledge, practical, data or problem-solving competence.

Reflection: Where could food quality be protected, waste reduced, or the garden-to-food connection explained more clearly?

FF-063 - SAFE HANDLING

Garden	MicroGrow Garden
Learning objective	Help children connect the MicroGrow Garden to the idea of safe handling through safe observation, matching, sorting, drawing and talk.
Materials	Picture cards, clean produce examples where approved, baskets/trays, crayons, labels, handwashing supplies.
DIY / low-cost	Use locally available baskets, clean reused food-grade containers, handmade labels, paper process cards and simple balances/measuring vessels where suitable.
Activity pathway	1. Show a garden or food example. 2. Name where it comes from. 3. Let children match, count, sort or draw. 4. Demonstrate clean hands and gentle handling. 5. Ask children to tell one step from garden to food.
Evidence to record	Correct match, simple count/sort, drawing or oral explanation.
Farm-to-Food challenge	Can the learner show what happens before and after the selected step?
Safety	No tasting unless the school has separately approved a supervised food activity. Wash hands before and after handling produce. Use only clean, teacher-approved samples and containers. Teachers control knives, heat, electrical equipment, chemicals and any processing machinery.
Journal connection	Record the evidence, sequence, measurement, process map or reflection in the level-appropriate GrowMeal journal.
Mission/assessment	Use the evidence to complete a related Garden Mission and assess knowledge, practical, data or problem-solving competence.

Reflection: Where could food quality be protected, waste reduced, or the garden-to-food connection explained more clearly?

FF-064 - SORTING & QUALITY

Garden	MicroGrow Garden
Learning objective	Help children connect the MicroGrow Garden to the idea of sorting & quality through safe observation, matching, sorting, drawing and talk.
Materials	Picture cards, clean produce examples where approved, baskets/trays, crayons, labels, handwashing supplies.
DIY / low-cost	Use locally available baskets, clean reused food-grade containers, handmade labels, paper process cards and simple balances/measuring vessels where suitable.
Activity pathway	1. Show a garden or food example. 2. Name where it comes from. 3. Let children match, count, sort or draw. 4. Demonstrate clean hands and gentle handling. 5. Ask children to tell one step from garden to food.
Evidence to record	Correct match, simple count/sort, drawing or oral explanation.
Farm-to-Food challenge	Can the learner show what happens before and after the selected step?
Safety	No tasting unless the school has separately approved a supervised food activity. Wash hands before and after handling produce. Use only clean, teacher-approved samples and containers. Teachers control knives, heat, electrical equipment, chemicals and any processing machinery.
Journal connection	Record the evidence, sequence, measurement, process map or reflection in the level-appropriate GrowMeal journal.
Mission/assessment	Use the evidence to complete a related Garden Mission and assess knowledge, practical, data or problem-solving competence.

Reflection: Where could food quality be protected, waste reduced, or the garden-to-food connection explained more clearly?

FF-065 - FARM-TO-FOOD JOURNEY

Garden	MicroGrow Garden
Learning objective	Help children connect the MicroGrow Garden to the idea of farm-to-food journey through safe observation, matching, sorting, drawing and talk.
Materials	Picture cards, clean produce examples where approved, baskets/trays, crayons, labels, handwashing supplies.
DIY / low-cost	Use locally available baskets, clean reused food-grade containers, handmade labels, paper process cards and simple balances/measuring vessels where suitable.
Activity pathway	1. Show a garden or food example. 2. Name where it comes from. 3. Let children match, count, sort or draw. 4. Demonstrate clean hands and gentle handling. 5. Ask children to tell one step from garden to food.
Evidence to record	Correct match, simple count/sort, drawing or oral explanation.
Farm-to-Food challenge	Can the learner show what happens before and after the selected step?
Safety	No tasting unless the school has separately approved a supervised food activity. Wash hands before and after handling produce. Use only clean, teacher-approved samples and containers. Teachers control knives, heat, electrical equipment, chemicals and any processing machinery.
Journal connection	Record the evidence, sequence, measurement, process map or reflection in the level-appropriate GrowMeal journal.
Mission/assessment	Use the evidence to complete a related Garden Mission and assess knowledge, practical, data or problem-solving competence.

Reflection: Where could food quality be protected, waste reduced, or the garden-to-food connection explained more clearly?

FF-066 - MEASUREMENT & YIELD

Garden	MicroGrow Garden
Learning objective	Help children connect the MicroGrow Garden to the idea of measurement & yield through safe observation, matching, sorting, drawing and talk.
Materials	Picture cards, clean produce examples where approved, baskets/trays, crayons, labels, handwashing supplies.
DIY / low-cost	Use locally available baskets, clean reused food-grade containers, handmade labels, paper process cards and simple balances/measuring vessels where suitable.
Activity pathway	1. Show a garden or food example. 2. Name where it comes from. 3. Let children match, count, sort or draw. 4. Demonstrate clean hands and gentle handling. 5. Ask children to tell one step from garden to food.
Evidence to record	Correct match, simple count/sort, drawing or oral explanation.
Farm-to-Food challenge	Can the learner show what happens before and after the selected step?
Safety	No tasting unless the school has separately approved a supervised food activity. Wash hands before and after handling produce. Use only clean, teacher-approved samples and containers. Teachers control knives, heat, electrical equipment, chemicals and any processing machinery.
Journal connection	Record the evidence, sequence, measurement, process map or reflection in the level-appropriate GrowMeal journal.
Mission/assessment	Use the evidence to complete a related Garden Mission and assess knowledge, practical, data or problem-solving competence.

Reflection: Where could food quality be protected, waste reduced, or the garden-to-food connection explained more clearly?

FF-067 - STORAGE & LOSS

Garden	MicroGrow Garden
Learning objective	Help children connect the MicroGrow Garden to the idea of storage & loss through safe observation, matching, sorting, drawing and talk.
Materials	Picture cards, clean produce examples where approved, baskets/trays, crayons, labels, handwashing supplies.
DIY / low-cost	Use locally available baskets, clean reused food-grade containers, handmade labels, paper process cards and simple balances/measuring vessels where suitable.
Activity pathway	1. Show a garden or food example. 2. Name where it comes from. 3. Let children match, count, sort or draw. 4. Demonstrate clean hands and gentle handling. 5. Ask children to tell one step from garden to food.
Evidence to record	Correct match, simple count/sort, drawing or oral explanation.
Farm-to-Food challenge	Can the learner show what happens before and after the selected step?
Safety	No tasting unless the school has separately approved a supervised food activity. Wash hands before and after handling produce. Use only clean, teacher-approved samples and containers. Teachers control knives, heat, electrical equipment, chemicals and any processing machinery.
Journal connection	Record the evidence, sequence, measurement, process map or reflection in the level-appropriate GrowMeal journal.
Mission/assessment	Use the evidence to complete a related Garden Mission and assess knowledge, practical, data or problem-solving competence.

Reflection: Where could food quality be protected, waste reduced, or the garden-to-food connection explained more clearly?

FF-068 - PREPARATION PATHWAY

Garden	MicroGrow Garden
Learning objective	Help children connect the MicroGrow Garden to the idea of preparation pathway through safe observation, matching, sorting, drawing and talk.
Materials	Picture cards, clean produce examples where approved, baskets/trays, crayons, labels, handwashing supplies.
DIY / low-cost	Use locally available baskets, clean reused food-grade containers, handmade labels, paper process cards and simple balances/measuring vessels where suitable.
Activity pathway	1. Show a garden or food example. 2. Name where it comes from. 3. Let children match, count, sort or draw. 4. Demonstrate clean hands and gentle handling. 5. Ask children to tell one step from garden to food.
Evidence to record	Correct match, simple count/sort, drawing or oral explanation.
Farm-to-Food challenge	Can the learner show what happens before and after the selected step?
Safety	No tasting unless the school has separately approved a supervised food activity. Wash hands before and after handling produce. Use only clean, teacher-approved samples and containers. Teachers control knives, heat, electrical equipment, chemicals and any processing machinery.
Journal connection	Record the evidence, sequence, measurement, process map or reflection in the level-appropriate GrowMeal journal.
Mission/assessment	Use the evidence to complete a related Garden Mission and assess knowledge, practical, data or problem-solving competence.

Reflection: Where could food quality be protected, waste reduced, or the garden-to-food connection explained more clearly?

FF-069 - FOOD CHOICE & LITERACY

Garden	MicroGrow Garden
Learning objective	Help children connect the MicroGrow Garden to the idea of food choice & literacy through safe observation, matching, sorting, drawing and talk.
Materials	Picture cards, clean produce examples where approved, baskets/trays, crayons, labels, handwashing supplies.
DIY / low-cost	Use locally available baskets, clean reused food-grade containers, handmade labels, paper process cards and simple balances/measuring vessels where suitable.
Activity pathway	1. Show a garden or food example. 2. Name where it comes from. 3. Let children match, count, sort or draw. 4. Demonstrate clean hands and gentle handling. 5. Ask children to tell one step from garden to food.
Evidence to record	Correct match, simple count/sort, drawing or oral explanation.
Farm-to-Food challenge	Can the learner show what happens before and after the selected step?
Safety	No tasting unless the school has separately approved a supervised food activity. Wash hands before and after handling produce. Use only clean, teacher-approved samples and containers. Teachers control knives, heat, electrical equipment, chemicals and any processing machinery.
Journal connection	Record the evidence, sequence, measurement, process map or reflection in the level-appropriate GrowMeal journal.
Mission/assessment	Use the evidence to complete a related Garden Mission and assess knowledge, practical, data or problem-solving competence.

Reflection: Where could food quality be protected, waste reduced, or the garden-to-food connection explained more clearly?

FF-070 - WASTE-TO-RESOURCE

Garden	MicroGrow Garden
Learning objective	Help children connect the MicroGrow Garden to the idea of waste-to-resource through safe observation, matching, sorting, drawing and talk.
Materials	Picture cards, clean produce examples where approved, baskets/trays, crayons, labels, handwashing supplies.
DIY / low-cost	Use locally available baskets, clean reused food-grade containers, handmade labels, paper process cards and simple balances/measuring vessels where suitable.
Activity pathway	1. Show a garden or food example. 2. Name where it comes from. 3. Let children match, count, sort or draw. 4. Demonstrate clean hands and gentle handling. 5. Ask children to tell one step from garden to food.
Evidence to record	Correct match, simple count/sort, drawing or oral explanation.
Farm-to-Food challenge	Can the learner show what happens before and after the selected step?
Safety	No tasting unless the school has separately approved a supervised food activity. Wash hands before and after handling produce. Use only clean, teacher-approved samples and containers. Teachers control knives, heat, electrical equipment, chemicals and any processing machinery.
Journal connection	Record the evidence, sequence, measurement, process map or reflection in the level-appropriate GrowMeal journal.
Mission/assessment	Use the evidence to complete a related Garden Mission and assess knowledge, practical, data or problem-solving competence.

Reflection: Where could food quality be protected, waste reduced, or the garden-to-food connection explained more clearly?

GARDEN 08 - Mini Table Garden

Ten activities move learners from identifying where food comes from to reasoning about handling, quality, loss, choices and resource recovery.

FF-071 - FOOD ORIGIN

Garden	Mini Table Garden
Learning objective	Help children connect the Mini Table Garden to the idea of food origin through safe observation, matching, sorting, drawing and talk.
Materials	Picture cards, clean produce examples where approved, baskets/trays, crayons, labels, handwashing supplies.
DIY / low-cost	Use locally available baskets, clean reused food-grade containers, handmade labels, paper process cards and simple balances/measuring vessels where suitable.
Activity pathway	1. Show a garden or food example. 2. Name where it comes from. 3. Let children match, count, sort or draw. 4. Demonstrate clean hands and gentle handling. 5. Ask children to tell one step from garden to food.
Evidence to record	Correct match, simple count/sort, drawing or oral explanation.
Farm-to-Food challenge	Can the learner show what happens before and after the selected step?
Safety	No tasting unless the school has separately approved a supervised food activity. Wash hands before and after handling produce. Use only clean, teacher-approved samples and containers. Teachers control knives, heat, electrical equipment, chemicals and any processing machinery.
Journal connection	Record the evidence, sequence, measurement, process map or reflection in the level-appropriate GrowMeal journal.
Mission/assessment	Use the evidence to complete a related Garden Mission and assess knowledge, practical, data or problem-solving competence.

Reflection: Where could food quality be protected, waste reduced, or the garden-to-food connection explained more clearly?

FF-072 - HARVEST READINESS

Garden	Mini Table Garden
Learning objective	Help children connect the Mini Table Garden to the idea of harvest readiness through safe observation, matching, sorting, drawing and talk.
Materials	Picture cards, clean produce examples where approved, baskets/trays, crayons, labels, handwashing supplies.
DIY / low-cost	Use locally available baskets, clean reused food-grade containers, handmade labels, paper process cards and simple balances/measuring vessels where suitable.
Activity pathway	1. Show a garden or food example. 2. Name where it comes from. 3. Let children match, count, sort or draw. 4. Demonstrate clean hands and gentle handling. 5. Ask children to tell one step from garden to food.
Evidence to record	Correct match, simple count/sort, drawing or oral explanation.
Farm-to-Food challenge	Can the learner show what happens before and after the selected step?
Safety	No tasting unless the school has separately approved a supervised food activity. Wash hands before and after handling produce. Use only clean, teacher-approved samples and containers. Teachers control knives, heat, electrical equipment, chemicals and any processing machinery.
Journal connection	Record the evidence, sequence, measurement, process map or reflection in the level-appropriate GrowMeal journal.
Mission/assessment	Use the evidence to complete a related Garden Mission and assess knowledge, practical, data or problem-solving competence.

Reflection: Where could food quality be protected, waste reduced, or the garden-to-food connection explained more clearly?

FF-073 - SAFE HANDLING

Garden	Mini Table Garden
Learning objective	Help children connect the Mini Table Garden to the idea of safe handling through safe observation, matching, sorting, drawing and talk.
Materials	Picture cards, clean produce examples where approved, baskets/trays, crayons, labels, handwashing supplies.
DIY / low-cost	Use locally available baskets, clean reused food-grade containers, handmade labels, paper process cards and simple balances/measuring vessels where suitable.
Activity pathway	1. Show a garden or food example. 2. Name where it comes from. 3. Let children match, count, sort or draw. 4. Demonstrate clean hands and gentle handling. 5. Ask children to tell one step from garden to food.
Evidence to record	Correct match, simple count/sort, drawing or oral explanation.
Farm-to-Food challenge	Can the learner show what happens before and after the selected step?
Safety	No tasting unless the school has separately approved a supervised food activity. Wash hands before and after handling produce. Use only clean, teacher-approved samples and containers. Teachers control knives, heat, electrical equipment, chemicals and any processing machinery.
Journal connection	Record the evidence, sequence, measurement, process map or reflection in the level-appropriate GrowMeal journal.
Mission/assessment	Use the evidence to complete a related Garden Mission and assess knowledge, practical, data or problem-solving competence.

Reflection: Where could food quality be protected, waste reduced, or the garden-to-food connection explained more clearly?

FF-074 - SORTING & QUALITY

Garden	Mini Table Garden
Learning objective	Help children connect the Mini Table Garden to the idea of sorting & quality through safe observation, matching, sorting, drawing and talk.
Materials	Picture cards, clean produce examples where approved, baskets/trays, crayons, labels, handwashing supplies.
DIY / low-cost	Use locally available baskets, clean reused food-grade containers, handmade labels, paper process cards and simple balances/measuring vessels where suitable.
Activity pathway	1. Show a garden or food example. 2. Name where it comes from. 3. Let children match, count, sort or draw. 4. Demonstrate clean hands and gentle handling. 5. Ask children to tell one step from garden to food.
Evidence to record	Correct match, simple count/sort, drawing or oral explanation.
Farm-to-Food challenge	Can the learner show what happens before and after the selected step?
Safety	No tasting unless the school has separately approved a supervised food activity. Wash hands before and after handling produce. Use only clean, teacher-approved samples and containers. Teachers control knives, heat, electrical equipment, chemicals and any processing machinery.
Journal connection	Record the evidence, sequence, measurement, process map or reflection in the level-appropriate GrowMeal journal.
Mission/assessment	Use the evidence to complete a related Garden Mission and assess knowledge, practical, data or problem-solving competence.

Reflection: Where could food quality be protected, waste reduced, or the garden-to-food connection explained more clearly?

FF-075 - FARM-TO-FOOD JOURNEY

Garden	Mini Table Garden
Learning objective	Help children connect the Mini Table Garden to the idea of farm-to-food journey through safe observation, matching, sorting, drawing and talk.
Materials	Picture cards, clean produce examples where approved, baskets/trays, crayons, labels, handwashing supplies.
DIY / low-cost	Use locally available baskets, clean reused food-grade containers, handmade labels, paper process cards and simple balances/measuring vessels where suitable.
Activity pathway	1. Show a garden or food example. 2. Name where it comes from. 3. Let children match, count, sort or draw. 4. Demonstrate clean hands and gentle handling. 5. Ask children to tell one step from garden to food.
Evidence to record	Correct match, simple count/sort, drawing or oral explanation.
Farm-to-Food challenge	Can the learner show what happens before and after the selected step?
Safety	No tasting unless the school has separately approved a supervised food activity. Wash hands before and after handling produce. Use only clean, teacher-approved samples and containers. Teachers control knives, heat, electrical equipment, chemicals and any processing machinery.
Journal connection	Record the evidence, sequence, measurement, process map or reflection in the level-appropriate GrowMeal journal.
Mission/assessment	Use the evidence to complete a related Garden Mission and assess knowledge, practical, data or problem-solving competence.

Reflection: Where could food quality be protected, waste reduced, or the garden-to-food connection explained more clearly?

FF-076 - MEASUREMENT & YIELD

Garden	Mini Table Garden
Learning objective	Help children connect the Mini Table Garden to the idea of measurement & yield through safe observation, matching, sorting, drawing and talk.
Materials	Picture cards, clean produce examples where approved, baskets/trays, crayons, labels, handwashing supplies.
DIY / low-cost	Use locally available baskets, clean reused food-grade containers, handmade labels, paper process cards and simple balances/measuring vessels where suitable.
Activity pathway	1. Show a garden or food example. 2. Name where it comes from. 3. Let children match, count, sort or draw. 4. Demonstrate clean hands and gentle handling. 5. Ask children to tell one step from garden to food.
Evidence to record	Correct match, simple count/sort, drawing or oral explanation.
Farm-to-Food challenge	Can the learner show what happens before and after the selected step?
Safety	No tasting unless the school has separately approved a supervised food activity. Wash hands before and after handling produce. Use only clean, teacher-approved samples and containers. Teachers control knives, heat, electrical equipment, chemicals and any processing machinery.
Journal connection	Record the evidence, sequence, measurement, process map or reflection in the level-appropriate GrowMeal journal.
Mission/assessment	Use the evidence to complete a related Garden Mission and assess knowledge, practical, data or problem-solving competence.

Reflection: Where could food quality be protected, waste reduced, or the garden-to-food connection explained more clearly?

FF-077 - STORAGE & LOSS

Garden	Mini Table Garden
Learning objective	Help children connect the Mini Table Garden to the idea of storage & loss through safe observation, matching, sorting, drawing and talk.
Materials	Picture cards, clean produce examples where approved, baskets/trays, crayons, labels, handwashing supplies.
DIY / low-cost	Use locally available baskets, clean reused food-grade containers, handmade labels, paper process cards and simple balances/measuring vessels where suitable.
Activity pathway	1. Show a garden or food example. 2. Name where it comes from. 3. Let children match, count, sort or draw. 4. Demonstrate clean hands and gentle handling. 5. Ask children to tell one step from garden to food.
Evidence to record	Correct match, simple count/sort, drawing or oral explanation.
Farm-to-Food challenge	Can the learner show what happens before and after the selected step?
Safety	No tasting unless the school has separately approved a supervised food activity. Wash hands before and after handling produce. Use only clean, teacher-approved samples and containers. Teachers control knives, heat, electrical equipment, chemicals and any processing machinery.
Journal connection	Record the evidence, sequence, measurement, process map or reflection in the level-appropriate GrowMeal journal.
Mission/assessment	Use the evidence to complete a related Garden Mission and assess knowledge, practical, data or problem-solving competence.

Reflection: Where could food quality be protected, waste reduced, or the garden-to-food connection explained more clearly?

FF-078 - PREPARATION PATHWAY

Garden	Mini Table Garden
Learning objective	Help children connect the Mini Table Garden to the idea of preparation pathway through safe observation, matching, sorting, drawing and talk.
Materials	Picture cards, clean produce examples where approved, baskets/trays, crayons, labels, handwashing supplies.
DIY / low-cost	Use locally available baskets, clean reused food-grade containers, handmade labels, paper process cards and simple balances/measuring vessels where suitable.
Activity pathway	1. Show a garden or food example. 2. Name where it comes from. 3. Let children match, count, sort or draw. 4. Demonstrate clean hands and gentle handling. 5. Ask children to tell one step from garden to food.
Evidence to record	Correct match, simple count/sort, drawing or oral explanation.
Farm-to-Food challenge	Can the learner show what happens before and after the selected step?
Safety	No tasting unless the school has separately approved a supervised food activity. Wash hands before and after handling produce. Use only clean, teacher-approved samples and containers. Teachers control knives, heat, electrical equipment, chemicals and any processing machinery.
Journal connection	Record the evidence, sequence, measurement, process map or reflection in the level-appropriate GrowMeal journal.
Mission/assessment	Use the evidence to complete a related Garden Mission and assess knowledge, practical, data or problem-solving competence.

Reflection: Where could food quality be protected, waste reduced, or the garden-to-food connection explained more clearly?

FF-079 - FOOD CHOICE & LITERACY

Garden	Mini Table Garden
Learning objective	Help children connect the Mini Table Garden to the idea of food choice & literacy through safe observation, matching, sorting, drawing and talk.
Materials	Picture cards, clean produce examples where approved, baskets/trays, crayons, labels, handwashing supplies.
DIY / low-cost	Use locally available baskets, clean reused food-grade containers, handmade labels, paper process cards and simple balances/measuring vessels where suitable.
Activity pathway	1. Show a garden or food example. 2. Name where it comes from. 3. Let children match, count, sort or draw. 4. Demonstrate clean hands and gentle handling. 5. Ask children to tell one step from garden to food.
Evidence to record	Correct match, simple count/sort, drawing or oral explanation.
Farm-to-Food challenge	Can the learner show what happens before and after the selected step?
Safety	No tasting unless the school has separately approved a supervised food activity. Wash hands before and after handling produce. Use only clean, teacher-approved samples and containers. Teachers control knives, heat, electrical equipment, chemicals and any processing machinery.
Journal connection	Record the evidence, sequence, measurement, process map or reflection in the level-appropriate GrowMeal journal.
Mission/assessment	Use the evidence to complete a related Garden Mission and assess knowledge, practical, data or problem-solving competence.

Reflection: Where could food quality be protected, waste reduced, or the garden-to-food connection explained more clearly?

FF-080 - WASTE-TO-RESOURCE

Garden	Mini Table Garden
Learning objective	Help children connect the Mini Table Garden to the idea of waste-to-resource through safe observation, matching, sorting, drawing and talk.
Materials	Picture cards, clean produce examples where approved, baskets/trays, crayons, labels, handwashing supplies.
DIY / low-cost	Use locally available baskets, clean reused food-grade containers, handmade labels, paper process cards and simple balances/measuring vessels where suitable.
Activity pathway	1. Show a garden or food example. 2. Name where it comes from. 3. Let children match, count, sort or draw. 4. Demonstrate clean hands and gentle handling. 5. Ask children to tell one step from garden to food.
Evidence to record	Correct match, simple count/sort, drawing or oral explanation.
Farm-to-Food challenge	Can the learner show what happens before and after the selected step?
Safety	No tasting unless the school has separately approved a supervised food activity. Wash hands before and after handling produce. Use only clean, teacher-approved samples and containers. Teachers control knives, heat, electrical equipment, chemicals and any processing machinery.
Journal connection	Record the evidence, sequence, measurement, process map or reflection in the level-appropriate GrowMeal journal.
Mission/assessment	Use the evidence to complete a related Garden Mission and assess knowledge, practical, data or problem-solving competence.

Reflection: Where could food quality be protected, waste reduced, or the garden-to-food connection explained more clearly?

GARDEN 09 - Sack Garden

Ten activities move learners from identifying where food comes from to reasoning about handling, quality, loss, choices and resource recovery.

FF-081 - FOOD ORIGIN

Garden	Sack Garden
Learning objective	Help children connect the Sack Garden to the idea of food origin through safe observation, matching, sorting, drawing and talk.
Materials	Picture cards, clean produce examples where approved, baskets/trays, crayons, labels, handwashing supplies.
DIY / low-cost	Use locally available baskets, clean reused food-grade containers, handmade labels, paper process cards and simple balances/measuring vessels where suitable.
Activity pathway	1. Show a garden or food example. 2. Name where it comes from. 3. Let children match, count, sort or draw. 4. Demonstrate clean hands and gentle handling. 5. Ask children to tell one step from garden to food.
Evidence to record	Correct match, simple count/sort, drawing or oral explanation.
Farm-to-Food challenge	Can the learner show what happens before and after the selected step?
Safety	No tasting unless the school has separately approved a supervised food activity. Wash hands before and after handling produce. Use only clean, teacher-approved samples and containers. Teachers control knives, heat, electrical equipment, chemicals and any processing machinery.
Journal connection	Record the evidence, sequence, measurement, process map or reflection in the level-appropriate GrowMeal journal.
Mission/assessment	Use the evidence to complete a related Garden Mission and assess knowledge, practical, data or problem-solving competence.

Reflection: Where could food quality be protected, waste reduced, or the garden-to-food connection explained more clearly?

FF-082 - HARVEST READINESS

Garden	Sack Garden
Learning objective	Help children connect the Sack Garden to the idea of harvest readiness through safe observation, matching, sorting, drawing and talk.
Materials	Picture cards, clean produce examples where approved, baskets/trays, crayons, labels, handwashing supplies.
DIY / low-cost	Use locally available baskets, clean reused food-grade containers, handmade labels, paper process cards and simple balances/measuring vessels where suitable.
Activity pathway	1. Show a garden or food example. 2. Name where it comes from. 3. Let children match, count, sort or draw. 4. Demonstrate clean hands and gentle handling. 5. Ask children to tell one step from garden to food.
Evidence to record	Correct match, simple count/sort, drawing or oral explanation.
Farm-to-Food challenge	Can the learner show what happens before and after the selected step?
Safety	No tasting unless the school has separately approved a supervised food activity. Wash hands before and after handling produce. Use only clean, teacher-approved samples and containers. Teachers control knives, heat, electrical equipment, chemicals and any processing machinery.
Journal connection	Record the evidence, sequence, measurement, process map or reflection in the level-appropriate GrowMeal journal.
Mission/assessment	Use the evidence to complete a related Garden Mission and assess knowledge, practical, data or problem-solving competence.

Reflection: Where could food quality be protected, waste reduced, or the garden-to-food connection explained more clearly?

FF-083 - SAFE HANDLING

Garden	Sack Garden
Learning objective	Help children connect the Sack Garden to the idea of safe handling through safe observation, matching, sorting, drawing and talk.
Materials	Picture cards, clean produce examples where approved, baskets/trays, crayons, labels, handwashing supplies.
DIY / low-cost	Use locally available baskets, clean reused food-grade containers, handmade labels, paper process cards and simple balances/measuring vessels where suitable.
Activity pathway	1. Show a garden or food example. 2. Name where it comes from. 3. Let children match, count, sort or draw. 4. Demonstrate clean hands and gentle handling. 5. Ask children to tell one step from garden to food.
Evidence to record	Correct match, simple count/sort, drawing or oral explanation.
Farm-to-Food challenge	Can the learner show what happens before and after the selected step?
Safety	No tasting unless the school has separately approved a supervised food activity. Wash hands before and after handling produce. Use only clean, teacher-approved samples and containers. Teachers control knives, heat, electrical equipment, chemicals and any processing machinery.
Journal connection	Record the evidence, sequence, measurement, process map or reflection in the level-appropriate GrowMeal journal.
Mission/assessment	Use the evidence to complete a related Garden Mission and assess knowledge, practical, data or problem-solving competence.

Reflection: Where could food quality be protected, waste reduced, or the garden-to-food connection explained more clearly?

FF-084 - SORTING & QUALITY

Garden	Sack Garden
Learning objective	Help children connect the Sack Garden to the idea of sorting & quality through safe observation, matching, sorting, drawing and talk.
Materials	Picture cards, clean produce examples where approved, baskets/trays, crayons, labels, handwashing supplies.
DIY / low-cost	Use locally available baskets, clean reused food-grade containers, handmade labels, paper process cards and simple balances/measuring vessels where suitable.
Activity pathway	1. Show a garden or food example. 2. Name where it comes from. 3. Let children match, count, sort or draw. 4. Demonstrate clean hands and gentle handling. 5. Ask children to tell one step from garden to food.
Evidence to record	Correct match, simple count/sort, drawing or oral explanation.
Farm-to-Food challenge	Can the learner show what happens before and after the selected step?
Safety	No tasting unless the school has separately approved a supervised food activity. Wash hands before and after handling produce. Use only clean, teacher-approved samples and containers. Teachers control knives, heat, electrical equipment, chemicals and any processing machinery.
Journal connection	Record the evidence, sequence, measurement, process map or reflection in the level-appropriate GrowMeal journal.
Mission/assessment	Use the evidence to complete a related Garden Mission and assess knowledge, practical, data or problem-solving competence.

Reflection: Where could food quality be protected, waste reduced, or the garden-to-food connection explained more clearly?

FF-085 - FARM-TO-FOOD JOURNEY

Garden	Sack Garden
Learning objective	Help children connect the Sack Garden to the idea of farm-to-food journey through safe observation, matching, sorting, drawing and talk.
Materials	Picture cards, clean produce examples where approved, baskets/trays, crayons, labels, handwashing supplies.
DIY / low-cost	Use locally available baskets, clean reused food-grade containers, handmade labels, paper process cards and simple balances/measuring vessels where suitable.
Activity pathway	1. Show a garden or food example. 2. Name where it comes from. 3. Let children match, count, sort or draw. 4. Demonstrate clean hands and gentle handling. 5. Ask children to tell one step from garden to food.
Evidence to record	Correct match, simple count/sort, drawing or oral explanation.
Farm-to-Food challenge	Can the learner show what happens before and after the selected step?
Safety	No tasting unless the school has separately approved a supervised food activity. Wash hands before and after handling produce. Use only clean, teacher-approved samples and containers. Teachers control knives, heat, electrical equipment, chemicals and any processing machinery.
Journal connection	Record the evidence, sequence, measurement, process map or reflection in the level-appropriate GrowMeal journal.
Mission/assessment	Use the evidence to complete a related Garden Mission and assess knowledge, practical, data or problem-solving competence.

Reflection: Where could food quality be protected, waste reduced, or the garden-to-food connection explained more clearly?

FF-086 - MEASUREMENT & YIELD

Garden	Sack Garden
Learning objective	Help children connect the Sack Garden to the idea of measurement & yield through safe observation, matching, sorting, drawing and talk.
Materials	Picture cards, clean produce examples where approved, baskets/trays, crayons, labels, handwashing supplies.
DIY / low-cost	Use locally available baskets, clean reused food-grade containers, handmade labels, paper process cards and simple balances/measuring vessels where suitable.
Activity pathway	1. Show a garden or food example. 2. Name where it comes from. 3. Let children match, count, sort or draw. 4. Demonstrate clean hands and gentle handling. 5. Ask children to tell one step from garden to food.
Evidence to record	Correct match, simple count/sort, drawing or oral explanation.
Farm-to-Food challenge	Can the learner show what happens before and after the selected step?
Safety	No tasting unless the school has separately approved a supervised food activity. Wash hands before and after handling produce. Use only clean, teacher-approved samples and containers. Teachers control knives, heat, electrical equipment, chemicals and any processing machinery.
Journal connection	Record the evidence, sequence, measurement, process map or reflection in the level-appropriate GrowMeal journal.
Mission/assessment	Use the evidence to complete a related Garden Mission and assess knowledge, practical, data or problem-solving competence.

Reflection: Where could food quality be protected, waste reduced, or the garden-to-food connection explained more clearly?

FF-087 - STORAGE & LOSS

Garden	Sack Garden
Learning objective	Help children connect the Sack Garden to the idea of storage & loss through safe observation, matching, sorting, drawing and talk.
Materials	Picture cards, clean produce examples where approved, baskets/trays, crayons, labels, handwashing supplies.
DIY / low-cost	Use locally available baskets, clean reused food-grade containers, handmade labels, paper process cards and simple balances/measuring vessels where suitable.
Activity pathway	1. Show a garden or food example. 2. Name where it comes from. 3. Let children match, count, sort or draw. 4. Demonstrate clean hands and gentle handling. 5. Ask children to tell one step from garden to food.
Evidence to record	Correct match, simple count/sort, drawing or oral explanation.
Farm-to-Food challenge	Can the learner show what happens before and after the selected step?
Safety	No tasting unless the school has separately approved a supervised food activity. Wash hands before and after handling produce. Use only clean, teacher-approved samples and containers. Teachers control knives, heat, electrical equipment, chemicals and any processing machinery.
Journal connection	Record the evidence, sequence, measurement, process map or reflection in the level-appropriate GrowMeal journal.
Mission/assessment	Use the evidence to complete a related Garden Mission and assess knowledge, practical, data or problem-solving competence.

Reflection: Where could food quality be protected, waste reduced, or the garden-to-food connection explained more clearly?

FF-088 - PREPARATION PATHWAY

Garden	Sack Garden
Learning objective	Help children connect the Sack Garden to the idea of preparation pathway through safe observation, matching, sorting, drawing and talk.
Materials	Picture cards, clean produce examples where approved, baskets/trays, crayons, labels, handwashing supplies.
DIY / low-cost	Use locally available baskets, clean reused food-grade containers, handmade labels, paper process cards and simple balances/measuring vessels where suitable.
Activity pathway	1. Show a garden or food example. 2. Name where it comes from. 3. Let children match, count, sort or draw. 4. Demonstrate clean hands and gentle handling. 5. Ask children to tell one step from garden to food.
Evidence to record	Correct match, simple count/sort, drawing or oral explanation.
Farm-to-Food challenge	Can the learner show what happens before and after the selected step?
Safety	No tasting unless the school has separately approved a supervised food activity. Wash hands before and after handling produce. Use only clean, teacher-approved samples and containers. Teachers control knives, heat, electrical equipment, chemicals and any processing machinery.
Journal connection	Record the evidence, sequence, measurement, process map or reflection in the level-appropriate GrowMeal journal.
Mission/assessment	Use the evidence to complete a related Garden Mission and assess knowledge, practical, data or problem-solving competence.

Reflection: Where could food quality be protected, waste reduced, or the garden-to-food connection explained more clearly?

FF-089 - FOOD CHOICE & LITERACY

Garden	Sack Garden
Learning objective	Help children connect the Sack Garden to the idea of food choice & literacy through safe observation, matching, sorting, drawing and talk.
Materials	Picture cards, clean produce examples where approved, baskets/trays, crayons, labels, handwashing supplies.
DIY / low-cost	Use locally available baskets, clean reused food-grade containers, handmade labels, paper process cards and simple balances/measuring vessels where suitable.
Activity pathway	1. Show a garden or food example. 2. Name where it comes from. 3. Let children match, count, sort or draw. 4. Demonstrate clean hands and gentle handling. 5. Ask children to tell one step from garden to food.
Evidence to record	Correct match, simple count/sort, drawing or oral explanation.
Farm-to-Food challenge	Can the learner show what happens before and after the selected step?
Safety	No tasting unless the school has separately approved a supervised food activity. Wash hands before and after handling produce. Use only clean, teacher-approved samples and containers. Teachers control knives, heat, electrical equipment, chemicals and any processing machinery.
Journal connection	Record the evidence, sequence, measurement, process map or reflection in the level-appropriate GrowMeal journal.
Mission/assessment	Use the evidence to complete a related Garden Mission and assess knowledge, practical, data or problem-solving competence.

Reflection: Where could food quality be protected, waste reduced, or the garden-to-food connection explained more clearly?

FF-090 - WASTE-TO-RESOURCE

Garden	Sack Garden
Learning objective	Help children connect the Sack Garden to the idea of waste-to-resource through safe observation, matching, sorting, drawing and talk.
Materials	Picture cards, clean produce examples where approved, baskets/trays, crayons, labels, handwashing supplies.
DIY / low-cost	Use locally available baskets, clean reused food-grade containers, handmade labels, paper process cards and simple balances/measuring vessels where suitable.
Activity pathway	1. Show a garden or food example. 2. Name where it comes from. 3. Let children match, count, sort or draw. 4. Demonstrate clean hands and gentle handling. 5. Ask children to tell one step from garden to food.
Evidence to record	Correct match, simple count/sort, drawing or oral explanation.
Farm-to-Food challenge	Can the learner show what happens before and after the selected step?
Safety	No tasting unless the school has separately approved a supervised food activity. Wash hands before and after handling produce. Use only clean, teacher-approved samples and containers. Teachers control knives, heat, electrical equipment, chemicals and any processing machinery.
Journal connection	Record the evidence, sequence, measurement, process map or reflection in the level-appropriate GrowMeal journal.
Mission/assessment	Use the evidence to complete a related Garden Mission and assess knowledge, practical, data or problem-solving competence.

Reflection: Where could food quality be protected, waste reduced, or the garden-to-food connection explained more clearly?

GARDEN 10 - Discovery Garden

Ten activities move learners from identifying where food comes from to reasoning about handling, quality, loss, choices and resource recovery.

FF-091 - FOOD ORIGIN

Garden	Discovery Garden
Learning objective	Help children connect the Discovery Garden to the idea of food origin through safe observation, matching, sorting, drawing and talk.
Materials	Picture cards, clean produce examples where approved, baskets/trays, crayons, labels, handwashing supplies.
DIY / low-cost	Use locally available baskets, clean reused food-grade containers, handmade labels, paper process cards and simple balances/measuring vessels where suitable.
Activity pathway	1. Show a garden or food example. 2. Name where it comes from. 3. Let children match, count, sort or draw. 4. Demonstrate clean hands and gentle handling. 5. Ask children to tell one step from garden to food.
Evidence to record	Correct match, simple count/sort, drawing or oral explanation.
Farm-to-Food challenge	Can the learner show what happens before and after the selected step?
Safety	No tasting unless the school has separately approved a supervised food activity. Wash hands before and after handling produce. Use only clean, teacher-approved samples and containers. Teachers control knives, heat, electrical equipment, chemicals and any processing machinery.
Journal connection	Record the evidence, sequence, measurement, process map or reflection in the level-appropriate GrowMeal journal.
Mission/assessment	Use the evidence to complete a related Garden Mission and assess knowledge, practical, data or problem-solving competence.

Reflection: Where could food quality be protected, waste reduced, or the garden-to-food connection explained more clearly?

FF-092 - HARVEST READINESS

Garden	Discovery Garden
Learning objective	Help children connect the Discovery Garden to the idea of harvest readiness through safe observation, matching, sorting, drawing and talk.
Materials	Picture cards, clean produce examples where approved, baskets/trays, crayons, labels, handwashing supplies.
DIY / low-cost	Use locally available baskets, clean reused food-grade containers, handmade labels, paper process cards and simple balances/measuring vessels where suitable.
Activity pathway	1. Show a garden or food example. 2. Name where it comes from. 3. Let children match, count, sort or draw. 4. Demonstrate clean hands and gentle handling. 5. Ask children to tell one step from garden to food.
Evidence to record	Correct match, simple count/sort, drawing or oral explanation.
Farm-to-Food challenge	Can the learner show what happens before and after the selected step?
Safety	No tasting unless the school has separately approved a supervised food activity. Wash hands before and after handling produce. Use only clean, teacher-approved samples and containers. Teachers control knives, heat, electrical equipment, chemicals and any processing machinery.
Journal connection	Record the evidence, sequence, measurement, process map or reflection in the level-appropriate GrowMeal journal.
Mission/assessment	Use the evidence to complete a related Garden Mission and assess knowledge, practical, data or problem-solving competence.

Reflection: Where could food quality be protected, waste reduced, or the garden-to-food connection explained more clearly?

FF-093 - SAFE HANDLING

Garden	Discovery Garden
Learning objective	Help children connect the Discovery Garden to the idea of safe handling through safe observation, matching, sorting, drawing and talk.
Materials	Picture cards, clean produce examples where approved, baskets/trays, crayons, labels, handwashing supplies.
DIY / low-cost	Use locally available baskets, clean reused food-grade containers, handmade labels, paper process cards and simple balances/measuring vessels where suitable.
Activity pathway	1. Show a garden or food example. 2. Name where it comes from. 3. Let children match, count, sort or draw. 4. Demonstrate clean hands and gentle handling. 5. Ask children to tell one step from garden to food.
Evidence to record	Correct match, simple count/sort, drawing or oral explanation.
Farm-to-Food challenge	Can the learner show what happens before and after the selected step?
Safety	No tasting unless the school has separately approved a supervised food activity. Wash hands before and after handling produce. Use only clean, teacher-approved samples and containers. Teachers control knives, heat, electrical equipment, chemicals and any processing machinery.
Journal connection	Record the evidence, sequence, measurement, process map or reflection in the level-appropriate GrowMeal journal.
Mission/assessment	Use the evidence to complete a related Garden Mission and assess knowledge, practical, data or problem-solving competence.

Reflection: Where could food quality be protected, waste reduced, or the garden-to-food connection explained more clearly?

FF-094 - SORTING & QUALITY

Garden	Discovery Garden
Learning objective	Help children connect the Discovery Garden to the idea of sorting & quality through safe observation, matching, sorting, drawing and talk.
Materials	Picture cards, clean produce examples where approved, baskets/trays, crayons, labels, handwashing supplies.
DIY / low-cost	Use locally available baskets, clean reused food-grade containers, handmade labels, paper process cards and simple balances/measuring vessels where suitable.
Activity pathway	1. Show a garden or food example. 2. Name where it comes from. 3. Let children match, count, sort or draw. 4. Demonstrate clean hands and gentle handling. 5. Ask children to tell one step from garden to food.
Evidence to record	Correct match, simple count/sort, drawing or oral explanation.
Farm-to-Food challenge	Can the learner show what happens before and after the selected step?
Safety	No tasting unless the school has separately approved a supervised food activity. Wash hands before and after handling produce. Use only clean, teacher-approved samples and containers. Teachers control knives, heat, electrical equipment, chemicals and any processing machinery.
Journal connection	Record the evidence, sequence, measurement, process map or reflection in the level-appropriate GrowMeal journal.
Mission/assessment	Use the evidence to complete a related Garden Mission and assess knowledge, practical, data or problem-solving competence.

Reflection: Where could food quality be protected, waste reduced, or the garden-to-food connection explained more clearly?

FF-095 - FARM-TO-FOOD JOURNEY

Garden	Discovery Garden
Learning objective	Help children connect the Discovery Garden to the idea of farm-to-food journey through safe observation, matching, sorting, drawing and talk.
Materials	Picture cards, clean produce examples where approved, baskets/trays, crayons, labels, handwashing supplies.
DIY / low-cost	Use locally available baskets, clean reused food-grade containers, handmade labels, paper process cards and simple balances/measuring vessels where suitable.
Activity pathway	1. Show a garden or food example. 2. Name where it comes from. 3. Let children match, count, sort or draw. 4. Demonstrate clean hands and gentle handling. 5. Ask children to tell one step from garden to food.
Evidence to record	Correct match, simple count/sort, drawing or oral explanation.
Farm-to-Food challenge	Can the learner show what happens before and after the selected step?
Safety	No tasting unless the school has separately approved a supervised food activity. Wash hands before and after handling produce. Use only clean, teacher-approved samples and containers. Teachers control knives, heat, electrical equipment, chemicals and any processing machinery.
Journal connection	Record the evidence, sequence, measurement, process map or reflection in the level-appropriate GrowMeal journal.
Mission/assessment	Use the evidence to complete a related Garden Mission and assess knowledge, practical, data or problem-solving competence.

Reflection: Where could food quality be protected, waste reduced, or the garden-to-food connection explained more clearly?

FF-096 - MEASUREMENT & YIELD

Garden	Discovery Garden
Learning objective	Help children connect the Discovery Garden to the idea of measurement & yield through safe observation, matching, sorting, drawing and talk.
Materials	Picture cards, clean produce examples where approved, baskets/trays, crayons, labels, handwashing supplies.
DIY / low-cost	Use locally available baskets, clean reused food-grade containers, handmade labels, paper process cards and simple balances/measuring vessels where suitable.
Activity pathway	1. Show a garden or food example. 2. Name where it comes from. 3. Let children match, count, sort or draw. 4. Demonstrate clean hands and gentle handling. 5. Ask children to tell one step from garden to food.
Evidence to record	Correct match, simple count/sort, drawing or oral explanation.
