

Nursery FOOD SMART CHALLENGE SYSTEM

FSC-001 to FSC-100

NOTICE -> CHOOSE -> MATCH -> CARE -> TELL

Purpose	Move learners from knowing facts to making evidence-based food, ingredient, resource and waste decisions.
Ten domains	Ingredients; food journeys; food choices; labels; meals; water; food waste; seasonality; storage/handling; food-system problem solving.
Evidence rule	Learners should show how they reached a decision. At higher levels, require data, criteria, uncertainty and trade-off reasoning.
Health/safety boundary	No medical or therapeutic claims. No tasting is required. School food-safety and allergy procedures take priority.
Resource connections	Use vocabulary, Ingredient Lab, Farm-to-Food activities, journals, mission cards and GrowMeal assessments as evidence sources.

CHALLENGE SET 01 - REAL-WORLD FOOD SMART DECISIONS

This set contains one challenge from each Food Smart domain. Teachers may run them individually, as stations, or as a term challenge sequence.

FSC-001 - KNOW THE INGREDIENT

Scenario	Your class is exploring a school garden. The teacher shows safe pictures or clean examples. Complete a simple know the ingredient challenge.
Your challenge	Look carefully. Match or sort the examples. Choose one good action and tell the teacher why it helps.
Evidence to submit	Pointing/matching, simple sort, drawing, count or one spoken reason.
Success criteria	Recognizes the item or situation; makes a sensible choice; uses one relevant word; handles materials safely.
Extension	Draw what should happen next.
Safety	Use only teacher-approved materials. No tasting is required. Follow school rules for food handling, allergies, handwashing and sanitation. Teachers control knives, heat, electrical equipment, chemicals and processing machinery.
AgriShine connection	Use a garden observation, crop/ingredient example, practical result or journal record wherever it strengthens the decision.
Assessment connection	Score primarily under mission-based problem solving, with supporting knowledge, practical or investigation/data evidence as appropriate.

Decision: _____

Evidence/reason: _____

FSC-002 - BUILD A FOOD JOURNEY

Scenario	Your class is exploring a classroom food table. The teacher shows safe pictures or clean examples. Complete a simple build a food journey challenge.
Your challenge	Look carefully. Match or sort the examples. Choose one good action and tell the teacher why it helps.
Evidence to submit	Pointing/matching, simple sort, drawing, count or one spoken reason.
Success criteria	Recognizes the item or situation; makes a sensible choice; uses one relevant word; handles materials safely.
Extension	Draw what should happen next.
Safety	Use only teacher-approved materials. No tasting is required. Follow school rules for food handling, allergies, handwashing and sanitation. Teachers control knives, heat, electrical equipment, chemicals and processing machinery.
AgriShine connection	Use a garden observation, crop/ingredient example, practical result or journal record wherever it strengthens the decision.
Assessment connection	Score primarily under mission-based problem solving, with supporting knowledge, practical or investigation/data evidence as appropriate.

Decision: _____

Evidence/reason: _____

FSC-003 - MAKE A FOOD CHOICE

Scenario	Your class is exploring a harvest basket. The teacher shows safe pictures or clean examples. Complete a simple make a food choice challenge.
Your challenge	Look carefully. Match or sort the examples. Choose one good action and tell the teacher why it helps.
Evidence to submit	Pointing/matching, simple sort, drawing, count or one spoken reason.
Success criteria	Recognizes the item or situation; makes a sensible choice; uses one relevant word; handles materials safely.
Extension	Draw what should happen next.
Safety	Use only teacher-approved materials. No tasting is required. Follow school rules for food handling, allergies, handwashing and sanitation. Teachers control knives, heat, electrical equipment, chemicals and processing machinery.
AgriShine connection	Use a garden observation, crop/ingredient example, practical result or journal record wherever it strengthens the decision.
Assessment connection	Score primarily under mission-based problem solving, with supporting knowledge, practical or investigation/data evidence as appropriate.

Decision: _____

Evidence/reason: _____

FSC-004 - READ THE LABEL

Scenario	Your class is exploring a ingredient display. The teacher shows safe pictures or clean examples. Complete a simple read the label challenge.
Your challenge	Look carefully. Match or sort the examples. Choose one good action and tell the teacher why it helps.
Evidence to submit	Pointing/matching, simple sort, drawing, count or one spoken reason.
Success criteria	Recognizes the item or situation; makes a sensible choice; uses one relevant word; handles materials safely.
Extension	Draw what should happen next.
Safety	Use only teacher-approved materials. No tasting is required. Follow school rules for food handling, allergies, handwashing and sanitation. Teachers control knives, heat, electrical equipment, chemicals and processing machinery.
AgriShine connection	Use a garden observation, crop/ingredient example, practical result or journal record wherever it strengthens the decision.
Assessment connection	Score primarily under mission-based problem solving, with supporting knowledge, practical or investigation/data evidence as appropriate.

Decision: _____

Evidence/reason: _____

FSC-005 - PLAN A MEAL

Scenario	Your class is exploring a school lunch scenario. The teacher shows safe pictures or clean examples. Complete a simple plan a meal challenge.
Your challenge	Look carefully. Match or sort the examples. Choose one good action and tell the teacher why it helps.
Evidence to submit	Pointing/matching, simple sort, drawing, count or one spoken reason.
Success criteria	Recognizes the item or situation; makes a sensible choice; uses one relevant word; handles materials safely.
Extension	Draw what should happen next.
Safety	Use only teacher-approved materials. No tasting is required. Follow school rules for food handling, allergies, handwashing and sanitation. Teachers control knives, heat, electrical equipment, chemicals and processing machinery.
AgriShine connection	Use a garden observation, crop/ingredient example, practical result or journal record wherever it strengthens the decision.
Assessment connection	Score primarily under mission-based problem solving, with supporting knowledge, practical or investigation/data evidence as appropriate.

Decision: _____

Evidence/reason: _____

FSC-006 - USE WATER WISELY

Scenario	Your class is exploring a water station. The teacher shows safe pictures or clean examples. Complete a simple use water wisely challenge.
Your challenge	Look carefully. Match or sort the examples. Choose one good action and tell the teacher why it helps.
Evidence to submit	Pointing/matching, simple sort, drawing, count or one spoken reason.
Success criteria	Recognizes the item or situation; makes a sensible choice; uses one relevant word; handles materials safely.
Extension	Draw what should happen next.
Safety	Use only teacher-approved materials. No tasting is required. Follow school rules for food handling, allergies, handwashing and sanitation. Teachers control knives, heat, electrical equipment, chemicals and processing machinery.
AgriShine connection	Use a garden observation, crop/ingredient example, practical result or journal record wherever it strengthens the decision.
Assessment connection	Score primarily under mission-based problem solving, with supporting knowledge, practical or investigation/data evidence as appropriate.

Decision: _____

Evidence/reason: _____

FSC-007 - REDUCE FOOD WASTE

Scenario	Your class is exploring a storage shelf. The teacher shows safe pictures or clean examples. Complete a simple reduce food waste challenge.
Your challenge	Look carefully. Match or sort the examples. Choose one good action and tell the teacher why it helps.
Evidence to submit	Pointing/matching, simple sort, drawing, count or one spoken reason.
Success criteria	Recognizes the item or situation; makes a sensible choice; uses one relevant word; handles materials safely.
Extension	Draw what should happen next.
Safety	Use only teacher-approved materials. No tasting is required. Follow school rules for food handling, allergies, handwashing and sanitation. Teachers control knives, heat, electrical equipment, chemicals and processing machinery.
AgriShine connection	Use a garden observation, crop/ingredient example, practical result or journal record wherever it strengthens the decision.
Assessment connection	Score primarily under mission-based problem solving, with supporting knowledge, practical or investigation/data evidence as appropriate.

Decision: _____

Evidence/reason: _____

FSC-008 - THINK SEASONALLY

Scenario	Your class is exploring a market basket. The teacher shows safe pictures or clean examples. Complete a simple think seasonally challenge.
Your challenge	Look carefully. Match or sort the examples. Choose one good action and tell the teacher why it helps.
Evidence to submit	Pointing/matching, simple sort, drawing, count or one spoken reason.
Success criteria	Recognizes the item or situation; makes a sensible choice; uses one relevant word; handles materials safely.
Extension	Draw what should happen next.
Safety	Use only teacher-approved materials. No tasting is required. Follow school rules for food handling, allergies, handwashing and sanitation. Teachers control knives, heat, electrical equipment, chemicals and processing machinery.
AgriShine connection	Use a garden observation, crop/ingredient example, practical result or journal record wherever it strengthens the decision.
Assessment connection	Score primarily under mission-based problem solving, with supporting knowledge, practical or investigation/data evidence as appropriate.

Decision: _____

Evidence/reason: _____

FSC-009 - STORE & HANDLE RESPONSIBLY

Scenario	Your class is exploring a food journey map. The teacher shows safe pictures or clean examples. Complete a simple store & handle responsibly challenge.
Your challenge	Look carefully. Match or sort the examples. Choose one good action and tell the teacher why it helps.
Evidence to submit	Pointing/matching, simple sort, drawing, count or one spoken reason.
Success criteria	Recognizes the item or situation; makes a sensible choice; uses one relevant word; handles materials safely.
Extension	Draw what should happen next.
Safety	Use only teacher-approved materials. No tasting is required. Follow school rules for food handling, allergies, handwashing and sanitation. Teachers control knives, heat, electrical equipment, chemicals and processing machinery.
AgriShine connection	Use a garden observation, crop/ingredient example, practical result or journal record wherever it strengthens the decision.
Assessment connection	Score primarily under mission-based problem solving, with supporting knowledge, practical or investigation/data evidence as appropriate.

Decision: _____

Evidence/reason: _____

FSC-010 - SOLVE A FOOD-SYSTEM CHALLENGE

Scenario	Your class is exploring a school food-waste station. The teacher shows safe pictures or clean examples. Complete a simple solve a food-system challenge challenge.
Your challenge	Look carefully. Match or sort the examples. Choose one good action and tell the teacher why it helps.
Evidence to submit	Pointing/matching, simple sort, drawing, count or one spoken reason.
Success criteria	Recognizes the item or situation; makes a sensible choice; uses one relevant word; handles materials safely.
Extension	Draw what should happen next.
Safety	Use only teacher-approved materials. No tasting is required. Follow school rules for food handling, allergies, handwashing and sanitation. Teachers control knives, heat, electrical equipment, chemicals and processing machinery.
AgriShine connection	Use a garden observation, crop/ingredient example, practical result or journal record wherever it strengthens the decision.
Assessment connection	Score primarily under mission-based problem solving, with supporting knowledge, practical or investigation/data evidence as appropriate.

Decision: _____

Evidence/reason: _____

CHALLENGE SET 02 - REAL-WORLD FOOD SMART DECISIONS

This set contains one challenge from each Food Smart domain. Teachers may run them individually, as stations, or as a term challenge sequence.

FSC-011 - KNOW THE INGREDIENT

Scenario	Your class is exploring a classroom food table. The teacher shows safe pictures or clean examples. Complete a simple know the ingredient challenge.
Your challenge	Look carefully. Match or sort the examples. Choose one good action and tell the teacher why it helps.
Evidence to submit	Pointing/matching, simple sort, drawing, count or one spoken reason.
Success criteria	Recognizes the item or situation; makes a sensible choice; uses one relevant word; handles materials safely.
Extension	Draw what should happen next.
Safety	Use only teacher-approved materials. No tasting is required. Follow school rules for food handling, allergies, handwashing and sanitation. Teachers control knives, heat, electrical equipment, chemicals and processing machinery.
AgriShine connection	Use a garden observation, crop/ingredient example, practical result or journal record wherever it strengthens the decision.
Assessment connection	Score primarily under mission-based problem solving, with supporting knowledge, practical or investigation/data evidence as appropriate.

Decision: _____

Evidence/reason: _____

FSC-012 - BUILD A FOOD JOURNEY

Scenario	Your class is exploring a harvest basket. The teacher shows safe pictures or clean examples. Complete a simple build a food journey challenge.
Your challenge	Look carefully. Match or sort the examples. Choose one good action and tell the teacher why it helps.
Evidence to submit	Pointing/matching, simple sort, drawing, count or one spoken reason.
Success criteria	Recognizes the item or situation; makes a sensible choice; uses one relevant word; handles materials safely.
Extension	Draw what should happen next.
Safety	Use only teacher-approved materials. No tasting is required. Follow school rules for food handling, allergies, handwashing and sanitation. Teachers control knives, heat, electrical equipment, chemicals and processing machinery.
AgriShine connection	Use a garden observation, crop/ingredient example, practical result or journal record wherever it strengthens the decision.
Assessment connection	Score primarily under mission-based problem solving, with supporting knowledge, practical or investigation/data evidence as appropriate.

Decision: _____

Evidence/reason: _____

FSC-013 - MAKE A FOOD CHOICE

Scenario	Your class is exploring a ingredient display. The teacher shows safe pictures or clean examples. Complete a simple make a food choice challenge.
Your challenge	Look carefully. Match or sort the examples. Choose one good action and tell the teacher why it helps.
Evidence to submit	Pointing/matching, simple sort, drawing, count or one spoken reason.
Success criteria	Recognizes the item or situation; makes a sensible choice; uses one relevant word; handles materials safely.
Extension	Draw what should happen next.
Safety	Use only teacher-approved materials. No tasting is required. Follow school rules for food handling, allergies, handwashing and sanitation. Teachers control knives, heat, electrical equipment, chemicals and processing machinery.
AgriShine connection	Use a garden observation, crop/ingredient example, practical result or journal record wherever it strengthens the decision.
Assessment connection	Score primarily under mission-based problem solving, with supporting knowledge, practical or investigation/data evidence as appropriate.

Decision: _____

Evidence/reason: _____

FSC-014 - READ THE LABEL

Scenario	Your class is exploring a school lunch scenario. The teacher shows safe pictures or clean examples. Complete a simple read the label challenge.
Your challenge	Look carefully. Match or sort the examples. Choose one good action and tell the teacher why it helps.
Evidence to submit	Pointing/matching, simple sort, drawing, count or one spoken reason.
Success criteria	Recognizes the item or situation; makes a sensible choice; uses one relevant word; handles materials safely.
Extension	Draw what should happen next.
Safety	Use only teacher-approved materials. No tasting is required. Follow school rules for food handling, allergies, handwashing and sanitation. Teachers control knives, heat, electrical equipment, chemicals and processing machinery.
AgriShine connection	Use a garden observation, crop/ingredient example, practical result or journal record wherever it strengthens the decision.
Assessment connection	Score primarily under mission-based problem solving, with supporting knowledge, practical or investigation/data evidence as appropriate.

Decision: _____

Evidence/reason: _____

FSC-015 - PLAN A MEAL

Scenario	Your class is exploring a water station. The teacher shows safe pictures or clean examples. Complete a simple plan a meal challenge.
Your challenge	Look carefully. Match or sort the examples. Choose one good action and tell the teacher why it helps.
Evidence to submit	Pointing/matching, simple sort, drawing, count or one spoken reason.
Success criteria	Recognizes the item or situation; makes a sensible choice; uses one relevant word; handles materials safely.
Extension	Draw what should happen next.
Safety	Use only teacher-approved materials. No tasting is required. Follow school rules for food handling, allergies, handwashing and sanitation. Teachers control knives, heat, electrical equipment, chemicals and processing machinery.
AgriShine connection	Use a garden observation, crop/ingredient example, practical result or journal record wherever it strengthens the decision.
Assessment connection	Score primarily under mission-based problem solving, with supporting knowledge, practical or investigation/data evidence as appropriate.

Decision: _____

Evidence/reason: _____

FSC-016 - USE WATER WISELY

Scenario	Your class is exploring a storage shelf. The teacher shows safe pictures or clean examples. Complete a simple use water wisely challenge.
Your challenge	Look carefully. Match or sort the examples. Choose one good action and tell the teacher why it helps.
Evidence to submit	Pointing/matching, simple sort, drawing, count or one spoken reason.
Success criteria	Recognizes the item or situation; makes a sensible choice; uses one relevant word; handles materials safely.
Extension	Draw what should happen next.
Safety	Use only teacher-approved materials. No tasting is required. Follow school rules for food handling, allergies, handwashing and sanitation. Teachers control knives, heat, electrical equipment, chemicals and processing machinery.
AgriShine connection	Use a garden observation, crop/ingredient example, practical result or journal record wherever it strengthens the decision.
Assessment connection	Score primarily under mission-based problem solving, with supporting knowledge, practical or investigation/data evidence as appropriate.

Decision: _____

Evidence/reason: _____

FSC-017 - REDUCE FOOD WASTE

Scenario	Your class is exploring a market basket. The teacher shows safe pictures or clean examples. Complete a simple reduce food waste challenge.
Your challenge	Look carefully. Match or sort the examples. Choose one good action and tell the teacher why it helps.
Evidence to submit	Pointing/matching, simple sort, drawing, count or one spoken reason.
Success criteria	Recognizes the item or situation; makes a sensible choice; uses one relevant word; handles materials safely.
Extension	Draw what should happen next.
Safety	Use only teacher-approved materials. No tasting is required. Follow school rules for food handling, allergies, handwashing and sanitation. Teachers control knives, heat, electrical equipment, chemicals and processing machinery.
AgriShine connection	Use a garden observation, crop/ingredient example, practical result or journal record wherever it strengthens the decision.
Assessment connection	Score primarily under mission-based problem solving, with supporting knowledge, practical or investigation/data evidence as appropriate.

Decision: _____

Evidence/reason: _____

FSC-018 - THINK SEASONALLY

Scenario	Your class is exploring a food journey map. The teacher shows safe pictures or clean examples. Complete a simple think seasonally challenge.
Your challenge	Look carefully. Match or sort the examples. Choose one good action and tell the teacher why it helps.
Evidence to submit	Pointing/matching, simple sort, drawing, count or one spoken reason.
Success criteria	Recognizes the item or situation; makes a sensible choice; uses one relevant word; handles materials safely.
Extension	Draw what should happen next.
Safety	Use only teacher-approved materials. No tasting is required. Follow school rules for food handling, allergies, handwashing and sanitation. Teachers control knives, heat, electrical equipment, chemicals and processing machinery.
AgriShine connection	Use a garden observation, crop/ingredient example, practical result or journal record wherever it strengthens the decision.
Assessment connection	Score primarily under mission-based problem solving, with supporting knowledge, practical or investigation/data evidence as appropriate.

Decision: _____

Evidence/reason: _____

FSC-019 - STORE & HANDLE RESPONSIBLY

Scenario	Your class is exploring a school food-waste station. The teacher shows safe pictures or clean examples. Complete a simple store & handle responsibly challenge.
Your challenge	Look carefully. Match or sort the examples. Choose one good action and tell the teacher why it helps.
Evidence to submit	Pointing/matching, simple sort, drawing, count or one spoken reason.
Success criteria	Recognizes the item or situation; makes a sensible choice; uses one relevant word; handles materials safely.
Extension	Draw what should happen next.
Safety	Use only teacher-approved materials. No tasting is required. Follow school rules for food handling, allergies, handwashing and sanitation. Teachers control knives, heat, electrical equipment, chemicals and processing machinery.
AgriShine connection	Use a garden observation, crop/ingredient example, practical result or journal record wherever it strengthens the decision.
Assessment connection	Score primarily under mission-based problem solving, with supporting knowledge, practical or investigation/data evidence as appropriate.

Decision: _____

Evidence/reason: _____

FSC-020 - SOLVE A FOOD-SYSTEM CHALLENGE

Scenario	Your class is exploring a school garden. The teacher shows safe pictures or clean examples. Complete a simple solve a food-system challenge challenge.
Your challenge	Look carefully. Match or sort the examples. Choose one good action and tell the teacher why it helps.
Evidence to submit	Pointing/matching, simple sort, drawing, count or one spoken reason.
Success criteria	Recognizes the item or situation; makes a sensible choice; uses one relevant word; handles materials safely.
Extension	Draw what should happen next.
Safety	Use only teacher-approved materials. No tasting is required. Follow school rules for food handling, allergies, handwashing and sanitation. Teachers control knives, heat, electrical equipment, chemicals and processing machinery.
AgriShine connection	Use a garden observation, crop/ingredient example, practical result or journal record wherever it strengthens the decision.
Assessment connection	Score primarily under mission-based problem solving, with supporting knowledge, practical or investigation/data evidence as appropriate.

Decision: _____

Evidence/reason: _____

CHALLENGE SET 03 - REAL-WORLD FOOD SMART DECISIONS

This set contains one challenge from each Food Smart domain. Teachers may run them individually, as stations, or as a term challenge sequence.

FSC-021 - KNOW THE INGREDIENT

Scenario	Your class is exploring a harvest basket. The teacher shows safe pictures or clean examples. Complete a simple know the ingredient challenge.
Your challenge	Look carefully. Match or sort the examples. Choose one good action and tell the teacher why it helps.
Evidence to submit	Pointing/matching, simple sort, drawing, count or one spoken reason.
Success criteria	Recognizes the item or situation; makes a sensible choice; uses one relevant word; handles materials safely.
Extension	Draw what should happen next.
Safety	Use only teacher-approved materials. No tasting is required. Follow school rules for food handling, allergies, handwashing and sanitation. Teachers control knives, heat, electrical equipment, chemicals and processing machinery.
AgriShine connection	Use a garden observation, crop/ingredient example, practical result or journal record wherever it strengthens the decision.
Assessment connection	Score primarily under mission-based problem solving, with supporting knowledge, practical or investigation/data evidence as appropriate.

Decision: _____

Evidence/reason: _____

FSC-022 - BUILD A FOOD JOURNEY

Scenario	Your class is exploring a ingredient display. The teacher shows safe pictures or clean examples. Complete a simple build a food journey challenge.
Your challenge	Look carefully. Match or sort the examples. Choose one good action and tell the teacher why it helps.
Evidence to submit	Pointing/matching, simple sort, drawing, count or one spoken reason.
Success criteria	Recognizes the item or situation; makes a sensible choice; uses one relevant word; handles materials safely.
Extension	Draw what should happen next.
Safety	Use only teacher-approved materials. No tasting is required. Follow school rules for food handling, allergies, handwashing and sanitation. Teachers control knives, heat, electrical equipment, chemicals and processing machinery.
AgriShine connection	Use a garden observation, crop/ingredient example, practical result or journal record wherever it strengthens the decision.
Assessment connection	Score primarily under mission-based problem solving, with supporting knowledge, practical or investigation/data evidence as appropriate.

Decision: _____

Evidence/reason: _____

FSC-023 - MAKE A FOOD CHOICE

Scenario	Your class is exploring a school lunch scenario. The teacher shows safe pictures or clean examples. Complete a simple make a food choice challenge.
Your challenge	Look carefully. Match or sort the examples. Choose one good action and tell the teacher why it helps.
Evidence to submit	Pointing/matching, simple sort, drawing, count or one spoken reason.
Success criteria	Recognizes the item or situation; makes a sensible choice; uses one relevant word; handles materials safely.
Extension	Draw what should happen next.
Safety	Use only teacher-approved materials. No tasting is required. Follow school rules for food handling, allergies, handwashing and sanitation. Teachers control knives, heat, electrical equipment, chemicals and processing machinery.
AgriShine connection	Use a garden observation, crop/ingredient example, practical result or journal record wherever it strengthens the decision.
Assessment connection	Score primarily under mission-based problem solving, with supporting knowledge, practical or investigation/data evidence as appropriate.

Decision: _____

Evidence/reason: _____

FSC-024 - READ THE LABEL

Scenario	Your class is exploring a water station. The teacher shows safe pictures or clean examples. Complete a simple read the label challenge.
Your challenge	Look carefully. Match or sort the examples. Choose one good action and tell the teacher why it helps.
Evidence to submit	Pointing/matching, simple sort, drawing, count or one spoken reason.
Success criteria	Recognizes the item or situation; makes a sensible choice; uses one relevant word; handles materials safely.
Extension	Draw what should happen next.
Safety	Use only teacher-approved materials. No tasting is required. Follow school rules for food handling, allergies, handwashing and sanitation. Teachers control knives, heat, electrical equipment, chemicals and processing machinery.
AgriShine connection	Use a garden observation, crop/ingredient example, practical result or journal record wherever it strengthens the decision.
Assessment connection	Score primarily under mission-based problem solving, with supporting knowledge, practical or investigation/data evidence as appropriate.

Decision: _____

Evidence/reason: _____

FSC-025 - PLAN A MEAL

Scenario	Your class is exploring a storage shelf. The teacher shows safe pictures or clean examples. Complete a simple plan a meal challenge.
Your challenge	Look carefully. Match or sort the examples. Choose one good action and tell the teacher why it helps.
Evidence to submit	Pointing/matching, simple sort, drawing, count or one spoken reason.
Success criteria	Recognizes the item or situation; makes a sensible choice; uses one relevant word; handles materials safely.
Extension	Draw what should happen next.
Safety	Use only teacher-approved materials. No tasting is required. Follow school rules for food handling, allergies, handwashing and sanitation. Teachers control knives, heat, electrical equipment, chemicals and processing machinery.
AgriShine connection	Use a garden observation, crop/ingredient example, practical result or journal record wherever it strengthens the decision.
Assessment connection	Score primarily under mission-based problem solving, with supporting knowledge, practical or investigation/data evidence as appropriate.

Decision: _____

Evidence/reason: _____

FSC-026 - USE WATER WISELY

Scenario	Your class is exploring a market basket. The teacher shows safe pictures or clean examples. Complete a simple use water wisely challenge.
Your challenge	Look carefully. Match or sort the examples. Choose one good action and tell the teacher why it helps.
Evidence to submit	Pointing/matching, simple sort, drawing, count or one spoken reason.
Success criteria	Recognizes the item or situation; makes a sensible choice; uses one relevant word; handles materials safely.
Extension	Draw what should happen next.
Safety	Use only teacher-approved materials. No tasting is required. Follow school rules for food handling, allergies, handwashing and sanitation. Teachers control knives, heat, electrical equipment, chemicals and processing machinery.
AgriShine connection	Use a garden observation, crop/ingredient example, practical result or journal record wherever it strengthens the decision.
Assessment connection	Score primarily under mission-based problem solving, with supporting knowledge, practical or investigation/data evidence as appropriate.

Decision: _____

Evidence/reason: _____

FSC-027 - REDUCE FOOD WASTE

Scenario	Your class is exploring a food journey map. The teacher shows safe pictures or clean examples. Complete a simple reduce food waste challenge.
Your challenge	Look carefully. Match or sort the examples. Choose one good action and tell the teacher why it helps.
Evidence to submit	Pointing/matching, simple sort, drawing, count or one spoken reason.
Success criteria	Recognizes the item or situation; makes a sensible choice; uses one relevant word; handles materials safely.
Extension	Draw what should happen next.
Safety	Use only teacher-approved materials. No tasting is required. Follow school rules for food handling, allergies, handwashing and sanitation. Teachers control knives, heat, electrical equipment, chemicals and processing machinery.
AgriShine connection	Use a garden observation, crop/ingredient example, practical result or journal record wherever it strengthens the decision.
Assessment connection	Score primarily under mission-based problem solving, with supporting knowledge, practical or investigation/data evidence as appropriate.

Decision: _____

Evidence/reason: _____

FSC-028 - THINK SEASONALLY

Scenario	Your class is exploring a school food-waste station. The teacher shows safe pictures or clean examples. Complete a simple think seasonally challenge.
Your challenge	Look carefully. Match or sort the examples. Choose one good action and tell the teacher why it helps.
Evidence to submit	Pointing/matching, simple sort, drawing, count or one spoken reason.
Success criteria	Recognizes the item or situation; makes a sensible choice; uses one relevant word; handles materials safely.
Extension	Draw what should happen next.
Safety	Use only teacher-approved materials. No tasting is required. Follow school rules for food handling, allergies, handwashing and sanitation. Teachers control knives, heat, electrical equipment, chemicals and processing machinery.
AgriShine connection	Use a garden observation, crop/ingredient example, practical result or journal record wherever it strengthens the decision.
Assessment connection	Score primarily under mission-based problem solving, with supporting knowledge, practical or investigation/data evidence as appropriate.

Decision: _____

Evidence/reason: _____

FSC-029 - STORE & HANDLE RESPONSIBLY

Scenario	Your class is exploring a school garden. The teacher shows safe pictures or clean examples. Complete a simple store & handle responsibly challenge.
Your challenge	Look carefully. Match or sort the examples. Choose one good action and tell the teacher why it helps.
Evidence to submit	Pointing/matching, simple sort, drawing, count or one spoken reason.
Success criteria	Recognizes the item or situation; makes a sensible choice; uses one relevant word; handles materials safely.
Extension	Draw what should happen next.
Safety	Use only teacher-approved materials. No tasting is required. Follow school rules for food handling, allergies, handwashing and sanitation. Teachers control knives, heat, electrical equipment, chemicals and processing machinery.
AgriShine connection	Use a garden observation, crop/ingredient example, practical result or journal record wherever it strengthens the decision.
Assessment connection	Score primarily under mission-based problem solving, with supporting knowledge, practical or investigation/data evidence as appropriate.

Decision: _____

Evidence/reason: _____

FSC-030 - SOLVE A FOOD-SYSTEM CHALLENGE

Scenario	Your class is exploring a classroom food table. The teacher shows safe pictures or clean examples. Complete a simple solve a food-system challenge challenge.
Your challenge	Look carefully. Match or sort the examples. Choose one good action and tell the teacher why it helps.
Evidence to submit	Pointing/matching, simple sort, drawing, count or one spoken reason.
Success criteria	Recognizes the item or situation; makes a sensible choice; uses one relevant word; handles materials safely.
Extension	Draw what should happen next.
Safety	Use only teacher-approved materials. No tasting is required. Follow school rules for food handling, allergies, handwashing and sanitation. Teachers control knives, heat, electrical equipment, chemicals and processing machinery.
AgriShine connection	Use a garden observation, crop/ingredient example, practical result or journal record wherever it strengthens the decision.
Assessment connection	Score primarily under mission-based problem solving, with supporting knowledge, practical or investigation/data evidence as appropriate.

Decision: _____

Evidence/reason: _____

CHALLENGE SET 04 - REAL-WORLD FOOD SMART DECISIONS

This set contains one challenge from each Food Smart domain. Teachers may run them individually, as stations, or as a term challenge sequence.

FSC-031 - KNOW THE INGREDIENT

Scenario	Your class is exploring a ingredient display. The teacher shows safe pictures or clean examples. Complete a simple know the ingredient challenge.
Your challenge	Look carefully. Match or sort the examples. Choose one good action and tell the teacher why it helps.
Evidence to submit	Pointing/matching, simple sort, drawing, count or one spoken reason.
Success criteria	Recognizes the item or situation; makes a sensible choice; uses one relevant word; handles materials safely.
Extension	Draw what should happen next.
Safety	Use only teacher-approved materials. No tasting is required. Follow school rules for food handling, allergies, handwashing and sanitation. Teachers control knives, heat, electrical equipment, chemicals and processing machinery.
AgriShine connection	Use a garden observation, crop/ingredient example, practical result or journal record wherever it strengthens the decision.
Assessment connection	Score primarily under mission-based problem solving, with supporting knowledge, practical or investigation/data evidence as appropriate.

Decision: _____

Evidence/reason: _____

FSC-032 - BUILD A FOOD JOURNEY

Scenario	Your class is exploring a school lunch scenario. The teacher shows safe pictures or clean examples. Complete a simple build a food journey challenge.
Your challenge	Look carefully. Match or sort the examples. Choose one good action and tell the teacher why it helps.
Evidence to submit	Pointing/matching, simple sort, drawing, count or one spoken reason.
Success criteria	Recognizes the item or situation; makes a sensible choice; uses one relevant word; handles materials safely.
Extension	Draw what should happen next.
Safety	Use only teacher-approved materials. No tasting is required. Follow school rules for food handling, allergies, handwashing and sanitation. Teachers control knives, heat, electrical equipment, chemicals and processing machinery.
AgriShine connection	Use a garden observation, crop/ingredient example, practical result or journal record wherever it strengthens the decision.
Assessment connection	Score primarily under mission-based problem solving, with supporting knowledge, practical or investigation/data evidence as appropriate.

Decision: _____

Evidence/reason: _____

FSC-033 - MAKE A FOOD CHOICE

Scenario	Your class is exploring a water station. The teacher shows safe pictures or clean examples. Complete a simple make a food choice challenge.
Your challenge	Look carefully. Match or sort the examples. Choose one good action and tell the teacher why it helps.
Evidence to submit	Pointing/matching, simple sort, drawing, count or one spoken reason.
Success criteria	Recognizes the item or situation; makes a sensible choice; uses one relevant word; handles materials safely.
Extension	Draw what should happen next.
Safety	Use only teacher-approved materials. No tasting is required. Follow school rules for food handling, allergies, handwashing and sanitation. Teachers control knives, heat, electrical equipment, chemicals and processing machinery.
AgriShine connection	Use a garden observation, crop/ingredient example, practical result or journal record wherever it strengthens the decision.
Assessment connection	Score primarily under mission-based problem solving, with supporting knowledge, practical or investigation/data evidence as appropriate.

Decision: _____

Evidence/reason: _____

FSC-034 - READ THE LABEL

Scenario	Your class is exploring a storage shelf. The teacher shows safe pictures or clean examples. Complete a simple read the label challenge.
Your challenge	Look carefully. Match or sort the examples. Choose one good action and tell the teacher why it helps.
Evidence to submit	Pointing/matching, simple sort, drawing, count or one spoken reason.
Success criteria	Recognizes the item or situation; makes a sensible choice; uses one relevant word; handles materials safely.
Extension	Draw what should happen next.
Safety	Use only teacher-approved materials. No tasting is required. Follow school rules for food handling, allergies, handwashing and sanitation. Teachers control knives, heat, electrical equipment, chemicals and processing machinery.
AgriShine connection	Use a garden observation, crop/ingredient example, practical result or journal record wherever it strengthens the decision.
Assessment connection	Score primarily under mission-based problem solving, with supporting knowledge, practical or investigation/data evidence as appropriate.

Decision: _____

Evidence/reason: _____

FSC-035 - PLAN A MEAL

Scenario	Your class is exploring a market basket. The teacher shows safe pictures or clean examples. Complete a simple plan a meal challenge.
Your challenge	Look carefully. Match or sort the examples. Choose one good action and tell the teacher why it helps.
Evidence to submit	Pointing/matching, simple sort, drawing, count or one spoken reason.
Success criteria	Recognizes the item or situation; makes a sensible choice; uses one relevant word; handles materials safely.
Extension	Draw what should happen next.
Safety	Use only teacher-approved materials. No tasting is required. Follow school rules for food handling, allergies, handwashing and sanitation. Teachers control knives, heat, electrical equipment, chemicals and processing machinery.
AgriShine connection	Use a garden observation, crop/ingredient example, practical result or journal record wherever it strengthens the decision.
Assessment connection	Score primarily under mission-based problem solving, with supporting knowledge, practical or investigation/data evidence as appropriate.

Decision: _____

Evidence/reason: _____

FSC-036 - USE WATER WISELY

Scenario	Your class is exploring a food journey map. The teacher shows safe pictures or clean examples. Complete a simple use water wisely challenge.
Your challenge	Look carefully. Match or sort the examples. Choose one good action and tell the teacher why it helps.
Evidence to submit	Pointing/matching, simple sort, drawing, count or one spoken reason.
Success criteria	Recognizes the item or situation; makes a sensible choice; uses one relevant word; handles materials safely.
Extension	Draw what should happen next.
Safety	Use only teacher-approved materials. No tasting is required. Follow school rules for food handling, allergies, handwashing and sanitation. Teachers control knives, heat, electrical equipment, chemicals and processing machinery.
AgriShine connection	Use a garden observation, crop/ingredient example, practical result or journal record wherever it strengthens the decision.
Assessment connection	Score primarily under mission-based problem solving, with supporting knowledge, practical or investigation/data evidence as appropriate.

Decision: _____

Evidence/reason: _____

FSC-037 - REDUCE FOOD WASTE

Scenario	Your class is exploring a school food-waste station. The teacher shows safe pictures or clean examples. Complete a simple reduce food waste challenge.
Your challenge	Look carefully. Match or sort the examples. Choose one good action and tell the teacher why it helps.
Evidence to submit	Pointing/matching, simple sort, drawing, count or one spoken reason.
Success criteria	Recognizes the item or situation; makes a sensible choice; uses one relevant word; handles materials safely.
Extension	Draw what should happen next.
Safety	Use only teacher-approved materials. No tasting is required. Follow school rules for food handling, allergies, handwashing and sanitation. Teachers control knives, heat, electrical equipment, chemicals and processing machinery.
AgriShine connection	Use a garden observation, crop/ingredient example, practical result or journal record wherever it strengthens the decision.
Assessment connection	Score primarily under mission-based problem solving, with supporting knowledge, practical or investigation/data evidence as appropriate.

Decision: _____

Evidence/reason: _____

FSC-038 - THINK SEASONALLY

Scenario	Your class is exploring a school garden. The teacher shows safe pictures or clean examples. Complete a simple think seasonally challenge.
Your challenge	Look carefully. Match or sort the examples. Choose one good action and tell the teacher why it helps.
Evidence to submit	Pointing/matching, simple sort, drawing, count or one spoken reason.
Success criteria	Recognizes the item or situation; makes a sensible choice; uses one relevant word; handles materials safely.
Extension	Draw what should happen next.
Safety	Use only teacher-approved materials. No tasting is required. Follow school rules for food handling, allergies, handwashing and sanitation. Teachers control knives, heat, electrical equipment, chemicals and processing machinery.
AgriShine connection	Use a garden observation, crop/ingredient example, practical result or journal record wherever it strengthens the decision.
Assessment connection	Score primarily under mission-based problem solving, with supporting knowledge, practical or investigation/data evidence as appropriate.

Decision: _____

Evidence/reason: _____

FSC-039 - STORE & HANDLE RESPONSIBLY

Scenario	Your class is exploring a classroom food table. The teacher shows safe pictures or clean examples. Complete a simple store & handle responsibly challenge.
Your challenge	Look carefully. Match or sort the examples. Choose one good action and tell the teacher why it helps.
Evidence to submit	Pointing/matching, simple sort, drawing, count or one spoken reason.
Success criteria	Recognizes the item or situation; makes a sensible choice; uses one relevant word; handles materials safely.
Extension	Draw what should happen next.
Safety	Use only teacher-approved materials. No tasting is required. Follow school rules for food handling, allergies, handwashing and sanitation. Teachers control knives, heat, electrical equipment, chemicals and processing machinery.
AgriShine connection	Use a garden observation, crop/ingredient example, practical result or journal record wherever it strengthens the decision.
Assessment connection	Score primarily under mission-based problem solving, with supporting knowledge, practical or investigation/data evidence as appropriate.

Decision: _____

Evidence/reason: _____

FSC-040 - SOLVE A FOOD-SYSTEM CHALLENGE

Scenario	Your class is exploring a harvest basket. The teacher shows safe pictures or clean examples. Complete a simple solve a food-system challenge challenge.
Your challenge	Look carefully. Match or sort the examples. Choose one good action and tell the teacher why it helps.
Evidence to submit	Pointing/matching, simple sort, drawing, count or one spoken reason.
Success criteria	Recognizes the item or situation; makes a sensible choice; uses one relevant word; handles materials safely.
Extension	Draw what should happen next.
Safety	Use only teacher-approved materials. No tasting is required. Follow school rules for food handling, allergies, handwashing and sanitation. Teachers control knives, heat, electrical equipment, chemicals and processing machinery.
AgriShine connection	Use a garden observation, crop/ingredient example, practical result or journal record wherever it strengthens the decision.
Assessment connection	Score primarily under mission-based problem solving, with supporting knowledge, practical or investigation/data evidence as appropriate.

Decision: _____

Evidence/reason: _____

CHALLENGE SET 05 - REAL-WORLD FOOD SMART DECISIONS

This set contains one challenge from each Food Smart domain. Teachers may run them individually, as stations, or as a term challenge sequence.

FSC-041 - KNOW THE INGREDIENT

Scenario	Your class is exploring a school lunch scenario. The teacher shows safe pictures or clean examples. Complete a simple know the ingredient challenge.
Your challenge	Look carefully. Match or sort the examples. Choose one good action and tell the teacher why it helps.
Evidence to submit	Pointing/matching, simple sort, drawing, count or one spoken reason.
Success criteria	Recognizes the item or situation; makes a sensible choice; uses one relevant word; handles materials safely.
Extension	Draw what should happen next.
Safety	Use only teacher-approved materials. No tasting is required. Follow school rules for food handling, allergies, handwashing and sanitation. Teachers control knives, heat, electrical equipment, chemicals and processing machinery.
AgriShine connection	Use a garden observation, crop/ingredient example, practical result or journal record wherever it strengthens the decision.
Assessment connection	Score primarily under mission-based problem solving, with supporting knowledge, practical or investigation/data evidence as appropriate.

Decision: _____

Evidence/reason: _____

FSC-042 - BUILD A FOOD JOURNEY

Scenario	Your class is exploring a water station. The teacher shows safe pictures or clean examples. Complete a simple build a food journey challenge.
Your challenge	Look carefully. Match or sort the examples. Choose one good action and tell the teacher why it helps.
Evidence to submit	Pointing/matching, simple sort, drawing, count or one spoken reason.
Success criteria	Recognizes the item or situation; makes a sensible choice; uses one relevant word; handles materials safely.
Extension	Draw what should happen next.
Safety	Use only teacher-approved materials. No tasting is required. Follow school rules for food handling, allergies, handwashing and sanitation. Teachers control knives, heat, electrical equipment, chemicals and processing machinery.
AgriShine connection	Use a garden observation, crop/ingredient example, practical result or journal record wherever it strengthens the decision.
Assessment connection	Score primarily under mission-based problem solving, with supporting knowledge, practical or investigation/data evidence as appropriate.

Decision: _____

Evidence/reason: _____

FSC-043 - MAKE A FOOD CHOICE

Scenario	Your class is exploring a storage shelf. The teacher shows safe pictures or clean examples. Complete a simple make a food choice challenge.
Your challenge	Look carefully. Match or sort the examples. Choose one good action and tell the teacher why it helps.
Evidence to submit	Pointing/matching, simple sort, drawing, count or one spoken reason.
Success criteria	Recognizes the item or situation; makes a sensible choice; uses one relevant word; handles materials safely.
Extension	Draw what should happen next.
Safety	Use only teacher-approved materials. No tasting is required. Follow school rules for food handling, allergies, handwashing and sanitation. Teachers control knives, heat, electrical equipment, chemicals and processing machinery.
AgriShine connection	Use a garden observation, crop/ingredient example, practical result or journal record wherever it strengthens the decision.
Assessment connection	Score primarily under mission-based problem solving, with supporting knowledge, practical or investigation/data evidence as appropriate.

Decision: _____

Evidence/reason: _____

FSC-044 - READ THE LABEL

Scenario	Your class is exploring a market basket. The teacher shows safe pictures or clean examples. Complete a simple read the label challenge.
Your challenge	Look carefully. Match or sort the examples. Choose one good action and tell the teacher why it helps.
Evidence to submit	Pointing/matching, simple sort, drawing, count or one spoken reason.
Success criteria	Recognizes the item or situation; makes a sensible choice; uses one relevant word; handles materials safely.
Extension	Draw what should happen next.
Safety	Use only teacher-approved materials. No tasting is required. Follow school rules for food handling, allergies, handwashing and sanitation. Teachers control knives, heat, electrical equipment, chemicals and processing machinery.
AgriShine connection	Use a garden observation, crop/ingredient example, practical result or journal record wherever it strengthens the decision.
Assessment connection	Score primarily under mission-based problem solving, with supporting knowledge, practical or investigation/data evidence as appropriate.

Decision: _____

Evidence/reason: _____

FSC-045 - PLAN A MEAL

Scenario	Your class is exploring a food journey map. The teacher shows safe pictures or clean examples. Complete a simple plan a meal challenge.
Your challenge	Look carefully. Match or sort the examples. Choose one good action and tell the teacher why it helps.
Evidence to submit	Pointing/matching, simple sort, drawing, count or one spoken reason.
Success criteria	Recognizes the item or situation; makes a sensible choice; uses one relevant word; handles materials safely.
Extension	Draw what should happen next.
Safety	Use only teacher-approved materials. No tasting is required. Follow school rules for food handling, allergies, handwashing and sanitation. Teachers control knives, heat, electrical equipment, chemicals and processing machinery.
AgriShine connection	Use a garden observation, crop/ingredient example, practical result or journal record wherever it strengthens the decision.
Assessment connection	Score primarily under mission-based problem solving, with supporting knowledge, practical or investigation/data evidence as appropriate.

Decision: _____

Evidence/reason: _____

FSC-046 - USE WATER WISELY

Scenario	Your class is exploring a school food-waste station. The teacher shows safe pictures or clean examples. Complete a simple use water wisely challenge.
Your challenge	Look carefully. Match or sort the examples. Choose one good action and tell the teacher why it helps.
Evidence to submit	Pointing/matching, simple sort, drawing, count or one spoken reason.
Success criteria	Recognizes the item or situation; makes a sensible choice; uses one relevant word; handles materials safely.
Extension	Draw what should happen next.
Safety	Use only teacher-approved materials. No tasting is required. Follow school rules for food handling, allergies, handwashing and sanitation. Teachers control knives, heat, electrical equipment, chemicals and processing machinery.
AgriShine connection	Use a garden observation, crop/ingredient example, practical result or journal record wherever it strengthens the decision.
Assessment connection	Score primarily under mission-based problem solving, with supporting knowledge, practical or investigation/data evidence as appropriate.

Decision: _____

Evidence/reason: _____

FSC-047 - REDUCE FOOD WASTE

Scenario	Your class is exploring a school garden. The teacher shows safe pictures or clean examples. Complete a simple reduce food waste challenge.
Your challenge	Look carefully. Match or sort the examples. Choose one good action and tell the teacher why it helps.
Evidence to submit	Pointing/matching, simple sort, drawing, count or one spoken reason.
Success criteria	Recognizes the item or situation; makes a sensible choice; uses one relevant word; handles materials safely.
Extension	Draw what should happen next.
Safety	Use only teacher-approved materials. No tasting is required. Follow school rules for food handling, allergies, handwashing and sanitation. Teachers control knives, heat, electrical equipment, chemicals and processing machinery.
AgriShine connection	Use a garden observation, crop/ingredient example, practical result or journal record wherever it strengthens the decision.
Assessment connection	Score primarily under mission-based problem solving, with supporting knowledge, practical or investigation/data evidence as appropriate.

Decision: _____

Evidence/reason: _____

FSC-048 - THINK SEASONALLY

Scenario	Your class is exploring a classroom food table. The teacher shows safe pictures or clean examples. Complete a simple think seasonally challenge.
Your challenge	Look carefully. Match or sort the examples. Choose one good action and tell the teacher why it helps.
Evidence to submit	Pointing/matching, simple sort, drawing, count or one spoken reason.
Success criteria	Recognizes the item or situation; makes a sensible choice; uses one relevant word; handles materials safely.
Extension	Draw what should happen next.
Safety	Use only teacher-approved materials. No tasting is required. Follow school rules for food handling, allergies, handwashing and sanitation. Teachers control knives, heat, electrical equipment, chemicals and processing machinery.
AgriShine connection	Use a garden observation, crop/ingredient example, practical result or journal record wherever it strengthens the decision.
Assessment connection	Score primarily under mission-based problem solving, with supporting knowledge, practical or investigation/data evidence as appropriate.

Decision: _____

Evidence/reason: _____

FSC-049 - STORE & HANDLE RESPONSIBLY

Scenario	Your class is exploring a harvest basket. The teacher shows safe pictures or clean examples. Complete a simple store & handle responsibly challenge.
Your challenge	Look carefully. Match or sort the examples. Choose one good action and tell the teacher why it helps.
Evidence to submit	Pointing/matching, simple sort, drawing, count or one spoken reason.
Success criteria	Recognizes the item or situation; makes a sensible choice; uses one relevant word; handles materials safely.
Extension	Draw what should happen next.
Safety	Use only teacher-approved materials. No tasting is required. Follow school rules for food handling, allergies, handwashing and sanitation. Teachers control knives, heat, electrical equipment, chemicals and processing machinery.
AgriShine connection	Use a garden observation, crop/ingredient example, practical result or journal record wherever it strengthens the decision.
Assessment connection	Score primarily under mission-based problem solving, with supporting knowledge, practical or investigation/data evidence as appropriate.

Decision: _____

Evidence/reason: _____

FSC-050 - SOLVE A FOOD-SYSTEM CHALLENGE

Scenario	Your class is exploring a ingredient display. The teacher shows safe pictures or clean examples. Complete a simple solve a food-system challenge challenge.
Your challenge	Look carefully. Match or sort the examples. Choose one good action and tell the teacher why it helps.
Evidence to submit	Pointing/matching, simple sort, drawing, count or one spoken reason.
Success criteria	Recognizes the item or situation; makes a sensible choice; uses one relevant word; handles materials safely.
Extension	Draw what should happen next.
Safety	Use only teacher-approved materials. No tasting is required. Follow school rules for food handling, allergies, handwashing and sanitation. Teachers control knives, heat, electrical equipment, chemicals and processing machinery.
AgriShine connection	Use a garden observation, crop/ingredient example, practical result or journal record wherever it strengthens the decision.
Assessment connection	Score primarily under mission-based problem solving, with supporting knowledge, practical or investigation/data evidence as appropriate.

Decision: _____

Evidence/reason: _____

CHALLENGE SET 06 - REAL-WORLD FOOD SMART DECISIONS

This set contains one challenge from each Food Smart domain. Teachers may run them individually, as stations, or as a term challenge sequence.

FSC-051 - KNOW THE INGREDIENT

Scenario	Your class is exploring a water station. The teacher shows safe pictures or clean examples. Complete a simple know the ingredient challenge.
Your challenge	Look carefully. Match or sort the examples. Choose one good action and tell the teacher why it helps.
Evidence to submit	Pointing/matching, simple sort, drawing, count or one spoken reason.
Success criteria	Recognizes the item or situation; makes a sensible choice; uses one relevant word; handles materials safely.
Extension	Draw what should happen next.
Safety	Use only teacher-approved materials. No tasting is required. Follow school rules for food handling, allergies, handwashing and sanitation. Teachers control knives, heat, electrical equipment, chemicals and processing machinery.
AgriShine connection	Use a garden observation, crop/ingredient example, practical result or journal record wherever it strengthens the decision.
Assessment connection	Score primarily under mission-based problem solving, with supporting knowledge, practical or investigation/data evidence as appropriate.

Decision: _____

Evidence/reason: _____

FSC-052 - BUILD A FOOD JOURNEY

Scenario	Your class is exploring a storage shelf. The teacher shows safe pictures or clean examples. Complete a simple build a food journey challenge.
Your challenge	Look carefully. Match or sort the examples. Choose one good action and tell the teacher why it helps.
Evidence to submit	Pointing/matching, simple sort, drawing, count or one spoken reason.
Success criteria	Recognizes the item or situation; makes a sensible choice; uses one relevant word; handles materials safely.
Extension	Draw what should happen next.
Safety	Use only teacher-approved materials. No tasting is required. Follow school rules for food handling, allergies, handwashing and sanitation. Teachers control knives, heat, electrical equipment, chemicals and processing machinery.
AgriShine connection	Use a garden observation, crop/ingredient example, practical result or journal record wherever it strengthens the decision.
Assessment connection	Score primarily under mission-based problem solving, with supporting knowledge, practical or investigation/data evidence as appropriate.

Decision: _____

Evidence/reason: _____

FSC-053 - MAKE A FOOD CHOICE

Scenario	Your class is exploring a market basket. The teacher shows safe pictures or clean examples. Complete a simple make a food choice challenge.
Your challenge	Look carefully. Match or sort the examples. Choose one good action and tell the teacher why it helps.
Evidence to submit	Pointing/matching, simple sort, drawing, count or one spoken reason.
Success criteria	Recognizes the item or situation; makes a sensible choice; uses one relevant word; handles materials safely.
Extension	Draw what should happen next.
Safety	Use only teacher-approved materials. No tasting is required. Follow school rules for food handling, allergies, handwashing and sanitation. Teachers control knives, heat, electrical equipment, chemicals and processing machinery.
AgriShine connection	Use a garden observation, crop/ingredient example, practical result or journal record wherever it strengthens the decision.
Assessment connection	Score primarily under mission-based problem solving, with supporting knowledge, practical or investigation/data evidence as appropriate.

Decision: _____

Evidence/reason: _____

FSC-054 - READ THE LABEL

Scenario	Your class is exploring a food journey map. The teacher shows safe pictures or clean examples. Complete a simple read the label challenge.
Your challenge	Look carefully. Match or sort the examples. Choose one good action and tell the teacher why it helps.
Evidence to submit	Pointing/matching, simple sort, drawing, count or one spoken reason.
Success criteria	Recognizes the item or situation; makes a sensible choice; uses one relevant word; handles materials safely.
Extension	Draw what should happen next.
Safety	Use only teacher-approved materials. No tasting is required. Follow school rules for food handling, allergies, handwashing and sanitation. Teachers control knives, heat, electrical equipment, chemicals and processing machinery.
AgriShine connection	Use a garden observation, crop/ingredient example, practical result or journal record wherever it strengthens the decision.
Assessment connection	Score primarily under mission-based problem solving, with supporting knowledge, practical or investigation/data evidence as appropriate.

Decision: _____

Evidence/reason: _____

FSC-055 - PLAN A MEAL

Scenario	Your class is exploring a school food-waste station. The teacher shows safe pictures or clean examples. Complete a simple plan a meal challenge.
Your challenge	Look carefully. Match or sort the examples. Choose one good action and tell the teacher why it helps.
Evidence to submit	Pointing/matching, simple sort, drawing, count or one spoken reason.
Success criteria	Recognizes the item or situation; makes a sensible choice; uses one relevant word; handles materials safely.
Extension	Draw what should happen next.
Safety	Use only teacher-approved materials. No tasting is required. Follow school rules for food handling, allergies, handwashing and sanitation. Teachers control knives, heat, electrical equipment, chemicals and processing machinery.
AgriShine connection	Use a garden observation, crop/ingredient example, practical result or journal record wherever it strengthens the decision.
Assessment connection	Score primarily under mission-based problem solving, with supporting knowledge, practical or investigation/data evidence as appropriate.

Decision: _____

Evidence/reason: _____

FSC-056 - USE WATER WISELY

Scenario	Your class is exploring a school garden. The teacher shows safe pictures or clean examples. Complete a simple use water wisely challenge.
Your challenge	Look carefully. Match or sort the examples. Choose one good action and tell the teacher why it helps.
Evidence to submit	Pointing/matching, simple sort, drawing, count or one spoken reason.
Success criteria	Recognizes the item or situation; makes a sensible choice; uses one relevant word; handles materials safely.
Extension	Draw what should happen next.
Safety	Use only teacher-approved materials. No tasting is required. Follow school rules for food handling, allergies, handwashing and sanitation. Teachers control knives, heat, electrical equipment, chemicals and processing machinery.
AgriShine connection	Use a garden observation, crop/ingredient example, practical result or journal record wherever it strengthens the decision.
Assessment connection	Score primarily under mission-based problem solving, with supporting knowledge, practical or investigation/data evidence as appropriate.

Decision: _____

Evidence/reason: _____

FSC-057 - REDUCE FOOD WASTE

Scenario	Your class is exploring a classroom food table. The teacher shows safe pictures or clean examples. Complete a simple reduce food waste challenge.
Your challenge	Look carefully. Match or sort the examples. Choose one good action and tell the teacher why it helps.
Evidence to submit	Pointing/matching, simple sort, drawing, count or one spoken reason.
Success criteria	Recognizes the item or situation; makes a sensible choice; uses one relevant word; handles materials safely.
Extension	Draw what should happen next.
Safety	Use only teacher-approved materials. No tasting is required. Follow school rules for food handling, allergies, handwashing and sanitation. Teachers control knives, heat, electrical equipment, chemicals and processing machinery.
AgriShine connection	Use a garden observation, crop/ingredient example, practical result or journal record wherever it strengthens the decision.
Assessment connection	Score primarily under mission-based problem solving, with supporting knowledge, practical or investigation/data evidence as appropriate.

Decision: _____

Evidence/reason: _____

FSC-058 - THINK SEASONALLY

Scenario	Your class is exploring a harvest basket. The teacher shows safe pictures or clean examples. Complete a simple think seasonally challenge.
Your challenge	Look carefully. Match or sort the examples. Choose one good action and tell the teacher why it helps.
Evidence to submit	Pointing/matching, simple sort, drawing, count or one spoken reason.
Success criteria	Recognizes the item or situation; makes a sensible choice; uses one relevant word; handles materials safely.
Extension	Draw what should happen next.
Safety	Use only teacher-approved materials. No tasting is required. Follow school rules for food handling, allergies, handwashing and sanitation. Teachers control knives, heat, electrical equipment, chemicals and processing machinery.
AgriShine connection	Use a garden observation, crop/ingredient example, practical result or journal record wherever it strengthens the decision.
Assessment connection	Score primarily under mission-based problem solving, with supporting knowledge, practical or investigation/data evidence as appropriate.

Decision: _____

Evidence/reason: _____

FSC-059 - STORE & HANDLE RESPONSIBLY

Scenario	Your class is exploring a ingredient display. The teacher shows safe pictures or clean examples. Complete a simple store & handle responsibly challenge.
Your challenge	Look carefully. Match or sort the examples. Choose one good action and tell the teacher why it helps.
Evidence to submit	Pointing/matching, simple sort, drawing, count or one spoken reason.
Success criteria	Recognizes the item or situation; makes a sensible choice; uses one relevant word; handles materials safely.
Extension	Draw what should happen next.
Safety	Use only teacher-approved materials. No tasting is required. Follow school rules for food handling, allergies, handwashing and sanitation. Teachers control knives, heat, electrical equipment, chemicals and processing machinery.
AgriShine connection	Use a garden observation, crop/ingredient example, practical result or journal record wherever it strengthens the decision.
Assessment connection	Score primarily under mission-based problem solving, with supporting knowledge, practical or investigation/data evidence as appropriate.

Decision: _____

Evidence/reason: _____

FSC-060 - SOLVE A FOOD-SYSTEM CHALLENGE

Scenario	Your class is exploring a school lunch scenario. The teacher shows safe pictures or clean examples. Complete a simple solve a food-system challenge challenge.
Your challenge	Look carefully. Match or sort the examples. Choose one good action and tell the teacher why it helps.
Evidence to submit	Pointing/matching, simple sort, drawing, count or one spoken reason.
Success criteria	Recognizes the item or situation; makes a sensible choice; uses one relevant word; handles materials safely.
Extension	Draw what should happen next.
Safety	Use only teacher-approved materials. No tasting is required. Follow school rules for food handling, allergies, handwashing and sanitation. Teachers control knives, heat, electrical equipment, chemicals and processing machinery.
AgriShine connection	Use a garden observation, crop/ingredient example, practical result or journal record wherever it strengthens the decision.
Assessment connection	Score primarily under mission-based problem solving, with supporting knowledge, practical or investigation/data evidence as appropriate.

Decision: _____

Evidence/reason: _____

CHALLENGE SET 07 - REAL-WORLD FOOD SMART DECISIONS

This set contains one challenge from each Food Smart domain. Teachers may run them individually, as stations, or as a term challenge sequence.

FSC-061 - KNOW THE INGREDIENT

Scenario	Your class is exploring a storage shelf. The teacher shows safe pictures or clean examples. Complete a simple know the ingredient challenge.
Your challenge	Look carefully. Match or sort the examples. Choose one good action and tell the teacher why it helps.
Evidence to submit	Pointing/matching, simple sort, drawing, count or one spoken reason.
Success criteria	Recognizes the item or situation; makes a sensible choice; uses one relevant word; handles materials safely.
Extension	Draw what should happen next.
Safety	Use only teacher-approved materials. No tasting is required. Follow school rules for food handling, allergies, handwashing and sanitation. Teachers control knives, heat, electrical equipment, chemicals and processing machinery.
AgriShine connection	Use a garden observation, crop/ingredient example, practical result or journal record wherever it strengthens the decision.
Assessment connection	Score primarily under mission-based problem solving, with supporting knowledge, practical or investigation/data evidence as appropriate.

Decision: _____

Evidence/reason: _____

FSC-062 - BUILD A FOOD JOURNEY

Scenario	Your class is exploring a market basket. The teacher shows safe pictures or clean examples. Complete a simple build a food journey challenge.
Your challenge	Look carefully. Match or sort the examples. Choose one good action and tell the teacher why it helps.
Evidence to submit	Pointing/matching, simple sort, drawing, count or one spoken reason.
Success criteria	Recognizes the item or situation; makes a sensible choice; uses one relevant word; handles materials safely.
Extension	Draw what should happen next.
Safety	Use only teacher-approved materials. No tasting is required. Follow school rules for food handling, allergies, handwashing and sanitation. Teachers control knives, heat, electrical equipment, chemicals and processing machinery.
AgriShine connection	Use a garden observation, crop/ingredient example, practical result or journal record wherever it strengthens the decision.
Assessment connection	Score primarily under mission-based problem solving, with supporting knowledge, practical or investigation/data evidence as appropriate.

Decision: _____

Evidence/reason: _____

FSC-063 - MAKE A FOOD CHOICE

Scenario	Your class is exploring a food journey map. The teacher shows safe pictures or clean examples. Complete a simple make a food choice challenge.
Your challenge	Look carefully. Match or sort the examples. Choose one good action and tell the teacher why it helps.
Evidence to submit	Pointing/matching, simple sort, drawing, count or one spoken reason.
Success criteria	Recognizes the item or situation; makes a sensible choice; uses one relevant word; handles materials safely.
Extension	Draw what should happen next.
Safety	Use only teacher-approved materials. No tasting is required. Follow school rules for food handling, allergies, handwashing and sanitation. Teachers control knives, heat, electrical equipment, chemicals and processing machinery.
AgriShine connection	Use a garden observation, crop/ingredient example, practical result or journal record wherever it strengthens the decision.
Assessment connection	Score primarily under mission-based problem solving, with supporting knowledge, practical or investigation/data evidence as appropriate.

Decision: _____

Evidence/reason: _____

FSC-064 - READ THE LABEL

Scenario	Your class is exploring a school food-waste station. The teacher shows safe pictures or clean examples. Complete a simple read the label challenge.
Your challenge	Look carefully. Match or sort the examples. Choose one good action and tell the teacher why it helps.
Evidence to submit	Pointing/matching, simple sort, drawing, count or one spoken reason.
Success criteria	Recognizes the item or situation; makes a sensible choice; uses one relevant word; handles materials safely.
Extension	Draw what should happen next.
Safety	Use only teacher-approved materials. No tasting is required. Follow school rules for food handling, allergies, handwashing and sanitation. Teachers control knives, heat, electrical equipment, chemicals and processing machinery.
AgriShine connection	Use a garden observation, crop/ingredient example, practical result or journal record wherever it strengthens the decision.
Assessment connection	Score primarily under mission-based problem solving, with supporting knowledge, practical or investigation/data evidence as appropriate.

Decision: _____

Evidence/reason: _____

FSC-065 - PLAN A MEAL

Scenario	Your class is exploring a school garden. The teacher shows safe pictures or clean examples. Complete a simple plan a meal challenge.
Your challenge	Look carefully. Match or sort the examples. Choose one good action and tell the teacher why it helps.
Evidence to submit	Pointing/matching, simple sort, drawing, count or one spoken reason.
Success criteria	Recognizes the item or situation; makes a sensible choice; uses one relevant word; handles materials safely.
Extension	Draw what should happen next.
Safety	Use only teacher-approved materials. No tasting is required. Follow school rules for food handling, allergies, handwashing and sanitation. Teachers control knives, heat, electrical equipment, chemicals and processing machinery.
AgriShine connection	Use a garden observation, crop/ingredient example, practical result or journal record wherever it strengthens the decision.
Assessment connection	Score primarily under mission-based problem solving, with supporting knowledge, practical or investigation/data evidence as appropriate.

Decision: _____

Evidence/reason: _____

FSC-066 - USE WATER WISELY

Scenario	Your class is exploring a classroom food table. The teacher shows safe pictures or clean examples. Complete a simple use water wisely challenge.
Your challenge	Look carefully. Match or sort the examples. Choose one good action and tell the teacher why it helps.
Evidence to submit	Pointing/matching, simple sort, drawing, count or one spoken reason.
Success criteria	Recognizes the item or situation; makes a sensible choice; uses one relevant word; handles materials safely.
Extension	Draw what should happen next.
Safety	Use only teacher-approved materials. No tasting is required. Follow school rules for food handling, allergies, handwashing and sanitation. Teachers control knives, heat, electrical equipment, chemicals and processing machinery.
AgriShine connection	Use a garden observation, crop/ingredient example, practical result or journal record wherever it strengthens the decision.
Assessment connection	Score primarily under mission-based problem solving, with supporting knowledge, practical or investigation/data evidence as appropriate.

Decision: _____

Evidence/reason: _____

FSC-067 - REDUCE FOOD WASTE

Scenario	Your class is exploring a harvest basket. The teacher shows safe pictures or clean examples. Complete a simple reduce food waste challenge.
Your challenge	Look carefully. Match or sort the examples. Choose one good action and tell the teacher why it helps.
Evidence to submit	Pointing/matching, simple sort, drawing, count or one spoken reason.
Success criteria	Recognizes the item or situation; makes a sensible choice; uses one relevant word; handles materials safely.
Extension	Draw what should happen next.
Safety	Use only teacher-approved materials. No tasting is required. Follow school rules for food handling, allergies, handwashing and sanitation. Teachers control knives, heat, electrical equipment, chemicals and processing machinery.
AgriShine connection	Use a garden observation, crop/ingredient example, practical result or journal record wherever it strengthens the decision.
Assessment connection	Score primarily under mission-based problem solving, with supporting knowledge, practical or investigation/data evidence as appropriate.

Decision: _____

Evidence/reason: _____

FSC-068 - THINK SEASONALLY

Scenario	Your class is exploring a ingredient display. The teacher shows safe pictures or clean examples. Complete a simple think seasonally challenge.
Your challenge	Look carefully. Match or sort the examples. Choose one good action and tell the teacher why it helps.
Evidence to submit	Pointing/matching, simple sort, drawing, count or one spoken reason.
Success criteria	Recognizes the item or situation; makes a sensible choice; uses one relevant word; handles materials safely.
Extension	Draw what should happen next.
Safety	Use only teacher-approved materials. No tasting is required. Follow school rules for food handling, allergies, handwashing and sanitation. Teachers control knives, heat, electrical equipment, chemicals and processing machinery.
AgriShine connection	Use a garden observation, crop/ingredient example, practical result or journal record wherever it strengthens the decision.
Assessment connection	Score primarily under mission-based problem solving, with supporting knowledge, practical or investigation/data evidence as appropriate.

Decision: _____

Evidence/reason: _____

FSC-069 - STORE & HANDLE RESPONSIBLY

Scenario	Your class is exploring a school lunch scenario. The teacher shows safe pictures or clean examples. Complete a simple store & handle responsibly challenge.
Your challenge	Look carefully. Match or sort the examples. Choose one good action and tell the teacher why it helps.
Evidence to submit	Pointing/matching, simple sort, drawing, count or one spoken reason.
Success criteria	Recognizes the item or situation; makes a sensible choice; uses one relevant word; handles materials safely.
Extension	Draw what should happen next.
Safety	Use only teacher-approved materials. No tasting is required. Follow school rules for food handling, allergies, handwashing and sanitation. Teachers control knives, heat, electrical equipment, chemicals and processing machinery.
AgriShine connection	Use a garden observation, crop/ingredient example, practical result or journal record wherever it strengthens the decision.
Assessment connection	Score primarily under mission-based problem solving, with supporting knowledge, practical or investigation/data evidence as appropriate.

Decision: _____

Evidence/reason: _____

FSC-070 - SOLVE A FOOD-SYSTEM CHALLENGE

Scenario	Your class is exploring a water station. The teacher shows safe pictures or clean examples. Complete a simple solve a food-system challenge challenge.
Your challenge	Look carefully. Match or sort the examples. Choose one good action and tell the teacher why it helps.
Evidence to submit	Pointing/matching, simple sort, drawing, count or one spoken reason.
Success criteria	Recognizes the item or situation; makes a sensible choice; uses one relevant word; handles materials safely.
Extension	Draw what should happen next.
Safety	Use only teacher-approved materials. No tasting is required. Follow school rules for food handling, allergies, handwashing and sanitation. Teachers control knives, heat, electrical equipment, chemicals and processing machinery.
AgriShine connection	Use a garden observation, crop/ingredient example, practical result or journal record wherever it strengthens the decision.
Assessment connection	Score primarily under mission-based problem solving, with supporting knowledge, practical or investigation/data evidence as appropriate.

Decision: _____

Evidence/reason: _____

CHALLENGE SET 08 - REAL-WORLD FOOD SMART DECISIONS

This set contains one challenge from each Food Smart domain. Teachers may run them individually, as stations, or as a term challenge sequence.

FSC-071 - KNOW THE INGREDIENT

Scenario	Your class is exploring a market basket. The teacher shows safe pictures or clean examples. Complete a simple know the ingredient challenge.
Your challenge	Look carefully. Match or sort the examples. Choose one good action and tell the teacher why it helps.
Evidence to submit	Pointing/matching, simple sort, drawing, count or one spoken reason.
Success criteria	Recognizes the item or situation; makes a sensible choice; uses one relevant word; handles materials safely.
Extension	Draw what should happen next.
Safety	Use only teacher-approved materials. No tasting is required. Follow school rules for food handling, allergies, handwashing and sanitation. Teachers control knives, heat, electrical equipment, chemicals and processing machinery.
AgriShine connection	Use a garden observation, crop/ingredient example, practical result or journal record wherever it strengthens the decision.
Assessment connection	Score primarily under mission-based problem solving, with supporting knowledge, practical or investigation/data evidence as appropriate.

Decision: _____

Evidence/reason: _____

FSC-072 - BUILD A FOOD JOURNEY

Scenario	Your class is exploring a food journey map. The teacher shows safe pictures or clean examples. Complete a simple build a food journey challenge.
Your challenge	Look carefully. Match or sort the examples. Choose one good action and tell the teacher why it helps.
Evidence to submit	Pointing/matching, simple sort, drawing, count or one spoken reason.
Success criteria	Recognizes the item or situation; makes a sensible choice; uses one relevant word; handles materials safely.
Extension	Draw what should happen next.
Safety	Use only teacher-approved materials. No tasting is required. Follow school rules for food handling, allergies, handwashing and sanitation. Teachers control knives, heat, electrical equipment, chemicals and processing machinery.
AgriShine connection	Use a garden observation, crop/ingredient example, practical result or journal record wherever it strengthens the decision.
Assessment connection	Score primarily under mission-based problem solving, with supporting knowledge, practical or investigation/data evidence as appropriate.

Decision: _____

Evidence/reason: _____

FSC-073 - MAKE A FOOD CHOICE

Scenario	Your class is exploring a school food-waste station. The teacher shows safe pictures or clean examples. Complete a simple make a food choice challenge.
Your challenge	Look carefully. Match or sort the examples. Choose one good action and tell the teacher why it helps.
Evidence to submit	Pointing/matching, simple sort, drawing, count or one spoken reason.
Success criteria	Recognizes the item or situation; makes a sensible choice; uses one relevant word; handles materials safely.
Extension	Draw what should happen next.
Safety	Use only teacher-approved materials. No tasting is required. Follow school rules for food handling, allergies, handwashing and sanitation. Teachers control knives, heat, electrical equipment, chemicals and processing machinery.
AgriShine connection	Use a garden observation, crop/ingredient example, practical result or journal record wherever it strengthens the decision.
Assessment connection	Score primarily under mission-based problem solving, with supporting knowledge, practical or investigation/data evidence as appropriate.

Decision: _____

Evidence/reason: _____

FSC-074 - READ THE LABEL

Scenario	Your class is exploring a school garden. The teacher shows safe pictures or clean examples. Complete a simple read the label challenge.
Your challenge	Look carefully. Match or sort the examples. Choose one good action and tell the teacher why it helps.
Evidence to submit	Pointing/matching, simple sort, drawing, count or one spoken reason.
Success criteria	Recognizes the item or situation; makes a sensible choice; uses one relevant word; handles materials safely.
Extension	Draw what should happen next.
Safety	Use only teacher-approved materials. No tasting is required. Follow school rules for food handling, allergies, handwashing and sanitation. Teachers control knives, heat, electrical equipment, chemicals and processing machinery.
AgriShine connection	Use a garden observation, crop/ingredient example, practical result or journal record wherever it strengthens the decision.
Assessment connection	Score primarily under mission-based problem solving, with supporting knowledge, practical or investigation/data evidence as appropriate.

Decision: _____

Evidence/reason: _____

FSC-075 - PLAN A MEAL

Scenario	Your class is exploring a classroom food table. The teacher shows safe pictures or clean examples. Complete a simple plan a meal challenge.
Your challenge	Look carefully. Match or sort the examples. Choose one good action and tell the teacher why it helps.
Evidence to submit	Pointing/matching, simple sort, drawing, count or one spoken reason.
Success criteria	Recognizes the item or situation; makes a sensible choice; uses one relevant word; handles materials safely.
Extension	Draw what should happen next.
Safety	Use only teacher-approved materials. No tasting is required. Follow school rules for food handling, allergies, handwashing and sanitation. Teachers control knives, heat, electrical equipment, chemicals and processing machinery.
AgriShine connection	Use a garden observation, crop/ingredient example, practical result or journal record wherever it strengthens the decision.
Assessment connection	Score primarily under mission-based problem solving, with supporting knowledge, practical or investigation/data evidence as appropriate.

Decision: _____

Evidence/reason: _____

FSC-076 - USE WATER WISELY

Scenario	Your class is exploring a harvest basket. The teacher shows safe pictures or clean examples. Complete a simple use water wisely challenge.
Your challenge	Look carefully. Match or sort the examples. Choose one good action and tell the teacher why it helps.
Evidence to submit	Pointing/matching, simple sort, drawing, count or one spoken reason.
Success criteria	Recognizes the item or situation; makes a sensible choice; uses one relevant word; handles materials safely.
Extension	Draw what should happen next.
Safety	Use only teacher-approved materials. No tasting is required. Follow school rules for food handling, allergies, handwashing and sanitation. Teachers control knives, heat, electrical equipment, chemicals and processing machinery.
AgriShine connection	Use a garden observation, crop/ingredient example, practical result or journal record wherever it strengthens the decision.
Assessment connection	Score primarily under mission-based problem solving, with supporting knowledge, practical or investigation/data evidence as appropriate.

Decision: _____

Evidence/reason: _____

FSC-077 - REDUCE FOOD WASTE

Scenario	Your class is exploring a ingredient display. The teacher shows safe pictures or clean examples. Complete a simple reduce food waste challenge.
Your challenge	Look carefully. Match or sort the examples. Choose one good action and tell the teacher why it helps.
Evidence to submit	Pointing/matching, simple sort, drawing, count or one spoken reason.
Success criteria	Recognizes the item or situation; makes a sensible choice; uses one relevant word; handles materials safely.
Extension	Draw what should happen next.
Safety	Use only teacher-approved materials. No tasting is required. Follow school rules for food handling, allergies, handwashing and sanitation. Teachers control knives, heat, electrical equipment, chemicals and processing machinery.
AgriShine connection	Use a garden observation, crop/ingredient example, practical result or journal record wherever it strengthens the decision.
Assessment connection	Score primarily under mission-based problem solving, with supporting knowledge, practical or investigation/data evidence as appropriate.

Decision: _____

Evidence/reason: _____

FSC-078 - THINK SEASONALLY

Scenario	Your class is exploring a school lunch scenario. The teacher shows safe pictures or clean examples. Complete a simple think seasonally challenge.
Your challenge	Look carefully. Match or sort the examples. Choose one good action and tell the teacher why it helps.
Evidence to submit	Pointing/matching, simple sort, drawing, count or one spoken reason.
Success criteria	Recognizes the item or situation; makes a sensible choice; uses one relevant word; handles materials safely.
Extension	Draw what should happen next.
Safety	Use only teacher-approved materials. No tasting is required. Follow school rules for food handling, allergies, handwashing and sanitation. Teachers control knives, heat, electrical equipment, chemicals and processing machinery.
AgriShine connection	Use a garden observation, crop/ingredient example, practical result or journal record wherever it strengthens the decision.
Assessment connection	Score primarily under mission-based problem solving, with supporting knowledge, practical or investigation/data evidence as appropriate.

Decision: _____

Evidence/reason: _____

FSC-079 - STORE & HANDLE RESPONSIBLY

Scenario	Your class is exploring a water station. The teacher shows safe pictures or clean examples. Complete a simple store & handle responsibly challenge.
Your challenge	Look carefully. Match or sort the examples. Choose one good action and tell the teacher why it helps.
Evidence to submit	Pointing/matching, simple sort, drawing, count or one spoken reason.
Success criteria	Recognizes the item or situation; makes a sensible choice; uses one relevant word; handles materials safely.
Extension	Draw what should happen next.
Safety	Use only teacher-approved materials. No tasting is required. Follow school rules for food handling, allergies, handwashing and sanitation. Teachers control knives, heat, electrical equipment, chemicals and processing machinery.
AgriShine connection	Use a garden observation, crop/ingredient example, practical result or journal record wherever it strengthens the decision.
Assessment connection	Score primarily under mission-based problem solving, with supporting knowledge, practical or investigation/data evidence as appropriate.

Decision: _____

Evidence/reason: _____

FSC-080 - SOLVE A FOOD-SYSTEM CHALLENGE

Scenario	Your class is exploring a storage shelf. The teacher shows safe pictures or clean examples. Complete a simple solve a food-system challenge challenge.
Your challenge	Look carefully. Match or sort the examples. Choose one good action and tell the teacher why it helps.
Evidence to submit	Pointing/matching, simple sort, drawing, count or one spoken reason.
Success criteria	Recognizes the item or situation; makes a sensible choice; uses one relevant word; handles materials safely.
Extension	Draw what should happen next.
Safety	Use only teacher-approved materials. No tasting is required. Follow school rules for food handling, allergies, handwashing and sanitation. Teachers control knives, heat, electrical equipment, chemicals and processing machinery.
AgriShine connection	Use a garden observation, crop/ingredient example, practical result or journal record wherever it strengthens the decision.
Assessment connection	Score primarily under mission-based problem solving, with supporting knowledge, practical or investigation/data evidence as appropriate.

Decision: _____

Evidence/reason: _____

CHALLENGE SET 09 - REAL-WORLD FOOD SMART DECISIONS

This set contains one challenge from each Food Smart domain. Teachers may run them individually, as stations, or as a term challenge sequence.

FSC-081 - KNOW THE INGREDIENT

Scenario	Your class is exploring a food journey map. The teacher shows safe pictures or clean examples. Complete a simple know the ingredient challenge.
Your challenge	Look carefully. Match or sort the examples. Choose one good action and tell the teacher why it helps.
Evidence to submit	Pointing/matching, simple sort, drawing, count or one spoken reason.
Success criteria	Recognizes the item or situation; makes a sensible choice; uses one relevant word; handles materials safely.
Extension	Draw what should happen next.
Safety	Use only teacher-approved materials. No tasting is required. Follow school rules for food handling, allergies, handwashing and sanitation. Teachers control knives, heat, electrical equipment, chemicals and processing machinery.
AgriShine connection	Use a garden observation, crop/ingredient example, practical result or journal record wherever it strengthens the decision.
Assessment connection	Score primarily under mission-based problem solving, with supporting knowledge, practical or investigation/data evidence as appropriate.

Decision: _____

Evidence/reason: _____

FSC-082 - BUILD A FOOD JOURNEY

Scenario	Your class is exploring a school food-waste station. The teacher shows safe pictures or clean examples. Complete a simple build a food journey challenge.
Your challenge	Look carefully. Match or sort the examples. Choose one good action and tell the teacher why it helps.
Evidence to submit	Pointing/matching, simple sort, drawing, count or one spoken reason.
Success criteria	Recognizes the item or situation; makes a sensible choice; uses one relevant word; handles materials safely.
Extension	Draw what should happen next.
Safety	Use only teacher-approved materials. No tasting is required. Follow school rules for food handling, allergies, handwashing and sanitation. Teachers control knives, heat, electrical equipment, chemicals and processing machinery.
AgriShine connection	Use a garden observation, crop/ingredient example, practical result or journal record wherever it strengthens the decision.
Assessment connection	Score primarily under mission-based problem solving, with supporting knowledge, practical or investigation/data evidence as appropriate.

Decision: _____

Evidence/reason: _____

FSC-083 - MAKE A FOOD CHOICE

Scenario	Your class is exploring a school garden. The teacher shows safe pictures or clean examples. Complete a simple make a food choice challenge.
Your challenge	Look carefully. Match or sort the examples. Choose one good action and tell the teacher why it helps.
Evidence to submit	Pointing/matching, simple sort, drawing, count or one spoken reason.
Success criteria	Recognizes the item or situation; makes a sensible choice; uses one relevant word; handles materials safely.
Extension	Draw what should happen next.
Safety	Use only teacher-approved materials. No tasting is required. Follow school rules for food handling, allergies, handwashing and sanitation. Teachers control knives, heat, electrical equipment, chemicals and processing machinery.
AgriShine connection	Use a garden observation, crop/ingredient example, practical result or journal record wherever it strengthens the decision.
Assessment connection	Score primarily under mission-based problem solving, with supporting knowledge, practical or investigation/data evidence as appropriate.

Decision: _____

Evidence/reason: _____

FSC-084 - READ THE LABEL

Scenario	Your class is exploring a classroom food table. The teacher shows safe pictures or clean examples. Complete a simple read the label challenge.
Your challenge	Look carefully. Match or sort the examples. Choose one good action and tell the teacher why it helps.
Evidence to submit	Pointing/matching, simple sort, drawing, count or one spoken reason.
Success criteria	Recognizes the item or situation; makes a sensible choice; uses one relevant word; handles materials safely.
Extension	Draw what should happen next.
Safety	Use only teacher-approved materials. No tasting is required. Follow school rules for food handling, allergies, handwashing and sanitation. Teachers control knives, heat, electrical equipment, chemicals and processing machinery.
AgriShine connection	Use a garden observation, crop/ingredient example, practical result or journal record wherever it strengthens the decision.
Assessment connection	Score primarily under mission-based problem solving, with supporting knowledge, practical or investigation/data evidence as appropriate.

Decision: _____

Evidence/reason: _____

FSC-085 - PLAN A MEAL

Scenario	Your class is exploring a harvest basket. The teacher shows safe pictures or clean examples. Complete a simple plan a meal challenge.
Your challenge	Look carefully. Match or sort the examples. Choose one good action and tell the teacher why it helps.
Evidence to submit	Pointing/matching, simple sort, drawing, count or one spoken reason.
Success criteria	Recognizes the item or situation; makes a sensible choice; uses one relevant word; handles materials safely.
Extension	Draw what should happen next.
Safety	Use only teacher-approved materials. No tasting is required. Follow school rules for food handling, allergies, handwashing and sanitation. Teachers control knives, heat, electrical equipment, chemicals and processing machinery.
AgriShine connection	Use a garden observation, crop/ingredient example, practical result or journal record wherever it strengthens the decision.
Assessment connection	Score primarily under mission-based problem solving, with supporting knowledge, practical or investigation/data evidence as appropriate.

Decision: _____

Evidence/reason: _____

FSC-086 - USE WATER WISELY

Scenario	Your class is exploring a ingredient display. The teacher shows safe pictures or clean examples. Complete a simple use water wisely challenge.
Your challenge	Look carefully. Match or sort the examples. Choose one good action and tell the teacher why it helps.
Evidence to submit	Pointing/matching, simple sort, drawing, count or one spoken reason.
Success criteria	Recognizes the item or situation; makes a sensible choice; uses one relevant word; handles materials safely.
Extension	Draw what should happen next.
Safety	Use only teacher-approved materials. No tasting is required. Follow school rules for food handling, allergies, handwashing and sanitation. Teachers control knives, heat, electrical equipment, chemicals and processing machinery.
AgriShine connection	Use a garden observation, crop/ingredient example, practical result or journal record wherever it strengthens the decision.
Assessment connection	Score primarily under mission-based problem solving, with supporting knowledge, practical or investigation/data evidence as appropriate.

Decision: _____

Evidence/reason: _____

FSC-087 - REDUCE FOOD WASTE

Scenario	Your class is exploring a school lunch scenario. The teacher shows safe pictures or clean examples. Complete a simple reduce food waste challenge.
Your challenge	Look carefully. Match or sort the examples. Choose one good action and tell the teacher why it helps.
Evidence to submit	Pointing/matching, simple sort, drawing, count or one spoken reason.
Success criteria	Recognizes the item or situation; makes a sensible choice; uses one relevant word; handles materials safely.
Extension	Draw what should happen next.
Safety	Use only teacher-approved materials. No tasting is required. Follow school rules for food handling, allergies, handwashing and sanitation. Teachers control knives, heat, electrical equipment, chemicals and processing machinery.
AgriShine connection	Use a garden observation, crop/ingredient example, practical result or journal record wherever it strengthens the decision.
Assessment connection	Score primarily under mission-based problem solving, with supporting knowledge, practical or investigation/data evidence as appropriate.

Decision: _____

Evidence/reason: _____

FSC-088 - THINK SEASONALLY

Scenario	Your class is exploring a water station. The teacher shows safe pictures or clean examples. Complete a simple think seasonally challenge.
Your challenge	Look carefully. Match or sort the examples. Choose one good action and tell the teacher why it helps.
Evidence to submit	Pointing/matching, simple sort, drawing, count or one spoken reason.
Success criteria	Recognizes the item or situation; makes a sensible choice; uses one relevant word; handles materials safely.
Extension	Draw what should happen next.
Safety	Use only teacher-approved materials. No tasting is required. Follow school rules for food handling, allergies, handwashing and sanitation. Teachers control knives, heat, electrical equipment, chemicals and processing machinery.
AgriShine connection	Use a garden observation, crop/ingredient example, practical result or journal record wherever it strengthens the decision.
Assessment connection	Score primarily under mission-based problem solving, with supporting knowledge, practical or investigation/data evidence as appropriate.

Decision: _____

Evidence/reason: _____

FSC-089 - STORE & HANDLE RESPONSIBLY

Scenario	Your class is exploring a storage shelf. The teacher shows safe pictures or clean examples. Complete a simple store & handle responsibly challenge.
Your challenge	Look carefully. Match or sort the examples. Choose one good action and tell the teacher why it helps.
Evidence to submit	Pointing/matching, simple sort, drawing, count or one spoken reason.
Success criteria	Recognizes the item or situation; makes a sensible choice; uses one relevant word; handles materials safely.
Extension	Draw what should happen next.
Safety	Use only teacher-approved materials. No tasting is required. Follow school rules for food handling, allergies, handwashing and sanitation. Teachers control knives, heat, electrical equipment, chemicals and processing machinery.
AgriShine connection	Use a garden observation, crop/ingredient example, practical result or journal record wherever it strengthens the decision.
Assessment connection	Score primarily under mission-based problem solving, with supporting knowledge, practical or investigation/data evidence as appropriate.

Decision: _____

Evidence/reason: _____

FSC-090 - SOLVE A FOOD-SYSTEM CHALLENGE

Scenario	Your class is exploring a market basket. The teacher shows safe pictures or clean examples. Complete a simple solve a food-system challenge challenge.
Your challenge	Look carefully. Match or sort the examples. Choose one good action and tell the teacher why it helps.
Evidence to submit	Pointing/matching, simple sort, drawing, count or one spoken reason.
Success criteria	Recognizes the item or situation; makes a sensible choice; uses one relevant word; handles materials safely.
Extension	Draw what should happen next.
Safety	Use only teacher-approved materials. No tasting is required. Follow school rules for food handling, allergies, handwashing and sanitation. Teachers control knives, heat, electrical equipment, chemicals and processing machinery.
AgriShine connection	Use a garden observation, crop/ingredient example, practical result or journal record wherever it strengthens the decision.
Assessment connection	Score primarily under mission-based problem solving, with supporting knowledge, practical or investigation/data evidence as appropriate.

Decision: _____

Evidence/reason: _____

CHALLENGE SET 10 - REAL-WORLD FOOD SMART DECISIONS

This set contains one challenge from each Food Smart domain. Teachers may run them individually, as stations, or as a term challenge sequence.

FSC-091 - KNOW THE INGREDIENT

Scenario	Your class is exploring a school food-waste station. The teacher shows safe pictures or clean examples. Complete a simple know the ingredient challenge.
Your challenge	Look carefully. Match or sort the examples. Choose one good action and tell the teacher why it helps.
Evidence to submit	Pointing/matching, simple sort, drawing, count or one spoken reason.
Success criteria	Recognizes the item or situation; makes a sensible choice; uses one relevant word; handles materials safely.
Extension	Draw what should happen next.
Safety	Use only teacher-approved materials. No tasting is required. Follow school rules for food handling, allergies, handwashing and sanitation. Teachers control knives, heat, electrical equipment, chemicals and processing machinery.
AgriShine connection	Use a garden observation, crop/ingredient example, practical result or journal record wherever it strengthens the decision.
Assessment connection	Score primarily under mission-based problem solving, with supporting knowledge, practical or investigation/data evidence as appropriate.

Decision: _____

Evidence/reason: _____

FSC-092 - BUILD A FOOD JOURNEY

Scenario	Your class is exploring a school garden. The teacher shows safe pictures or clean examples. Complete a simple build a food journey challenge.
Your challenge	Look carefully. Match or sort the examples. Choose one good action and tell the teacher why it helps.
Evidence to submit	Pointing/matching, simple sort, drawing, count or one spoken reason.
Success criteria	Recognizes the item or situation; makes a sensible choice; uses one relevant word; handles materials safely.
Extension	Draw what should happen next.
Safety	Use only teacher-approved materials. No tasting is required. Follow school rules for food handling, allergies, handwashing and sanitation. Teachers control knives, heat, electrical equipment, chemicals and processing machinery.
AgriShine connection	Use a garden observation, crop/ingredient example, practical result or journal record wherever it strengthens the decision.
Assessment connection	Score primarily under mission-based problem solving, with supporting knowledge, practical or investigation/data evidence as appropriate.

Decision: _____

Evidence/reason: _____

FSC-093 - MAKE A FOOD CHOICE

Scenario	Your class is exploring a classroom food table. The teacher shows safe pictures or clean examples. Complete a simple make a food choice challenge.
Your challenge	Look carefully. Match or sort the examples. Choose one good action and tell the teacher why it helps.
Evidence to submit	Pointing/matching, simple sort, drawing, count or one spoken reason.
Success criteria	Recognizes the item or situation; makes a sensible choice; uses one relevant word; handles materials safely.
Extension	Draw what should happen next.
Safety	Use only teacher-approved materials. No tasting is required. Follow school rules for food handling, allergies, handwashing and sanitation. Teachers control knives, heat, electrical equipment, chemicals and processing machinery.
AgriShine connection	Use a garden observation, crop/ingredient example, practical result or journal record wherever it strengthens the decision.
Assessment connection	Score primarily under mission-based problem solving, with supporting knowledge, practical or investigation/data evidence as appropriate.

Decision: _____

Evidence/reason: _____

FSC-094 - READ THE LABEL

Scenario	Your class is exploring a harvest basket. The teacher shows safe pictures or clean examples. Complete a simple read the label challenge.
Your challenge	Look carefully. Match or sort the examples. Choose one good action and tell the teacher why it helps.
Evidence to submit	Pointing/matching, simple sort, drawing, count or one spoken reason.
Success criteria	Recognizes the item or situation; makes a sensible choice; uses one relevant word; handles materials safely.
Extension	Draw what should happen next.
Safety	Use only teacher-approved materials. No tasting is required. Follow school rules for food handling, allergies, handwashing and sanitation. Teachers control knives, heat, electrical equipment, chemicals and processing machinery.
AgriShine connection	Use a garden observation, crop/ingredient example, practical result or journal record wherever it strengthens the decision.
Assessment connection	Score primarily under mission-based problem solving, with supporting knowledge, practical or investigation/data evidence as appropriate.

Decision: _____

Evidence/reason: _____

FSC-095 - PLAN A MEAL

Scenario	Your class is exploring a ingredient display. The teacher shows safe pictures or clean examples. Complete a simple plan a meal challenge.
Your challenge	Look carefully. Match or sort the examples. Choose one good action and tell the teacher why it helps.
Evidence to submit	Pointing/matching, simple sort, drawing, count or one spoken reason.
Success criteria	Recognizes the item or situation; makes a sensible choice; uses one relevant word; handles materials safely.
Extension	Draw what should happen next.
Safety	Use only teacher-approved materials. No tasting is required. Follow school rules for food handling, allergies, handwashing and sanitation. Teachers control knives, heat, electrical equipment, chemicals and processing machinery.
AgriShine connection	Use a garden observation, crop/ingredient example, practical result or journal record wherever it strengthens the decision.
Assessment connection	Score primarily under mission-based problem solving, with supporting knowledge, practical or investigation/data evidence as appropriate.

Decision: _____

Evidence/reason: _____

FSC-096 - USE WATER WISELY

Scenario	Your class is exploring a school lunch scenario. The teacher shows safe pictures or clean examples. Complete a simple use water wisely challenge.
Your challenge	Look carefully. Match or sort the examples. Choose one good action and tell the teacher why it helps.
Evidence to submit	Pointing/matching, simple sort, drawing, count or one spoken reason.
Success criteria	Recognizes the item or situation; makes a sensible choice; uses one relevant word; handles materials safely.
Extension	Draw what should happen next.
Safety	Use only teacher-approved materials. No tasting is required. Follow school rules for food handling, allergies, handwashing and sanitation. Teachers control knives, heat, electrical equipment, chemicals and processing machinery.
AgriShine connection	Use a garden observation, crop/ingredient example, practical result or journal record wherever it strengthens the decision.
Assessment connection	Score primarily under mission-based problem solving, with supporting knowledge, practical or investigation/data evidence as appropriate.

Decision: _____

Evidence/reason: _____

FSC-097 - REDUCE FOOD WASTE

Scenario	Your class is exploring a water station. The teacher shows safe pictures or clean examples. Complete a simple reduce food waste challenge.
Your challenge	Look carefully. Match or sort the examples. Choose one good action and tell the teacher why it helps.
Evidence to submit	Pointing/matching, simple sort, drawing, count or one spoken reason.
Success criteria	Recognizes the item or situation; makes a sensible choice; uses one relevant word; handles materials safely.
Extension	Draw what should happen next.
Safety	Use only teacher-approved materials. No tasting is required. Follow school rules for food handling, allergies, handwashing and sanitation. Teachers control knives, heat, electrical equipment, chemicals and processing machinery.
AgriShine connection	Use a garden observation, crop/ingredient example, practical result or journal record wherever it strengthens the decision.
Assessment connection	Score primarily under mission-based problem solving, with supporting knowledge, practical or investigation/data evidence as appropriate.

Decision: _____

Evidence/reason: _____

FSC-098 - THINK SEASONALLY

Scenario	Your class is exploring a storage shelf. The teacher shows safe pictures or clean examples. Complete a simple think seasonally challenge.
Your challenge	Look carefully. Match or sort the examples. Choose one good action and tell the teacher why it helps.
Evidence to submit	Pointing/matching, simple sort, drawing, count or one spoken reason.
Success criteria	Recognizes the item or situation; makes a sensible choice; uses one relevant word; handles materials safely.
Extension	Draw what should happen next.
Safety	Use only teacher-approved materials. No tasting is required. Follow school rules for food handling, allergies, handwashing and sanitation. Teachers control knives, heat, electrical equipment, chemicals and processing machinery.
AgriShine connection	Use a garden observation, crop/ingredient example, practical result or journal record wherever it strengthens the decision.
Assessment connection	Score primarily under mission-based problem solving, with supporting knowledge, practical or investigation/data evidence as appropriate.

Decision: _____

Evidence/reason: _____

FSC-099 - STORE & HANDLE RESPONSIBLY

Scenario	Your class is exploring a market basket. The teacher shows safe pictures or clean examples. Complete a simple store & handle responsibly challenge.
Your challenge	Look carefully. Match or sort the examples. Choose one good action and tell the teacher why it helps.
Evidence to submit	Pointing/matching, simple sort, drawing, count or one spoken reason.
Success criteria	Recognizes the item or situation; makes a sensible choice; uses one relevant word; handles materials safely.
Extension	Draw what should happen next.
Safety	Use only teacher-approved materials. No tasting is required. Follow school rules for food handling, allergies, handwashing and sanitation. Teachers control knives, heat, electrical equipment, chemicals and processing machinery.
AgriShine connection	Use a garden observation, crop/ingredient example, practical result or journal record wherever it strengthens the decision.
Assessment connection	Score primarily under mission-based problem solving, with supporting knowledge, practical or investigation/data evidence as appropriate.

Decision: _____

Evidence/reason: _____

FSC-100 - SOLVE A FOOD-SYSTEM CHALLENGE

Scenario	Your class is exploring a food journey map. The teacher shows safe pictures or clean examples. Complete a simple solve a food-system challenge challenge.
Your challenge	Look carefully. Match or sort the examples. Choose one good action and tell the teacher why it helps.
Evidence to submit	Pointing/matching, simple sort, drawing, count or one spoken reason.
Success criteria	Recognizes the item or situation; makes a sensible choice; uses one relevant word; handles materials safely.
Extension	Draw what should happen next.
Safety	Use only teacher-approved materials. No tasting is required. Follow school rules for food handling, allergies, handwashing and sanitation. Teachers control knives, heat, electrical equipment, chemicals and processing machinery.
AgriShine connection	Use a garden observation, crop/ingredient example, practical result or journal record wherever it strengthens the decision.
Assessment connection	Score primarily under mission-based problem solving, with supporting knowledge, practical or investigation/data evidence as appropriate.

Decision: _____

Evidence/reason: _____
