TEACHER PRACTICAL ACTIVITY MANUAL

Implementation guide for PA-001 to PA-100

SEE -> SAY -> FIND -> COUNT -> TOUCH/DO

Purpose	Turn the GrowMeal practical cards into safe, repeatable, age-appropriate teaching sessions.
Teacher role	Prepare the site, demonstrate technique, supervise safety, question learners, check evidence and connect the activity to the journal, mission cards and assessment system.
Core cycle	PREPARE -> DEMONSTRATE -> PRACTISE -> RECORD -> DISCUSS -> CONNECT -> CLEAN UP
Assessment	Use observation, student records and the linked practical/investigation evidence. Avoid grading recall alone.
Local adaptation	Substitute locally available materials when the learning objective, safety and measurement quality are preserved.

WHOLE-MANUAL SAFETY & IMPLEMENTATION STANDARD

Teachers must inspect the garden before each activity; establish boundaries; match tools to learner age; supervise water, cutting tools, electrical equipment, pumps, nutrient solutions and instruments; require handwashing after garden work; prohibit tasting unless a separate approved food-safety activity explicitly permits it; stop any activity when conditions are unsafe.

Before class	Check site, weather/working conditions, tools, labels, water, access routes and learner grouping.
During class	Demonstrate first; keep learners within assigned zones; monitor tool use and protect plants, structures and instruments.
After class	Count/clean/store tools; close water systems; restore labels; record damage, abnormal readings or incidents; wash hands.
Research integrity	Never invent, overwrite or silently delete observations. Flag questionable data and document repeat/reference checks.
Accessibility	Use peer roles, large-print/visual instructions, reachable observation stations and alternative recording methods where appropriate.

GARDEN 01 - Alphabet Garden

Teaching focus: letters, labels and familiar garden objects.

Use the ten activities below as a progression rather than ten isolated exercises. Revisit earlier skills when learners need additional practice.

Garden setup	Prepare safe access, visible labels, a demonstration point and learner work zones in the Alphabet Garden.
Journal link	Learners record observations, measurements, drawings, calculations or reflections in the level-appropriate GrowMeal journal.
Mission link	After skill practice, select a related Garden Mission Card that requires learners to apply the evidence to a challenge.
Assessment link	Use the corresponding practical, investigation/data or mission domain in the GrowMeal Assessment & Quiz System.

PA-001 - SEE - Alphabet Garden

Learning objective	Help learners see and talk about letters, labels and familiar garden objects through a short, supervised garden experience.
Materials	Picture/word cards where useful, safe garden objects, crayons/pencils, counting tokens, handwashing supplies.
DIY / low-cost option	Use recycled card, bottle tops, sticks or locally available markers instead of purchased classroom manipulatives.
Teacher preparation	Choose one clean, safe observation area in the Alphabet Garden. Remove hazards and preselect examples learners may touch.
Step-by-step delivery	1. Gather learners at the observation point. 2. Model careful looking. 3. Ask learners to see one or more examples. 4. Let them point, count, match, draw or describe. 5. Repeat key vocabulary. 6. End with one simple care action.
Questions to ask	What do you see? What is the same? What is different? How many? What should we do to care for it?
Expected evidence	Pointing, oral response, simple count, matching, drawing or safe participation.
Differentiation	Allow oral answers, peer support, larger visual cards and shorter observation periods.
Troubleshooting	If attention drops, reduce the number of examples and turn the task into a find-and-show challenge.
Journal / Mission / Assessment	Record the activity evidence in the student journal; follow with a related mission challenge; assess the relevant practical, data or problem-solving competency.
Close & clean up	Return tools, protect plants and equipment, restore the work area, wash hands and record any follow-up needed.

Teacher reflection: What worked? What evidence showed learning? What should change next time?

PA-002 - SAY - Alphabet Garden

Learning objective	Help learners say and talk about letters, labels and familiar garden objects through a short, supervised garden experience.
Materials	Picture/word cards where useful, safe garden objects, crayons/pencils, counting tokens, handwashing supplies.
DIY / low-cost option	Use recycled card, bottle tops, sticks or locally available markers instead of purchased classroom manipulatives.
Teacher preparation	Choose one clean, safe observation area in the Alphabet Garden. Remove hazards and preselect examples learners may touch.
Step-by-step delivery	1. Gather learners at the observation point. 2. Model careful looking. 3. Ask learners to say one or more examples. 4. Let them point, count, match, draw or describe. 5. Repeat key vocabulary. 6. End with one simple care action.
Questions to ask	What do you see? What is the same? What is different? How many? What should we do to care for it?
Expected evidence	Pointing, oral response, simple count, matching, drawing or safe participation.
Differentiation	Allow oral answers, peer support, larger visual cards and shorter observation periods.
Troubleshooting	If attention drops, reduce the number of examples and turn the task into a find-and-show challenge.
Journal / Mission / Assessment	Record the activity evidence in the student journal; follow with a related mission challenge; assess the relevant practical, data or problem-solving competency.
Close & clean up	Return tools, protect plants and equipment, restore the work area, wash hands and record any follow-up needed.

Teacher reflection: What worked? What evidence showed learning? What should change next time?

PA-003 - FIND - Alphabet Garden

Learning objective	Help learners find and talk about letters, labels and familiar garden objects through a short, supervised garden experience.
Materials	Picture/word cards where useful, safe garden objects, crayons/pencils, counting tokens, handwashing supplies.
DIY / low-cost option	Use recycled card, bottle tops, sticks or locally available markers instead of purchased classroom manipulatives.
Teacher preparation	Choose one clean, safe observation area in the Alphabet Garden. Remove hazards and preselect examples learners may touch.
Step-by-step delivery	1. Gather learners at the observation point. 2. Model careful looking. 3. Ask learners to find one or more examples. 4. Let them point, count, match, draw or describe. 5. Repeat key vocabulary. 6. End with one simple care action.
Questions to ask	What do you see? What is the same? What is different? How many? What should we do to care for it?
Expected evidence	Pointing, oral response, simple count, matching, drawing or safe participation.
Differentiation	Allow oral answers, peer support, larger visual cards and shorter observation periods.
Troubleshooting	If attention drops, reduce the number of examples and turn the task into a find-and-show challenge.
Journal / Mission / Assessment	Record the activity evidence in the student journal; follow with a related mission challenge; assess the relevant practical, data or problem-solving competency.
Close & clean up	Return tools, protect plants and equipment, restore the work area, wash hands and record any follow-up needed.

Teacher reflection: What worked? What evidence showed learning? What should change next time?

PA-004 - COUNT - Alphabet Garden

Learning objective	Help learners count and talk about letters, labels and familiar garden objects through a short, supervised garden experience.
Materials	Picture/word cards where useful, safe garden objects, crayons/pencils, counting tokens, handwashing supplies.
DIY / low-cost option	Use recycled card, bottle tops, sticks or locally available markers instead of purchased classroom manipulatives.
Teacher preparation	Choose one clean, safe observation area in the Alphabet Garden. Remove hazards and preselect examples learners may touch.
Step-by-step delivery	1. Gather learners at the observation point. 2. Model careful looking. 3. Ask learners to count one or more examples. 4. Let them point, count, match, draw or describe. 5. Repeat key vocabulary. 6. End with one simple care action.
Questions to ask	What do you see? What is the same? What is different? How many? What should we do to care for it?
Expected evidence	Pointing, oral response, simple count, matching, drawing or safe participation.
Differentiation	Allow oral answers, peer support, larger visual cards and shorter observation periods.
Troubleshooting	If attention drops, reduce the number of examples and turn the task into a find-and-show challenge.
Journal / Mission / Assessment	Record the activity evidence in the student journal; follow with a related mission challenge; assess the relevant practical, data or problem-solving competency.
Close & clean up	Return tools, protect plants and equipment, restore the work area, wash hands and record any follow-up needed.

Teacher reflection: What worked? What evidence showed learning? What should change next time?

PA-005 - MATCH - Alphabet Garden

Learning objective	Help learners match and talk about letters, labels and familiar garden objects through a short, supervised garden experience.
Materials	Picture/word cards where useful, safe garden objects, crayons/pencils, counting tokens, handwashing supplies.
DIY / low-cost option	Use recycled card, bottle tops, sticks or locally available markers instead of purchased classroom manipulatives.
Teacher preparation	Choose one clean, safe observation area in the Alphabet Garden. Remove hazards and preselect examples learners may touch.
Step-by-step delivery	1. Gather learners at the observation point. 2. Model careful looking. 3. Ask learners to match one or more examples. 4. Let them point, count, match, draw or describe. 5. Repeat key vocabulary. 6. End with one simple care action.
Questions to ask	What do you see? What is the same? What is different? How many? What should we do to care for it?
Expected evidence	Pointing, oral response, simple count, matching, drawing or safe participation.
Differentiation	Allow oral answers, peer support, larger visual cards and shorter observation periods.
Troubleshooting	If attention drops, reduce the number of examples and turn the task into a find-and-show challenge.
Journal / Mission / Assessment	Record the activity evidence in the student journal; follow with a related mission challenge; assess the relevant practical, data or problem-solving competency.
Close & clean up	Return tools, protect plants and equipment, restore the work area, wash hands and record any follow-up needed.

Teacher reflection: What worked? What evidence showed learning? What should change next time?

PA-006 - SORT - Alphabet Garden

Learning objective	Help learners sort and talk about letters, labels and familiar garden objects through a short, supervised garden experience.
Materials	Picture/word cards where useful, safe garden objects, crayons/pencils, counting tokens, handwashing supplies.
DIY / low-cost option	Use recycled card, bottle tops, sticks or locally available markers instead of purchased classroom manipulatives.
Teacher preparation	Choose one clean, safe observation area in the Alphabet Garden. Remove hazards and preselect examples learners may touch.
Step-by-step delivery	1. Gather learners at the observation point. 2. Model careful looking. 3. Ask learners to sort one or more examples. 4. Let them point, count, match, draw or describe. 5. Repeat key vocabulary. 6. End with one simple care action.
Questions to ask	What do you see? What is the same? What is different? How many? What should we do to care for it?
Expected evidence	Pointing, oral response, simple count, matching, drawing or safe participation.
Differentiation	Allow oral answers, peer support, larger visual cards and shorter observation periods.
Troubleshooting	If attention drops, reduce the number of examples and turn the task into a find-and-show challenge.
Journal / Mission / Assessment	Record the activity evidence in the student journal; follow with a related mission challenge; assess the relevant practical, data or problem-solving competency.
Close & clean up	Return tools, protect plants and equipment, restore the work area, wash hands and record any follow-up needed.

Teacher reflection: What worked? What evidence showed learning? What should change next time?

PA-007 - COMPARE - Alphabet Garden

Learning objective	Help learners compare and talk about letters, labels and familiar garden objects through a short, supervised garden experience.
Materials	Picture/word cards where useful, safe garden objects, crayons/pencils, counting tokens, handwashing supplies.
DIY / low-cost option	Use recycled card, bottle tops, sticks or locally available markers instead of purchased classroom manipulatives.
Teacher preparation	Choose one clean, safe observation area in the Alphabet Garden. Remove hazards and preselect examples learners may touch.
Step-by-step delivery	1. Gather learners at the observation point. 2. Model careful looking. 3. Ask learners to compare one or more examples. 4. Let them point, count, match, draw or describe. 5. Repeat key vocabulary. 6. End with one simple care action.
Questions to ask	What do you see? What is the same? What is different? How many? What should we do to care for it?
Expected evidence	Pointing, oral response, simple count, matching, drawing or safe participation.
Differentiation	Allow oral answers, peer support, larger visual cards and shorter observation periods.
Troubleshooting	If attention drops, reduce the number of examples and turn the task into a find-and-show challenge.
Journal / Mission / Assessment	Record the activity evidence in the student journal; follow with a related mission challenge; assess the relevant practical, data or problem-solving competency.
Close & clean up	Return tools, protect plants and equipment, restore the work area, wash hands and record any follow-up needed.

Teacher reflection: What worked? What evidence showed learning? What should change next time?

PA-008 - DRAW - Alphabet Garden

Learning objective	Help learners draw and talk about letters, labels and familiar garden objects through a short, supervised garden experience.
Materials	Picture/word cards where useful, safe garden objects, crayons/pencils, counting tokens, handwashing supplies.
DIY / low-cost option	Use recycled card, bottle tops, sticks or locally available markers instead of purchased classroom manipulatives.
Teacher preparation	Choose one clean, safe observation area in the Alphabet Garden. Remove hazards and preselect examples learners may touch.
Step-by-step delivery	1. Gather learners at the observation point. 2. Model careful looking. 3. Ask learners to draw one or more examples. 4. Let them point, count, match, draw or describe. 5. Repeat key vocabulary. 6. End with one simple care action.
Questions to ask	What do you see? What is the same? What is different? How many? What should we do to care for it?
Expected evidence	Pointing, oral response, simple count, matching, drawing or safe participation.
Differentiation	Allow oral answers, peer support, larger visual cards and shorter observation periods.
Troubleshooting	If attention drops, reduce the number of examples and turn the task into a find-and-show challenge.
Journal / Mission / Assessment	Record the activity evidence in the student journal; follow with a related mission challenge; assess the relevant practical, data or problem-solving competency.
Close & clean up	Return tools, protect plants and equipment, restore the work area, wash hands and record any follow-up needed.

Teacher reflection: What worked? What evidence showed learning? What should change next time?

PA-009 - CARE - Alphabet Garden

Learning objective	Help learners care and talk about letters, labels and familiar garden objects through a short, supervised garden experience.
Materials	Picture/word cards where useful, safe garden objects, crayons/pencils, counting tokens, handwashing supplies.
DIY / low-cost option	Use recycled card, bottle tops, sticks or locally available markers instead of purchased classroom manipulatives.
Teacher preparation	Choose one clean, safe observation area in the Alphabet Garden. Remove hazards and preselect examples learners may touch.
Step-by-step delivery	1. Gather learners at the observation point. 2. Model careful looking. 3. Ask learners to care one or more examples. 4. Let them point, count, match, draw or describe. 5. Repeat key vocabulary. 6. End with one simple care action.
Questions to ask	What do you see? What is the same? What is different? How many? What should we do to care for it?
Expected evidence	Pointing, oral response, simple count, matching, drawing or safe participation.
Differentiation	Allow oral answers, peer support, larger visual cards and shorter observation periods.
Troubleshooting	If attention drops, reduce the number of examples and turn the task into a find-and-show challenge.
Journal / Mission / Assessment	Record the activity evidence in the student journal; follow with a related mission challenge; assess the relevant practical, data or problem-solving competency.
Close & clean up	Return tools, protect plants and equipment, restore the work area, wash hands and record any follow-up needed.

Teacher reflection: What worked? What evidence showed learning? What should change next time?

PA-010 - DISCOVER - Alphabet Garden

Learning objective	Help learners discover and talk about letters, labels and familiar garden objects through a short, supervised garden experience.
Materials	Picture/word cards where useful, safe garden objects, crayons/pencils, counting tokens, handwashing supplies.
DIY / low-cost option	Use recycled card, bottle tops, sticks or locally available markers instead of purchased classroom manipulatives.
Teacher preparation	Choose one clean, safe observation area in the Alphabet Garden. Remove hazards and preselect examples learners may touch.
Step-by-step delivery	1. Gather learners at the observation point. 2. Model careful looking. 3. Ask learners to discover one or more examples. 4. Let them point, count, match, draw or describe. 5. Repeat key vocabulary. 6. End with one simple care action.
Questions to ask	What do you see? What is the same? What is different? How many? What should we do to care for it?
Expected evidence	Pointing, oral response, simple count, matching, drawing or safe participation.
Differentiation	Allow oral answers, peer support, larger visual cards and shorter observation periods.
Troubleshooting	If attention drops, reduce the number of examples and turn the task into a find-and-show challenge.
Journal / Mission / Assessment	Record the activity evidence in the student journal; follow with a related mission challenge; assess the relevant practical, data or problem-solving competency.
Close & clean up	Return tools, protect plants and equipment, restore the work area, wash hands and record any follow-up needed.

Teacher reflection: What worked? What evidence showed learning? What should change next time?

GARDEN 02 - Number Garden

Teaching focus: numbers, counting and quantities.

Use the ten activities below as a progression rather than ten isolated exercises. Revisit earlier skills when learners need additional practice.

Garden setup	Prepare safe access, visible labels, a demonstration point and learner work zones in the Number Garden.
Journal link	Learners record observations, measurements, drawings, calculations or reflections in the level-appropriate GrowMeal journal.
Mission link	After skill practice, select a related Garden Mission Card that requires learners to apply the evidence to a challenge.
Assessment link	Use the corresponding practical, investigation/data or mission domain in the GrowMeal Assessment & Quiz System.

PA-011 - SEE - Number Garden

Learning objective	Help learners see and talk about numbers, counting and quantities through a short, supervised garden experience.
Materials	Picture/word cards where useful, safe garden objects, crayons/pencils, counting tokens, handwashing supplies.
DIY / low-cost option	Use recycled card, bottle tops, sticks or locally available markers instead of purchased classroom manipulatives.
Teacher preparation	Choose one clean, safe observation area in the Number Garden. Remove hazards and preselect examples learners may touch.
Step-by-step delivery	1. Gather learners at the observation point. 2. Model careful looking. 3. Ask learners to see one or more examples. 4. Let them point, count, match, draw or describe. 5. Repeat key vocabulary. 6. End with one simple care action.
Questions to ask	What do you see? What is the same? What is different? How many? What should we do to care for it?
Expected evidence	Pointing, oral response, simple count, matching, drawing or safe participation.
Differentiation	Allow oral answers, peer support, larger visual cards and shorter observation periods.
Troubleshooting	If attention drops, reduce the number of examples and turn the task into a find-and-show challenge.
Journal / Mission / Assessment	Record the activity evidence in the student journal; follow with a related mission challenge; assess the relevant practical, data or problem-solving competency.
Close & clean up	Return tools, protect plants and equipment, restore the work area, wash hands and record any follow-up needed.

Teacher reflection: What worked? What evidence showed learning? What should change next time?

PA-012 - SAY - Number Garden

Learning objective	Help learners say and talk about numbers, counting and quantities through a short, supervised garden experience.
Materials	Picture/word cards where useful, safe garden objects, crayons/pencils, counting tokens, handwashing supplies.
DIY / low-cost option	Use recycled card, bottle tops, sticks or locally available markers instead of purchased classroom manipulatives.
Teacher preparation	Choose one clean, safe observation area in the Number Garden. Remove hazards and preselect examples learners may touch.
Step-by-step delivery	1. Gather learners at the observation point. 2. Model careful looking. 3. Ask learners to say one or more examples. 4. Let them point, count, match, draw or describe. 5. Repeat key vocabulary. 6. End with one simple care action.
Questions to ask	What do you see? What is the same? What is different? How many? What should we do to care for it?
Expected evidence	Pointing, oral response, simple count, matching, drawing or safe participation.
Differentiation	Allow oral answers, peer support, larger visual cards and shorter observation periods.
Troubleshooting	If attention drops, reduce the number of examples and turn the task into a find-and-show challenge.
Journal / Mission / Assessment	Record the activity evidence in the student journal; follow with a related mission challenge; assess the relevant practical, data or problem-solving competency.
Close & clean up	Return tools, protect plants and equipment, restore the work area, wash hands and record any follow-up needed.

Teacher reflection: What worked? What evidence showed learning? What should change next time?

PA-013 - FIND - Number Garden

Learning objective	Help learners find and talk about numbers, counting and quantities through a short, supervised garden experience.
Materials	Picture/word cards where useful, safe garden objects, crayons/pencils, counting tokens, handwashing supplies.
DIY / low-cost option	Use recycled card, bottle tops, sticks or locally available markers instead of purchased classroom manipulatives.
Teacher preparation	Choose one clean, safe observation area in the Number Garden. Remove hazards and preselect examples learners may touch.
Step-by-step delivery	1. Gather learners at the observation point. 2. Model careful looking. 3. Ask learners to find one or more examples. 4. Let them point, count, match, draw or describe. 5. Repeat key vocabulary. 6. End with one simple care action.
Questions to ask	What do you see? What is the same? What is different? How many? What should we do to care for it?
Expected evidence	Pointing, oral response, simple count, matching, drawing or safe participation.
Differentiation	Allow oral answers, peer support, larger visual cards and shorter observation periods.
Troubleshooting	If attention drops, reduce the number of examples and turn the task into a find-and-show challenge.
Journal / Mission / Assessment	Record the activity evidence in the student journal; follow with a related mission challenge; assess the relevant practical, data or problem-solving competency.
Close & clean up	Return tools, protect plants and equipment, restore the work area, wash hands and record any follow-up needed.

Teacher reflection: What worked? What evidence showed learning? What should change next time?

PA-014 - COUNT - Number Garden

Learning objective	Help learners count and talk about numbers, counting and quantities through a short, supervised garden experience.
Materials	Picture/word cards where useful, safe garden objects, crayons/pencils, counting tokens, handwashing supplies.
DIY / low-cost option	Use recycled card, bottle tops, sticks or locally available markers instead of purchased classroom manipulatives.
Teacher preparation	Choose one clean, safe observation area in the Number Garden. Remove hazards and preselect examples learners may touch.
Step-by-step delivery	1. Gather learners at the observation point. 2. Model careful looking. 3. Ask learners to count one or more examples. 4. Let them point, count, match, draw or describe. 5. Repeat key vocabulary. 6. End with one simple care action.
Questions to ask	What do you see? What is the same? What is different? How many? What should we do to care for it?
Expected evidence	Pointing, oral response, simple count, matching, drawing or safe participation.
Differentiation	Allow oral answers, peer support, larger visual cards and shorter observation periods.
Troubleshooting	If attention drops, reduce the number of examples and turn the task into a find-and-show challenge.
Journal / Mission / Assessment	Record the activity evidence in the student journal; follow with a related mission challenge; assess the relevant practical, data or problem-solving competency.
Close & clean up	Return tools, protect plants and equipment, restore the work area, wash hands and record any follow-up needed.

Teacher reflection: What worked? What evidence showed learning? What should change next time?

PA-015 - MATCH - Number Garden

Learning objective	Help learners match and talk about numbers, counting and quantities through a short, supervised garden experience.
Materials	Picture/word cards where useful, safe garden objects, crayons/pencils, counting tokens, handwashing supplies.
DIY / low-cost option	Use recycled card, bottle tops, sticks or locally available markers instead of purchased classroom manipulatives.
Teacher preparation	Choose one clean, safe observation area in the Number Garden. Remove hazards and preselect examples learners may touch.
Step-by-step delivery	1. Gather learners at the observation point. 2. Model careful looking. 3. Ask learners to match one or more examples. 4. Let them point, count, match, draw or describe. 5. Repeat key vocabulary. 6. End with one simple care action.
Questions to ask	What do you see? What is the same? What is different? How many? What should we do to care for it?
Expected evidence	Pointing, oral response, simple count, matching, drawing or safe participation.
Differentiation	Allow oral answers, peer support, larger visual cards and shorter observation periods.
Troubleshooting	If attention drops, reduce the number of examples and turn the task into a find-and-show challenge.
Journal / Mission / Assessment	Record the activity evidence in the student journal; follow with a related mission challenge; assess the relevant practical, data or problem-solving competency.
Close & clean up	Return tools, protect plants and equipment, restore the work area, wash hands and record any follow-up needed.

Teacher reflection: What worked? What evidence showed learning? What should change next time?

PA-016 - SORT - Number Garden

Learning objective	Help learners sort and talk about numbers, counting and quantities through a short, supervised garden experience.
Materials	Picture/word cards where useful, safe garden objects, crayons/pencils, counting tokens, handwashing supplies.
DIY / low-cost option	Use recycled card, bottle tops, sticks or locally available markers instead of purchased classroom manipulatives.
Teacher preparation	Choose one clean, safe observation area in the Number Garden. Remove hazards and preselect examples learners may touch.
Step-by-step delivery	1. Gather learners at the observation point. 2. Model careful looking. 3. Ask learners to sort one or more examples. 4. Let them point, count, match, draw or describe. 5. Repeat key vocabulary. 6. End with one simple care action.
Questions to ask	What do you see? What is the same? What is different? How many? What should we do to care for it?
Expected evidence	Pointing, oral response, simple count, matching, drawing or safe participation.
Differentiation	Allow oral answers, peer support, larger visual cards and shorter observation periods.
Troubleshooting	If attention drops, reduce the number of examples and turn the task into a find-and-show challenge.
Journal / Mission / Assessment	Record the activity evidence in the student journal; follow with a related mission challenge; assess the relevant practical, data or problem-solving competency.
Close & clean up	Return tools, protect plants and equipment, restore the work area, wash hands and record any follow-up needed.

Teacher reflection: What worked? What evidence showed learning? What should change next time?

PA-017 - COMPARE - Number Garden

Learning objective	Help learners compare and talk about numbers, counting and quantities through a short, supervised garden experience.
Materials	Picture/word cards where useful, safe garden objects, crayons/pencils, counting tokens, handwashing supplies.
DIY / low-cost option	Use recycled card, bottle tops, sticks or locally available markers instead of purchased classroom manipulatives.
Teacher preparation	Choose one clean, safe observation area in the Number Garden. Remove hazards and preselect examples learners may touch.
Step-by-step delivery	1. Gather learners at the observation point. 2. Model careful looking. 3. Ask learners to compare one or more examples. 4. Let them point, count, match, draw or describe. 5. Repeat key vocabulary. 6. End with one simple care action.
Questions to ask	What do you see? What is the same? What is different? How many? What should we do to care for it?
Expected evidence	Pointing, oral response, simple count, matching, drawing or safe participation.
Differentiation	Allow oral answers, peer support, larger visual cards and shorter observation periods.
Troubleshooting	If attention drops, reduce the number of examples and turn the task into a find-and-show challenge.
Journal / Mission / Assessment	Record the activity evidence in the student journal; follow with a related mission challenge; assess the relevant practical, data or problem-solving competency.
Close & clean up	Return tools, protect plants and equipment, restore the work area, wash hands and record any follow-up needed.

Teacher reflection: What worked? What evidence showed learning? What should change next time?

PA-018 - DRAW - Number Garden

Learning objective	Help learners draw and talk about numbers, counting and quantities through a short, supervised garden experience.
Materials	Picture/word cards where useful, safe garden objects, crayons/pencils, counting tokens, handwashing supplies.
DIY / low-cost option	Use recycled card, bottle tops, sticks or locally available markers instead of purchased classroom manipulatives.
Teacher preparation	Choose one clean, safe observation area in the Number Garden. Remove hazards and preselect examples learners may touch.
Step-by-step delivery	1. Gather learners at the observation point. 2. Model careful looking. 3. Ask learners to draw one or more examples. 4. Let them point, count, match, draw or describe. 5. Repeat key vocabulary. 6. End with one simple care action.
Questions to ask	What do you see? What is the same? What is different? How many? What should we do to care for it?
Expected evidence	Pointing, oral response, simple count, matching, drawing or safe participation.
Differentiation	Allow oral answers, peer support, larger visual cards and shorter observation periods.
Troubleshooting	If attention drops, reduce the number of examples and turn the task into a find-and-show challenge.
Journal / Mission / Assessment	Record the activity evidence in the student journal; follow with a related mission challenge; assess the relevant practical, data or problem-solving competency.
Close & clean up	Return tools, protect plants and equipment, restore the work area, wash hands and record any follow-up needed.

Teacher reflection: What worked? What evidence showed learning? What should change next time?

PA-019 - CARE - Number Garden

Learning objective	Help learners care and talk about numbers, counting and quantities through a short, supervised garden experience.
Materials	Picture/word cards where useful, safe garden objects, crayons/pencils, counting tokens, handwashing supplies.
DIY / low-cost option	Use recycled card, bottle tops, sticks or locally available markers instead of purchased classroom manipulatives.
Teacher preparation	Choose one clean, safe observation area in the Number Garden. Remove hazards and preselect examples learners may touch.
Step-by-step delivery	1. Gather learners at the observation point. 2. Model careful looking. 3. Ask learners to care one or more examples. 4. Let them point, count, match, draw or describe. 5. Repeat key vocabulary. 6. End with one simple care action.
Questions to ask	What do you see? What is the same? What is different? How many? What should we do to care for it?
Expected evidence	Pointing, oral response, simple count, matching, drawing or safe participation.
Differentiation	Allow oral answers, peer support, larger visual cards and shorter observation periods.
Troubleshooting	If attention drops, reduce the number of examples and turn the task into a find-and-show challenge.
Journal / Mission / Assessment	Record the activity evidence in the student journal; follow with a related mission challenge; assess the relevant practical, data or problem-solving competency.
Close & clean up	Return tools, protect plants and equipment, restore the work area, wash hands and record any follow-up needed.

Teacher reflection: What worked? What evidence showed learning? What should change next time?

PA-020 - DISCOVER - Number Garden

Learning objective	Help learners discover and talk about numbers, counting and quantities through a short, supervised garden experience.
Materials	Picture/word cards where useful, safe garden objects, crayons/pencils, counting tokens, handwashing supplies.
DIY / low-cost option	Use recycled card, bottle tops, sticks or locally available markers instead of purchased classroom manipulatives.
Teacher preparation	Choose one clean, safe observation area in the Number Garden. Remove hazards and preselect examples learners may touch.
Step-by-step delivery	1. Gather learners at the observation point. 2. Model careful looking. 3. Ask learners to discover one or more examples. 4. Let them point, count, match, draw or describe. 5. Repeat key vocabulary. 6. End with one simple care action.
Questions to ask	What do you see? What is the same? What is different? How many? What should we do to care for it?
Expected evidence	Pointing, oral response, simple count, matching, drawing or safe participation.
Differentiation	Allow oral answers, peer support, larger visual cards and shorter observation periods.
Troubleshooting	If attention drops, reduce the number of examples and turn the task into a find-and-show challenge.
Journal / Mission / Assessment	Record the activity evidence in the student journal; follow with a related mission challenge; assess the relevant practical, data or problem-solving competency.
Close & clean up	Return tools, protect plants and equipment, restore the work area, wash hands and record any follow-up needed.

Teacher reflection: What worked? What evidence showed learning? What should change next time?

GARDEN 03 - Geometry Garden

Teaching focus: shapes, sides, corners, length and garden layout.

Use the ten activities below as a progression rather than ten isolated exercises. Revisit earlier skills when learners need additional practice.

Garden setup	Prepare safe access, visible labels, a demonstration point and learner work zones in the Geometry Garden.
Journal link	Learners record observations, measurements, drawings, calculations or reflections in the level-appropriate GrowMeal journal.
Mission link	After skill practice, select a related Garden Mission Card that requires learners to apply the evidence to a challenge.
Assessment link	Use the corresponding practical, investigation/data or mission domain in the GrowMeal Assessment & Quiz System.

PA-021 - SEE - Geometry Garden

Learning objective	Help learners see and talk about shapes, sides, corners, length and garden layout through a short, supervised garden experience.
Materials	Picture/word cards where useful, safe garden objects, crayons/pencils, counting tokens, handwashing supplies.
DIY / low-cost option	Use recycled card, bottle tops, sticks or locally available markers instead of purchased classroom manipulatives.
Teacher preparation	Choose one clean, safe observation area in the Geometry Garden. Remove hazards and preselect examples learners may touch.
Step-by-step delivery	1. Gather learners at the observation point. 2. Model careful looking. 3. Ask learners to see one or more examples. 4. Let them point, count, match, draw or describe. 5. Repeat key vocabulary. 6. End with one simple care action.
Questions to ask	What do you see? What is the same? What is different? How many? What should we do to care for it?
Expected evidence	Pointing, oral response, simple count, matching, drawing or safe participation.
Differentiation	Allow oral answers, peer support, larger visual cards and shorter observation periods.
Troubleshooting	If attention drops, reduce the number of examples and turn the task into a find-and-show challenge.
Journal / Mission / Assessment	Record the activity evidence in the student journal; follow with a related mission challenge; assess the relevant practical, data or problem-solving competency.
Close & clean up	Return tools, protect plants and equipment, restore the work area, wash hands and record any follow-up needed.

Teacher reflection: What worked? What evidence showed learning? What should change next time?

PA-022 - SAY - Geometry Garden

Learning objective	Help learners say and talk about shapes, sides, corners, length and garden layout through a short, supervised garden experience.
Materials	Picture/word cards where useful, safe garden objects, crayons/pencils, counting tokens, handwashing supplies.
DIY / low-cost option	Use recycled card, bottle tops, sticks or locally available markers instead of purchased classroom manipulatives.
Teacher preparation	Choose one clean, safe observation area in the Geometry Garden. Remove hazards and preselect examples learners may touch.
Step-by-step delivery	1. Gather learners at the observation point. 2. Model careful looking. 3. Ask learners to say one or more examples. 4. Let them point, count, match, draw or describe. 5. Repeat key vocabulary. 6. End with one simple care action.
Questions to ask	What do you see? What is the same? What is different? How many? What should we do to care for it?
Expected evidence	Pointing, oral response, simple count, matching, drawing or safe participation.
Differentiation	Allow oral answers, peer support, larger visual cards and shorter observation periods.
Troubleshooting	If attention drops, reduce the number of examples and turn the task into a find-and-show challenge.
Journal / Mission / Assessment	Record the activity evidence in the student journal; follow with a related mission challenge; assess the relevant practical, data or problem-solving competency.
Close & clean up	Return tools, protect plants and equipment, restore the work area, wash hands and record any follow-up needed.

Teacher reflection: What worked? What evidence showed learning? What should change next time?

PA-023 - FIND - Geometry Garden

Learning objective	Help learners find and talk about shapes, sides, corners, length and garden layout through a short, supervised garden experience.
Materials	Picture/word cards where useful, safe garden objects, crayons/pencils, counting tokens, handwashing supplies.
DIY / low-cost option	Use recycled card, bottle tops, sticks or locally available markers instead of purchased classroom manipulatives.
Teacher preparation	Choose one clean, safe observation area in the Geometry Garden. Remove hazards and preselect examples learners may touch.
Step-by-step delivery	1. Gather learners at the observation point. 2. Model careful looking. 3. Ask learners to find one or more examples. 4. Let them point, count, match, draw or describe. 5. Repeat key vocabulary. 6. End with one simple care action.
Questions to ask	What do you see? What is the same? What is different? How many? What should we do to care for it?
Expected evidence	Pointing, oral response, simple count, matching, drawing or safe participation.
Differentiation	Allow oral answers, peer support, larger visual cards and shorter observation periods.
Troubleshooting	If attention drops, reduce the number of examples and turn the task into a find-and-show challenge.
Journal / Mission / Assessment	Record the activity evidence in the student journal; follow with a related mission challenge; assess the relevant practical, data or problem-solving competency.
Close & clean up	Return tools, protect plants and equipment, restore the work area, wash hands and record any follow-up needed.

Teacher reflection: What worked? What evidence showed learning? What should change next time?

PA-024 - COUNT - Geometry Garden

Learning objective	Help learners count and talk about shapes, sides, corners, length and garden layout through a short, supervised garden experience.
Materials	Picture/word cards where useful, safe garden objects, crayons/pencils, counting tokens, handwashing supplies.
DIY / low-cost option	Use recycled card, bottle tops, sticks or locally available markers instead of purchased classroom manipulatives.
Teacher preparation	Choose one clean, safe observation area in the Geometry Garden. Remove hazards and preselect examples learners may touch.
Step-by-step delivery	1. Gather learners at the observation point. 2. Model careful looking. 3. Ask learners to count one or more examples. 4. Let them point, count, match, draw or describe. 5. Repeat key vocabulary. 6. End with one simple care action.
Questions to ask	What do you see? What is the same? What is different? How many? What should we do to care for it?
Expected evidence	Pointing, oral response, simple count, matching, drawing or safe participation.
Differentiation	Allow oral answers, peer support, larger visual cards and shorter observation periods.
Troubleshooting	If attention drops, reduce the number of examples and turn the task into a find-and-show challenge.
Journal / Mission / Assessment	Record the activity evidence in the student journal; follow with a related mission challenge; assess the relevant practical, data or problem-solving competency.
Close & clean up	Return tools, protect plants and equipment, restore the work area, wash hands and record any follow-up needed.

Teacher reflection: What worked? What evidence showed learning? What should change next time?

PA-025 - MATCH - Geometry Garden

Learning objective	Help learners match and talk about shapes, sides, corners, length and garden layout through a short, supervised garden experience.
Materials	Picture/word cards where useful, safe garden objects, crayons/pencils, counting tokens, handwashing supplies.
DIY / low-cost option	Use recycled card, bottle tops, sticks or locally available markers instead of purchased classroom manipulatives.
Teacher preparation	Choose one clean, safe observation area in the Geometry Garden. Remove hazards and preselect examples learners may touch.
Step-by-step delivery	1. Gather learners at the observation point. 2. Model careful looking. 3. Ask learners to match one or more examples. 4. Let them point, count, match, draw or describe. 5. Repeat key vocabulary. 6. End with one simple care action.
Questions to ask	What do you see? What is the same? What is different? How many? What should we do to care for it?
Expected evidence	Pointing, oral response, simple count, matching, drawing or safe participation.
Differentiation	Allow oral answers, peer support, larger visual cards and shorter observation periods.
Troubleshooting	If attention drops, reduce the number of examples and turn the task into a find-and-show challenge.
Journal / Mission / Assessment	Record the activity evidence in the student journal; follow with a related mission challenge; assess the relevant practical, data or problem-solving competency.
Close & clean up	Return tools, protect plants and equipment, restore the work area, wash hands and record any follow-up needed.

Teacher reflection: What worked? What evidence showed learning? What should change next time?

PA-026 - SORT - Geometry Garden

Learning objective	Help learners sort and talk about shapes, sides, corners, length and garden layout through a short, supervised garden experience.
Materials	Picture/word cards where useful, safe garden objects, crayons/pencils, counting tokens, handwashing supplies.
DIY / low-cost option	Use recycled card, bottle tops, sticks or locally available markers instead of purchased classroom manipulatives.
Teacher preparation	Choose one clean, safe observation area in the Geometry Garden. Remove hazards and preselect examples learners may touch.
Step-by-step delivery	1. Gather learners at the observation point. 2. Model careful looking. 3. Ask learners to sort one or more examples. 4. Let them point, count, match, draw or describe. 5. Repeat key vocabulary. 6. End with one simple care action.
Questions to ask	What do you see? What is the same? What is different? How many? What should we do to care for it?
Expected evidence	Pointing, oral response, simple count, matching, drawing or safe participation.
Differentiation	Allow oral answers, peer support, larger visual cards and shorter observation periods.
Troubleshooting	If attention drops, reduce the number of examples and turn the task into a find-and-show challenge.
Journal / Mission / Assessment	Record the activity evidence in the student journal; follow with a related mission challenge; assess the relevant practical, data or problem-solving competency.
Close & clean up	Return tools, protect plants and equipment, restore the work area, wash hands and record any follow-up needed.

Teacher reflection: What worked? What evidence showed learning? What should change next time?

PA-027 - COMPARE - Geometry Garden

Learning objective	Help learners compare and talk about shapes, sides, corners, length and garden layout through a short, supervised garden experience.
Materials	Picture/word cards where useful, safe garden objects, crayons/pencils, counting tokens, handwashing supplies.
DIY / low-cost option	Use recycled card, bottle tops, sticks or locally available markers instead of purchased classroom manipulatives.
Teacher preparation	Choose one clean, safe observation area in the Geometry Garden. Remove hazards and preselect examples learners may touch.
Step-by-step delivery	1. Gather learners at the observation point. 2. Model careful looking. 3. Ask learners to compare one or more examples. 4. Let them point, count, match, draw or describe. 5. Repeat key vocabulary. 6. End with one simple care action.
Questions to ask	What do you see? What is the same? What is different? How many? What should we do to care for it?
Expected evidence	Pointing, oral response, simple count, matching, drawing or safe participation.
Differentiation	Allow oral answers, peer support, larger visual cards and shorter observation periods.
Troubleshooting	If attention drops, reduce the number of examples and turn the task into a find-and-show challenge.
Journal / Mission / Assessment	Record the activity evidence in the student journal; follow with a related mission challenge; assess the relevant practical, data or problem-solving competency.
Close & clean up	Return tools, protect plants and equipment, restore the work area, wash hands and record any follow-up needed.

Teacher reflection: What worked? What evidence showed learning? What should change next time?

PA-028 - DRAW - Geometry Garden

Learning objective	Help learners draw and talk about shapes, sides, corners, length and garden layout through a short, supervised garden experience.
Materials	Picture/word cards where useful, safe garden objects, crayons/pencils, counting tokens, handwashing supplies.
DIY / low-cost option	Use recycled card, bottle tops, sticks or locally available markers instead of purchased classroom manipulatives.
Teacher preparation	Choose one clean, safe observation area in the Geometry Garden. Remove hazards and preselect examples learners may touch.
Step-by-step delivery	1. Gather learners at the observation point. 2. Model careful looking. 3. Ask learners to draw one or more examples. 4. Let them point, count, match, draw or describe. 5. Repeat key vocabulary. 6. End with one simple care action.
Questions to ask	What do you see? What is the same? What is different? How many? What should we do to care for it?
Expected evidence	Pointing, oral response, simple count, matching, drawing or safe participation.
Differentiation	Allow oral answers, peer support, larger visual cards and shorter observation periods.
Troubleshooting	If attention drops, reduce the number of examples and turn the task into a find-and-show challenge.
Journal / Mission / Assessment	Record the activity evidence in the student journal; follow with a related mission challenge; assess the relevant practical, data or problem-solving competency.
Close & clean up	Return tools, protect plants and equipment, restore the work area, wash hands and record any follow-up needed.

Teacher reflection: What worked? What evidence showed learning? What should change next time?

PA-029 - CARE - Geometry Garden

Learning objective	Help learners care and talk about shapes, sides, corners, length and garden layout through a short, supervised garden experience.
Materials	Picture/word cards where useful, safe garden objects, crayons/pencils, counting tokens, handwashing supplies.
DIY / low-cost option	Use recycled card, bottle tops, sticks or locally available markers instead of purchased classroom manipulatives.
Teacher preparation	Choose one clean, safe observation area in the Geometry Garden. Remove hazards and preselect examples learners may touch.
Step-by-step delivery	1. Gather learners at the observation point. 2. Model careful looking. 3. Ask learners to care one or more examples. 4. Let them point, count, match, draw or describe. 5. Repeat key vocabulary. 6. End with one simple care action.
Questions to ask	What do you see? What is the same? What is different? How many? What should we do to care for it?
Expected evidence	Pointing, oral response, simple count, matching, drawing or safe participation.
Differentiation	Allow oral answers, peer support, larger visual cards and shorter observation periods.
Troubleshooting	If attention drops, reduce the number of examples and turn the task into a find-and-show challenge.
Journal / Mission / Assessment	Record the activity evidence in the student journal; follow with a related mission challenge; assess the relevant practical, data or problem-solving competency.
Close & clean up	Return tools, protect plants and equipment, restore the work area, wash hands and record any follow-up needed.

Teacher reflection: What worked? What evidence showed learning? What should change next time?

PA-030 - DISCOVER - Geometry Garden

Learning objective	Help learners discover and talk about shapes, sides, corners, length and garden layout through a short, supervised garden experience.
Materials	Picture/word cards where useful, safe garden objects, crayons/pencils, counting tokens, handwashing supplies.
DIY / low-cost option	Use recycled card, bottle tops, sticks or locally available markers instead of purchased classroom manipulatives.
Teacher preparation	Choose one clean, safe observation area in the Geometry Garden. Remove hazards and preselect examples learners may touch.
Step-by-step delivery	1. Gather learners at the observation point. 2. Model careful looking. 3. Ask learners to discover one or more examples. 4. Let them point, count, match, draw or describe. 5. Repeat key vocabulary. 6. End with one simple care action.
Questions to ask	What do you see? What is the same? What is different? How many? What should we do to care for it?
Expected evidence	Pointing, oral response, simple count, matching, drawing or safe participation.
Differentiation	Allow oral answers, peer support, larger visual cards and shorter observation periods.
Troubleshooting	If attention drops, reduce the number of examples and turn the task into a find-and-show challenge.
Journal / Mission / Assessment	Record the activity evidence in the student journal; follow with a related mission challenge; assess the relevant practical, data or problem-solving competency.
Close & clean up	Return tools, protect plants and equipment, restore the work area, wash hands and record any follow-up needed.

Teacher reflection: What worked? What evidence showed learning? What should change next time?

GARDEN 04 - Leaf Garden

Teaching focus: leaf color, shape, size and texture.

Use the ten activities below as a progression rather than ten isolated exercises. Revisit earlier skills when learners need additional practice.

Garden setup	Prepare safe access, visible labels, a demonstration point and learner work zones in the Leaf Garden.
Journal link	Learners record observations, measurements, drawings, calculations or reflections in the level-appropriate GrowMeal journal.
Mission link	After skill practice, select a related Garden Mission Card that requires learners to apply the evidence to a challenge.
Assessment link	Use the corresponding practical, investigation/data or mission domain in the GrowMeal Assessment & Quiz System.

PA-031 - SEE - Leaf Garden

Learning objective	Help learners see and talk about leaf color, shape, size and texture through a short, supervised garden experience.
Materials	Picture/word cards where useful, safe garden objects, crayons/pencils, counting tokens, handwashing supplies.
DIY / low-cost option	Use recycled card, bottle tops, sticks or locally available markers instead of purchased classroom manipulatives.
Teacher preparation	Choose one clean, safe observation area in the Leaf Garden. Remove hazards and preselect examples learners may touch.
Step-by-step delivery	1. Gather learners at the observation point. 2. Model careful looking. 3. Ask learners to see one or more examples. 4. Let them point, count, match, draw or describe. 5. Repeat key vocabulary. 6. End with one simple care action.
Questions to ask	What do you see? What is the same? What is different? How many? What should we do to care for it?
Expected evidence	Pointing, oral response, simple count, matching, drawing or safe participation.
Differentiation	Allow oral answers, peer support, larger visual cards and shorter observation periods.
Troubleshooting	If attention drops, reduce the number of examples and turn the task into a find-and-show challenge.
Journal / Mission / Assessment	Record the activity evidence in the student journal; follow with a related mission challenge; assess the relevant practical, data or problem-solving competency.
Close & clean up	Return tools, protect plants and equipment, restore the work area, wash hands and record any follow-up needed.

Teacher reflection: What worked? What evidence showed learning? What should change next time?

PA-032 - SAY - Leaf Garden

Learning objective	Help learners say and talk about leaf color, shape, size and texture through a short, supervised garden experience.
Materials	Picture/word cards where useful, safe garden objects, crayons/pencils, counting tokens, handwashing supplies.
DIY / low-cost option	Use recycled card, bottle tops, sticks or locally available markers instead of purchased classroom manipulatives.
Teacher preparation	Choose one clean, safe observation area in the Leaf Garden. Remove hazards and preselect examples learners may touch.
Step-by-step delivery	1. Gather learners at the observation point. 2. Model careful looking. 3. Ask learners to say one or more examples. 4. Let them point, count, match, draw or describe. 5. Repeat key vocabulary. 6. End with one simple care action.
Questions to ask	What do you see? What is the same? What is different? How many? What should we do to care for it?
Expected evidence	Pointing, oral response, simple count, matching, drawing or safe participation.
Differentiation	Allow oral answers, peer support, larger visual cards and shorter observation periods.
Troubleshooting	If attention drops, reduce the number of examples and turn the task into a find-and-show challenge.
Journal / Mission / Assessment	Record the activity evidence in the student journal; follow with a related mission challenge; assess the relevant practical, data or problem-solving competency.
Close & clean up	Return tools, protect plants and equipment, restore the work area, wash hands and record any follow-up needed.

Teacher reflection: What worked? What evidence showed learning? What should change next time?

PA-033 - FIND - Leaf Garden

Learning objective	Help learners find and talk about leaf color, shape, size and texture through a short, supervised garden experience.
Materials	Picture/word cards where useful, safe garden objects, crayons/pencils, counting tokens, handwashing supplies.
DIY / low-cost option	Use recycled card, bottle tops, sticks or locally available markers instead of purchased classroom manipulatives.
Teacher preparation	Choose one clean, safe observation area in the Leaf Garden. Remove hazards and preselect examples learners may touch.
Step-by-step delivery	1. Gather learners at the observation point. 2. Model careful looking. 3. Ask learners to find one or more examples. 4. Let them point, count, match, draw or describe. 5. Repeat key vocabulary. 6. End with one simple care action.
Questions to ask	What do you see? What is the same? What is different? How many? What should we do to care for it?
Expected evidence	Pointing, oral response, simple count, matching, drawing or safe participation.
Differentiation	Allow oral answers, peer support, larger visual cards and shorter observation periods.
Troubleshooting	If attention drops, reduce the number of examples and turn the task into a find-and-show challenge.
Journal / Mission / Assessment	Record the activity evidence in the student journal; follow with a related mission challenge; assess the relevant practical, data or problem-solving competency.
Close & clean up	Return tools, protect plants and equipment, restore the work area, wash hands and record any follow-up needed.

Teacher reflection: What worked? What evidence showed learning? What should change next time?

PA-034 - COUNT - Leaf Garden

Learning objective	Help learners count and talk about leaf color, shape, size and texture through a short, supervised garden experience.
Materials	Picture/word cards where useful, safe garden objects, crayons/pencils, counting tokens, handwashing supplies.
DIY / low-cost option	Use recycled card, bottle tops, sticks or locally available markers instead of purchased classroom manipulatives.
Teacher preparation	Choose one clean, safe observation area in the Leaf Garden. Remove hazards and preselect examples learners may touch.
Step-by-step delivery	1. Gather learners at the observation point. 2. Model careful looking. 3. Ask learners to count one or more examples. 4. Let them point, count, match, draw or describe. 5. Repeat key vocabulary. 6. End with one simple care action.
Questions to ask	What do you see? What is the same? What is different? How many? What should we do to care for it?
Expected evidence	Pointing, oral response, simple count, matching, drawing or safe participation.
Differentiation	Allow oral answers, peer support, larger visual cards and shorter observation periods.
Troubleshooting	If attention drops, reduce the number of examples and turn the task into a find-and-show challenge.
Journal / Mission / Assessment	Record the activity evidence in the student journal; follow with a related mission challenge; assess the relevant practical, data or problem-solving competency.
Close & clean up	Return tools, protect plants and equipment, restore the work area, wash hands and record any follow-up needed.

Teacher reflection: What worked? What evidence showed learning? What should change next time?

PA-035 - MATCH - Leaf Garden

Learning objective	Help learners match and talk about leaf color, shape, size and texture through a short, supervised garden experience.
Materials	Picture/word cards where useful, safe garden objects, crayons/pencils, counting tokens, handwashing supplies.
DIY / low-cost option	Use recycled card, bottle tops, sticks or locally available markers instead of purchased classroom manipulatives.
Teacher preparation	Choose one clean, safe observation area in the Leaf Garden. Remove hazards and preselect examples learners may touch.
Step-by-step delivery	1. Gather learners at the observation point. 2. Model careful looking. 3. Ask learners to match one or more examples. 4. Let them point, count, match, draw or describe. 5. Repeat key vocabulary. 6. End with one simple care action.
Questions to ask	What do you see? What is the same? What is different? How many? What should we do to care for it?
Expected evidence	Pointing, oral response, simple count, matching, drawing or safe participation.
Differentiation	Allow oral answers, peer support, larger visual cards and shorter observation periods.
Troubleshooting	If attention drops, reduce the number of examples and turn the task into a find-and-show challenge.
Journal / Mission / Assessment	Record the activity evidence in the student journal; follow with a related mission challenge; assess the relevant practical, data or problem-solving competency.
Close & clean up	Return tools, protect plants and equipment, restore the work area, wash hands and record any follow-up needed.

Teacher reflection: What worked? What evidence showed learning? What should change next time?

PA-036 - SORT - Leaf Garden

Learning objective	Help learners sort and talk about leaf color, shape, size and texture through a short, supervised garden experience.
Materials	Picture/word cards where useful, safe garden objects, crayons/pencils, counting tokens, handwashing supplies.
DIY / low-cost option	Use recycled card, bottle tops, sticks or locally available markers instead of purchased classroom manipulatives.
Teacher preparation	Choose one clean, safe observation area in the Leaf Garden. Remove hazards and preselect examples learners may touch.
Step-by-step delivery	1. Gather learners at the observation point. 2. Model careful looking. 3. Ask learners to sort one or more examples. 4. Let them point, count, match, draw or describe. 5. Repeat key vocabulary. 6. End with one simple care action.
Questions to ask	What do you see? What is the same? What is different? How many? What should we do to care for it?
Expected evidence	Pointing, oral response, simple count, matching, drawing or safe participation.
Differentiation	Allow oral answers, peer support, larger visual cards and shorter observation periods.
Troubleshooting	If attention drops, reduce the number of examples and turn the task into a find-and-show challenge.
Journal / Mission / Assessment	Record the activity evidence in the student journal; follow with a related mission challenge; assess the relevant practical, data or problem-solving competency.
Close & clean up	Return tools, protect plants and equipment, restore the work area, wash hands and record any follow-up needed.

Teacher reflection: What worked? What evidence showed learning? What should change next time?

PA-037 - COMPARE - Leaf Garden

Learning objective	Help learners compare and talk about leaf color, shape, size and texture through a short, supervised garden experience.
Materials	Picture/word cards where useful, safe garden objects, crayons/pencils, counting tokens, handwashing supplies.
DIY / low-cost option	Use recycled card, bottle tops, sticks or locally available markers instead of purchased classroom manipulatives.
Teacher preparation	Choose one clean, safe observation area in the Leaf Garden. Remove hazards and preselect examples learners may touch.
Step-by-step delivery	1. Gather learners at the observation point. 2. Model careful looking. 3. Ask learners to compare one or more examples. 4. Let them point, count, match, draw or describe. 5. Repeat key vocabulary. 6. End with one simple care action.
Questions to ask	What do you see? What is the same? What is different? How many? What should we do to care for it?
Expected evidence	Pointing, oral response, simple count, matching, drawing or safe participation.
Differentiation	Allow oral answers, peer support, larger visual cards and shorter observation periods.
Troubleshooting	If attention drops, reduce the number of examples and turn the task into a find-and-show challenge.
Journal / Mission / Assessment	Record the activity evidence in the student journal; follow with a related mission challenge; assess the relevant practical, data or problem-solving competency.
Close & clean up	Return tools, protect plants and equipment, restore the work area, wash hands and record any follow-up needed.

Teacher reflection: What worked? What evidence showed learning? What should change next time?

PA-038 - DRAW - Leaf Garden

Learning objective	Help learners draw and talk about leaf color, shape, size and texture through a short, supervised garden experience.
Materials	Picture/word cards where useful, safe garden objects, crayons/pencils, counting tokens, handwashing supplies.
DIY / low-cost option	Use recycled card, bottle tops, sticks or locally available markers instead of purchased classroom manipulatives.
Teacher preparation	Choose one clean, safe observation area in the Leaf Garden. Remove hazards and preselect examples learners may touch.
Step-by-step delivery	1. Gather learners at the observation point. 2. Model careful looking. 3. Ask learners to draw one or more examples. 4. Let them point, count, match, draw or describe. 5. Repeat key vocabulary. 6. End with one simple care action.
Questions to ask	What do you see? What is the same? What is different? How many? What should we do to care for it?
Expected evidence	Pointing, oral response, simple count, matching, drawing or safe participation.
Differentiation	Allow oral answers, peer support, larger visual cards and shorter observation periods.
Troubleshooting	If attention drops, reduce the number of examples and turn the task into a find-and-show challenge.
Journal / Mission / Assessment	Record the activity evidence in the student journal; follow with a related mission challenge; assess the relevant practical, data or problem-solving competency.
Close & clean up	Return tools, protect plants and equipment, restore the work area, wash hands and record any follow-up needed.

Teacher reflection: What worked? What evidence showed learning? What should change next time?

PA-039 - CARE - Leaf Garden

Learning objective	Help learners care and talk about leaf color, shape, size and texture through a short, supervised garden experience.
Materials	Picture/word cards where useful, safe garden objects, crayons/pencils, counting tokens, handwashing supplies.
DIY / low-cost option	Use recycled card, bottle tops, sticks or locally available markers instead of purchased classroom manipulatives.
Teacher preparation	Choose one clean, safe observation area in the Leaf Garden. Remove hazards and preselect examples learners may touch.
Step-by-step delivery	1. Gather learners at the observation point. 2. Model careful looking. 3. Ask learners to care one or more examples. 4. Let them point, count, match, draw or describe. 5. Repeat key vocabulary. 6. End with one simple care action.
Questions to ask	What do you see? What is the same? What is different? How many? What should we do to care for it?
Expected evidence	Pointing, oral response, simple count, matching, drawing or safe participation.
Differentiation	Allow oral answers, peer support, larger visual cards and shorter observation periods.
Troubleshooting	If attention drops, reduce the number of examples and turn the task into a find-and-show challenge.
Journal / Mission / Assessment	Record the activity evidence in the student journal; follow with a related mission challenge; assess the relevant practical, data or problem-solving competency.
Close & clean up	Return tools, protect plants and equipment, restore the work area, wash hands and record any follow-up needed.

Teacher reflection: What worked? What evidence showed learning? What should change next time?

PA-040 - DISCOVER - Leaf Garden

Learning objective	Help learners discover and talk about leaf color, shape, size and texture through a short, supervised garden experience.
Materials	Picture/word cards where useful, safe garden objects, crayons/pencils, counting tokens, handwashing supplies.
DIY / low-cost option	Use recycled card, bottle tops, sticks or locally available markers instead of purchased classroom manipulatives.
Teacher preparation	Choose one clean, safe observation area in the Leaf Garden. Remove hazards and preselect examples learners may touch.
Step-by-step delivery	1. Gather learners at the observation point. 2. Model careful looking. 3. Ask learners to discover one or more examples. 4. Let them point, count, match, draw or describe. 5. Repeat key vocabulary. 6. End with one simple care action.
Questions to ask	What do you see? What is the same? What is different? How many? What should we do to care for it?
Expected evidence	Pointing, oral response, simple count, matching, drawing or safe participation.
Differentiation	Allow oral answers, peer support, larger visual cards and shorter observation periods.
Troubleshooting	If attention drops, reduce the number of examples and turn the task into a find-and-show challenge.
Journal / Mission / Assessment	Record the activity evidence in the student journal; follow with a related mission challenge; assess the relevant practical, data or problem-solving competency.
Close & clean up	Return tools, protect plants and equipment, restore the work area, wash hands and record any follow-up needed.

Teacher reflection: What worked? What evidence showed learning? What should change next time?

GARDEN 05 - Butterfly Garden

Teaching focus: flowers and harmless garden visitors.

Use the ten activities below as a progression rather than ten isolated exercises. Revisit earlier skills when learners need additional practice.

Garden setup	Prepare safe access, visible labels, a demonstration point and learner work zones in the Butterfly Garden.
Journal link	Learners record observations, measurements, drawings, calculations or reflections in the level-appropriate GrowMeal journal.
Mission link	After skill practice, select a related Garden Mission Card that requires learners to apply the evidence to a challenge.
Assessment link	Use the corresponding practical, investigation/data or mission domain in the GrowMeal Assessment & Quiz System.

PA-041 - SEE - Butterfly Garden

Learning objective	Help learners see and talk about flowers and harmless garden visitors through a short, supervised garden experience.
Materials	Picture/word cards where useful, safe garden objects, crayons/pencils, counting tokens, handwashing supplies.
DIY / low-cost option	Use recycled card, bottle tops, sticks or locally available markers instead of purchased classroom manipulatives.
Teacher preparation	Choose one clean, safe observation area in the Butterfly Garden. Remove hazards and preselect examples learners may touch.
Step-by-step delivery	1. Gather learners at the observation point. 2. Model careful looking. 3. Ask learners to see one or more examples. 4. Let them point, count, match, draw or describe. 5. Repeat key vocabulary. 6. End with one simple care action.
Questions to ask	What do you see? What is the same? What is different? How many? What should we do to care for it?
Expected evidence	Pointing, oral response, simple count, matching, drawing or safe participation.
Differentiation	Allow oral answers, peer support, larger visual cards and shorter observation periods.
Troubleshooting	If attention drops, reduce the number of examples and turn the task into a find-and-show challenge.
Journal / Mission / Assessment	Record the activity evidence in the student journal; follow with a related mission challenge; assess the relevant practical, data or problem-solving competency.
Close & clean up	Return tools, protect plants and equipment, restore the work area, wash hands and record any follow-up needed.

Teacher reflection: What worked? What evidence showed learning? What should change next time?

PA-042 - SAY - Butterfly Garden

Learning objective	Help learners say and talk about flowers and harmless garden visitors through a short, supervised garden experience.
Materials	Picture/word cards where useful, safe garden objects, crayons/pencils, counting tokens, handwashing supplies.
DIY / low-cost option	Use recycled card, bottle tops, sticks or locally available markers instead of purchased classroom manipulatives.
Teacher preparation	Choose one clean, safe observation area in the Butterfly Garden. Remove hazards and preselect examples learners may touch.
Step-by-step delivery	1. Gather learners at the observation point. 2. Model careful looking. 3. Ask learners to say one or more examples. 4. Let them point, count, match, draw or describe. 5. Repeat key vocabulary. 6. End with one simple care action.
Questions to ask	What do you see? What is the same? What is different? How many? What should we do to care for it?
Expected evidence	Pointing, oral response, simple count, matching, drawing or safe participation.
Differentiation	Allow oral answers, peer support, larger visual cards and shorter observation periods.
Troubleshooting	If attention drops, reduce the number of examples and turn the task into a find-and-show challenge.
Journal / Mission / Assessment	Record the activity evidence in the student journal; follow with a related mission challenge; assess the relevant practical, data or problem-solving competency.
Close & clean up	Return tools, protect plants and equipment, restore the work area, wash hands and record any follow-up needed.

Teacher reflection: What worked? What evidence showed learning? What should change next time?

PA-043 - FIND - Butterfly Garden

Learning objective	Help learners find and talk about flowers and harmless garden visitors through a short, supervised garden experience.
Materials	Picture/word cards where useful, safe garden objects, crayons/pencils, counting tokens, handwashing supplies.
DIY / low-cost option	Use recycled card, bottle tops, sticks or locally available markers instead of purchased classroom manipulatives.
Teacher preparation	Choose one clean, safe observation area in the Butterfly Garden. Remove hazards and preselect examples learners may touch.
Step-by-step delivery	1. Gather learners at the observation point. 2. Model careful looking. 3. Ask learners to find one or more examples. 4. Let them point, count, match, draw or describe. 5. Repeat key vocabulary. 6. End with one simple care action.
Questions to ask	What do you see? What is the same? What is different? How many? What should we do to care for it?
Expected evidence	Pointing, oral response, simple count, matching, drawing or safe participation.
Differentiation	Allow oral answers, peer support, larger visual cards and shorter observation periods.
Troubleshooting	If attention drops, reduce the number of examples and turn the task into a find-and-show challenge.
Journal / Mission / Assessment	Record the activity evidence in the student journal; follow with a related mission challenge; assess the relevant practical, data or problem-solving competency.
Close & clean up	Return tools, protect plants and equipment, restore the work area, wash hands and record any follow-up needed.

Teacher reflection: What worked? What evidence showed learning? What should change next time?

PA-044 - COUNT - Butterfly Garden

Learning objective	Help learners count and talk about flowers and harmless garden visitors through a short, supervised garden experience.
Materials	Picture/word cards where useful, safe garden objects, crayons/pencils, counting tokens, handwashing supplies.
DIY / low-cost option	Use recycled card, bottle tops, sticks or locally available markers instead of purchased classroom manipulatives.
Teacher preparation	Choose one clean, safe observation area in the Butterfly Garden. Remove hazards and preselect examples learners may touch.
Step-by-step delivery	1. Gather learners at the observation point. 2. Model careful looking. 3. Ask learners to count one or more examples. 4. Let them point, count, match, draw or describe. 5. Repeat key vocabulary. 6. End with one simple care action.
Questions to ask	What do you see? What is the same? What is different? How many? What should we do to care for it?
Expected evidence	Pointing, oral response, simple count, matching, drawing or safe participation.
Differentiation	Allow oral answers, peer support, larger visual cards and shorter observation periods.
Troubleshooting	If attention drops, reduce the number of examples and turn the task into a find-and-show challenge.
Journal / Mission / Assessment	Record the activity evidence in the student journal; follow with a related mission challenge; assess the relevant practical, data or problem-solving competency.
Close & clean up	Return tools, protect plants and equipment, restore the work area, wash hands and record any follow-up needed.

Teacher reflection: What worked? What evidence showed learning? What should change next time?

PA-045 - MATCH - Butterfly Garden

Learning objective	Help learners match and talk about flowers and harmless garden visitors through a short, supervised garden experience.
Materials	Picture/word cards where useful, safe garden objects, crayons/pencils, counting tokens, handwashing supplies.
DIY / low-cost option	Use recycled card, bottle tops, sticks or locally available markers instead of purchased classroom manipulatives.
Teacher preparation	Choose one clean, safe observation area in the Butterfly Garden. Remove hazards and preselect examples learners may touch.
Step-by-step delivery	1. Gather learners at the observation point. 2. Model careful looking. 3. Ask learners to match one or more examples. 4. Let them point, count, match, draw or describe. 5. Repeat key vocabulary. 6. End with one simple care action.
Questions to ask	What do you see? What is the same? What is different? How many? What should we do to care for it?
Expected evidence	Pointing, oral response, simple count, matching, drawing or safe participation.
Differentiation	Allow oral answers, peer support, larger visual cards and shorter observation periods.
Troubleshooting	If attention drops, reduce the number of examples and turn the task into a find-and-show challenge.
Journal / Mission / Assessment	Record the activity evidence in the student journal; follow with a related mission challenge; assess the relevant practical, data or problem-solving competency.
Close & clean up	Return tools, protect plants and equipment, restore the work area, wash hands and record any follow-up needed.

Teacher reflection: What worked? What evidence showed learning? What should change next time?

PA-046 - SORT - Butterfly Garden

Learning objective	Help learners sort and talk about flowers and harmless garden visitors through a short, supervised garden experience.
Materials	Picture/word cards where useful, safe garden objects, crayons/pencils, counting tokens, handwashing supplies.
DIY / low-cost option	Use recycled card, bottle tops, sticks or locally available markers instead of purchased classroom manipulatives.
Teacher preparation	Choose one clean, safe observation area in the Butterfly Garden. Remove hazards and preselect examples learners may touch.
Step-by-step delivery	1. Gather learners at the observation point. 2. Model careful looking. 3. Ask learners to sort one or more examples. 4. Let them point, count, match, draw or describe. 5. Repeat key vocabulary. 6. End with one simple care action.
Questions to ask	What do you see? What is the same? What is different? How many? What should we do to care for it?
Expected evidence	Pointing, oral response, simple count, matching, drawing or safe participation.
Differentiation	Allow oral answers, peer support, larger visual cards and shorter observation periods.
Troubleshooting	If attention drops, reduce the number of examples and turn the task into a find-and-show challenge.
Journal / Mission / Assessment	Record the activity evidence in the student journal; follow with a related mission challenge; assess the relevant practical, data or problem-solving competency.
Close & clean up	Return tools, protect plants and equipment, restore the work area, wash hands and record any follow-up needed.

Teacher reflection: What worked? What evidence showed learning? What should change next time?

PA-047 - COMPARE - Butterfly Garden

Learning objective	Help learners compare and talk about flowers and harmless garden visitors through a short, supervised garden experience.
Materials	Picture/word cards where useful, safe garden objects, crayons/pencils, counting tokens, handwashing supplies.
DIY / low-cost option	Use recycled card, bottle tops, sticks or locally available markers instead of purchased classroom manipulatives.
Teacher preparation	Choose one clean, safe observation area in the Butterfly Garden. Remove hazards and preselect examples learners may touch.
Step-by-step delivery	1. Gather learners at the observation point. 2. Model careful looking. 3. Ask learners to compare one or more examples. 4. Let them point, count, match, draw or describe. 5. Repeat key vocabulary. 6. End with one simple care action.
Questions to ask	What do you see? What is the same? What is different? How many? What should we do to care for it?
Expected evidence	Pointing, oral response, simple count, matching, drawing or safe participation.
Differentiation	Allow oral answers, peer support, larger visual cards and shorter observation periods.
Troubleshooting	If attention drops, reduce the number of examples and turn the task into a find-and-show challenge.
Journal / Mission / Assessment	Record the activity evidence in the student journal; follow with a related mission challenge; assess the relevant practical, data or problem-solving competency.
Close & clean up	Return tools, protect plants and equipment, restore the work area, wash hands and record any follow-up needed.

Teacher reflection: What worked? What evidence showed learning? What should change next time?

PA-048 - DRAW - Butterfly Garden

Learning objective	Help learners draw and talk about flowers and harmless garden visitors through a short, supervised garden experience.
Materials	Picture/word cards where useful, safe garden objects, crayons/pencils, counting tokens, handwashing supplies.
DIY / low-cost option	Use recycled card, bottle tops, sticks or locally available markers instead of purchased classroom manipulatives.
Teacher preparation	Choose one clean, safe observation area in the Butterfly Garden. Remove hazards and preselect examples learners may touch.
Step-by-step delivery	1. Gather learners at the observation point. 2. Model careful looking. 3. Ask learners to draw one or more examples. 4. Let them point, count, match, draw or describe. 5. Repeat key vocabulary. 6. End with one simple care action.
Questions to ask	What do you see? What is the same? What is different? How many? What should we do to care for it?
Expected evidence	Pointing, oral response, simple count, matching, drawing or safe participation.
Differentiation	Allow oral answers, peer support, larger visual cards and shorter observation periods.
Troubleshooting	If attention drops, reduce the number of examples and turn the task into a find-and-show challenge.
Journal / Mission / Assessment	Record the activity evidence in the student journal; follow with a related mission challenge; assess the relevant practical, data or problem-solving competency.
Close & clean up	Return tools, protect plants and equipment, restore the work area, wash hands and record any follow-up needed.

Teacher reflection: What worked? What evidence showed learning? What should change next time?

PA-049 - CARE - Butterfly Garden

Learning objective	Help learners care and talk about flowers and harmless garden visitors through a short, supervised garden experience.
Materials	Picture/word cards where useful, safe garden objects, crayons/pencils, counting tokens, handwashing supplies.
DIY / low-cost option	Use recycled card, bottle tops, sticks or locally available markers instead of purchased classroom manipulatives.
Teacher preparation	Choose one clean, safe observation area in the Butterfly Garden. Remove hazards and preselect examples learners may touch.
Step-by-step delivery	1. Gather learners at the observation point. 2. Model careful looking. 3. Ask learners to care one or more examples. 4. Let them point, count, match, draw or describe. 5. Repeat key vocabulary. 6. End with one simple care action.
Questions to ask	What do you see? What is the same? What is different? How many? What should we do to care for it?
Expected evidence	Pointing, oral response, simple count, matching, drawing or safe participation.
Differentiation	Allow oral answers, peer support, larger visual cards and shorter observation periods.
Troubleshooting	If attention drops, reduce the number of examples and turn the task into a find-and-show challenge.
Journal / Mission / Assessment	Record the activity evidence in the student journal; follow with a related mission challenge; assess the relevant practical, data or problem-solving competency.
Close & clean up	Return tools, protect plants and equipment, restore the work area, wash hands and record any follow-up needed.

Teacher reflection: What worked? What evidence showed learning? What should change next time?

PA-050 - DISCOVER - Butterfly Garden

Learning objective	Help learners discover and talk about flowers and harmless garden visitors through a short, supervised garden experience.
Materials	Picture/word cards where useful, safe garden objects, crayons/pencils, counting tokens, handwashing supplies.
DIY / low-cost option	Use recycled card, bottle tops, sticks or locally available markers instead of purchased classroom manipulatives.
Teacher preparation	Choose one clean, safe observation area in the Butterfly Garden. Remove hazards and preselect examples learners may touch.
Step-by-step delivery	1. Gather learners at the observation point. 2. Model careful looking. 3. Ask learners to discover one or more examples. 4. Let them point, count, match, draw or describe. 5. Repeat key vocabulary. 6. End with one simple care action.
Questions to ask	What do you see? What is the same? What is different? How many? What should we do to care for it?
Expected evidence	Pointing, oral response, simple count, matching, drawing or safe participation.
Differentiation	Allow oral answers, peer support, larger visual cards and shorter observation periods.
Troubleshooting	If attention drops, reduce the number of examples and turn the task into a find-and-show challenge.
Journal / Mission / Assessment	Record the activity evidence in the student journal; follow with a related mission challenge; assess the relevant practical, data or problem-solving competency.
Close & clean up	Return tools, protect plants and equipment, restore the work area, wash hands and record any follow-up needed.

Teacher reflection: What worked? What evidence showed learning? What should change next time?

GARDEN 06 - ReBottle Garden

Teaching focus: reused bottle planters and plant care.

Use the ten activities below as a progression rather than ten isolated exercises. Revisit earlier skills when learners need additional practice.

Garden setup	Prepare safe access, visible labels, a demonstration point and learner work zones in the ReBottle Garden.
Journal link	Learners record observations, measurements, drawings, calculations or reflections in the level-appropriate GrowMeal journal.
Mission link	After skill practice, select a related Garden Mission Card that requires learners to apply the evidence to a challenge.
Assessment link	Use the corresponding practical, investigation/data or mission domain in the GrowMeal Assessment & Quiz System.

PA-051 - SEE - ReBottle Garden

Learning objective	Help learners see and talk about reused bottle planters and plant care through a short, supervised garden experience.
Materials	Picture/word cards where useful, safe garden objects, crayons/pencils, counting tokens, handwashing supplies.
DIY / low-cost option	Use recycled card, bottle tops, sticks or locally available markers instead of purchased classroom manipulatives.
Teacher preparation	Choose one clean, safe observation area in the ReBottle Garden. Remove hazards and preselect examples learners may touch.
Step-by-step delivery	1. Gather learners at the observation point. 2. Model careful looking. 3. Ask learners to see one or more examples. 4. Let them point, count, match, draw or describe. 5. Repeat key vocabulary. 6. End with one simple care action.
Questions to ask	What do you see? What is the same? What is different? How many? What should we do to care for it?
Expected evidence	Pointing, oral response, simple count, matching, drawing or safe participation.
Differentiation	Allow oral answers, peer support, larger visual cards and shorter observation periods.
Troubleshooting	If attention drops, reduce the number of examples and turn the task into a find-and-show challenge.
Journal / Mission / Assessment	Record the activity evidence in the student journal; follow with a related mission challenge; assess the relevant practical, data or problem-solving competency.
Close & clean up	Return tools, protect plants and equipment, restore the work area, wash hands and record any follow-up needed.

Teacher reflection: What worked? What evidence showed learning? What should change next time?

PA-052 - SAY - ReBottle Garden

Learning objective	Help learners say and talk about reused bottle planters and plant care through a short, supervised garden experience.
Materials	Picture/word cards where useful, safe garden objects, crayons/pencils, counting tokens, handwashing supplies.
DIY / low-cost option	Use recycled card, bottle tops, sticks or locally available markers instead of purchased classroom manipulatives.
Teacher preparation	Choose one clean, safe observation area in the ReBottle Garden. Remove hazards and preselect examples learners may touch.
Step-by-step delivery	1. Gather learners at the observation point. 2. Model careful looking. 3. Ask learners to say one or more examples. 4. Let them point, count, match, draw or describe. 5. Repeat key vocabulary. 6. End with one simple care action.
Questions to ask	What do you see? What is the same? What is different? How many? What should we do to care for it?
Expected evidence	Pointing, oral response, simple count, matching, drawing or safe participation.
Differentiation	Allow oral answers, peer support, larger visual cards and shorter observation periods.

Close & clean up	Return tools, protect plants and equipment, restore the work area, wash hands and record any follow-up needed.

Teacher reflection: What worked? What evidence showed learning? What should change next time?

PA-053 - FIND - ReBottle Garden

Learning objective	Help learners find and talk about reused bottle planters and plant care through a short, supervised garden experience.
Materials	Picture/word cards where useful, safe garden objects, crayons/pencils, counting tokens, handwashing supplies.
DIY / low-cost option	Use recycled card, bottle tops, sticks or locally available markers instead of purchased classroom manipulatives.
Teacher preparation	Choose one clean, safe observation area in the ReBottle Garden. Remove hazards and preselect examples learners may touch.
Step-by-step delivery	1. Gather learners at the observation point. 2. Model careful looking. 3. Ask learners to find one or more examples. 4. Let them point, count, match, draw or describe. 5. Repeat key vocabulary. 6. End with one simple care action.
Questions to ask	What do you see? What is the same? What is different? How many? What should we do to care for it?
Expected evidence	Pointing, oral response, simple count, matching, drawing or safe participation.
Differentiation	Allow oral answers, peer support, larger visual cards and shorter observation periods.
Troubleshooting	If attention drops, reduce the number of examples and turn the task into a find-and-show challenge.
Journal / Mission / Assessment	Record the activity evidence in the student journal; follow with a related mission challenge; assess the relevant practical, data or problem-solving competency.
Close & clean up	Return tools, protect plants and equipment, restore the work area, wash hands and record any follow-up needed.

Teacher reflection: What worked? What evidence showed learning? What should change next time?

PA-054 - COUNT - ReBottle Garden

Learning objective	Help learners count and talk about reused bottle planters and plant care through a short, supervised garden experience.
Materials	Picture/word cards where useful, safe garden objects, crayons/pencils, counting tokens, handwashing supplies.
DIY / low-cost option	Use recycled card, bottle tops, sticks or locally available markers instead of purchased classroom manipulatives.
Teacher preparation	Choose one clean, safe observation area in the ReBottle Garden. Remove hazards and preselect examples learners may touch.
Step-by-step delivery	1. Gather learners at the observation point. 2. Model careful looking. 3. Ask learners to count one or more examples. 4. Let them point, count, match, draw or describe. 5. Repeat key vocabulary. 6. End with one simple care action.
Questions to ask	What do you see? What is the same? What is different? How many? What should we do to care for it?
Expected evidence	Pointing, oral response, simple count, matching, drawing or safe participation.
Differentiation	Allow oral answers, peer support, larger visual cards and shorter observation periods.
Troubleshooting	If attention drops, reduce the number of examples and turn the task into a find-and-show challenge.
Journal / Mission / Assessment	Record the activity evidence in the student journal; follow with a related mission challenge; assess the relevant practical, data or problem-solving competency.
Close & clean up	Return tools, protect plants and equipment, restore the work area, wash hands and record any follow-up needed.

Teacher reflection: What worked? What evidence showed learning? What should change next time?

PA-055 - MATCH - ReBottle Garden

Learning objective	Help learners match and talk about reused bottle planters and plant care through a short, supervised garden experience.
Materials	Picture/word cards where useful, safe garden objects, crayons/pencils, counting tokens, handwashing supplies.
DIY / low-cost option	Use recycled card, bottle tops, sticks or locally available markers instead of purchased classroom manipulatives.
Teacher preparation	Choose one clean, safe observation area in the ReBottle Garden. Remove hazards and preselect examples learners may touch.
Step-by-step delivery	1. Gather learners at the observation point. 2. Model careful looking. 3. Ask learners to match one or more examples. 4. Let them point, count, match, draw or describe. 5. Repeat key vocabulary. 6. End with one simple care action.
Questions to ask	What do you see? What is the same? What is different? How many? What should we do to care for it?
Expected evidence	Pointing, oral response, simple count, matching, drawing or safe participation.
Differentiation	Allow oral answers, peer support, larger visual cards and shorter observation periods.
Troubleshooting	If attention drops, reduce the number of examples and turn the task into a find-and-show challenge.
Journal / Mission / Assessment	Record the activity evidence in the student journal; follow with a related mission challenge; assess the relevant practical, data or problem-solving competency.

Teacher reflection: What worked? What evidence showed learning? What should change next time?

PA-056 - SORT - ReBottle Garden

Learning objective	Help learners sort and talk about reused bottle planters and plant care through a short, supervised garden experience.
Materials	Picture/word cards where useful, safe garden objects, crayons/pencils, counting tokens, handwashing supplies.
DIY / low-cost option	Use recycled card, bottle tops, sticks or locally available markers instead of purchased classroom manipulatives.
Teacher preparation	Choose one clean, safe observation area in the ReBottle Garden. Remove hazards and preselect examples learners may touch.
Step-by-step delivery	1. Gather learners at the observation point. 2. Model careful looking. 3. Ask learners to sort one or more examples. 4. Let them point, count, match, draw or describe. 5. Repeat key vocabulary. 6. End with one simple care action.
Questions to ask	What do you see? What is the same? What is different? How many? What should we do to care for it?
Expected evidence	Pointing, oral response, simple count, matching, drawing or safe participation.
Differentiation	Allow oral answers, peer support, larger visual cards and shorter observation periods.
Troubleshooting	If attention drops, reduce the number of examples and turn the task into a find-and-show challenge.
Journal / Mission / Assessment	Record the activity evidence in the student journal; follow with a related mission challenge; assess the relevant practical, data or problem-solving competency.
Close & clean up	Return tools, protect plants and equipment, restore the work area, wash hands and record any follow-up needed.

Teacher reflection: What worked? What evidence showed learning? What should change next time?

PA-057 - COMPARE - ReBottle Garden

Learning objective	Help learners compare and talk about reused bottle planters and plant care through a short, supervised garden experience.
Materials	Picture/word cards where useful, safe garden objects, crayons/pencils, counting tokens, handwashing supplies.
DIY / low-cost option	Use recycled card, bottle tops, sticks or locally available markers instead of purchased classroom manipulatives.
Teacher preparation	Choose one clean, safe observation area in the ReBottle Garden. Remove hazards and preselect examples learners may touch.
Step-by-step delivery	1. Gather learners at the observation point. 2. Model careful looking. 3. Ask learners to compare one or more examples. 4. Let them point, count, match, draw or describe. 5. Repeat key vocabulary. 6. End with one simple care action.
Questions to ask	What do you see? What is the same? What is different? How many? What should we do to care for it?
Expected evidence	Pointing, oral response, simple count, matching, drawing or safe participation.
Differentiation	Allow oral answers, peer support, larger visual cards and shorter observation periods.
Troubleshooting	If attention drops, reduce the number of examples and turn the task into a find-and-show challenge.
Journal / Mission / Assessment	Record the activity evidence in the student journal; follow with a related mission challenge; assess the relevant practical, data or problem-solving competency.
Close & clean up	Return tools, protect plants and equipment, restore the work area, wash hands and record any follow-up needed.

Teacher reflection: What worked? What evidence showed learning? What should change next time?

PA-058 - DRAW - ReBottle Garden

Learning objective	Help learners draw and talk about reused bottle planters and plant care through a short, supervised garden experience.
Materials	Picture/word cards where useful, safe garden objects, crayons/pencils, counting tokens, handwashing supplies.
DIY / low-cost option	Use recycled card, bottle tops, sticks or locally available markers instead of purchased classroom manipulatives.
Teacher preparation	Choose one clean, safe observation area in the ReBottle Garden. Remove hazards and preselect examples learners may touch.
Step-by-step delivery	1. Gather learners at the observation point. 2. Model careful looking. 3. Ask learners to draw one or more examples. 4. Let them point, count, match, draw or describe. 5. Repeat key vocabulary. 6. End with one simple care action.
Questions to ask	What do you see? What is the same? What is different? How many? What should we do to care for it?
Expected evidence	Pointing, oral response, simple count, matching, drawing or safe participation.
Differentiation	Allow oral answers, peer support, larger visual cards and shorter observation periods.
Troubleshooting	If attention drops, reduce the number of examples and turn the task into a find-and-show challenge.
Journal / Mission / Assessment	Record the activity evidence in the student journal; follow with a related mission challenge; assess the relevant practical, data or problem-solving competency.
Close & clean up	Return tools, protect plants and equipment, restore the work area, wash hands and record any follow-up needed.

Teacher reflection: What worked? What evidence showed learning? What should change next time?

PA-059 - CARE - ReBottle Garden

Learning objective	Help learners care and talk about reused bottle planters and plant care through a short, supervised garden experience.
Materials	Picture/word cards where useful, safe garden objects, crayons/pencils, counting tokens, handwashing supplies.
DIY / low-cost option	Use recycled card, bottle tops, sticks or locally available markers instead of purchased classroom manipulatives.
Teacher preparation	Choose one clean, safe observation area in the ReBottle Garden. Remove hazards and preselect examples learners may touch.
Step-by-step delivery	1. Gather learners at the observation point. 2. Model careful looking. 3. Ask learners to care one or more examples. 4. Let them point, count, match, draw or describe. 5. Repeat key vocabulary. 6. End with one simple care action.
Questions to ask	What do you see? What is the same? What is different? How many? What should we do to care for it?
Expected evidence	Pointing, oral response, simple count, matching, drawing or safe participation.
Differentiation	Allow oral answers, peer support, larger visual cards and shorter observation periods.
Troubleshooting	If attention drops, reduce the number of examples and turn the task into a find-and-show challenge.
Journal / Mission / Assessment	Record the activity evidence in the student journal; follow with a related mission challenge; assess the relevant practical, data or problem-solving competency.
Close & clean up	Return tools, protect plants and equipment, restore the work area, wash hands and record any follow-up needed.

Teacher reflection: What worked? What evidence showed learning? What should change next time?

PA-060 - DISCOVER - ReBottle Garden

Learning objective	Help learners discover and talk about reused bottle planters and plant care through a short, supervised garden experience.
Materials	Picture/word cards where useful, safe garden objects, crayons/pencils, counting tokens, handwashing supplies.
DIY / low-cost option	Use recycled card, bottle tops, sticks or locally available markers instead of purchased classroom manipulatives.
Teacher preparation	Choose one clean, safe observation area in the ReBottle Garden. Remove hazards and preselect examples learners may touch.
Step-by-step delivery	1. Gather learners at the observation point. 2. Model careful looking. 3. Ask learners to discover one or more examples. 4. Let them point, count, match, draw or describe. 5. Repeat key vocabulary. 6. End with one simple care action.
Questions to ask	What do you see? What is the same? What is different? How many? What should we do to care for it?
Expected evidence	Pointing, oral response, simple count, matching, drawing or safe participation.
Differentiation	Allow oral answers, peer support, larger visual cards and shorter observation periods.
Troubleshooting	If attention drops, reduce the number of examples and turn the task into a find-and-show challenge.
Journal / Mission / Assessment	Record the activity evidence in the student journal; follow with a related mission challenge; assess the relevant practical, data or problem-solving competency.

Expected evidence	Pointing, oral response, simple count, matching, drawing or safe participation.
Differentiation	Allow oral answers, peer support, larger visual cards and shorter observation periods.
Troubleshooting	If attention drops, reduce the number of examples and turn the task into a find-and-show challenge.
Journal / Mission / Assessment	Record the activity evidence in the student journal; follow with a related mission challenge; assess the relevant practical, data or problem-solving competency.
Close & clean up	Return tools, protect plants and equipment, restore the work area, wash hands and record any follow-up needed.

Teacher reflection: What worked? What evidence showed learning? What should change next time?

PA-063 - FIND - MicroGrow Garden

Learning objective	Help learners find and talk about seedlings and early growth through a short, supervised garden experience.
Materials	Picture/word cards where useful, safe garden objects, crayons/pencils, counting tokens, handwashing supplies.
DIY / low-cost option	Use recycled card, bottle tops, sticks or locally available markers instead of purchased classroom manipulatives.
Teacher preparation	Choose one clean, safe observation area in the MicroGrow Garden. Remove hazards and preselect examples learners may touch.
Step-by-step delivery	1. Gather learners at the observation point. 2. Model careful looking. 3. Ask learners to find one or more examples. 4. Let them point, count, match, draw or describe. 5. Repeat key vocabulary. 6. End with one simple care action.
Questions to ask	What do you see? What is the same? What is different? How many? What should we do to care for it?
Expected evidence	Pointing, oral response, simple count, matching, drawing or safe participation.
Differentiation	Allow oral answers, peer support, larger visual cards and shorter observation periods.
Troubleshooting	If attention drops, reduce the number of examples and turn the task into a find-and-show challenge.
Journal / Mission / Assessment	Record the activity evidence in the student journal; follow with a related mission challenge; assess the relevant practical, data or problem-solving competency.
Close & clean up	Return tools, protect plants and equipment, restore the work area, wash hands and record any follow-up needed.

Teacher reflection: What worked? What evidence showed learning? What should change next time?

PA-064 - COUNT - MicroGrow Garden

Learning objective	Help learners count and talk about seedlings and early growth through a short, supervised garden experience.
Materials	Picture/word cards where useful, safe garden objects, crayons/pencils, counting tokens, handwashing supplies.
DIY / low-cost option	Use recycled card, bottle tops, sticks or locally available markers instead of purchased classroom manipulatives.
Teacher preparation	Choose one clean, safe observation area in the MicroGrow Garden. Remove hazards and preselect examples learners may touch.
Step-by-step delivery	1. Gather learners at the observation point. 2. Model careful looking. 3. Ask learners to count one or more examples. 4. Let them point, count, match, draw or describe. 5. Repeat key vocabulary. 6. End with one simple care action.
Questions to ask	What do you see? What is the same? What is different? How many? What should we do to care for it?
Expected evidence	Pointing, oral response, simple count, matching, drawing or safe participation.
Differentiation	Allow oral answers, peer support, larger visual cards and shorter observation periods.
Troubleshooting	If attention drops, reduce the number of examples and turn the task into a find-and-show challenge.
Journal / Mission / Assessment	Record the activity evidence in the student journal; follow with a related mission challenge; assess the relevant practical, data or problem-solving competency.
Close & clean up	Return tools, protect plants and equipment, restore the work area, wash hands and record any follow-up needed.

Teacher reflection: What worked? What evidence showed learning? What should change next time?

PA-065 - MATCH - MicroGrow Garden

Learning objective	Help learners match and talk about seedlings and early growth through a short, supervised garden experience.
Materials	Picture/word cards where useful, safe garden objects, crayons/pencils, counting tokens, handwashing supplies.
DIY / low-cost option	Use recycled card, bottle tops, sticks or locally available markers instead of purchased classroom manipulatives.
Teacher preparation	Choose one clean, safe observation area in the MicroGrow Garden. Remove hazards and preselect examples learners may touch.
Step-by-step delivery	1. Gather learners at the observation point. 2. Model careful looking. 3. Ask learners to match one or more examples. 4. Let them point, count, match, draw or describe. 5. Repeat key vocabulary. 6. End with one simple care action.
Questions to ask	What do you see? What is the same? What is different? How many? What should we do to care for it?
Expected evidence	Pointing, oral response, simple count, matching, drawing or safe participation.
Differentiation	Allow oral answers, peer support, larger visual cards and shorter observation periods.
Troubleshooting	If attention drops, reduce the number of examples and turn the task into a find-and-show challenge.
Journal / Mission / Assessment	Record the activity evidence in the student journal; follow with a related mission challenge; assess the relevant practical, data or problem-solving competency.
Close & clean up	Return tools, protect plants and equipment, restore the work area, wash hands and record any follow-up needed.

Teacher reflection: What worked? What evidence showed learning? What should change next time?

PA-066 - SORT - MicroGrow Garden

Learning objective	Help learners sort and talk about seedlings and early growth through a short, supervised garden experience.
Materials	Picture/word cards where useful, safe garden objects, crayons/pencils, counting tokens, handwashing supplies.
DIY / low-cost option	Use recycled card, bottle tops, sticks or locally available markers instead of purchased classroom manipulatives.
Teacher preparation	Choose one clean, safe observation area in the MicroGrow Garden. Remove hazards and preselect examples learners may touch.
Step-by-step delivery	1. Gather learners at the observation point. 2. Model careful looking. 3. Ask learners to sort one or more examples. 4. Let them point, count, match, draw or describe. 5. Repeat key vocabulary. 6. End with one simple care action.
Questions to ask	What do you see? What is the same? What is different? How many? What should we do to care for it?
Expected evidence	Pointing, oral response, simple count, matching, drawing or safe participation.
Differentiation	Allow oral answers, peer support, larger visual cards and shorter observation periods.
Troubleshooting	If attention drops, reduce the number of examples and turn the task into a find-and-show challenge.
Journal / Mission / Assessment	Record the activity evidence in the student journal; follow with a related mission challenge; assess the relevant practical, data or problem-solving competency.
Close & clean up	Return tools, protect plants and equipment, restore the work area, wash hands and record any follow-up needed.

Teacher reflection: What worked? What evidence showed learning? What should change next time?

PA-067 - COMPARE - MicroGrow Garden

Learning objective	Help learners compare and talk about seedlings and early growth through a short, supervised garden experience.
Materials	Picture/word cards where useful, safe garden objects, crayons/pencils, counting tokens, handwashing supplies.
DIY / low-cost option	Use recycled card, bottle tops, sticks or locally available markers instead of purchased classroom manipulatives.
Teacher preparation	Choose one clean, safe observation area in the MicroGrow Garden. Remove hazards and preselect examples learners may touch.
Step-by-step delivery	1. Gather learners at the observation point. 2. Model careful looking. 3. Ask learners to compare one or more examples. 4. Let them point, count, match, draw or describe. 5. Repeat key vocabulary. 6. End with one simple care action.
Questions to ask	What do you see? What is the same? What is different? How many? What should we do to care for it?
Expected evidence	Pointing, oral response, simple count, matching, drawing or safe participation.
Differentiation	Allow oral answers, peer support, larger visual cards and shorter observation periods.
Troubleshooting	If attention drops, reduce the number of examples and turn the task into a find-and-show challenge.
Journal / Mission / Assessment	Record the activity evidence in the student journal; follow with a related mission challenge; assess the relevant practical, data or problem-solving competency.
Close & clean up	Return tools, protect plants and equipment, restore the work area, wash hands and record any follow-up needed.

Teacher reflection: What worked? What evidence showed learning? What should change next time?

PA-068 - DRAW - MicroGrow Garden

Learning objective	Help learners draw and talk about seedlings and early growth through a short, supervised garden experience.
Materials	Picture/word cards where useful, safe garden objects, crayons/pencils, counting tokens, handwashing supplies.
DIY / low-cost option	Use recycled card, bottle tops, sticks or locally available markers instead of purchased classroom manipulatives.
Teacher preparation	Choose one clean, safe observation area in the MicroGrow Garden. Remove hazards and preselect examples learners may touch.
Step-by-step delivery	1. Gather learners at the observation point. 2. Model careful looking. 3. Ask learners to draw one or more examples. 4. Let them point, count, match, draw or describe. 5. Repeat key vocabulary. 6. End with one simple care action.
Questions to ask	What do you see? What is the same? What is different? How many? What should we do to care for it?
Expected evidence	Pointing, oral response, simple count, matching, drawing or safe participation.
Differentiation	Allow oral answers, peer support, larger visual cards and shorter observation periods.
Troubleshooting	If attention drops, reduce the number of examples and turn the task into a find-and-show challenge.
Journal / Mission / Assessment	Record the activity evidence in the student journal; follow with a related mission challenge; assess the relevant practical, data or problem-solving competency.
Close & clean up	Return tools, protect plants and equipment, restore the work area, wash hands and record any follow-up needed.

Teacher reflection: What worked? What evidence showed learning? What should change next time?

PA-069 - CARE - MicroGrow Garden

Learning objective	Help learners care and talk about seedlings and early growth through a short, supervised garden experience.
Materials	Picture/word cards where useful, safe garden objects, crayons/pencils, counting tokens, handwashing supplies.
DIY / low-cost option	Use recycled card, bottle tops, sticks or locally available markers instead of purchased classroom manipulatives.
Teacher preparation	Choose one clean, safe observation area in the MicroGrow Garden. Remove hazards and preselect examples learners may touch.
Step-by-step delivery	1. Gather learners at the observation point. 2. Model careful looking. 3. Ask learners to care one or more examples. 4. Let them point, count, match, draw or describe. 5. Repeat key vocabulary. 6. End with one simple care action.
Questions to ask	What do you see? What is the same? What is different? How many? What should we do to care for it?
Expected evidence	Pointing, oral response, simple count, matching, drawing or safe participation.
Differentiation	Allow oral answers, peer support, larger visual cards and shorter observation periods.
Troubleshooting	If attention drops, reduce the number of examples and turn the task into a find-and-show challenge.
Journal / Mission / Assessment	Record the activity evidence in the student journal; follow with a related mission challenge; assess the relevant practical, data or problem-solving competency.
Close & clean up	Return tools, protect plants and equipment, restore the work area, wash hands and record any follow-up needed.

Teacher reflection: What worked? What evidence showed learning? What should change next time?

PA-070 - DISCOVER - MicroGrow Garden

Learning objective	Help learners discover and talk about seedlings and early growth through a short, supervised garden experience.
Materials	Picture/word cards where useful, safe garden objects, crayons/pencils, counting tokens, handwashing supplies.
DIY / low-cost option	Use recycled card, bottle tops, sticks or locally available markers instead of purchased classroom manipulatives.
Teacher preparation	Choose one clean, safe observation area in the MicroGrow Garden. Remove hazards and preselect examples learners may touch.
Step-by-step delivery	1. Gather learners at the observation point. 2. Model careful looking. 3. Ask learners to discover one or more examples. 4. Let them point, count, match, draw or describe. 5. Repeat key vocabulary. 6. End with one simple care action.
Questions to ask	What do you see? What is the same? What is different? How many? What should we do to care for it?
Expected evidence	Pointing, oral response, simple count, matching, drawing or safe participation.
Differentiation	Allow oral answers, peer support, larger visual cards and shorter observation periods.
Troubleshooting	If attention drops, reduce the number of examples and turn the task into a find-and-show challenge.
Journal / Mission / Assessment	Record the activity evidence in the student journal; follow with a related mission challenge; assess the relevant practical, data or problem-solving competency.
Close & clean up	Return tools, protect plants and equipment, restore the work area, wash hands and record any follow-up needed.

Teacher reflection: What worked? What evidence showed learning? What should change next time?

GARDEN 08 - Mini Table Garden

Teaching focus: small-container growing and care.

Use the ten activities below as a progression rather than ten isolated exercises. Revisit earlier skills when learners need additional practice.

Garden setup	Prepare safe access, visible labels, a demonstration point and learner work zones in the Mini Table Garden.
Journal link	Learners record observations, measurements, drawings, calculations or reflections in the level-appropriate GrowMeal journal.
Mission link	After skill practice, select a related Garden Mission Card that requires learners to apply the evidence to a challenge.
Assessment link	Use the corresponding practical, investigation/data or mission domain in the GrowMeal Assessment & Quiz System.

PA-071 - SEE - Mini Table Garden

Learning objective	Help learners see and talk about small-container growing and care through a short, supervised garden experience.
Materials	Picture/word cards where useful, safe garden objects, crayons/pencils, counting tokens, handwashing supplies.
DIY / low-cost option	Use recycled card, bottle tops, sticks or locally available markers instead of purchased classroom manipulatives.
Teacher preparation	Choose one clean, safe observation area in the Mini Table Garden. Remove hazards and preselect examples learners may touch.
Step-by-step delivery	1. Gather learners at the observation point. 2. Model careful looking. 3. Ask learners to see one or more examples. 4. Let them point, count, match, draw or describe. 5. Repeat key vocabulary. 6. End with one simple care action.
Questions to ask	What do you see? What is the same? What is different? How many? What should we do to care for it?
Expected evidence	Pointing, oral response, simple count, matching, drawing or safe participation.
Differentiation	Allow oral answers, peer support, larger visual cards and shorter observation periods.
Troubleshooting	If attention drops, reduce the number of examples and turn the task into a find-and-show challenge.
Journal / Mission / Assessment	Record the activity evidence in the student journal; follow with a related mission challenge; assess the relevant practical, data or problem-solving competency.
Close & clean up	Return tools, protect plants and equipment, restore the work area, wash hands and record any follow-up needed.

Teacher reflection: What worked? What evidence showed learning? What should change next time?

PA-072 - SAY - Mini Table Garden

Learning objective	Help learners say and talk about small-container growing and care through a short, supervised garden experience.
Materials	Picture/word cards where useful, safe garden objects, crayons/pencils, counting tokens, handwashing supplies.
DIY / low-cost option	Use recycled card, bottle tops, sticks or locally available markers instead of purchased classroom manipulatives.
Teacher preparation	Choose one clean, safe observation area in the Mini Table Garden. Remove hazards and preselect examples learners may touch.
Step-by-step delivery	1. Gather learners at the observation point. 2. Model careful looking. 3. Ask learners to say one or more examples. 4. Let them point, count, match, draw or describe. 5. Repeat key vocabulary. 6. End with one simple care action.
Questions to ask	What do you see? What is the same? What is different? How many? What should we do to care for it?
Expected evidence	Pointing, oral response, simple count, matching, drawing or safe participation.
Differentiation	Allow oral answers, peer support, larger visual cards and shorter observation periods.
Troubleshooting	If attention drops, reduce the number of examples and turn the task into a find-and-show challenge.
Journal / Mission / Assessment	Record the activity evidence in the student journal; follow with a related mission challenge; assess the relevant practical, data or problem-solving competency.
Close & clean up	Return tools, protect plants and equipment, restore the work area, wash hands and record any follow-up needed.

Teacher reflection: What worked? What evidence showed learning? What should change next time?

PA-073 - FIND - Mini Table Garden

Learning objective	Help learners find and talk about small-container growing and care through a short, supervised garden experience.
Materials	Picture/word cards where useful, safe garden objects, crayons/pencils, counting tokens, handwashing supplies.
DIY / low-cost option	Use recycled card, bottle tops, sticks or locally available markers instead of purchased classroom manipulatives.
Teacher preparation	Choose one clean, safe observation area in the Mini Table Garden. Remove hazards and preselect examples learners may touch.
Step-by-step delivery	1. Gather learners at the observation point. 2. Model careful looking. 3. Ask learners to find one or more examples. 4. Let them point, count, match, draw or describe. 5. Repeat key vocabulary. 6. End with one simple care action.
Questions to ask	What do you see? What is the same? What is different? How many? What should we do to care for it?
Expected evidence	Pointing, oral response, simple count, matching, drawing or safe participation.
Differentiation	Allow oral answers, peer support, larger visual cards and shorter observation periods.
Troubleshooting	If attention drops, reduce the number of examples and turn the task into a find-and-show challenge.
Journal / Mission / Assessment	Record the activity evidence in the student journal; follow with a related mission challenge; assess the relevant practical, data or problem-solving competency.
Close & clean up	Return tools, protect plants and equipment, restore the work area, wash hands and record any follow-up needed.

Teacher reflection: What worked? What evidence showed learning? What should change next time?

PA-074 - COUNT - Mini Table Garden

Learning objective	Help learners count and talk about small-container growing and care through a short, supervised garden experience.
Materials	Picture/word cards where useful, safe garden objects, crayons/pencils, counting tokens, handwashing supplies.
DIY / low-cost option	Use recycled card, bottle tops, sticks or locally available markers instead of purchased classroom manipulatives.
Teacher preparation	Choose one clean, safe observation area in the Mini Table Garden. Remove hazards and preselect examples learners may touch.
Step-by-step delivery	1. Gather learners at the observation point. 2. Model careful looking. 3. Ask learners to count one or more examples. 4. Let them point, count, match, draw or describe. 5. Repeat key vocabulary. 6. End with one simple care action.
Questions to ask	What do you see? What is the same? What is different? How many? What should we do to care for it?
Expected evidence	Pointing, oral response, simple count, matching, drawing or safe participation.
Differentiation	Allow oral answers, peer support, larger visual cards and shorter observation periods.
Troubleshooting	If attention drops, reduce the number of examples and turn the task into a find-and-show challenge.
Journal / Mission / Assessment	Record the activity evidence in the student journal; follow with a related mission challenge; assess the relevant practical, data or problem-solving competency.
Close & clean up	Return tools, protect plants and equipment, restore the work area, wash hands and record any follow-up needed.

Teacher reflection: What worked? What evidence showed learning? What should change next time?

PA-075 - MATCH - Mini Table Garden

Learning objective	Help learners match and talk about small-container growing and care through a short, supervised garden experience.
Materials	Picture/word cards where useful, safe garden objects, crayons/pencils, counting tokens, handwashing supplies.
DIY / low-cost option	Use recycled card, bottle tops, sticks or locally available markers instead of purchased classroom manipulatives.
Teacher preparation	Choose one clean, safe observation area in the Mini Table Garden. Remove hazards and preselect examples learners may touch.
Step-by-step delivery	1. Gather learners at the observation point. 2. Model careful looking. 3. Ask learners to match one or more examples. 4. Let them point, count, match, draw or describe. 5. Repeat key vocabulary. 6. End with one simple care action.
Questions to ask	What do you see? What is the same? What is different? How many? What should we do to care for it?
Expected evidence	Pointing, oral response, simple count, matching, drawing or safe participation.
Differentiation	Allow oral answers, peer support, larger visual cards and shorter observation periods.
Troubleshooting	If attention drops, reduce the number of examples and turn the task into a find-and-show challenge.
Journal / Mission / Assessment	Record the activity evidence in the student journal; follow with a related mission challenge; assess the relevant practical, data or problem-solving competency.
Close & clean up	Return tools, protect plants and equipment, restore the work area, wash hands and record any follow-up needed.

Teacher reflection: What worked? What evidence showed learning? What should change next time?

PA-076 - SORT - Mini Table Garden

Learning objective	Help learners sort and talk about small-container growing and care through a short, supervised garden experience.
Materials	Picture/word cards where useful, safe garden objects, crayons/pencils, counting tokens, handwashing supplies.
DIY / low-cost option	Use recycled card, bottle tops, sticks or locally available markers instead of purchased classroom manipulatives.
Teacher preparation	Choose one clean, safe observation area in the Mini Table Garden. Remove hazards and preselect examples learners may touch.
Step-by-step delivery	1. Gather learners at the observation point. 2. Model careful looking. 3. Ask learners to sort one or more examples. 4. Let them point, count, match, draw or describe. 5. Repeat key vocabulary. 6. End with one simple care action.
Questions to ask	What do you see? What is the same? What is different? How many? What should we do to care for it?
Expected evidence	Pointing, oral response, simple count, matching, drawing or safe participation.
Differentiation	Allow oral answers, peer support, larger visual cards and shorter observation periods.
Troubleshooting	If attention drops, reduce the number of examples and turn the task into a find-and-show challenge.
Journal / Mission / Assessment	Record the activity evidence in the student journal; follow with a related mission challenge; assess the relevant practical, data or problem-solving competency.
Close & clean up	Return tools, protect plants and equipment, restore the work area, wash hands and record any follow-up needed.

Teacher reflection: What worked? What evidence showed learning? What should change next time?

PA-077 - COMPARE - Mini Table Garden

Learning objective	Help learners compare and talk about small-container growing and care through a short, supervised garden experience.
Materials	Picture/word cards where useful, safe garden objects, crayons/pencils, counting tokens, handwashing supplies.
DIY / low-cost option	Use recycled card, bottle tops, sticks or locally available markers instead of purchased classroom manipulatives.
Teacher preparation	Choose one clean, safe observation area in the Mini Table Garden. Remove hazards and preselect examples learners may touch.
Step-by-step delivery	1. Gather learners at the observation point. 2. Model careful looking. 3. Ask learners to compare one or more examples. 4. Let them point, count, match, draw or describe. 5. Repeat key vocabulary. 6. End with one simple care action.
Questions to ask	What do you see? What is the same? What is different? How many? What should we do to care for it?
Expected evidence	Pointing, oral response, simple count, matching, drawing or safe participation.
Differentiation	Allow oral answers, peer support, larger visual cards and shorter observation periods.
Troubleshooting	If attention drops, reduce the number of examples and turn the task into a find-and-show challenge.
Journal / Mission / Assessment	Record the activity evidence in the student journal; follow with a related mission challenge; assess the relevant practical, data or problem-solving competency.
Close & clean up	Return tools, protect plants and equipment, restore the work area, wash hands and record any follow-up needed.

Teacher reflection: What worked? What evidence showed learning? What should change next time?

PA-078 - DRAW - Mini Table Garden

Learning objective	Help learners draw and talk about small-container growing and care through a short, supervised garden experience.
Materials	Picture/word cards where useful, safe garden objects, crayons/pencils, counting tokens, handwashing supplies.
DIY / low-cost option	Use recycled card, bottle tops, sticks or locally available markers instead of purchased classroom manipulatives.
Teacher preparation	Choose one clean, safe observation area in the Mini Table Garden. Remove hazards and preselect examples learners may touch.
Step-by-step delivery	1. Gather learners at the observation point. 2. Model careful looking. 3. Ask learners to draw one or more examples. 4. Let them point, count, match, draw or describe. 5. Repeat key vocabulary. 6. End with one simple care action.
Questions to ask	What do you see? What is the same? What is different? How many? What should we do to care for it?
Expected evidence	Pointing, oral response, simple count, matching, drawing or safe participation.
Differentiation	Allow oral answers, peer support, larger visual cards and shorter observation periods.
Troubleshooting	If attention drops, reduce the number of examples and turn the task into a find-and-show challenge.
Journal / Mission / Assessment	Record the activity evidence in the student journal; follow with a related mission challenge; assess the relevant practical, data or problem-solving competency.
Close & clean up	Return tools, protect plants and equipment, restore the work area, wash hands and record any follow-up needed.

Teacher reflection: What worked? What evidence showed learning? What should change next time?

PA-079 - CARE - Mini Table Garden

Learning objective	Help learners care and talk about small-container growing and care through a short, supervised garden experience.
Materials	Picture/word cards where useful, safe garden objects, crayons/pencils, counting tokens, handwashing supplies.
DIY / low-cost option	Use recycled card, bottle tops, sticks or locally available markers instead of purchased classroom manipulatives.
Teacher preparation	Choose one clean, safe observation area in the Mini Table Garden. Remove hazards and preselect examples learners may touch.
Step-by-step delivery	1. Gather learners at the observation point. 2. Model careful looking. 3. Ask learners to care one or more examples. 4. Let them point, count, match, draw or describe. 5. Repeat key vocabulary. 6. End with one simple care action.
Questions to ask	What do you see? What is the same? What is different? How many? What should we do to care for it?
Expected evidence	Pointing, oral response, simple count, matching, drawing or safe participation.
Differentiation	Allow oral answers, peer support, larger visual cards and shorter observation periods.
Troubleshooting	If attention drops, reduce the number of examples and turn the task into a find-and-show challenge.
Journal / Mission / Assessment	Record the activity evidence in the student journal; follow with a related mission challenge; assess the relevant practical, data or problem-solving competency.
Close & clean up	Return tools, protect plants and equipment, restore the work area, wash hands and record any follow-up needed.

Teacher reflection: What worked? What evidence showed learning? What should change next time?

PA-080 - DISCOVER - Mini Table Garden

Learning objective	Help learners discover and talk about small-container growing and care through a short, supervised garden experience.
Materials	Picture/word cards where useful, safe garden objects, crayons/pencils, counting tokens, handwashing supplies.
DIY / low-cost option	Use recycled card, bottle tops, sticks or locally available markers instead of purchased classroom manipulatives.
Teacher preparation	Choose one clean, safe observation area in the Mini Table Garden. Remove hazards and preselect examples learners may touch.
Step-by-step delivery	1. Gather learners at the observation point. 2. Model careful looking. 3. Ask learners to discover one or more examples. 4. Let them point, count, match, draw or describe. 5. Repeat key vocabulary. 6. End with one simple care action.
Questions to ask	What do you see? What is the same? What is different? How many? What should we do to care for it?
Expected evidence	Pointing, oral response, simple count, matching, drawing or safe participation.
Differentiation	Allow oral answers, peer support, larger visual cards and shorter observation periods.
Troubleshooting	If attention drops, reduce the number of examples and turn the task into a find-and-show challenge.
Journal / Mission / Assessment	Record the activity evidence in the student journal; follow with a related mission challenge; assess the relevant practical, data or problem-solving competency.
Close & clean up	Return tools, protect plants and equipment, restore the work area, wash hands and record any follow-up needed.

Teacher reflection: What worked? What evidence showed learning? What should change next time?

GARDEN 09 - Sack Garden

Teaching focus: sack-growing positions and plant care.

Use the ten activities below as a progression rather than ten isolated exercises. Revisit earlier skills when learners need additional practice.

Garden setup	Prepare safe access, visible labels, a demonstration point and learner work zones in the Sack Garden.
Journal link	Learners record observations, measurements, drawings, calculations or reflections in the level-appropriate GrowMeal journal.
Mission link	After skill practice, select a related Garden Mission Card that requires learners to apply the evidence to a challenge.
Assessment link	Use the corresponding practical, investigation/data or mission domain in the GrowMeal Assessment & Quiz System.

PA-081 - SEE - Sack Garden

Learning objective	Help learners see and talk about sack-growing positions and plant care through a short, supervised garden experience.
Materials	Picture/word cards where useful, safe garden objects, crayons/pencils, counting tokens, handwashing supplies.
DIY / low-cost option	Use recycled card, bottle tops, sticks or locally available markers instead of purchased classroom manipulatives.
Teacher preparation	Choose one clean, safe observation area in the Sack Garden. Remove hazards and preselect examples learners may touch.
Step-by-step delivery	1. Gather learners at the observation point. 2. Model careful looking. 3. Ask learners to see one or more examples. 4. Let them point, count, match, draw or describe. 5. Repeat key vocabulary. 6. End with one simple care action.
Questions to ask	What do you see? What is the same? What is different? How many? What should we do to care for it?
Expected evidence	Pointing, oral response, simple count, matching, drawing or safe participation.
Differentiation	Allow oral answers, peer support, larger visual cards and shorter observation periods.
Troubleshooting	If attention drops, reduce the number of examples and turn the task into a find-and-show challenge.
Journal / Mission / Assessment	Record the activity evidence in the student journal; follow with a related mission challenge; assess the relevant practical, data or problem-solving competency.
Close & clean up	Return tools, protect plants and equipment, restore the work area, wash hands and record any follow-up needed.

Teacher reflection: What worked? What evidence showed learning? What should change next time?

PA-082 - SAY - Sack Garden

Learning objective	Help learners say and talk about sack-growing positions and plant care through a short, supervised garden experience.
Materials	Picture/word cards where useful, safe garden objects, crayons/pencils, counting tokens, handwashing supplies.
DIY / low-cost option	Use recycled card, bottle tops, sticks or locally available markers instead of purchased classroom manipulatives.
Teacher preparation	Choose one clean, safe observation area in the Sack Garden. Remove hazards and preselect examples learners may touch.
Step-by-step delivery	1. Gather learners at the observation point. 2. Model careful looking. 3. Ask learners to say one or more examples. 4. Let them point, count, match, draw or describe. 5. Repeat key vocabulary. 6. End with one simple care action.
Questions to ask	What do you see? What is the same? What is different? How many? What should we do to care for it?
Expected evidence	Pointing, oral response, simple count, matching, drawing or safe participation.
Differentiation	Allow oral answers, peer support, larger visual cards and shorter observation periods.

Teacher reflection: What worked? What evidence showed learning? What should change next time?

PA-083 - FIND - Sack Garden

Learning objective	Help learners find and talk about sack-growing positions and plant care through a short, supervised garden experience.
Materials	Picture/word cards where useful, safe garden objects, crayons/pencils, counting tokens, handwashing supplies.
DIY / low-cost option	Use recycled card, bottle tops, sticks or locally available markers instead of purchased classroom manipulatives.
Teacher preparation	Choose one clean, safe observation area in the Sack Garden. Remove hazards and preselect examples learners may touch.
Step-by-step delivery	1. Gather learners at the observation point. 2. Model careful looking. 3. Ask learners to find one or more examples. 4. Let them point, count, match, draw or describe. 5. Repeat key vocabulary. 6. End with one simple care action.
Questions to ask	What do you see? What is the same? What is different? How many? What should we do to care for it?
Expected evidence	Pointing, oral response, simple count, matching, drawing or safe participation.
Differentiation	Allow oral answers, peer support, larger visual cards and shorter observation periods.
Troubleshooting	If attention drops, reduce the number of examples and turn the task into a find-and-show challenge.
Journal / Mission / Assessment	Record the activity evidence in the student journal; follow with a related mission challenge; assess the relevant practical, data or problem-solving competency.
Close & clean up	Return tools, protect plants and equipment, restore the work area, wash hands and record any follow-up needed.

Teacher reflection: What worked? What evidence showed learning? What should change next time?

PA-084 - COUNT - Sack Garden

Learning objective	Help learners count and talk about sack-growing positions and plant care through a short, supervised garden experience.
Materials	Picture/word cards where useful, safe garden objects, crayons/pencils, counting tokens, handwashing supplies.
DIY / low-cost option	Use recycled card, bottle tops, sticks or locally available markers instead of purchased classroom manipulatives.
Teacher preparation	Choose one clean, safe observation area in the Sack Garden. Remove hazards and preselect examples learners may touch.
Step-by-step delivery	1. Gather learners at the observation point. 2. Model careful looking. 3. Ask learners to count one or more examples. 4. Let them point, count, match, draw or describe. 5. Repeat key vocabulary. 6. End with one simple care action.
Questions to ask	What do you see? What is the same? What is different? How many? What should we do to care for it?
Expected evidence	Pointing, oral response, simple count, matching, drawing or safe participation.
Differentiation	Allow oral answers, peer support, larger visual cards and shorter observation periods.
Troubleshooting	If attention drops, reduce the number of examples and turn the task into a find-and-show challenge.
Journal / Mission / Assessment	Record the activity evidence in the student journal; follow with a related mission challenge; assess the relevant practical, data or problem-solving competency.
Close & clean up	Return tools, protect plants and equipment, restore the work area, wash hands and record any follow-up needed.

Teacher reflection: What worked? What evidence showed learning? What should change next time?

PA-085 - MATCH - Sack Garden

Learning objective	Help learners match and talk about sack-growing positions and plant care through a short, supervised garden experience.
Materials	Picture/word cards where useful, safe garden objects, crayons/pencils, counting tokens, handwashing supplies.
DIY / low-cost option	Use recycled card, bottle tops, sticks or locally available markers instead of purchased classroom manipulatives.
Teacher preparation	Choose one clean, safe observation area in the Sack Garden. Remove hazards and preselect examples learners may touch.
Step-by-step delivery	1. Gather learners at the observation point. 2. Model careful looking. 3. Ask learners to match one or more examples. 4. Let them point, count, match, draw or describe. 5. Repeat key vocabulary. 6. End with one simple care action.
Questions to ask	What do you see? What is the same? What is different? How many? What should we do to care for it?
Expected evidence	Pointing, oral response, simple count, matching, drawing or safe participation.
Differentiation	Allow oral answers, peer support, larger visual cards and shorter observation periods.
Troubleshooting	If attention drops, reduce the number of examples and turn the task into a find-and-show challenge.
Journal / Mission / Assessment	Record the activity evidence in the student journal; follow with a related mission challenge; assess the relevant practical, data or problem-solving competency.
Close & clean up	Return tools, protect plants and equipment, restore the work area, wash hands and record any follow-up needed.

Teacher reflection: What worked? What evidence showed learning? What should change next time?

PA-086 - SORT - Sack Garden

Learning objective	Help learners sort and talk about sack-growing positions and plant care through a short, supervised garden experience.
Materials	Picture/word cards where useful, safe garden objects, crayons/pencils, counting tokens, handwashing supplies.
DIY / low-cost option	Use recycled card, bottle tops, sticks or locally available markers instead of purchased classroom manipulatives.
Teacher preparation	Choose one clean, safe observation area in the Sack Garden. Remove hazards and preselect examples learners may touch.
Step-by-step delivery	1. Gather learners at the observation point. 2. Model careful looking. 3. Ask learners to sort one or more examples. 4. Let them point, count, match, draw or describe. 5. Repeat key vocabulary. 6. End with one simple care action.
Questions to ask	What do you see? What is the same? What is different? How many? What should we do to care for it?
Expected evidence	Pointing, oral response, simple count, matching, drawing or safe participation.
Differentiation	Allow oral answers, peer support, larger visual cards and shorter observation periods.
Troubleshooting	If attention drops, reduce the number of examples and turn the task into a find-and-show challenge.
Journal / Mission / Assessment	Record the activity evidence in the student journal; follow with a related mission challenge; assess the relevant practical, data or problem-solving competency.
Close & clean up	Return tools, protect plants and equipment, restore the work area, wash hands and record any follow-up needed.

Teacher reflection: What worked? What evidence showed learning? What should change next time?

PA-087 - COMPARE - Sack Garden

Learning objective	Help learners compare and talk about sack-growing positions and plant care through a short, supervised garden experience.
Materials	Picture/word cards where useful, safe garden objects, crayons/pencils, counting tokens, handwashing supplies.
DIY / low-cost option	Use recycled card, bottle tops, sticks or locally available markers instead of purchased classroom manipulatives.
Teacher preparation	Choose one clean, safe observation area in the Sack Garden. Remove hazards and preselect examples learners may touch.
Step-by-step delivery	1. Gather learners at the observation point. 2. Model careful looking. 3. Ask learners to compare one or more examples. 4. Let them point, count, match, draw or describe. 5. Repeat key vocabulary. 6. End with one simple care action.
Questions to ask	What do you see? What is the same? What is different? How many? What should we do to care for it?
Expected evidence	Pointing, oral response, simple count, matching, drawing or safe participation.
Differentiation	Allow oral answers, peer support, larger visual cards and shorter observation periods.
Troubleshooting	If attention drops, reduce the number of examples and turn the task into a find-and-show challenge.
Journal / Mission / Assessment	Record the activity evidence in the student journal; follow with a related mission challenge; assess the relevant practical, data or problem-solving competency.
Close & clean up	Return tools, protect plants and equipment, restore the work area, wash hands and record any follow-up needed.

Teacher reflection: What worked? What evidence showed learning? What should change next time?

PA-088 - DRAW - Sack Garden

Learning objective	Help learners draw and talk about sack-growing positions and plant care through a short, supervised garden experience.
Materials	Picture/word cards where useful, safe garden objects, crayons/pencils, counting tokens, handwashing supplies.
DIY / low-cost option	Use recycled card, bottle tops, sticks or locally available markers instead of purchased classroom manipulatives.
Teacher preparation	Choose one clean, safe observation area in the Sack Garden. Remove hazards and preselect examples learners may touch.
Step-by-step delivery	1. Gather learners at the observation point. 2. Model careful looking. 3. Ask learners to draw one or more examples. 4. Let them point, count, match, draw or describe. 5. Repeat key vocabulary. 6. End with one simple care action.
Questions to ask	What do you see? What is the same? What is different? How many? What should we do to care for it?
Expected evidence	Pointing, oral response, simple count, matching, drawing or safe participation.
Differentiation	Allow oral answers, peer support, larger visual cards and shorter observation periods.
Troubleshooting	If attention drops, reduce the number of examples and turn the task into a find-and-show challenge.
Journal / Mission / Assessment	Record the activity evidence in the student journal; follow with a related mission challenge; assess the relevant practical, data or problem-solving competency.
Close & clean up	Return tools, protect plants and equipment, restore the work area, wash hands and record any follow-up needed.

Teacher reflection: What worked? What evidence showed learning? What should change next time?

PA-089 - CARE - Sack Garden

Learning objective	Help learners care and talk about sack-growing positions and plant care through a short, supervised garden experience.
Materials	Picture/word cards where useful, safe garden objects, crayons/pencils, counting tokens, handwashing supplies.
DIY / low-cost option	Use recycled card, bottle tops, sticks or locally available markers instead of purchased classroom manipulatives.
Teacher preparation	Choose one clean, safe observation area in the Sack Garden. Remove hazards and preselect examples learners may touch.
Step-by-step delivery	1. Gather learners at the observation point. 2. Model careful looking. 3. Ask learners to care one or more examples. 4. Let them point, count, match, draw or describe. 5. Repeat key vocabulary. 6. End with one simple care action.
Questions to ask	What do you see? What is the same? What is different? How many? What should we do to care for it?
Expected evidence	Pointing, oral response, simple count, matching, drawing or safe participation.
Differentiation	Allow oral answers, peer support, larger visual cards and shorter observation periods.
Troubleshooting	If attention drops, reduce the number of examples and turn the task into a find-and-show challenge.
Journal / Mission / Assessment	Record the activity evidence in the student journal; follow with a related mission challenge; assess the relevant practical, data or problem-solving competency.
Close & clean up	Return tools, protect plants and equipment, restore the work area, wash hands and record any follow-up needed.

Teacher reflection: What worked? What evidence showed learning? What should change next time?

PA-090 - DISCOVER - Sack Garden

Learning objective	Help learners discover and talk about sack-growing positions and plant care through a short, supervised garden experience.
Materials	Picture/word cards where useful, safe garden objects, crayons/pencils, counting tokens, handwashing supplies.
DIY / low-cost option	Use recycled card, bottle tops, sticks or locally available markers instead of purchased classroom manipulatives.
Teacher preparation	Choose one clean, safe observation area in the Sack Garden. Remove hazards and preselect examples learners may touch.
Step-by-step delivery	1. Gather learners at the observation point. 2. Model careful looking. 3. Ask learners to discover one or more examples. 4. Let them point, count, match, draw or describe. 5. Repeat key vocabulary. 6. End with one simple care action.
Questions to ask	What do you see? What is the same? What is different? How many? What should we do to care for it?
Expected evidence	Pointing, oral response, simple count, matching, drawing or safe participation.
Differentiation	Allow oral answers, peer support, larger visual cards and shorter observation periods.
Troubleshooting	If attention drops, reduce the number of examples and turn the task into a find-and-show challenge.
Journal / Mission / Assessment	Record the activity evidence in the student journal; follow with a related mission challenge; assess the relevant practical, data or problem-solving competency.
Close & clean up	Return tools, protect plants and equipment, restore the work area, wash hands and record any follow-up needed.

Teacher reflection: What worked? What evidence showed learning? What should change next time?

GARDEN 10 - Discovery Garden

Teaching focus: safe observation and curiosity.

Use the ten activities below as a progression rather than ten isolated exercises. Revisit earlier skills when learners need additional practice.

Garden setup	Prepare safe access, visible labels, a demonstration point and learner work zones in the Discovery Garden.
Journal link	Learners record observations, measurements, drawings, calculations or reflections in the level-appropriate GrowMeal journal.
Mission link	After skill practice, select a related Garden Mission Card that requires learners to apply the evidence to a challenge.
Assessment link	Use the corresponding practical, investigation/data or mission domain in the GrowMeal Assessment & Quiz System.

PA-091 - SEE - Discovery Garden

Learning objective	Help learners see and talk about safe observation and curiosity through a short, supervised garden experience.
Materials	Picture/word cards where useful, safe garden objects, crayons/pencils, counting tokens, handwashing supplies.
DIY / low-cost option	Use recycled card, bottle tops, sticks or locally available markers instead of purchased classroom manipulatives.
Teacher preparation	Choose one clean, safe observation area in the Discovery Garden. Remove hazards and preselect examples learners may touch.
Step-by-step delivery	1. Gather learners at the observation point. 2. Model careful looking. 3. Ask learners to see one or more examples. 4. Let them point, count, match, draw or describe. 5. Repeat key vocabulary. 6. End with one simple care action.
Questions to ask	What do you see? What is the same? What is different? How many? What should we do to care for it?
Expected evidence	Pointing, oral response, simple count, matching, drawing or safe participation.
Differentiation	Allow oral answers, peer support, larger visual cards and shorter observation periods.
Troubleshooting	If attention drops, reduce the number of examples and turn the task into a find-and-show challenge.
Journal / Mission / Assessment	Record the activity evidence in the student journal; follow with a related mission challenge; assess the relevant practical, data or problem-solving competency.
Close & clean up	Return tools, protect plants and equipment, restore the work area, wash hands and record any follow-up needed.

Teacher reflection: What worked? What evidence showed learning? What should change next time?

PA-092 - SAY - Discovery Garden

Learning objective	Help learners say and talk about safe observation and curiosity through a short, supervised garden experience.
Materials	Picture/word cards where useful, safe garden objects, crayons/pencils, counting tokens, handwashing supplies.
DIY / low-cost option	Use recycled card, bottle tops, sticks or locally available markers instead of purchased classroom manipulatives.
Teacher preparation	Choose one clean, safe observation area in the Discovery Garden. Remove hazards and preselect examples learners may touch.
Step-by-step delivery	1. Gather learners at the observation point. 2. Model careful looking. 3. Ask learners to say one or more examples. 4. Let them point, count, match, draw or describe. 5. Repeat key vocabulary. 6. End with one simple care action.
Questions to ask	What do you see? What is the same? What is different? How many? What should we do to care for it?
Expected evidence	Pointing, oral response, simple count, matching, drawing or safe participation.
Differentiation	Allow oral answers, peer support, larger visual cards and shorter observation periods.
Troubleshooting	If attention drops, reduce the number of examples and turn the task into a find-and-show challenge.
Journal / Mission / Assessment	Record the activity evidence in the student journal; follow with a related mission challenge; assess the relevant practical, data or problem-solving competency.
Close & clean up	Return tools, protect plants and equipment, restore the work area, wash hands and record any follow-up needed.

Teacher reflection: What worked? What evidence showed learning? What should change next time?

PA-093 - FIND - Discovery Garden

Learning objective	Help learners find and talk about safe observation and curiosity through a short, supervised garden experience.
Materials	Picture/word cards where useful, safe garden objects, crayons/pencils, counting tokens, handwashing supplies.
DIY / low-cost option	Use recycled card, bottle tops, sticks or locally available markers instead of purchased classroom manipulatives.
Teacher preparation	Choose one clean, safe observation area in the Discovery Garden. Remove hazards and preselect examples learners may touch.
Step-by-step delivery	1. Gather learners at the observation point. 2. Model careful looking. 3. Ask learners to find one or more examples. 4. Let them point, count, match, draw or describe. 5. Repeat key vocabulary. 6. End with one simple care action.
Questions to ask	What do you see? What is the same? What is different? How many? What should we do to care for it?
Expected evidence	Pointing, oral response, simple count, matching, drawing or safe participation.
Differentiation	Allow oral answers, peer support, larger visual cards and shorter observation periods.
Troubleshooting	If attention drops, reduce the number of examples and turn the task into a find-and-show challenge.
Journal / Mission / Assessment	Record the activity evidence in the student journal; follow with a related mission challenge; assess the relevant practical, data or problem-solving competency.
Close & clean up	Return tools, protect plants and equipment, restore the work area, wash hands and record any follow-up needed.

Teacher reflection: What worked? What evidence showed learning? What should change next time?

PA-094 - COUNT - Discovery Garden

Learning objective	Help learners count and talk about safe observation and curiosity through a short, supervised garden experience.
Materials	Picture/word cards where useful, safe garden objects, crayons/pencils, counting tokens, handwashing supplies.
DIY / low-cost option	Use recycled card, bottle tops, sticks or locally available markers instead of purchased classroom manipulatives.
Teacher preparation	Choose one clean, safe observation area in the Discovery Garden. Remove hazards and preselect examples learners may touch.
Step-by-step delivery	1. Gather learners at the observation point. 2. Model careful looking. 3. Ask learners to count one or more examples. 4. Let them point, count, match, draw or describe. 5. Repeat key vocabulary. 6. End with one simple care action.
Questions to ask	What do you see? What is the same? What is different? How many? What should we do to care for it?
Expected evidence	Pointing, oral response, simple count, matching, drawing or safe participation.
Differentiation	Allow oral answers, peer support, larger visual cards and shorter observation periods.
Troubleshooting	If attention drops, reduce the number of examples and turn the task into a find-and-show challenge.
Journal / Mission / Assessment	Record the activity evidence in the student journal; follow with a related mission challenge; assess the relevant practical, data or problem-solving competency.
Close & clean up	Return tools, protect plants and equipment, restore the work area, wash hands and record any follow-up needed.

Teacher reflection: What worked? What evidence showed learning? What should change next time?

PA-095 - MATCH - Discovery Garden

Learning objective	Help learners match and talk about safe observation and curiosity through a short, supervised garden experience.
Materials	Picture/word cards where useful, safe garden objects, crayons/pencils, counting tokens, handwashing supplies.
DIY / low-cost option	Use recycled card, bottle tops, sticks or locally available markers instead of purchased classroom manipulatives.
Teacher preparation	Choose one clean, safe observation area in the Discovery Garden. Remove hazards and preselect examples learners may touch.
Step-by-step delivery	1. Gather learners at the observation point. 2. Model careful looking. 3. Ask learners to match one or more examples. 4. Let them point, count, match, draw or describe. 5. Repeat key vocabulary. 6. End with one simple care action.
Questions to ask	What do you see? What is the same? What is different? How many? What should we do to care for it?
Expected evidence	Pointing, oral response, simple count, matching, drawing or safe participation.
Differentiation	Allow oral answers, peer support, larger visual cards and shorter observation periods.
Troubleshooting	If attention drops, reduce the number of examples and turn the task into a find-and-show challenge.
Journal / Mission / Assessment	Record the activity evidence in the student journal; follow with a related mission challenge; assess the relevant practical, data or problem-solving competency.
Close & clean up	Return tools, protect plants and equipment, restore the work area, wash hands and record any follow-up needed.

Teacher reflection: What worked? What evidence showed learning? What should change next time?

PA-096 - SORT - Discovery Garden

Learning objective	Help learners sort and talk about safe observation and curiosity through a short, supervised garden experience.
Materials	Picture/word cards where useful, safe garden objects, crayons/pencils, counting tokens, handwashing supplies.
DIY / low-cost option	Use recycled card, bottle tops, sticks or locally available markers instead of purchased classroom manipulatives.
Teacher preparation	Choose one clean, safe observation area in the Discovery Garden. Remove hazards and preselect examples learners may touch.
Step-by-step delivery	1. Gather learners at the observation point. 2. Model careful looking. 3. Ask learners to sort one or more examples. 4. Let them point, count, match, draw or describe. 5. Repeat key vocabulary. 6. End with one simple care action.
Questions to ask	What do you see? What is the same? What is different? How many? What should we do to care for it?
Expected evidence	Pointing, oral response, simple count, matching, drawing or safe participation.
Differentiation	Allow oral answers, peer support, larger visual cards and shorter observation periods.
Troubleshooting	If attention drops, reduce the number of examples and turn the task into a find-and-show challenge.
Journal / Mission / Assessment	Record the activity evidence in the student journal; follow with a related mission challenge; assess the relevant practical, data or problem-solving competency.
Close & clean up	Return tools, protect plants and equipment, restore the work area, wash hands and record any follow-up needed.

Teacher reflection: What worked? What evidence showed learning? What should change next time?

PA-097 - COMPARE - Discovery Garden

Learning objective	Help learners compare and talk about safe observation and curiosity through a short, supervised garden experience.
Materials	Picture/word cards where useful, safe garden objects, crayons/pencils, counting tokens, handwashing supplies.
DIY / low-cost option	Use recycled card, bottle tops, sticks or locally available markers instead of purchased classroom manipulatives.
Teacher preparation	Choose one clean, safe observation area in the Discovery Garden. Remove hazards and preselect examples learners may touch.
Step-by-step delivery	1. Gather learners at the observation point. 2. Model careful looking. 3. Ask learners to compare one or more examples. 4. Let them point, count, match, draw or describe. 5. Repeat key vocabulary. 6. End with one simple care action.
Questions to ask	What do you see? What is the same? What is different? How many? What should we do to care for it?
Expected evidence	Pointing, oral response, simple count, matching, drawing or safe participation.
Differentiation	Allow oral answers, peer support, larger visual cards and shorter observation periods.
Troubleshooting	If attention drops, reduce the number of examples and turn the task into a find-and-show challenge.
Journal / Mission / Assessment	Record the activity evidence in the student journal; follow with a related mission challenge; assess the relevant practical, data or problem-solving competency.
Close & clean up	Return tools, protect plants and equipment, restore the work area, wash hands and record any follow-up needed.

Teacher reflection: What worked? What evidence showed learning? What should change next time?

PA-098 - DRAW - Discovery Garden

Learning objective	Help learners draw and talk about safe observation and curiosity through a short, supervised garden experience.
Materials	Picture/word cards where useful, safe garden objects, crayons/pencils, counting tokens, handwashing supplies.
DIY / low-cost option	Use recycled card, bottle tops, sticks or locally available markers instead of purchased classroom manipulatives.
Teacher preparation	Choose one clean, safe observation area in the Discovery Garden. Remove hazards and preselect examples learners may touch.
Step-by-step delivery	1. Gather learners at the observation point. 2. Model careful looking. 3. Ask learners to draw one or more examples. 4. Let them point, count, match, draw or describe. 5. Repeat key vocabulary. 6. End with one simple care action.
Questions to ask	What do you see? What is the same? What is different? How many? What should we do to care for it?
Expected evidence	Pointing, oral response, simple count, matching, drawing or safe participation.
Differentiation	Allow oral answers, peer support, larger visual cards and shorter observation periods.
Troubleshooting	If attention drops, reduce the number of examples and turn the task into a find-and-show challenge.
Journal / Mission / Assessment	Record the activity evidence in the student journal; follow with a related mission challenge; assess the relevant practical, data or problem-solving competency.
Close & clean up	Return tools, protect plants and equipment, restore the work area, wash hands and record any follow-up needed.

Teacher reflection: What worked? What evidence showed learning? What should change next time?

PA-099 - CARE - Discovery Garden

Learning objective	Help learners care and talk about safe observation and curiosity through a short, supervised garden experience.
Materials	Picture/word cards where useful, safe garden objects, crayons/pencils, counting tokens, handwashing supplies.
DIY / low-cost option	Use recycled card, bottle tops, sticks or locally available markers instead of purchased classroom manipulatives.
Teacher preparation	Choose one clean, safe observation area in the Discovery Garden. Remove hazards and preselect examples learners may touch.
Step-by-step delivery	1. Gather learners at the observation point. 2. Model careful looking. 3. Ask learners to care one or more examples. 4. Let them point, count, match, draw or describe. 5. Repeat key vocabulary. 6. End with one simple care action.
Questions to ask	What do you see? What is the same? What is different? How many? What should we do to care for it?
Expected evidence	Pointing, oral response, simple count, matching, drawing or safe participation.
Differentiation	Allow oral answers, peer support, larger visual cards and shorter observation periods.
Troubleshooting	If attention drops, reduce the number of examples and turn the task into a find-and-show challenge.
Journal / Mission / Assessment	Record the activity evidence in the student journal; follow with a related mission challenge; assess the relevant practical, data or problem-solving competency.
Close & clean up	Return tools, protect plants and equipment, restore the work area, wash hands and record any follow-up needed.

Teacher reflection: What worked? What evidence showed learning? What should change next time?

PA-100 - DISCOVER - Discovery Garden

Learning objective	Help learners discover and talk about safe observation and curiosity through a short, supervised garden experience.
Materials	Picture/word cards where useful, safe garden objects, crayons/pencils, counting tokens, handwashing supplies.
DIY / low-cost option	Use recycled card, bottle tops, sticks or locally available markers instead of purchased classroom manipulatives.
Teacher preparation	Choose one clean, safe observation area in the Discovery Garden. Remove hazards and preselect examples learners may touch.
Step-by-step delivery	1. Gather learners at the observation point. 2. Model careful looking. 3. Ask learners to discover one or more examples. 4. Let them point, count, match, draw or describe. 5. Repeat key vocabulary. 6. End with one simple care action.
Questions to ask	What do you see? What is the same? What is different? How many? What should we do to care for it?
Expected evidence	Pointing, oral response, simple count, matching, drawing or safe participation.
Differentiation	Allow oral answers, peer support, larger visual cards and shorter observation periods.
Troubleshooting	If attention drops, reduce the number of examples and turn the task into a find-and-show challenge.
Journal / Mission / Assessment	Record the activity evidence in the student journal; follow with a related mission challenge; assess the relevant practical, data or problem-solving competency.
Close & clean up	Return tools, protect plants and equipment, restore the work area, wash hands and record any follow-up needed.

Teacher reflection: What worked? What evidence showed learning? What should change next time?

LEVEL IMPLEMENTATION REVIEW

Use this page after completing the level's practical sequence.

Strongest learner competency	
Competency needing reteaching	
Garden/system needing maintenance	
Materials to replenish	
Safety or accessibility improvement	
Next mission/assessment priority
