

LIFEWS AgriShine(TM) GrowMeal(TM)

Primary 1-3 ASSESSMENT & QUIZ SYSTEM

TEACHER MARKING & MODERATION GUIDE

Purpose: assess knowledge, practical competence, investigation/data skills, and mission-based problem solving without reducing garden learning to recall alone.

Domain	Weight	Primary evidence
Knowledge	25%	Oral/written response, concept explanation
Practical competence	30%	Demonstration, technique, safety, record quality
Investigation/Data	25%	Measurement, table/graph, calculation, interpretation
Mission problem solving	20%	Diagnosis, design, recommendation, evidence-based decision

Performance rubric for open/practical items

Score	Descriptor
3 - Proficient	Method is appropriate, evidence is accurate/traceable, and explanation or decision is supported.
2 - Developing	Method is mostly appropriate with minor errors or incomplete reasoning.
1 - Beginning	Major support is needed; evidence or reasoning is incomplete.
0 - Not demonstrated	No valid evidence or the task is not completed.

Moderation rule: award credit for scientifically or practically valid alternatives when they satisfy the task. Do not award marks for unsupported claims. For Nursery, use oral responses and observed performance where writing is not developmentally appropriate.

ANSWER & MARKING GUIDE 01 - Alphabet Food Garden

AQ-101 - Knowledge

What is one important idea in crop names and garden vocabulary?

Expected answer / marking basis: Accept accurate garden-specific concept.

AQ-102 - Knowledge

Which tool or method could help you study the crop label?

Expected answer / marking basis: Accept appropriate simple tool/method.

AQ-103 - Knowledge

Why should measurements or counts be written down?

Expected answer / marking basis: So evidence can be checked, compared and remembered.

AQ-104 - Practical

Demonstrate how to observe or measure the crop label safely.

Expected answer / marking basis: 0-3 performance rubric.

AQ-105 - Practical

Make a clear record showing word record.

Expected answer / marking basis: 0-3 record-quality rubric.

AQ-106 - Investigation/Data

Collect two observations or measurements and compare them.

Expected answer / marking basis: Correct comparison using collected evidence.

AQ-107 - Investigation/Data

Make a tally, table, picture graph or labeled drawing from your evidence.

Expected answer / marking basis: Accurate representation of evidence.

AQ-108 - Mission

A classmate gets a different result. Give one reasonable reason the results may differ.

Expected answer / marking basis: Accept sampling, position, timing, method or natural variation.

AQ-109 - Mission

Recommend one safe garden-care improvement using your evidence.

Expected answer / marking basis: Recommendation must refer to evidence.

AQ-110 - Mission

Write one new question that could be tested in the Alphabet Food Garden.

Expected answer / marking basis: Question must be observable/measurable and safe.

ANSWER & MARKING GUIDE 02 - Number Food Garden

AQ-111 - Knowledge

What is one important idea in counts, heights and simple totals?

Expected answer / marking basis: Accept accurate garden-specific concept.

AQ-112 - Knowledge

Which tool or method could help you study the plant sample?

Expected answer / marking basis: Accept appropriate simple tool/method.

AQ-113 - Knowledge

Why should measurements or counts be written down?

Expected answer / marking basis: So evidence can be checked, compared and remembered.

AQ-114 - Practical

Demonstrate how to observe or measure the plant sample safely.

Expected answer / marking basis: 0-3 performance rubric.

AQ-115 - Practical

Make a clear record showing number record.

Expected answer / marking basis: 0-3 record-quality rubric.

AQ-116 - Investigation/Data

Collect two observations or measurements and compare them.

Expected answer / marking basis: Correct comparison using collected evidence.

AQ-117 - Investigation/Data

Make a tally, table, picture graph or labeled drawing from your evidence.

Expected answer / marking basis: Accurate representation of evidence.

AQ-118 - Mission

A classmate gets a different result. Give one reasonable reason the results may differ.

Expected answer / marking basis: Accept sampling, position, timing, method or natural variation.

AQ-119 - Mission

Recommend one safe garden-care improvement using your evidence.

Expected answer / marking basis: Recommendation must refer to evidence.

AQ-120 - Mission

Write one new question that could be tested in the Number Food Garden.

Expected answer / marking basis: Question must be observable/measurable and safe.

ANSWER & MARKING GUIDE 03 - Geometry Garden

AQ-121 - Knowledge

What is one important idea in shapes, sides and garden spaces?

Expected answer / marking basis: Accept accurate garden-specific concept.

AQ-122 - Knowledge

Which tool or method could help you study the garden bed or path?

Expected answer / marking basis: Accept appropriate simple tool/method.

AQ-123 - Knowledge

Why should measurements or counts be written down?

Expected answer / marking basis: So evidence can be checked, compared and remembered.

AQ-124 - Practical

Demonstrate how to observe or measure the garden bed or path safely.

Expected answer / marking basis: 0-3 performance rubric.

AQ-125 - Practical

Make a clear record showing shape or length.

Expected answer / marking basis: 0-3 record-quality rubric.

AQ-126 - Investigation/Data

Collect two observations or measurements and compare them.

Expected answer / marking basis: Correct comparison using collected evidence.

AQ-127 - Investigation/Data

Make a tally, table, picture graph or labeled drawing from your evidence.

Expected answer / marking basis: Accurate representation of evidence.

AQ-128 - Mission

A classmate gets a different result. Give one reasonable reason the results may differ.

Expected answer / marking basis: Accept sampling, position, timing, method or natural variation.

AQ-129 - Mission

Recommend one safe garden-care improvement using your evidence.

Expected answer / marking basis: Recommendation must refer to evidence.

AQ-130 - Mission

Write one new question that could be tested in the Geometry Garden.

Expected answer / marking basis: Question must be observable/measurable and safe.

ANSWER & MARKING GUIDE 04 - Leaf Garden

AQ-131 - Knowledge

What is one important idea in leaf shape, size, color and texture?

Expected answer / marking basis: Accept accurate garden-specific concept.

AQ-132 - Knowledge

Which tool or method could help you study the safe leaf?

Expected answer / marking basis: Accept appropriate simple tool/method.

AQ-133 - Knowledge

Why should measurements or counts be written down?

Expected answer / marking basis: So evidence can be checked, compared and remembered.

AQ-134 - Practical

Demonstrate how to observe or measure the safe leaf safely.

Expected answer / marking basis: 0-3 performance rubric.

AQ-135 - Practical

Make a clear record showing leaf observation.

Expected answer / marking basis: 0-3 record-quality rubric.

AQ-136 - Investigation/Data

Collect two observations or measurements and compare them.

Expected answer / marking basis: Correct comparison using collected evidence.

AQ-137 - Investigation/Data

Make a tally, table, picture graph or labeled drawing from your evidence.

Expected answer / marking basis: Accurate representation of evidence.

AQ-138 - Mission

A classmate gets a different result. Give one reasonable reason the results may differ.

Expected answer / marking basis: Accept sampling, position, timing, method or natural variation.

AQ-139 - Mission

Recommend one safe garden-care improvement using your evidence.

Expected answer / marking basis: Recommendation must refer to evidence.

AQ-140 - Mission

Write one new question that could be tested in the Leaf Garden.

Expected answer / marking basis: Question must be observable/measurable and safe.

ANSWER & MARKING GUIDE 05 - Pollinator Garden

AQ-141 - Knowledge

What is one important idea in flower abundance and pollinator activity?

Expected answer / marking basis: Accept accurate garden-specific concept.

AQ-142 - Knowledge

Which tool or method could help you study the flower patch?

Expected answer / marking basis: Accept appropriate simple tool/method.

AQ-143 - Knowledge

Why should measurements or counts be written down?

Expected answer / marking basis: So evidence can be checked, compared and remembered.

AQ-144 - Practical

Demonstrate how to observe or measure the flower patch safely.

Expected answer / marking basis: 0-3 performance rubric.

AQ-145 - Practical

Make a clear record showing visitor tally.

Expected answer / marking basis: 0-3 record-quality rubric.

AQ-146 - Investigation/Data

Collect two observations or measurements and compare them.

Expected answer / marking basis: Correct comparison using collected evidence.

AQ-147 - Investigation/Data

Make a tally, table, picture graph or labeled drawing from your evidence.

Expected answer / marking basis: Accurate representation of evidence.

AQ-148 - Mission

A classmate gets a different result. Give one reasonable reason the results may differ.

Expected answer / marking basis: Accept sampling, position, timing, method or natural variation.

AQ-149 - Mission

Recommend one safe garden-care improvement using your evidence.

Expected answer / marking basis: Recommendation must refer to evidence.

AQ-150 - Mission

Write one new question that could be tested in the Pollinator Garden.

Expected answer / marking basis: Question must be observable/measurable and safe.

ANSWER & MARKING GUIDE 06 - Raised Food Garden

AQ-151 - Knowledge

What is one important idea in raised-bed crop growth and spacing?

Expected answer / marking basis: Accept accurate garden-specific concept.

AQ-152 - Knowledge

Which tool or method could help you study the raised bed?

Expected answer / marking basis: Accept appropriate simple tool/method.

AQ-153 - Knowledge

Why should measurements or counts be written down?

Expected answer / marking basis: So evidence can be checked, compared and remembered.

AQ-154 - Practical

Demonstrate how to observe or measure the raised bed safely.

Expected answer / marking basis: 0-3 performance rubric.

AQ-155 - Practical

Make a clear record showing measurement.

Expected answer / marking basis: 0-3 record-quality rubric.

AQ-156 - Investigation/Data

Collect two observations or measurements and compare them.

Expected answer / marking basis: Correct comparison using collected evidence.

AQ-157 - Investigation/Data

Make a tally, table, picture graph or labeled drawing from your evidence.

Expected answer / marking basis: Accurate representation of evidence.

AQ-158 - Mission

A classmate gets a different result. Give one reasonable reason the results may differ.

Expected answer / marking basis: Accept sampling, position, timing, method or natural variation.

AQ-159 - Mission

Recommend one safe garden-care improvement using your evidence.

Expected answer / marking basis: Recommendation must refer to evidence.

AQ-160 - Mission

Write one new question that could be tested in the Raised Food Garden.

Expected answer / marking basis: Question must be observable/measurable and safe.

ANSWER & MARKING GUIDE 07 - ReBottle Wall Garden

AQ-161 - Knowledge

What is one important idea in vertical reused-container production?

Expected answer / marking basis: Accept accurate garden-specific concept.

AQ-162 - Knowledge

Which tool or method could help you study the wall planter?

Expected answer / marking basis: Accept appropriate simple tool/method.

AQ-163 - Knowledge

Why should measurements or counts be written down?

Expected answer / marking basis: So evidence can be checked, compared and remembered.

AQ-164 - Practical

Demonstrate how to observe or measure the wall planter safely.

Expected answer / marking basis: 0-3 performance rubric.

AQ-165 - Practical

Make a clear record showing level comparison.

Expected answer / marking basis: 0-3 record-quality rubric.

AQ-166 - Investigation/Data

Collect two observations or measurements and compare them.

Expected answer / marking basis: Correct comparison using collected evidence.

AQ-167 - Investigation/Data

Make a tally, table, picture graph or labeled drawing from your evidence.

Expected answer / marking basis: Accurate representation of evidence.

AQ-168 - Mission

A classmate gets a different result. Give one reasonable reason the results may differ.

Expected answer / marking basis: Accept sampling, position, timing, method or natural variation.

AQ-169 - Mission

Recommend one safe garden-care improvement using your evidence.

Expected answer / marking basis: Recommendation must refer to evidence.

AQ-170 - Mission

Write one new question that could be tested in the ReBottle Wall Garden.

Expected answer / marking basis: Question must be observable/measurable and safe.

ANSWER & MARKING GUIDE 08 - Sack GrowBag Garden

AQ-171 - Knowledge

What is one important idea in growbag production?

Expected answer / marking basis: Accept accurate garden-specific concept.

AQ-172 - Knowledge

Which tool or method could help you study the growbag?

Expected answer / marking basis: Accept appropriate simple tool/method.

AQ-173 - Knowledge

Why should measurements or counts be written down?

Expected answer / marking basis: So evidence can be checked, compared and remembered.

AQ-174 - Practical

Demonstrate how to observe or measure the growbag safely.

Expected answer / marking basis: 0-3 performance rubric.

AQ-175 - Practical

Make a clear record showing growbag record.

Expected answer / marking basis: 0-3 record-quality rubric.

AQ-176 - Investigation/Data

Collect two observations or measurements and compare them.

Expected answer / marking basis: Correct comparison using collected evidence.

AQ-177 - Investigation/Data

Make a tally, table, picture graph or labeled drawing from your evidence.

Expected answer / marking basis: Accurate representation of evidence.

AQ-178 - Mission

A classmate gets a different result. Give one reasonable reason the results may differ.

Expected answer / marking basis: Accept sampling, position, timing, method or natural variation.

AQ-179 - Mission

Recommend one safe garden-care improvement using your evidence.

Expected answer / marking basis: Recommendation must refer to evidence.

AQ-180 - Mission

Write one new question that could be tested in the Sack GrowBag Garden.

Expected answer / marking basis: Question must be observable/measurable and safe.

ANSWER & MARKING GUIDE 09 - Ground Production Garden

AQ-181 - Knowledge

What is one important idea in row length, plant spacing and stand establishment?

Expected answer / marking basis: Accept accurate garden-specific concept.

AQ-182 - Knowledge

Which tool or method could help you study the crop row?

Expected answer / marking basis: Accept appropriate simple tool/method.

AQ-183 - Knowledge

Why should measurements or counts be written down?

Expected answer / marking basis: So evidence can be checked, compared and remembered.

AQ-184 - Practical

Demonstrate how to observe or measure the crop row safely.

Expected answer / marking basis: 0-3 performance rubric.

AQ-185 - Practical

Make a clear record showing row record.

Expected answer / marking basis: 0-3 record-quality rubric.

AQ-186 - Investigation/Data

Collect two observations or measurements and compare them.

Expected answer / marking basis: Correct comparison using collected evidence.

AQ-187 - Investigation/Data

Make a tally, table, picture graph or labeled drawing from your evidence.

Expected answer / marking basis: Accurate representation of evidence.

AQ-188 - Mission

A classmate gets a different result. Give one reasonable reason the results may differ.

Expected answer / marking basis: Accept sampling, position, timing, method or natural variation.

AQ-189 - Mission

Recommend one safe garden-care improvement using your evidence.

Expected answer / marking basis: Recommendation must refer to evidence.

AQ-190 - Mission

Write one new question that could be tested in the Ground Production Garden.

Expected answer / marking basis: Question must be observable/measurable and safe.

ANSWER & MARKING GUIDE 10 - Discovery Production Garden

AQ-191 - Knowledge

What is one important idea in student-led garden questions?

Expected answer / marking basis: Accept accurate garden-specific concept.

AQ-192 - Knowledge

Which tool or method could help you study the production plot?

Expected answer / marking basis: Accept appropriate simple tool/method.

AQ-193 - Knowledge

Why should measurements or counts be written down?

Expected answer / marking basis: So evidence can be checked, compared and remembered.

AQ-194 - Practical

Demonstrate how to observe or measure the production plot safely.

Expected answer / marking basis: 0-3 performance rubric.

AQ-195 - Practical

Make a clear record showing investigation record.

Expected answer / marking basis: 0-3 record-quality rubric.

AQ-196 - Investigation/Data

Collect two observations or measurements and compare them.

Expected answer / marking basis: Correct comparison using collected evidence.

AQ-197 - Investigation/Data

Make a tally, table, picture graph or labeled drawing from your evidence.

Expected answer / marking basis: Accurate representation of evidence.

AQ-198 - Mission

A classmate gets a different result. Give one reasonable reason the results may differ.

Expected answer / marking basis: Accept sampling, position, timing, method or natural variation.

AQ-199 - Mission

Recommend one safe garden-care improvement using your evidence.

Expected answer / marking basis: Recommendation must refer to evidence.

AQ-200 - Mission

Write one new question that could be tested in the Discovery Production Garden.

Expected answer / marking basis: Question must be observable/measurable and safe.

LEVEL MODERATION & REPORTING

Recommended reporting: maintain the four domain scores separately as well as a weighted total. A student may have a strong overall total but still need targeted support in practical technique, data interpretation or problem solving.

Suggested achievement bands: 85-100 Advanced; 70-84 Secure; 55-69 Developing; 40-54 Emerging; below 40 Requires targeted support. Schools may adjust bands to their approved assessment policy.

Teacher moderation notes:
