

SSS 1-3 Irrigation Engineering Garden • Practical Activity Cards

Progression: DESIGN → INSTRUMENT → MODEL → EVALUATE → OPTIMIZE

PA-431 Calculate Design Flow Rate	Use the specified measurements, equation, and assumptions. Show units throughout, c...
PA-432 Calculate Static Head	Use the specified measurements, equation, and assumptions. Show units throughout, c...
PA-433 Estimate Friction Loss	Use the specified measurements, equation, and assumptions. Show units throughout, c...
PA-434 Compare Pipe Diameters	Use quantitative evidence and stated criteria. Compare alternatives or conditions, ...
PA-435 Measure Emitter Discharge	Complete the investigation using explicit assumptions, systematic measurements, and...
PA-436 Calculate Distribution Uniformity	Use the specified measurements, equation, and assumptions. Show units throughout, c...
PA-437 Calculate Irrigation Set Time	Use the specified measurements, equation, and assumptions. Show units throughout, c...
PA-438 Estimate Pump Power	Use the specified measurements, equation, and assumptions. Show units throughout, c...
PA-439 Calculate Pump Efficiency	Use the specified measurements, equation, and assumptions. Show units throughout, c...
PA-440 Complete an Irrigation Design Review	Review the objective, boundary, variables, constraints, and performance criteria. D...
