

OBSERVE DEMONSTRATION

Primary 4-6 | Raised Food Garden

SET UP

Define the question, samples/comparison and safe measurement method for raised-bed growth and spacing. Check tools before class.

DEMONSTRATE

Model how to observe with repeatable technique, clear units and a labeled data record.

ASK

Is the comparison fair? What stays the same? What pattern appears? Is there an unusual value? What limitation matters?

TD-201 | OBSERVE -> CHECK -> CLOSE

OBSERVE

Check sample identity, repeat measurements, units, table quality and whether conclusions match the evidence.

CHECK LEARNING

Learner produces comparable data plus a calculation/graph or defensible evidence-based explanation.

CLOSE

Discuss pattern and limitation, state one practical implication, clean the area and assign the linked mission/journal task.

LINK THE LEARNING

Record evidence in the GrowMeal journal -> assign the related Garden Mission Card -> use the matching practical/data/problem-solving assessment item.

MEASURE DEMONSTRATION

Primary 4-6 | Raised Food Garden

SET UP

Define the question, samples/comparison and safe measurement method for raised-bed growth and spacing. Check tools before class.

DEMONSTRATE

Model how to measure with repeatable technique, clear units and a labeled data record.

ASK

Is the comparison fair? What stays the same? What pattern appears? Is there an unusual value? What limitation matters?

TD-202 | OBSERVE -> CHECK -> CLOSE

OBSERVE

Check sample identity, repeat measurements, units, table quality and whether conclusions match the evidence.

CHECK LEARNING

Learner produces comparable data plus a calculation/graph or defensible evidence-based explanation.

CLOSE

Discuss pattern and limitation, state one practical implication, clean the area and assign the linked mission/journal task.

LINK THE LEARNING

Record evidence in the GrowMeal journal -> assign the related Garden Mission Card -> use the matching practical/data/problem-solving assessment item.

QUESTION DEMONSTRATION

Primary 4-6 | Raised Food Garden

SET UP

Define the question, samples/comparison and safe measurement method for raised-bed growth and spacing. Check tools before class.

DEMONSTRATE

Model how to question with repeatable technique, clear units and a labeled data record.

ASK

Is the comparison fair? What stays the same? What pattern appears? Is there an unusual value? What limitation matters?

TD-203 | OBSERVE -> CHECK -> CLOSE

OBSERVE

Check sample identity, repeat measurements, units, table quality and whether conclusions match the evidence.

CHECK LEARNING

Learner produces comparable data plus a calculation/graph or defensible evidence-based explanation.

CLOSE

Discuss pattern and limitation, state one practical implication, clean the area and assign the linked mission/journal task.

LINK THE LEARNING

Record evidence in the GrowMeal journal -> assign the related Garden Mission Card -> use the matching practical/data/problem-solving assessment item.

SAMPLE DEMONSTRATION

Primary 4-6 | Raised Food Garden

SET UP

Define the question, samples/comparison and safe measurement method for raised-bed growth and spacing. Check tools before class.

DEMONSTRATE

Model how to sample with repeatable technique, clear units and a labeled data record.

ASK

Is the comparison fair? What stays the same? What pattern appears? Is there an unusual value? What limitation matters?

OBSERVE

Check sample identity, repeat measurements, units, table quality and whether conclusions match the evidence.

CHECK LEARNING

Learner produces comparable data plus a calculation/graph or defensible evidence-based explanation.

CLOSE

Discuss pattern and limitation, state one practical implication, clean the area and assign the linked mission/journal task.

LINK THE LEARNING

Record evidence in the GrowMeal journal -> assign the related Garden Mission Card -> use the matching practical/data/problem-solving assessment item.

INVESTIGATE DEMONSTRATION

Primary 4-6 | Raised Food Garden

SET UP

Define the question, samples/comparison and safe measurement method for raised-bed growth and spacing. Check tools before class.

DEMONSTRATE

Model how to investigate with repeatable technique, clear units and a labeled data record.

ASK

Is the comparison fair? What stays the same? What pattern appears? Is there an unusual value? What limitation matters?

TD-205 | OBSERVE -> CHECK -> CLOSE

OBSERVE

Check sample identity, repeat measurements, units, table quality and whether conclusions match the evidence.

CHECK LEARNING

Learner produces comparable data plus a calculation/graph or defensible evidence-based explanation.

CLOSE

Discuss pattern and limitation, state one practical implication, clean the area and assign the linked mission/journal task.

LINK THE LEARNING

Record evidence in the GrowMeal journal -> assign the related Garden Mission Card -> use the matching practical/data/problem-solving assessment item.

CALCULATE DEMONSTRATION

Primary 4-6 | Raised Food Garden

SET UP

Define the question, samples/comparison and safe measurement method for raised-bed growth and spacing. Check tools before class.

DEMONSTRATE

Model how to calculate with repeatable technique, clear units and a labeled data record.

ASK

Is the comparison fair? What stays the same? What pattern appears? Is there an unusual value? What limitation matters?

TD-206 | OBSERVE -> CHECK -> CLOSE

OBSERVE

Check sample identity, repeat measurements, units, table quality and whether conclusions match the evidence.

CHECK LEARNING

Learner produces comparable data plus a calculation/graph or defensible evidence-based explanation.

CLOSE

Discuss pattern and limitation, state one practical implication, clean the area and assign the linked mission/journal task.

LINK THE LEARNING

Record evidence in the GrowMeal journal -> assign the related Garden Mission Card -> use the matching practical/data/problem-solving assessment item.

GRAPH DEMONSTRATION

Primary 4-6 | Raised Food Garden

SET UP

Define the question, samples/comparison and safe measurement method for raised-bed growth and spacing. Check tools before class.

DEMONSTRATE

Model how to graph with repeatable technique, clear units and a labeled data record.

ASK

Is the comparison fair? What stays the same? What pattern appears? Is there an unusual value? What limitation matters?

TD-207 | OBSERVE -> CHECK -> CLOSE

OBSERVE

Check sample identity, repeat measurements, units, table quality and whether conclusions match the evidence.

CHECK LEARNING

Learner produces comparable data plus a calculation/graph or defensible evidence-based explanation.

CLOSE

Discuss pattern and limitation, state one practical implication, clean the area and assign the linked mission/journal task.

LINK THE LEARNING

Record evidence in the GrowMeal journal -> assign the related Garden Mission Card -> use the matching practical/data/problem-solving assessment item.

ANALYZE DEMONSTRATION

Primary 4-6 | Raised Food Garden

SET UP

Define the question, samples/comparison and safe measurement method for raised-bed growth and spacing. Check tools before class.

DEMONSTRATE

Model how to analyze with repeatable technique, clear units and a labeled data record.

ASK

Is the comparison fair? What stays the same? What pattern appears? Is there an unusual value? What limitation matters?

TD-208 | OBSERVE -> CHECK -> CLOSE

OBSERVE

Check sample identity, repeat measurements, units, table quality and whether conclusions match the evidence.

CHECK LEARNING

Learner produces comparable data plus a calculation/graph or defensible evidence-based explanation.

CLOSE

Discuss pattern and limitation, state one practical implication, clean the area and assign the linked mission/journal task.

LINK THE LEARNING

Record evidence in the GrowMeal journal -> assign the related Garden Mission Card -> use the matching practical/data/problem-solving assessment item.

EXPLAIN DEMONSTRATION

Primary 4-6 | Raised Food Garden

SET UP

Define the question, samples/comparison and safe measurement method for raised-bed growth and spacing. Check tools before class.

DEMONSTRATE

Model how to explain with repeatable technique, clear units and a labeled data record.

ASK

Is the comparison fair? What stays the same? What pattern appears? Is there an unusual value? What limitation matters?

OBSERVE

Check sample identity, repeat measurements, units, table quality and whether conclusions match the evidence.

CHECK LEARNING

Learner produces comparable data plus a calculation/graph or defensible evidence-based explanation.

CLOSE

Discuss pattern and limitation, state one practical implication, clean the area and assign the linked mission/journal task.

LINK THE LEARNING

Record evidence in the GrowMeal journal -> assign the related Garden Mission Card -> use the matching practical/data/problem-solving assessment item.

RECOMMEND DEMONSTRATION

Primary 4-6 | Raised Food Garden

SET UP

Define the question, samples/comparison and safe measurement method for raised-bed growth and spacing. Check tools before class.

DEMONSTRATE

Model how to recommend with repeatable technique, clear units and a labeled data record.

ASK

Is the comparison fair? What stays the same? What pattern appears? Is there an unusual value? What limitation matters?

TD-210 | OBSERVE -> CHECK -> CLOSE

OBSERVE

Check sample identity, repeat measurements, units, table quality and whether conclusions match the evidence.

CHECK LEARNING

Learner produces comparable data plus a calculation/graph or defensible evidence-based explanation.

CLOSE

Discuss pattern and limitation, state one practical implication, clean the area and assign the linked mission/journal task.

LINK THE LEARNING

Record evidence in the GrowMeal journal -> assign the related Garden Mission Card -> use the matching practical/data/problem-solving assessment item.
