

JSS 1-3 Grid Experiment Garden Flashcards 641-660

641. RESEARCH QUESTION	A research question defines the relationship or difference that an experiment is...
642. HYPOTHESIS	A hypothesis is a testable prediction about how an independent variable may affe...
643. INDEPENDENT VARIABLE	The independent variable is deliberately manipulated to create experimental trea...
644. DEPENDENT VARIABLE	The dependent variable is the measured response used to evaluate treatment effects.
645. CONTROL VARIABLE	Control variables are managed consistently to reduce alternative explanations fo...
646. CONTROL TREATMENT	A control treatment provides a reference condition against which experimental tr...
647. EXPERIMENTAL UNIT	An experimental unit is the smallest unit independently assigned to a treatment.
648. REPLICATION	Replication applies each treatment to multiple independent experimental units to...
649. RANDOMIZATION	Randomization assigns treatments by chance to reduce systematic placement bias.
650. BLOCKING	Blocking groups similar experimental units before randomization to account for k...
651. SAMPLING	Sampling selects representative plants, locations, or times for measurement when...
652. MEASUREMENT PROTOCOL	A measurement protocol specifies the instrument, unit, timing, location, and pro...
653. DATA QUALITY	Data quality depends on consistent methods, correct units, accurate recording, a...
654. MEAN	The arithmetic mean summarizes the central value of repeated numerical observati...
655. RANGE	Range is the difference between the maximum and minimum values and provides a si...
656. PERCENT CHANGE	Percent change expresses the difference relative to a reference or starting value.
657. DATA VISUALIZATION	Graphs and charts reveal patterns, variation, trends, and treatment differences ...
658. INTERPRETATION	Interpretation explains what the results indicate while considering variability ...
659. LIMITATION	Experimental limitations are factors that reduce confidence, precision, generali...
660. EXPERIMENTAL CONCLUSION	A conclusion answers the research question using results, uncertainty, and limit...
