

JSS 1-3 Soilless Learning Garden Flashcards 741-760

741. SOILLESS SYSTEM	A soilless system supplies roots with physical support, water, oxygen, and miner...
742. HYDROPONICS	Hydroponics is plant production in nutrient solution with or without an inert su...
743. SUBSTRATE	A substrate is a soilless material used to support roots and influence water and...
744. POROSITY	Porosity is the fraction of substrate volume occupied by pores that can contain ...
745. WATER-HOLDING CAPACITY	Substrate water-holding capacity influences how much solution remains available ...
746. NUTRIENT SOLUTION	Nutrient solution contains dissolved mineral ions supplied to support plant growth.
747. MACRONUTRIENT	Macronutrients are essential elements required by plants in relatively large qua...
748. MICRONUTRIENT	Micronutrients are essential elements required in smaller quantities, such as ir...
749. pH	Solution pH influences nutrient chemistry and availability to roots.
750. ELECTRICAL CONDUCTIVITY	Electrical conductivity indicates the solution's ability to conduct electricity ...
751. DISSOLVED OXYGEN	Dissolved oxygen supports root respiration in water-based root zones.
752. RESERVOIR VOLUME	Reservoir volume affects nutrient-solution capacity, concentration stability, an...
753. FLOW	Solution flow transports water and dissolved nutrients through the system.
754. RECIRCULATION	Recirculation returns drainage or flowing solution to the reservoir for reuse.
755. SOLUTION LOSS	Solution can leave the system through plant uptake, evaporation, leaks, drainage...
756. ROOT-ZONE CONDITION	Root-zone condition includes moisture, oxygen, temperature, solution chemistry, ...
757. NUTRIENT DEFICIENCY	Nutrient deficiency symptoms can indicate inadequate nutrient supply but must be...
758. SYSTEM MONITORING	Monitoring combines pH, EC, solution level, flow, root condition, and crop measu...
759. TROUBLESHOOTING	Troubleshooting uses symptoms, measurements, and system checks to identify likel...
760. SOILLESS SYSTEM EVALUATION	Evaluation connects solution management, root-zone condition, crop response, res...
