

OBSERVE DEMONSTRATION

Primary 4-6 | Raised Food Garden

SET UP

Define the question, samples/comparison and safe measurement method for raised-bed growth and spacing. Check tools before class.

DEMONSTRATE

Model how to observe with repeatable technique, clear units and a labeled data record.

ASK

Is the comparison fair? What stays the same? What pattern appears? Is there an unusual value? What limitation matters?

TD-201 | OBSERVE -> CHECK -> CLOSE

OBSERVE

Check sample identity, repeat measurements, units, table quality and whether conclusions match the evidence.

CHECK LEARNING

Learner produces comparable data plus a calculation/graph or defensible evidence-based explanation.

CLOSE

Discuss pattern and limitation, state one practical implication, clean the area and assign the linked mission/journal task.

LINK THE LEARNING

Record evidence in the GrowMeal journal -> assign the related Garden Mission Card -> use the matching practical/data/problem-solving assessment item.

MEASURE DEMONSTRATION

Primary 4-6 | Raised Food Garden

SET UP

Define the question, samples/comparison and safe measurement method for raised-bed growth and spacing. Check tools before class.

DEMONSTRATE

Model how to measure with repeatable technique, clear units and a labeled data record.

ASK

Is the comparison fair? What stays the same? What pattern appears? Is there an unusual value? What limitation matters?

TD-202 | OBSERVE -> CHECK -> CLOSE

OBSERVE

Check sample identity, repeat measurements, units, table quality and whether conclusions match the evidence.

CHECK LEARNING

Learner produces comparable data plus a calculation/graph or defensible evidence-based explanation.

CLOSE

Discuss pattern and limitation, state one practical implication, clean the area and assign the linked mission/journal task.

LINK THE LEARNING

Record evidence in the GrowMeal journal -> assign the related Garden Mission Card -> use the matching practical/data/problem-solving assessment item.

QUESTION DEMONSTRATION

Primary 4-6 | Raised Food Garden

SET UP

Define the question, samples/comparison and safe measurement method for raised-bed growth and spacing. Check tools before class.

DEMONSTRATE

Model how to question with repeatable technique, clear units and a labeled data record.

ASK

Is the comparison fair? What stays the same? What pattern appears? Is there an unusual value? What limitation matters?

OBSERVE

Check sample identity, repeat measurements, units, table quality and whether conclusions match the evidence.

CHECK LEARNING

Learner produces comparable data plus a calculation/graph or defensible evidence-based explanation.

CLOSE

Discuss pattern and limitation, state one practical implication, clean the area and assign the linked mission/journal task.

LINK THE LEARNING

Record evidence in the GrowMeal journal -> assign the related Garden Mission Card -> use the matching practical/data/problem-solving assessment item.

SAMPLE DEMONSTRATION

Primary 4-6 | Raised Food Garden

SET UP

Define the question, samples/comparison and safe measurement method for raised-bed growth and spacing. Check tools before class.

DEMONSTRATE

Model how to sample with repeatable technique, clear units and a labeled data record.

ASK

Is the comparison fair? What stays the same? What pattern appears? Is there an unusual value? What limitation matters?

OBSERVE

Check sample identity, repeat measurements, units, table quality and whether conclusions match the evidence.

CHECK LEARNING

Learner produces comparable data plus a calculation/graph or defensible evidence-based explanation.

CLOSE

Discuss pattern and limitation, state one practical implication, clean the area and assign the linked mission/journal task.

LINK THE LEARNING

Record evidence in the GrowMeal journal -> assign the related Garden Mission Card -> use the matching practical/data/problem-solving assessment item.

INVESTIGATE DEMONSTRATION

Primary 4-6 | Raised Food Garden

SET UP

Define the question, samples/comparison and safe measurement method for raised-bed growth and spacing. Check tools before class.

DEMONSTRATE

Model how to investigate with repeatable technique, clear units and a labeled data record.

ASK

Is the comparison fair? What stays the same? What pattern appears? Is there an unusual value? What limitation matters?

TD-205 | OBSERVE -> CHECK -> CLOSE

OBSERVE

Check sample identity, repeat measurements, units, table quality and whether conclusions match the evidence.

CHECK LEARNING

Learner produces comparable data plus a calculation/graph or defensible evidence-based explanation.

CLOSE

Discuss pattern and limitation, state one practical implication, clean the area and assign the linked mission/journal task.

LINK THE LEARNING

Record evidence in the GrowMeal journal -> assign the related Garden Mission Card -> use the matching practical/data/problem-solving assessment item.

CALCULATE DEMONSTRATION

Primary 4-6 | Raised Food Garden

SET UP

Define the question, samples/comparison and safe measurement method for raised-bed growth and spacing. Check tools before class.

DEMONSTRATE

Model how to calculate with repeatable technique, clear units and a labeled data record.

ASK

Is the comparison fair? What stays the same? What pattern appears? Is there an unusual value? What limitation matters?

TD-206 | OBSERVE -> CHECK -> CLOSE

OBSERVE

Check sample identity, repeat measurements, units, table quality and whether conclusions match the evidence.

CHECK LEARNING

Learner produces comparable data plus a calculation/graph or defensible evidence-based explanation.

CLOSE

Discuss pattern and limitation, state one practical implication, clean the area and assign the linked mission/journal task.

LINK THE LEARNING

Record evidence in the GrowMeal journal -> assign the related Garden Mission Card -> use the matching practical/data/problem-solving assessment item.

GRAPH DEMONSTRATION

Primary 4-6 | Raised Food Garden

SET UP

Define the question, samples/comparison and safe measurement method for raised-bed growth and spacing. Check tools before class.

DEMONSTRATE

Model how to graph with repeatable technique, clear units and a labeled data record.

ASK

Is the comparison fair? What stays the same? What pattern appears? Is there an unusual value? What limitation matters?

TD-207 | OBSERVE -> CHECK -> CLOSE

OBSERVE

Check sample identity, repeat measurements, units, table quality and whether conclusions match the evidence.

CHECK LEARNING

Learner produces comparable data plus a calculation/graph or defensible evidence-based explanation.

CLOSE

Discuss pattern and limitation, state one practical implication, clean the area and assign the linked mission/journal task.

LINK THE LEARNING

Record evidence in the GrowMeal journal -> assign the related Garden Mission Card -> use the matching practical/data/problem-solving assessment item.

ANALYZE DEMONSTRATION

Primary 4-6 | Raised Food Garden

SET UP

Define the question, samples/comparison and safe measurement method for raised-bed growth and spacing. Check tools before class.

DEMONSTRATE

Model how to analyze with repeatable technique, clear units and a labeled data record.

ASK

Is the comparison fair? What stays the same? What pattern appears? Is there an unusual value? What limitation matters?

TD-208 | OBSERVE -> CHECK -> CLOSE

OBSERVE

Check sample identity, repeat measurements, units, table quality and whether conclusions match the evidence.

CHECK LEARNING

Learner produces comparable data plus a calculation/graph or defensible evidence-based explanation.

CLOSE

Discuss pattern and limitation, state one practical implication, clean the area and assign the linked mission/journal task.

LINK THE LEARNING

Record evidence in the GrowMeal journal -> assign the related Garden Mission Card -> use the matching practical/data/problem-solving assessment item.

EXPLAIN DEMONSTRATION

Primary 4-6 | Raised Food Garden

SET UP

Define the question, samples/comparison and safe measurement method for raised-bed growth and spacing. Check tools before class.

DEMONSTRATE

Model how to explain with repeatable technique, clear units and a labeled data record.

ASK

Is the comparison fair? What stays the same? What pattern appears? Is there an unusual value? What limitation matters?

OBSERVE

Check sample identity, repeat measurements, units, table quality and whether conclusions match the evidence.

CHECK LEARNING

Learner produces comparable data plus a calculation/graph or defensible evidence-based explanation.

CLOSE

Discuss pattern and limitation, state one practical implication, clean the area and assign the linked mission/journal task.

LINK THE LEARNING

Record evidence in the GrowMeal journal -> assign the related Garden Mission Card -> use the matching practical/data/problem-solving assessment item.

RECOMMEND DEMONSTRATION

Primary 4-6 | Raised Food Garden

SET UP

Define the question, samples/comparison and safe measurement method for raised-bed growth and spacing. Check tools before class.

DEMONSTRATE

Model how to recommend with repeatable technique, clear units and a labeled data record.

ASK

Is the comparison fair? What stays the same? What pattern appears? Is there an unusual value? What limitation matters?

TD-210 | OBSERVE -> CHECK -> CLOSE

OBSERVE

Check sample identity, repeat measurements, units, table quality and whether conclusions match the evidence.

CHECK LEARNING

Learner produces comparable data plus a calculation/graph or defensible evidence-based explanation.

CLOSE

Discuss pattern and limitation, state one practical implication, clean the area and assign the linked mission/journal task.

LINK THE LEARNING

Record evidence in the GrowMeal journal -> assign the related Garden Mission Card -> use the matching practical/data/problem-solving assessment item.

OBSERVE DEMONSTRATION

Primary 4-6 | Geometry Garden

SET UP

Define the question, samples/comparison and safe measurement method for shapes and garden spaces. Check tools before class.

DEMONSTRATE

Model how to observe with repeatable technique, clear units and a labeled data record.

ASK

Is the comparison fair? What stays the same? What pattern appears? Is there an unusual value? What limitation matters?

TD-211 | OBSERVE -> CHECK -> CLOSE

OBSERVE

Check sample identity, repeat measurements, units, table quality and whether conclusions match the evidence.

CHECK LEARNING

Learner produces comparable data plus a calculation/graph or defensible evidence-based explanation.

CLOSE

Discuss pattern and limitation, state one practical implication, clean the area and assign the linked mission/journal task.

LINK THE LEARNING

Record evidence in the GrowMeal journal -> assign the related Garden Mission Card -> use the matching practical/data/problem-solving assessment item.

MEASURE DEMONSTRATION

Primary 4-6 | Geometry Garden

SET UP

Define the question, samples/comparison and safe measurement method for shapes and garden spaces. Check tools before class.

DEMONSTRATE

Model how to measure with repeatable technique, clear units and a labeled data record.

ASK

Is the comparison fair? What stays the same? What pattern appears? Is there an unusual value? What limitation matters?

TD-212 | OBSERVE -> CHECK -> CLOSE

OBSERVE

Check sample identity, repeat measurements, units, table quality and whether conclusions match the evidence.

CHECK LEARNING

Learner produces comparable data plus a calculation/graph or defensible evidence-based explanation.

CLOSE

Discuss pattern and limitation, state one practical implication, clean the area and assign the linked mission/journal task.

LINK THE LEARNING

Record evidence in the GrowMeal journal -> assign the related Garden Mission Card -> use the matching practical/data/problem-solving assessment item.

QUESTION DEMONSTRATION

Primary 4-6 | Geometry Garden

SET UP

Define the question, samples/comparison and safe measurement method for shapes and garden spaces. Check tools before class.

DEMONSTRATE

Model how to question with repeatable technique, clear units and a labeled data record.

ASK

Is the comparison fair? What stays the same? What pattern appears? Is there an unusual value? What limitation matters?

TD-213 | OBSERVE -> CHECK -> CLOSE

OBSERVE

Check sample identity, repeat measurements, units, table quality and whether conclusions match the evidence.

CHECK LEARNING

Learner produces comparable data plus a calculation/graph or defensible evidence-based explanation.

CLOSE

Discuss pattern and limitation, state one practical implication, clean the area and assign the linked mission/journal task.

LINK THE LEARNING

Record evidence in the GrowMeal journal -> assign the related Garden Mission Card -> use the matching practical/data/problem-solving assessment item.

SAMPLE DEMONSTRATION

Primary 4-6 | Geometry Garden

SET UP

Define the question, samples/comparison and safe measurement method for shapes and garden spaces. Check tools before class.

DEMONSTRATE

Model how to sample with repeatable technique, clear units and a labeled data record.

ASK

Is the comparison fair? What stays the same? What pattern appears? Is there an unusual value? What limitation matters?

TD-214 | OBSERVE -> CHECK -> CLOSE

OBSERVE

Check sample identity, repeat measurements, units, table quality and whether conclusions match the evidence.

CHECK LEARNING Learner produces comparable data plus a calculation/graph or defensible evidence-based explanation.

CLOSE

Discuss pattern and limitation, state one practical implication, clean the area and assign the linked mission/journal task.

LINK THE LEARNING

Record evidence in the GrowMeal journal -> assign the related Garden Mission Card -> use the matching practical/data/problem-solving assessment item.

INVESTIGATE DEMONSTRATION

Primary 4-6 | Geometry Garden

SET UP

Define the question, samples/comparison and safe measurement method for shapes and garden spaces. Check tools before class.

DEMONSTRATE

Model how to investigate with repeatable technique, clear units and a labeled data record.

ASK

Is the comparison fair? What stays the same? What pattern appears? Is there an unusual value? What limitation matters?

TD-215 | OBSERVE -> CHECK -> CLOSE

OBSERVE

Check sample identity, repeat measurements, units, table quality and whether conclusions match the evidence.

CHECK LEARNING

Learner produces comparable data plus a calculation/graph or defensible evidence-based explanation.

CLOSE

Discuss pattern and limitation, state one practical implication, clean the area and assign the linked mission/journal task.

LINK THE LEARNING

Record evidence in the GrowMeal journal -> assign the related Garden Mission Card -> use the matching practical/data/problem-solving assessment item.

CALCULATE DEMONSTRATION

Primary 4-6 | Geometry Garden

SET UP

Define the question, samples/comparison and safe measurement method for shapes and garden spaces. Check tools before class.

DEMONSTRATE

Model how to calculate with repeatable technique, clear units and a labeled data record.

ASK

Is the comparison fair? What stays the same? What pattern appears? Is there an unusual value? What limitation matters?

TD-216 | OBSERVE -> CHECK -> CLOSE

OBSERVE

Check sample identity, repeat measurements, units, table quality and whether conclusions match the evidence.

CHECK LEARNING

Learner produces comparable data plus a calculation/graph or defensible evidence-based explanation.

CLOSE

Discuss pattern and limitation, state one practical implication, clean the area and assign the linked mission/journal task.

LINK THE LEARNING

Record evidence in the GrowMeal journal -> assign the related Garden Mission Card -> use the matching practical/data/problem-solving assessment item.

GRAPH DEMONSTRATION

Primary 4-6 | Geometry Garden

SET UP

Define the question, samples/comparison and safe measurement method for shapes and garden spaces. Check tools before class.

DEMONSTRATE

Model how to graph with repeatable technique, clear units and a labeled data record.

ASK

Is the comparison fair? What stays the same? What pattern appears? Is there an unusual value? What limitation matters?

TD-217 | OBSERVE -> CHECK -> CLOSE

OBSERVE

Check sample identity, repeat measurements, units, table quality and whether conclusions match the evidence.

CHECK LEARNING

Learner produces comparable data plus a calculation/graph or defensible evidence-based explanation.

CLOSE

Discuss pattern and limitation, state one practical implication, clean the area and assign the linked mission/journal task.

LINK THE LEARNING

Record evidence in the GrowMeal journal -> assign the related Garden Mission Card -> use the matching practical/data/problem-solving assessment item.

ANALYZE DEMONSTRATION

Primary 4-6 | Geometry Garden

SET UP

Define the question, samples/comparison and safe measurement method for shapes and garden spaces. Check tools before class.

DEMONSTRATE

Model how to analyze with repeatable technique, clear units and a labeled data record.

ASK

Is the comparison fair? What stays the same? What pattern appears? Is there an unusual value? What limitation matters?

TD-218 | OBSERVE -> CHECK -> CLOSE

OBSERVE

Check sample identity, repeat measurements, units, table quality and whether conclusions match the evidence.

CHECK LEARNING

Learner produces comparable data plus a calculation/graph or defensible evidence-based explanation.

CLOSE

Discuss pattern and limitation, state one practical implication, clean the area and assign the linked mission/journal task.

LINK THE LEARNING

Record evidence in the GrowMeal journal -> assign the related Garden Mission Card -> use the matching practical/data/problem-solving assessment item.

EXPLAIN DEMONSTRATION

Primary 4-6 | Geometry Garden

SET UP

Define the question, samples/comparison and safe measurement method for shapes and garden spaces. Check tools before class.

DEMONSTRATE

Model how to explain with repeatable technique, clear units and a labeled data record.

ASK

Is the comparison fair? What stays the same? What pattern appears? Is there an unusual value? What limitation matters?

TD-219 | OBSERVE -> CHECK -> CLOSE

OBSERVE

Check sample identity, repeat measurements, units, table quality and whether conclusions match the evidence.

CHECK LEARNING

Learner produces comparable data plus a calculation/graph or defensible evidence-based explanation.

CLOSE

Discuss pattern and limitation, state one practical implication, clean the area and assign the linked mission/journal task.

LINK THE LEARNING

Record evidence in the GrowMeal journal -> assign the related Garden Mission Card -> use the matching practical/data/problem-solving assessment item.

RECOMMEND DEMONSTRATION

Primary 4-6 | Geometry Garden

SET UP

Define the question, samples/comparison and safe measurement method for shapes and garden spaces. Check tools before class.

DEMONSTRATE

Model how to recommend with repeatable technique, clear units and a labeled data record.

ASK

Is the comparison fair? What stays the same? What pattern appears? Is there an unusual value? What limitation matters?

TD-220 | OBSERVE -> CHECK -> CLOSE

OBSERVE

Check sample identity, repeat measurements, units, table quality and whether conclusions match the evidence.

CHECK LEARNING

Learner produces comparable data plus a calculation/graph or defensible evidence-based explanation.

CLOSE

Discuss pattern and limitation, state one practical implication, clean the area and assign the linked mission/journal task.

LINK THE LEARNING

Record evidence in the GrowMeal journal -> assign the related Garden Mission Card -> use the matching practical/data/problem-solving assessment item.

OBSERVE DEMONSTRATION

Primary 4-6 | Grid Experiment Garden

SET UP

Define the question, samples/comparison and safe measurement method for treatments, controls and fair comparisons. Check tools before class.

DEMONSTRATE

Model how to observe with repeatable technique, clear units and a labeled data record.

ASK

Is the comparison fair? What stays the same? What pattern appears? Is there an unusual value? What limitation matters?

TD-221 | OBSERVE -> CHECK -> CLOSE

OBSERVE

Check sample identity, repeat measurements, units, table quality and whether conclusions match the evidence.

CHECK LEARNING

Learner produces comparable data plus a calculation/graph or defensible evidence-based explanation.

CLOSE

Discuss pattern and limitation, state one practical implication, clean the area and assign the linked mission/journal task.

LINK THE LEARNING

Record evidence in the GrowMeal journal -> assign the related Garden Mission Card -> use the matching practical/data/problem-solving assessment item.

MEASURE DEMONSTRATION

Primary 4-6 | Grid Experiment Garden

SET UP

Define the question, samples/comparison and safe measurement method for treatments, controls and fair comparisons. Check tools before class.

DEMONSTRATE

Model how to measure with repeatable technique, clear units and a labeled data record.

ASK

Is the comparison fair? What stays the same? What pattern appears? Is there an unusual value? What limitation matters?

TD-222 | OBSERVE -> CHECK -> CLOSE

OBSERVE

Check sample identity, repeat measurements, units, table quality and whether conclusions match the evidence.

CHECK LEARNING

Learner produces comparable data plus a calculation/graph or defensible evidence-based explanation.

CLOSE

Discuss pattern and limitation, state one practical implication, clean the area and assign the linked mission/journal task.

LINK THE LEARNING

Record evidence in the GrowMeal journal -> assign the related Garden Mission Card -> use the matching practical/data/problem-solving assessment item.

QUESTION DEMONSTRATION

Primary 4-6 | Grid Experiment Garden

SET UP

Define the question, samples/comparison and safe measurement method for treatments, controls and fair comparisons. Check tools before class.

DEMONSTRATE

Model how to question with repeatable technique, clear units and a labeled data record.

ASK

Is the comparison fair? What stays the same? What pattern appears? Is there an unusual value? What limitation matters?

OBSERVE

Check sample identity, repeat measurements, units, table quality and whether conclusions match the evidence.

CHECK LEARNING

Learner produces comparable data plus a calculation/graph or defensible evidence-based explanation.

CLOSE

Discuss pattern and limitation, state one practical implication, clean the area and assign the linked mission/journal task.

LINK THE LEARNING

Record evidence in the GrowMeal journal -> assign the related Garden Mission Card -> use the matching practical/data/problem-solving assessment item.

SAMPLE DEMONSTRATION

Primary 4-6 | Grid Experiment Garden

SET UP

Define the question, samples/comparison and safe measurement method for treatments, controls and fair comparisons. Check tools before class.

DEMONSTRATE

Model how to sample with repeatable technique, clear units and a labeled data record.

ASK

Is the comparison fair? What stays the same? What pattern appears? Is there an unusual value? What limitation matters?

TD-224 | OBSERVE -> CHECK -> CLOSE

OBSERVE

Check sample identity, repeat measurements, units, table quality and whether conclusions match the evidence.

CHECK LEARNING

Learner produces comparable data plus a calculation/graph or defensible evidence-based explanation.

CLOSE

Discuss pattern and limitation, state one practical implication, clean the area and assign the linked mission/journal task.

LINK THE LEARNING

Record evidence in the GrowMeal journal -> assign the related Garden Mission Card -> use the matching practical/data/problem-solving assessment item.

INVESTIGATE DEMONSTRATION

Primary 4-6 | Grid Experiment Garden

SET UP

Define the question, samples/comparison and safe measurement method for treatments, controls and fair comparisons. Check tools before class.

DEMONSTRATE

Model how to investigate with repeatable technique, clear units and a labeled data record.

ASK

Is the comparison fair? What stays the same? What pattern appears? Is there an unusual value? What limitation matters?

TD-225 | OBSERVE -> CHECK -> CLOSE

OBSERVE

Check sample identity, repeat measurements, units, table quality and whether conclusions match the evidence.

CHECK LEARNING

Learner produces comparable data plus a calculation/graph or defensible evidence-based explanation.

CLOSE

Discuss pattern and limitation, state one practical implication, clean the area and assign the linked mission/journal task.

LINK THE LEARNING

Record evidence in the GrowMeal journal -> assign the related Garden Mission Card -> use the matching practical/data/problem-solving assessment item.

CALCULATE DEMONSTRATION

Primary 4-6 | Grid Experiment Garden

SET UP

Define the question, samples/comparison and safe measurement method for treatments, controls and fair comparisons. Check tools before class.

DEMONSTRATE

Model how to calculate with repeatable technique, clear units and a labeled data record.

ASK

Is the comparison fair? What stays the same? What pattern appears? Is there an unusual value? What limitation matters?

TD-226 | OBSERVE -> CHECK -> CLOSE

OBSERVE

Check sample identity, repeat measurements, units, table quality and whether conclusions match the evidence.

CHECK LEARNING

Learner produces comparable data plus a calculation/graph or defensible evidence-based explanation.

CLOSE

Discuss pattern and limitation, state one practical implication, clean the area and assign the linked mission/journal task.

LINK THE LEARNING

Record evidence in the GrowMeal journal -> assign the related Garden Mission Card -> use the matching practical/data/problem-solving assessment item.

GRAPH DEMONSTRATION

Primary 4-6 | Grid Experiment Garden

SET UP

Define the question, samples/comparison and safe measurement method for treatments, controls and fair comparisons. Check tools before class.

DEMONSTRATE

Model how to graph with repeatable technique, clear units and a labeled data record.

ASK

Is the comparison fair? What stays the same? What pattern appears? Is there an unusual value? What limitation matters?

TD-227 | OBSERVE -> CHECK -> CLOSE

OBSERVE

Check sample identity, repeat measurements, units, table quality and whether conclusions match the evidence.

CHECK LEARNING

Learner produces comparable data plus a calculation/graph or defensible evidence-based explanation.

CLOSE

Discuss pattern and limitation, state one practical implication, clean the area and assign the linked mission/journal task.

LINK THE LEARNING

Record evidence in the GrowMeal journal -> assign the related Garden Mission Card -> use the matching practical/data/problem-solving assessment item.

ANALYZE DEMONSTRATION

Primary 4-6 | Grid Experiment Garden

SET UP

Define the question, samples/comparison and safe measurement method for treatments, controls and fair comparisons. Check tools before class.

DEMONSTRATE

Model how to analyze with repeatable technique, clear units and a labeled data record.

ASK

Is the comparison fair? What stays the same? What pattern appears? Is there an unusual value? What limitation matters?

TD-228 | OBSERVE -> CHECK -> CLOSE

OBSERVE

Check sample identity, repeat measurements, units, table quality and whether conclusions match the evidence.

CHECK LEARNING

Learner produces comparable data plus a calculation/graph or defensible evidence-based explanation.

CLOSE

Discuss pattern and limitation, state one practical implication, clean the area and assign the linked mission/journal task.

LINK THE LEARNING

Record evidence in the GrowMeal journal -> assign the related Garden Mission Card -> use the matching practical/data/problem-solving assessment item.

EXPLAIN DEMONSTRATION

Primary 4-6 | Grid Experiment Garden

SET UP

Define the question, samples/comparison and safe measurement method for treatments, controls and fair comparisons. Check tools before class.

DEMONSTRATE

Model how to explain with repeatable technique, clear units and a labeled data record.

ASK

Is the comparison fair? What stays the same? What pattern appears? Is there an unusual value? What limitation matters?

TD-229 | OBSERVE -> CHECK -> CLOSE

OBSERVE

Check sample identity, repeat measurements, units, table quality and whether conclusions match the evidence.

CHECK LEARNING

Learner produces comparable data plus a calculation/graph or defensible evidence-based explanation.

CLOSE

Discuss pattern and limitation, state one practical implication, clean the area and assign the linked mission/journal task.

LINK THE LEARNING

Record evidence in the GrowMeal journal -> assign the related Garden Mission Card -> use the matching practical/data/problem-solving assessment item.

RECOMMEND DEMONSTRATION

Primary 4-6 | Grid Experiment Garden

SET UP

Define the question, samples/comparison and safe measurement method for treatments, controls and fair comparisons. Check tools before class.

DEMONSTRATE

Model how to recommend with repeatable technique, clear units and a labeled data record.

ASK

Is the comparison fair? What stays the same? What pattern appears? Is there an unusual value? What limitation matters?

TD-230 | OBSERVE -> CHECK -> CLOSE

OBSERVE

Check sample identity, repeat measurements, units, table quality and whether conclusions match the evidence.

CHECK LEARNING

Learner produces comparable data plus a calculation/graph or defensible evidence-based explanation.

CLOSE

Discuss pattern and limitation, state one practical implication, clean the area and assign the linked mission/journal task.

LINK THE LEARNING

Record evidence in the GrowMeal journal -> assign the related Garden Mission Card -> use the matching practical/data/problem-solving assessment item.

OBSERVE DEMONSTRATION

Primary 4-6 | Keyhole Garden

SET UP

Define the question, samples/comparison and safe measurement method for access, moisture and bed geometry. Check tools before class.

DEMONSTRATE

Model how to observe with repeatable technique, clear units and a labeled data record.

ASK

Is the comparison fair? What stays the same? What pattern appears? Is there an unusual value? What limitation matters?

TD-231 | OBSERVE -> CHECK -> CLOSE

OBSERVE

Check sample identity, repeat measurements, units, table quality and whether conclusions match the evidence.

CHECK LEARNING

Learner produces comparable data plus a calculation/graph or defensible evidence-based explanation.

CLOSE

Discuss pattern and limitation, state one practical implication, clean the area and assign the linked mission/journal task.

LINK THE LEARNING

Record evidence in the GrowMeal journal -> assign the related Garden Mission Card -> use the matching practical/data/problem-solving assessment item.

MEASURE DEMONSTRATION

Primary 4-6 | Keyhole Garden

SET UP

Define the question, samples/comparison and safe measurement method for access, moisture and bed geometry. Check tools before class.

DEMONSTRATE

Model how to measure with repeatable technique, clear units and a labeled data record.

ASK

Is the comparison fair? What stays the same? What pattern appears? Is there an unusual value? What limitation matters?

TD-232 | OBSERVE -> CHECK -> CLOSE

OBSERVE

Check sample identity, repeat measurements, units, table quality and whether conclusions match the evidence.

CHECK LEARNING

Learner produces comparable data plus a calculation/graph or defensible evidence-based explanation.

CLOSE

Discuss pattern and limitation, state one practical implication, clean the area and assign the linked mission/journal task.

LINK THE LEARNING

Record evidence in the GrowMeal journal -> assign the related Garden Mission Card -> use the matching practical/data/problem-solving assessment item.

QUESTION DEMONSTRATION

Primary 4-6 | Keyhole Garden

SET UP

Define the question, samples/comparison and safe measurement method for access, moisture and bed geometry. Check tools before class.

DEMONSTRATE

Model how to question with repeatable technique, clear units and a labeled data record.

ASK

Is the comparison fair? What stays the same? What pattern appears? Is there an unusual value? What limitation matters?

OBSERVE

Check sample identity, repeat measurements, units, table quality and whether conclusions match the evidence.

CHECK LEARNING

Learner produces comparable data plus a calculation/graph or defensible evidence-based explanation.

CLOSE

Discuss pattern and limitation, state one practical implication, clean the area and assign the linked mission/journal task.

LINK THE LEARNING

Record evidence in the GrowMeal journal -> assign the related Garden Mission Card -> use the matching practical/data/problem-solving assessment item.

SAMPLE DEMONSTRATION

Primary 4-6 | Keyhole Garden

SET UP

Define the question, samples/comparison and safe measurement method for access, moisture and bed geometry. Check tools before class.

DEMONSTRATE

Model how to sample with repeatable technique, clear units and a labeled data record.

ASK

Is the comparison fair? What stays the same? What pattern appears? Is there an unusual value? What limitation matters?

TD-234 | OBSERVE -> CHECK -> CLOSE

OBSERVE

Check sample identity, repeat measurements, units, table quality and whether conclusions match the evidence.

CHECK LEARNING

Learner produces comparable data plus a calculation/graph or defensible evidence-based explanation.

CLOSE

Discuss pattern and limitation, state one practical implication, clean the area and assign the linked mission/journal task.

LINK THE LEARNING

Record evidence in the GrowMeal journal -> assign the related Garden Mission Card -> use the matching practical/data/problem-solving assessment item.

INVESTIGATE DEMONSTRATION

Primary 4-6 | Keyhole Garden

SET UP

Define the question, samples/comparison and safe measurement method for access, moisture and bed geometry. Check tools before class.

DEMONSTRATE

Model how to investigate with repeatable technique, clear units and a labeled data record.

ASK

Is the comparison fair? What stays the same? What pattern appears? Is there an unusual value? What limitation matters?

TD-235 | OBSERVE -> CHECK -> CLOSE

OBSERVE

Check sample identity, repeat measurements, units, table quality and whether conclusions match the evidence.

CHECK LEARNING

Learner produces comparable data plus a calculation/graph or defensible evidence-based explanation.

CLOSE

Discuss pattern and limitation, state one practical implication, clean the area and assign the linked mission/journal task.

LINK THE LEARNING

Record evidence in the GrowMeal journal -> assign the related Garden Mission Card -> use the matching practical/data/problem-solving assessment item.

CALCULATE DEMONSTRATION

Primary 4-6 | Keyhole Garden

SET UP

Define the question, samples/comparison and safe measurement method for access, moisture and bed geometry. Check tools before class.

DEMONSTRATE

Model how to calculate with repeatable technique, clear units and a labeled data record.

ASK

Is the comparison fair? What stays the same? What pattern appears? Is there an unusual value? What limitation matters?

TD-236 | OBSERVE -> CHECK -> CLOSE

OBSERVE

Check sample identity, repeat measurements, units, table quality and whether conclusions match the evidence.

CHECK LEARNING

Learner produces comparable data plus a calculation/graph or defensible evidence-based explanation.

CLOSE

Discuss pattern and limitation, state one practical implication, clean the area and assign the linked mission/journal task.

LINK THE LEARNING

Record evidence in the GrowMeal journal -> assign the related Garden Mission Card -> use the matching practical/data/problem-solving assessment item.

GRAPH DEMONSTRATION

Primary 4-6 | Keyhole Garden

SET UP

Define the question, samples/comparison and safe measurement method for access, moisture and bed geometry. Check tools before class.

DEMONSTRATE

Model how to graph with repeatable technique, clear units and a labeled data record.

ASK

Is the comparison fair? What stays the same? What pattern appears? Is there an unusual value? What limitation matters?

TD-237 | OBSERVE -> CHECK -> CLOSE

OBSERVE

Check sample identity, repeat measurements, units, table quality and whether conclusions match the evidence.

CHECK LEARNING

Learner produces comparable data plus a calculation/graph or defensible evidence-based explanation.

CLOSE

Discuss pattern and limitation, state one practical implication, clean the area and assign the linked mission/journal task.

LINK THE LEARNING

Record evidence in the GrowMeal journal -> assign the related Garden Mission Card -> use the matching practical/data/problem-solving assessment item.

ANALYZE DEMONSTRATION

Primary 4-6 | Keyhole Garden

SET UP

Define the question, samples/comparison and safe measurement method for access, moisture and bed geometry. Check tools before class.

DEMONSTRATE

Model how to analyze with repeatable technique, clear units and a labeled data record.

ASK

Is the comparison fair? What stays the same? What pattern appears? Is there an unusual value? What limitation matters?

TD-238 | OBSERVE -> CHECK -> CLOSE

OBSERVE

Check sample identity, repeat measurements, units, table quality and whether conclusions match the evidence.

CHECK LEARNING

Learner produces comparable data plus a calculation/graph or defensible evidence-based explanation.

CLOSE

Discuss pattern and limitation, state one practical implication, clean the area and assign the linked mission/journal task.

LINK THE LEARNING

Record evidence in the GrowMeal journal -> assign the related Garden Mission Card -> use the matching practical/data/problem-solving assessment item.

EXPLAIN DEMONSTRATION

Primary 4-6 | Keyhole Garden

SET UP

Define the question, samples/comparison and safe measurement method for access, moisture and bed geometry. Check tools before class.

DEMONSTRATE

Model how to explain with repeatable technique, clear units and a labeled data record.

ASK

Is the comparison fair? What stays the same? What pattern appears? Is there an unusual value? What limitation matters?

OBSERVE

Check sample identity, repeat measurements, units, table quality and whether conclusions match the evidence.

CHECK LEARNING

Learner produces comparable data plus a calculation/graph or defensible evidence-based explanation.

CLOSE

Discuss pattern and limitation, state one practical implication, clean the area and assign the linked mission/journal task.

LINK THE LEARNING

Record evidence in the GrowMeal journal -> assign the related Garden Mission Card -> use the matching practical/data/problem-solving assessment item.

RECOMMEND DEMONSTRATION

Primary 4-6 | Keyhole Garden

SET UP

Define the question, samples/comparison and safe measurement method for access, moisture and bed geometry. Check tools before class.

DEMONSTRATE

Model how to recommend with repeatable technique, clear units and a labeled data record.

ASK

Is the comparison fair? What stays the same? What pattern appears? Is there an unusual value? What limitation matters?

TD-240 | OBSERVE -> CHECK -> CLOSE

OBSERVE

Check sample identity, repeat measurements, units, table quality and whether conclusions match the evidence.

CHECK LEARNING

Learner produces comparable data plus a calculation/graph or defensible evidence-based explanation.

CLOSE

Discuss pattern and limitation, state one practical implication, clean the area and assign the linked mission/journal task.

LINK THE LEARNING

Record evidence in the GrowMeal journal -> assign the related Garden Mission Card -> use the matching practical/data/problem-solving assessment item.

OBSERVE DEMONSTRATION

Primary 4-6 | Compost Garden

SET UP

Define the question, samples/comparison and safe measurement method for decomposition and maturity. Check tools before class.

DEMONSTRATE

Model how to observe with repeatable technique, clear units and a labeled data record.

ASK

Is the comparison fair? What stays the same? What pattern appears? Is there an unusual value? What limitation matters?

TD-241 | OBSERVE -> CHECK -> CLOSE

OBSERVE

Check sample identity, repeat measurements, units, table quality and whether conclusions match the evidence.

CHECK LEARNING

Learner produces comparable data plus a calculation/graph or defensible evidence-based explanation.

CLOSE

Discuss pattern and limitation, state one practical implication, clean the area and assign the linked mission/journal task.

LINK THE LEARNING

Record evidence in the GrowMeal journal -> assign the related Garden Mission Card -> use the matching practical/data/problem-solving assessment item.

MEASURE DEMONSTRATION

Primary 4-6 | Compost Garden

SET UP

Define the question, samples/comparison and safe measurement method for decomposition and maturity. Check tools before class.

DEMONSTRATE

Model how to measure with repeatable technique, clear units and a labeled data record.

ASK

Is the comparison fair? What stays the same? What pattern appears? Is there an unusual value? What limitation matters?

TD-242 | OBSERVE -> CHECK -> CLOSE

OBSERVE

Check sample identity, repeat measurements, units, table quality and whether conclusions match the evidence.

CHECK LEARNING

Learner produces comparable data plus a calculation/graph or defensible evidence-based explanation.

CLOSE

Discuss pattern and limitation, state one practical implication, clean the area and assign the linked mission/journal task.

LINK THE LEARNING

Record evidence in the GrowMeal journal -> assign the related Garden Mission Card -> use the matching practical/data/problem-solving assessment item.

QUESTION DEMONSTRATION

Primary 4-6 | Compost Garden

SET UP

Define the question, samples/comparison and safe measurement method for decomposition and maturity. Check tools before class.

DEMONSTRATE

Model how to question with repeatable technique, clear units and a labeled data record.

ASK

Is the comparison fair? What stays the same? What pattern appears? Is there an unusual value? What limitation matters?

TD-243 | OBSERVE -> CHECK -> CLOSE

OBSERVE

Check sample identity, repeat measurements, units, table quality and whether conclusions match the evidence.

CHECK LEARNING

Learner produces comparable data plus a calculation/graph or defensible evidence-based explanation.

CLOSE

Discuss pattern and limitation, state one practical implication, clean the area and assign the linked mission/journal task.

LINK THE LEARNING

Record evidence in the GrowMeal journal -> assign the related Garden Mission Card -> use the matching practical/data/problem-solving assessment item.

SAMPLE DEMONSTRATION

Primary 4-6 | Compost Garden

SET UP

Define the question, samples/comparison and safe measurement method for decomposition and maturity. Check tools before class.

DEMONSTRATE

Model how to sample with repeatable technique, clear units and a labeled data record.

ASK

Is the comparison fair? What stays the same? What pattern appears? Is there an unusual value? What limitation matters?

OBSERVE

Check sample identity, repeat measurements, units, table quality and whether conclusions match the evidence.

CHECK LEARNING

Learner produces comparable data plus a calculation/graph or defensible evidence-based explanation.

CLOSE

Discuss pattern and limitation, state one practical implication, clean the area and assign the linked mission/journal task.

LINK THE LEARNING

Record evidence in the GrowMeal journal -> assign the related Garden Mission Card -> use the matching practical/data/problem-solving assessment item.

INVESTIGATE DEMONSTRATION

Primary 4-6 | Compost Garden

SET UP

Define the question, samples/comparison and safe measurement method for decomposition and maturity. Check tools before class.

DEMONSTRATE

Model how to investigate with repeatable technique, clear units and a labeled data record.

ASK

Is the comparison fair? What stays the same? What pattern appears? Is there an unusual value? What limitation matters?

TD-245 | OBSERVE -> CHECK -> CLOSE

OBSERVE

Check sample identity, repeat measurements, units, table quality and whether conclusions match the evidence.

CHECK LEARNING

Learner produces comparable data plus a calculation/graph or defensible evidence-based explanation.

CLOSE

Discuss pattern and limitation, state one practical implication, clean the area and assign the linked mission/journal task.

LINK THE LEARNING

Record evidence in the GrowMeal journal -> assign the related Garden Mission Card -> use the matching practical/data/problem-solving assessment item.

CALCULATE DEMONSTRATION

Primary 4-6 | Compost Garden

SET UP

Define the question, samples/comparison and safe measurement method for decomposition and maturity. Check tools before class.

DEMONSTRATE

Model how to calculate with repeatable technique, clear units and a labeled data record.

ASK

Is the comparison fair? What stays the same? What pattern appears? Is there an unusual value? What limitation matters?

TD-246 | OBSERVE -> CHECK -> CLOSE

OBSERVE

Check sample identity, repeat measurements, units, table quality and whether conclusions match the evidence.

CHECK LEARNING

Learner produces comparable data plus a calculation/graph or defensible evidence-based explanation.

CLOSE

Discuss pattern and limitation, state one practical implication, clean the area and assign the linked mission/journal task.

LINK THE LEARNING

Record evidence in the GrowMeal journal -> assign the related Garden Mission Card -> use the matching practical/data/problem-solving assessment item.

GRAPH DEMONSTRATION

Primary 4-6 | Compost Garden

SET UP

Define the question, samples/comparison and safe measurement method for decomposition and maturity. Check tools before class.

DEMONSTRATE

Model how to graph with repeatable technique, clear units and a labeled data record.

ASK

Is the comparison fair? What stays the same? What pattern appears? Is there an unusual value? What limitation matters?

OBSERVE

Check sample identity, repeat measurements, units, table quality and whether conclusions match the evidence.

CHECK LEARNING

Learner produces comparable data plus a calculation/graph or defensible evidence-based explanation.

CLOSE

Discuss pattern and limitation, state one practical implication, clean the area and assign the linked mission/journal task.

LINK THE LEARNING

Record evidence in the GrowMeal journal -> assign the related Garden Mission Card -> use the matching practical/data/problem-solving assessment item.

ANALYZE DEMONSTRATION

Primary 4-6 | Compost Garden

SET UP

Define the question, samples/comparison and safe measurement method for decomposition and maturity. Check tools before class.

DEMONSTRATE

Model how to analyze with repeatable technique, clear units and a labeled data record.

ASK

Is the comparison fair? What stays the same? What pattern appears? Is there an unusual value? What limitation matters?

TD-248 | OBSERVE -> CHECK -> CLOSE

OBSERVE

Check sample identity, repeat measurements, units, table quality and whether conclusions match the evidence.

CHECK LEARNING

Learner produces comparable data plus a calculation/graph or defensible evidence-based explanation.

CLOSE

Discuss pattern and limitation, state one practical implication, clean the area and assign the linked mission/journal task.

LINK THE LEARNING

Record evidence in the GrowMeal journal -> assign the related Garden Mission Card -> use the matching practical/data/problem-solving assessment item.

EXPLAIN DEMONSTRATION

Primary 4-6 | Compost Garden

SET UP

Define the question, samples/comparison and safe measurement method for decomposition and maturity. Check tools before class.

DEMONSTRATE

Model how to explain with repeatable technique, clear units and a labeled data record.

ASK

Is the comparison fair? What stays the same? What pattern appears? Is there an unusual value? What limitation matters?

OBSERVE

Check sample identity, repeat measurements, units, table quality and whether conclusions match the evidence.

CHECK LEARNING

Learner produces comparable data plus a calculation/graph or defensible evidence-based explanation.

CLOSE

Discuss pattern and limitation, state one practical implication, clean the area and assign the linked mission/journal task.

LINK THE LEARNING

Record evidence in the GrowMeal journal -> assign the related Garden Mission Card -> use the matching practical/data/problem-solving assessment item.

RECOMMEND DEMONSTRATION

Primary 4-6 | Compost Garden

SET UP

Define the question, samples/comparison and safe measurement method for decomposition and maturity. Check tools before class.

DEMONSTRATE

Model how to recommend with repeatable technique, clear units and a labeled data record.

ASK

Is the comparison fair? What stays the same? What pattern appears? Is there an unusual value? What limitation matters?

TD-250 | OBSERVE -> CHECK -> CLOSE

OBSERVE

Check sample identity, repeat measurements, units, table quality and whether conclusions match the evidence.

CHECK LEARNING

Learner produces comparable data plus a calculation/graph or defensible evidence-based explanation.

CLOSE

Discuss pattern and limitation, state one practical implication, clean the area and assign the linked mission/journal task.

LINK THE LEARNING

Record evidence in the GrowMeal journal -> assign the related Garden Mission Card -> use the matching practical/data/problem-solving assessment item.

OBSERVE DEMONSTRATION

Primary 4-6 | Gravity Drip Garden

SET UP

Define the question, samples/comparison and safe measurement method for flow and uniformity. Check tools before class.

DEMONSTRATE

Model how to observe with repeatable technique, clear units and a labeled data record.

ASK

Is the comparison fair? What stays the same? What pattern appears? Is there an unusual value? What limitation matters?

TD-251 | OBSERVE -> CHECK -> CLOSE

OBSERVE

Check sample identity, repeat measurements, units, table quality and whether conclusions match the evidence.

CHECK LEARNING

Learner produces comparable data plus a calculation/graph or defensible evidence-based explanation.

CLOSE

Discuss pattern and limitation, state one practical implication, clean the area and assign the linked mission/journal task.

LINK THE LEARNING

Record evidence in the GrowMeal journal -> assign the related Garden Mission Card -> use the matching practical/data/problem-solving assessment item.

MEASURE DEMONSTRATION

Primary 4-6 | Gravity Drip Garden

SET UP

Define the question, samples/comparison and safe measurement method for flow and uniformity. Check tools before class.

DEMONSTRATE

Model how to measure with repeatable technique, clear units and a labeled data record.

ASK

Is the comparison fair? What stays the same? What pattern appears? Is there an unusual value? What limitation matters?

TD-252 | OBSERVE -> CHECK -> CLOSE

OBSERVE

Check sample identity, repeat measurements, units, table quality and whether conclusions match the evidence.

CHECK LEARNING

Learner produces comparable data plus a calculation/graph or defensible evidence-based explanation.

CLOSE

Discuss pattern and limitation, state one practical implication, clean the area and assign the linked mission/journal task.

LINK THE LEARNING

Record evidence in the GrowMeal journal -> assign the related Garden Mission Card -> use the matching practical/data/problem-solving assessment item.

QUESTION DEMONSTRATION

Primary 4-6 | Gravity Drip Garden

SET UP

Define the question, samples/comparison and safe measurement method for flow and uniformity. Check tools before class.

DEMONSTRATE

Model how to question with repeatable technique, clear units and a labeled data record.

ASK

Is the comparison fair? What stays the same? What pattern appears? Is there an unusual value? What limitation matters?

TD-253 | OBSERVE -> CHECK -> CLOSE

OBSERVE

Check sample identity, repeat measurements, units, table quality and whether conclusions match the evidence.

CHECK LEARNING

Learner produces comparable data plus a calculation/graph or defensible evidence-based explanation.

CLOSE

Discuss pattern and limitation, state one practical implication, clean the area and assign the linked mission/journal task.

LINK THE LEARNING

Record evidence in the GrowMeal journal -> assign the related Garden Mission Card -> use the matching practical/data/problem-solving assessment item.

SAMPLE DEMONSTRATION

Primary 4-6 | Gravity Drip Garden

SET UP

Define the question, samples/comparison and safe measurement method for flow and uniformity. Check tools before class.

DEMONSTRATE

Model how to sample with repeatable technique, clear units and a labeled data record.

ASK

Is the comparison fair? What stays the same? What pattern appears? Is there an unusual value? What limitation matters?

TD-254 | OBSERVE -> CHECK -> CLOSE

OBSERVE

Check sample identity, repeat measurements, units, table quality and whether conclusions match the evidence.

CHECK LEARNING

Learner produces comparable data plus a calculation/graph or defensible evidence-based explanation.

CLOSE

Discuss pattern and limitation, state one practical implication, clean the area and assign the linked mission/journal task.

LINK THE LEARNING

Record evidence in the GrowMeal journal -> assign the related Garden Mission Card -> use the matching practical/data/problem-solving assessment item.

INVESTIGATE DEMONSTRATION

Primary 4-6 | Gravity Drip Garden

SET UP

Define the question, samples/comparison and safe measurement method for flow and uniformity. Check tools before class.

DEMONSTRATE

Model how to investigate with repeatable technique, clear units and a labeled data record.

ASK

Is the comparison fair? What stays the same? What pattern appears? Is there an unusual value? What limitation matters?

TD-255 | OBSERVE -> CHECK -> CLOSE

OBSERVE

Check sample identity, repeat measurements, units, table quality and whether conclusions match the evidence.

CHECK LEARNING

Learner produces comparable data plus a calculation/graph or defensible evidence-based explanation.

CLOSE

Discuss pattern and limitation, state one practical implication, clean the area and assign the linked mission/journal task.

LINK THE LEARNING

Record evidence in the GrowMeal journal -> assign the related Garden Mission Card -> use the matching practical/data/problem-solving assessment item.

CALCULATE DEMONSTRATION

Primary 4-6 | Gravity Drip Garden

SET UP

Define the question, samples/comparison and safe measurement method for flow and uniformity. Check tools before class.

DEMONSTRATE

Model how to calculate with repeatable technique, clear units and a labeled data record.

ASK

Is the comparison fair? What stays the same? What pattern appears? Is there an unusual value? What limitation matters?

TD-256 | OBSERVE -> CHECK -> CLOSE

OBSERVE

Check sample identity, repeat measurements, units, table quality and whether conclusions match the evidence.

CHECK LEARNING

Learner produces comparable data plus a calculation/graph or defensible evidence-based explanation.

CLOSE

Discuss pattern and limitation, state one practical implication, clean the area and assign the linked mission/journal task.

LINK THE LEARNING

Record evidence in the GrowMeal journal -> assign the related Garden Mission Card -> use the matching practical/data/problem-solving assessment item.

GRAPH DEMONSTRATION

Primary 4-6 | Gravity Drip Garden

SET UP

Define the question, samples/comparison and safe measurement method for flow and uniformity. Check tools before class.

DEMONSTRATE

Model how to graph with repeatable technique, clear units and a labeled data record.

ASK

Is the comparison fair? What stays the same? What pattern appears? Is there an unusual value? What limitation matters?

TD-257 | OBSERVE -> CHECK -> CLOSE

OBSERVE

Check sample identity, repeat measurements, units, table quality and whether conclusions match the evidence.

CHECK LEARNING

Learner produces comparable data plus a calculation/graph or defensible evidence-based explanation.

CLOSE

Discuss pattern and limitation, state one practical implication, clean the area and assign the linked mission/journal task.

LINK THE LEARNING

Record evidence in the GrowMeal journal -> assign the related Garden Mission Card -> use the matching practical/data/problem-solving assessment item.

ANALYZE DEMONSTRATION

Primary 4-6 | Gravity Drip Garden

SET UP

Define the question, samples/comparison and safe measurement method for flow and uniformity. Check tools before class.

DEMONSTRATE

Model how to analyze with repeatable technique, clear units and a labeled data record.

ASK

Is the comparison fair? What stays the same? What pattern appears? Is there an unusual value? What limitation matters?

TD-258 | OBSERVE -> CHECK -> CLOSE

OBSERVE

Check sample identity, repeat measurements, units, table quality and whether conclusions match the evidence.

CHECK LEARNING

Learner produces comparable data plus a calculation/graph or defensible evidence-based explanation.

CLOSE

Discuss pattern and limitation, state one practical implication, clean the area and assign the linked mission/journal task.

LINK THE LEARNING

Record evidence in the GrowMeal journal -> assign the related Garden Mission Card -> use the matching practical/data/problem-solving assessment item.

EXPLAIN DEMONSTRATION

Primary 4-6 | Gravity Drip Garden

SET UP

Define the question, samples/comparison and safe measurement method for flow and uniformity. Check tools before class.

DEMONSTRATE

Model how to explain with repeatable technique, clear units and a labeled data record.

ASK

Is the comparison fair? What stays the same? What pattern appears? Is there an unusual value? What limitation matters?

TD-259 | OBSERVE -> CHECK -> CLOSE

OBSERVE

Check sample identity, repeat measurements, units, table quality and whether conclusions match the evidence.

CHECK LEARNING

Learner produces comparable data plus a calculation/graph or defensible evidence-based explanation.

CLOSE

Discuss pattern and limitation, state one practical implication, clean the area and assign the linked mission/journal task.

LINK THE LEARNING

Record evidence in the GrowMeal journal -> assign the related Garden Mission Card -> use the matching practical/data/problem-solving assessment item.

RECOMMEND DEMONSTRATION

Primary 4-6 | Gravity Drip Garden

SET UP

Define the question, samples/comparison and safe measurement method for flow and uniformity. Check tools before class.

DEMONSTRATE

Model how to recommend with repeatable technique, clear units and a labeled data record.

ASK

Is the comparison fair? What stays the same? What pattern appears? Is there an unusual value? What limitation matters?

TD-260 | OBSERVE -> CHECK -> CLOSE

OBSERVE

Check sample identity, repeat measurements, units, table quality and whether conclusions match the evidence.

CHECK LEARNING

Learner produces comparable data plus a calculation/graph or defensible evidence-based explanation.

CLOSE

Discuss pattern and limitation, state one practical implication, clean the area and assign the linked mission/journal task.

LINK THE LEARNING

Record evidence in the GrowMeal journal -> assign the related Garden Mission Card -> use the matching practical/data/problem-solving assessment item.

OBSERVE DEMONSTRATION

Primary 4-6 | Vertical Garden

SET UP

Define the question, samples/comparison and safe measurement method for performance by vertical level. Check tools before class.

DEMONSTRATE

Model how to observe with repeatable technique, clear units and a labeled data record.

ASK

Is the comparison fair? What stays the same? What pattern appears? Is there an unusual value? What limitation matters?

TD-261 | OBSERVE -> CHECK -> CLOSE

OBSERVE

Check sample identity, repeat measurements, units, table quality and whether conclusions match the evidence.

CHECK LEARNING

Learner produces comparable data plus a calculation/graph or defensible evidence-based explanation.

CLOSE

Discuss pattern and limitation, state one practical implication, clean the area and assign the linked mission/journal task.

LINK THE LEARNING

Record evidence in the GrowMeal journal -> assign the related Garden Mission Card -> use the matching practical/data/problem-solving assessment item.

MEASURE DEMONSTRATION

Primary 4-6 | Vertical Garden

SET UP

Define the question, samples/comparison and safe measurement method for performance by vertical level. Check tools before class.

DEMONSTRATE

Model how to measure with repeatable technique, clear units and a labeled data record.

ASK

Is the comparison fair? What stays the same? What pattern appears? Is there an unusual value? What limitation matters?

TD-262 | OBSERVE -> CHECK -> CLOSE

OBSERVE

Check sample identity, repeat measurements, units, table quality and whether conclusions match the evidence.

CHECK LEARNING

Learner produces comparable data plus a calculation/graph or defensible evidence-based explanation.

CLOSE

Discuss pattern and limitation, state one practical implication, clean the area and assign the linked mission/journal task.

LINK THE LEARNING

Record evidence in the GrowMeal journal -> assign the related Garden Mission Card -> use the matching practical/data/problem-solving assessment item.

QUESTION DEMONSTRATION

Primary 4-6 | Vertical Garden

SET UP

Define the question, samples/comparison and safe measurement method for performance by vertical level. Check tools before class.

DEMONSTRATE

Model how to question with repeatable technique, clear units and a labeled data record.

ASK

Is the comparison fair? What stays the same? What pattern appears? Is there an unusual value? What limitation matters?

TD-263 | OBSERVE -> CHECK -> CLOSE

OBSERVE

Check sample identity, repeat measurements, units, table quality and whether conclusions match the evidence.

CHECK LEARNING

Learner produces comparable data plus a calculation/graph or defensible evidence-based explanation.

CLOSE

Discuss pattern and limitation, state one practical implication, clean the area and assign the linked mission/journal task.

LINK THE LEARNING

Record evidence in the GrowMeal journal -> assign the related Garden Mission Card -> use the matching practical/data/problem-solving assessment item.

SAMPLE DEMONSTRATION

Primary 4-6 | Vertical Garden

SET UP

Define the question, samples/comparison and safe measurement method for performance by vertical level. Check tools before class.

DEMONSTRATE

Model how to sample with repeatable technique, clear units and a labeled data record.

ASK

Is the comparison fair? What stays the same? What pattern appears? Is there an unusual value? What limitation matters?

TD-264 | OBSERVE -> CHECK -> CLOSE

OBSERVE

Check sample identity, repeat measurements, units, table quality and whether conclusions match the evidence.

CHECK LEARNING

Learner produces comparable data plus a calculation/graph or defensible evidence-based explanation.

CLOSE

Discuss pattern and limitation, state one practical implication, clean the area and assign the linked mission/journal task.

LINK THE LEARNING

Record evidence in the GrowMeal journal -> assign the related Garden Mission Card -> use the matching practical/data/problem-solving assessment item.

INVESTIGATE DEMONSTRATION

Primary 4-6 | Vertical Garden

SET UP

Define the question, samples/comparison and safe measurement method for performance by vertical level. Check tools before class.

DEMONSTRATE

Model how to investigate with repeatable technique, clear units and a labeled data record.

ASK

Is the comparison fair? What stays the same? What pattern appears? Is there an unusual value? What limitation matters?

TD-265 | OBSERVE -> CHECK -> CLOSE

OBSERVE

Check sample identity, repeat measurements, units, table quality and whether conclusions match the evidence.

CHECK LEARNING

Learner produces comparable data plus a calculation/graph or defensible evidence-based explanation.

CLOSE

Discuss pattern and limitation, state one practical implication, clean the area and assign the linked mission/journal task.

LINK THE LEARNING

Record evidence in the GrowMeal journal -> assign the related Garden Mission Card -> use the matching practical/data/problem-solving assessment item.

CALCULATE DEMONSTRATION

Primary 4-6 | Vertical Garden

SET UP

Define the question, samples/comparison and safe measurement method for performance by vertical level. Check tools before class.

DEMONSTRATE

Model how to calculate with repeatable technique, clear units and a labeled data record.

ASK

Is the comparison fair? What stays the same? What pattern appears? Is there an unusual value? What limitation matters?

TD-266 | OBSERVE -> CHECK -> CLOSE

OBSERVE

Check sample identity, repeat measurements, units, table quality and whether conclusions match the evidence.

CHECK LEARNING

Learner produces comparable data plus a calculation/graph or defensible evidence-based explanation.

CLOSE

Discuss pattern and limitation, state one practical implication, clean the area and assign the linked mission/journal task.

LINK THE LEARNING

Record evidence in the GrowMeal journal -> assign the related Garden Mission Card -> use the matching practical/data/problem-solving assessment item.

GRAPH DEMONSTRATION

Primary 4-6 | Vertical Garden

SET UP

Define the question, samples/comparison and safe measurement method for performance by vertical level. Check tools before class.

DEMONSTRATE

Model how to graph with repeatable technique, clear units and a labeled data record.

ASK

Is the comparison fair? What stays the same? What pattern appears? Is there an unusual value? What limitation matters?

TD-267 | OBSERVE -> CHECK -> CLOSE

OBSERVE

Check sample identity, repeat measurements, units, table quality and whether conclusions match the evidence.

CHECK LEARNING

Learner produces comparable data plus a calculation/graph or defensible evidence-based explanation.

CLOSE

Discuss pattern and limitation, state one practical implication, clean the area and assign the linked mission/journal task.

LINK THE LEARNING

Record evidence in the GrowMeal journal -> assign the related Garden Mission Card -> use the matching practical/data/problem-solving assessment item.

ANALYZE DEMONSTRATION

Primary 4-6 | Vertical Garden

SET UP

Define the question, samples/comparison and safe measurement method for performance by vertical level. Check tools before class.

DEMONSTRATE

Model how to analyze with repeatable technique, clear units and a labeled data record.

ASK

Is the comparison fair? What stays the same? What pattern appears? Is there an unusual value? What limitation matters?

TD-268 | OBSERVE -> CHECK -> CLOSE

OBSERVE

Check sample identity, repeat measurements, units, table quality and whether conclusions match the evidence.

CHECK LEARNING

Learner produces comparable data plus a calculation/graph or defensible evidence-based explanation.

CLOSE

Discuss pattern and limitation, state one practical implication, clean the area and assign the linked mission/journal task.

LINK THE LEARNING

Record evidence in the GrowMeal journal -> assign the related Garden Mission Card -> use the matching practical/data/problem-solving assessment item.

EXPLAIN DEMONSTRATION

Primary 4-6 | Vertical Garden

SET UP

Define the question, samples/comparison and safe measurement method for performance by vertical level. Check tools before class.

DEMONSTRATE

Model how to explain with repeatable technique, clear units and a labeled data record.

ASK

Is the comparison fair? What stays the same? What pattern appears? Is there an unusual value? What limitation matters?

TD-269 | OBSERVE -> CHECK -> CLOSE

OBSERVE

Check sample identity, repeat measurements, units, table quality and whether conclusions match the evidence.

CHECK LEARNING

Learner produces comparable data plus a calculation/graph or defensible evidence-based explanation.

CLOSE

Discuss pattern and limitation, state one practical implication, clean the area and assign the linked mission/journal task.

LINK THE LEARNING

Record evidence in the GrowMeal journal -> assign the related Garden Mission Card -> use the matching practical/data/problem-solving assessment item.

RECOMMEND DEMONSTRATION

Primary 4-6 | Vertical Garden

SET UP

Define the question, samples/comparison and safe measurement method for performance by vertical level. Check tools before class.

DEMONSTRATE

Model how to recommend with repeatable technique, clear units and a labeled data record.

ASK

Is the comparison fair? What stays the same? What pattern appears? Is there an unusual value? What limitation matters?

TD-270 | OBSERVE -> CHECK -> CLOSE

OBSERVE

Check sample identity, repeat measurements, units, table quality and whether conclusions match the evidence.

CHECK LEARNING

Learner produces comparable data plus a calculation/graph or defensible evidence-based explanation.

CLOSE

Discuss pattern and limitation, state one practical implication, clean the area and assign the linked mission/journal task.

LINK THE LEARNING

Record evidence in the GrowMeal journal -> assign the related Garden Mission Card -> use the matching practical/data/problem-solving assessment item.

OBSERVE DEMONSTRATION

Primary 4-6 | Crop Rotation Garden

SET UP

Define the question, samples/comparison and safe measurement method for crop-family sequence. Check tools before class.

DEMONSTRATE

Model how to observe with repeatable technique, clear units and a labeled data record.

ASK

Is the comparison fair? What stays the same? What pattern appears? Is there an unusual value? What limitation matters?

TD-271 | OBSERVE -> CHECK -> CLOSE

OBSERVE

Check sample identity, repeat measurements, units, table quality and whether conclusions match the evidence.

CHECK LEARNING

Learner produces comparable data plus a calculation/graph or defensible evidence-based explanation.

CLOSE

Discuss pattern and limitation, state one practical implication, clean the area and assign the linked mission/journal task.

LINK THE LEARNING

Record evidence in the GrowMeal journal -> assign the related Garden Mission Card -> use the matching practical/data/problem-solving assessment item.

MEASURE DEMONSTRATION

Primary 4-6 | Crop Rotation Garden

SET UP

Define the question, samples/comparison and safe measurement method for crop-family sequence. Check tools before class.

DEMONSTRATE

Model how to measure with repeatable technique, clear units and a labeled data record.

ASK

Is the comparison fair? What stays the same? What pattern appears? Is there an unusual value? What limitation matters?

TD-272 | OBSERVE -> CHECK -> CLOSE

OBSERVE

Check sample identity, repeat measurements, units, table quality and whether conclusions match the evidence.

CHECK LEARNING

Learner produces comparable data plus a calculation/graph or defensible evidence-based explanation.

CLOSE

Discuss pattern and limitation, state one practical implication, clean the area and assign the linked mission/journal task.

LINK THE LEARNING

Record evidence in the GrowMeal journal -> assign the related Garden Mission Card -> use the matching practical/data/problem-solving assessment item.

QUESTION DEMONSTRATION

Primary 4-6 | Crop Rotation Garden

SET UP

Define the question, samples/comparison and safe measurement method for crop-family sequence. Check tools before class.

DEMONSTRATE

Model how to question with repeatable technique, clear units and a labeled data record.

ASK

Is the comparison fair? What stays the same? What pattern appears? Is there an unusual value? What limitation matters?

TD-273 | OBSERVE -> CHECK -> CLOSE

OBSERVE

Check sample identity, repeat measurements, units, table quality and whether conclusions match the evidence.

CHECK LEARNING

Learner produces comparable data plus a calculation/graph or defensible evidence-based explanation.

CLOSE

Discuss pattern and limitation, state one practical implication, clean the area and assign the linked mission/journal task.

LINK THE LEARNING

Record evidence in the GrowMeal journal -> assign the related Garden Mission Card -> use the matching practical/data/problem-solving assessment item.

SAMPLE DEMONSTRATION

Primary 4-6 | Crop Rotation Garden

SET UP

Define the question, samples/comparison and safe measurement method for crop-family sequence. Check tools before class.

DEMONSTRATE

Model how to sample with repeatable technique, clear units and a labeled data record.

ASK

Is the comparison fair? What stays the same? What pattern appears? Is there an unusual value? What limitation matters?

OBSERVE

Check sample identity, repeat measurements, units, table quality and whether conclusions match the evidence.

CHECK LEARNING

Learner produces comparable data plus a calculation/graph or defensible evidence-based explanation.

CLOSE

Discuss pattern and limitation, state one practical implication, clean the area and assign the linked mission/journal task.

LINK THE LEARNING

Record evidence in the GrowMeal journal -> assign the related Garden Mission Card -> use the matching practical/data/problem-solving assessment item.

INVESTIGATE DEMONSTRATION

Primary 4-6 | Crop Rotation Garden

SET UP

Define the question, samples/comparison and safe measurement method for crop-family sequence. Check tools before class.

DEMONSTRATE

Model how to investigate with repeatable technique, clear units and a labeled data record.

ASK

Is the comparison fair? What stays the same? What pattern appears? Is there an unusual value? What limitation matters?

TD-275 | OBSERVE -> CHECK -> CLOSE

OBSERVE

Check sample identity, repeat measurements, units, table quality and whether conclusions match the evidence.

CHECK LEARNING

Learner produces comparable data plus a calculation/graph or defensible evidence-based explanation.

CLOSE

Discuss pattern and limitation, state one practical implication, clean the area and assign the linked mission/journal task.

LINK THE LEARNING

Record evidence in the GrowMeal journal -> assign the related Garden Mission Card -> use the matching practical/data/problem-solving assessment item.

CALCULATE DEMONSTRATION

Primary 4-6 | Crop Rotation Garden

SET UP

Define the question, samples/comparison and safe measurement method for crop-family sequence. Check tools before class.

DEMONSTRATE

Model how to calculate with repeatable technique, clear units and a labeled data record.

ASK

Is the comparison fair? What stays the same? What pattern appears? Is there an unusual value? What limitation matters?

TD-276 | OBSERVE -> CHECK -> CLOSE

OBSERVE

Check sample identity, repeat measurements, units, table quality and whether conclusions match the evidence.

CHECK LEARNING

Learner produces comparable data plus a calculation/graph or defensible evidence-based explanation.

CLOSE

Discuss pattern and limitation, state one practical implication, clean the area and assign the linked mission/journal task.

LINK THE LEARNING

Record evidence in the GrowMeal journal -> assign the related Garden Mission Card -> use the matching practical/data/problem-solving assessment item.

GRAPH DEMONSTRATION

Primary 4-6 | Crop Rotation Garden

SET UP

Define the question, samples/comparison and safe measurement method for crop-family sequence. Check tools before class.

DEMONSTRATE

Model how to graph with repeatable technique, clear units and a labeled data record.

ASK

Is the comparison fair? What stays the same? What pattern appears? Is there an unusual value? What limitation matters?

TD-277 | OBSERVE -> CHECK -> CLOSE

OBSERVE

Check sample identity, repeat measurements, units, table quality and whether conclusions match the evidence.

CHECK LEARNING

Learner produces comparable data plus a calculation/graph or defensible evidence-based explanation.

CLOSE

Discuss pattern and limitation, state one practical implication, clean the area and assign the linked mission/journal task.

LINK THE LEARNING

Record evidence in the GrowMeal journal -> assign the related Garden Mission Card -> use the matching practical/data/problem-solving assessment item.

ANALYZE DEMONSTRATION

Primary 4-6 | Crop Rotation Garden

SET UP

Define the question, samples/comparison and safe measurement method for crop-family sequence. Check tools before class.

DEMONSTRATE

Model how to analyze with repeatable technique, clear units and a labeled data record.

ASK

Is the comparison fair? What stays the same? What pattern appears? Is there an unusual value? What limitation matters?

TD-278 | OBSERVE -> CHECK -> CLOSE

OBSERVE

Check sample identity, repeat measurements, units, table quality and whether conclusions match the evidence.

CHECK LEARNING

Learner produces comparable data plus a calculation/graph or defensible evidence-based explanation.

CLOSE

Discuss pattern and limitation, state one practical implication, clean the area and assign the linked mission/journal task.

LINK THE LEARNING

Record evidence in the GrowMeal journal -> assign the related Garden Mission Card -> use the matching practical/data/problem-solving assessment item.

EXPLAIN DEMONSTRATION

Primary 4-6 | Crop Rotation Garden

SET UP

Define the question, samples/comparison and safe measurement method for crop-family sequence. Check tools before class.

DEMONSTRATE

Model how to explain with repeatable technique, clear units and a labeled data record.

ASK

Is the comparison fair? What stays the same? What pattern appears? Is there an unusual value? What limitation matters?

TD-279 | OBSERVE -> CHECK -> CLOSE

OBSERVE

Check sample identity, repeat measurements, units, table quality and whether conclusions match the evidence.

CHECK LEARNING

Learner produces comparable data plus a calculation/graph or defensible evidence-based explanation.

CLOSE

Discuss pattern and limitation, state one practical implication, clean the area and assign the linked mission/journal task.

LINK THE LEARNING

Record evidence in the GrowMeal journal -> assign the related Garden Mission Card -> use the matching practical/data/problem-solving assessment item.

RECOMMEND DEMONSTRATION

Primary 4-6 | Crop Rotation Garden

SET UP

Define the question, samples/comparison and safe measurement method for crop-family sequence. Check tools before class.

DEMONSTRATE

Model how to recommend with repeatable technique, clear units and a labeled data record.

ASK

Is the comparison fair? What stays the same? What pattern appears? Is there an unusual value? What limitation matters?

TD-280 | OBSERVE -> CHECK -> CLOSE

OBSERVE

Check sample identity, repeat measurements, units, table quality and whether conclusions match the evidence.

CHECK LEARNING

Learner produces comparable data plus a calculation/graph or defensible evidence-based explanation.

CLOSE

Discuss pattern and limitation, state one practical implication, clean the area and assign the linked mission/journal task.

LINK THE LEARNING

Record evidence in the GrowMeal journal -> assign the related Garden Mission Card -> use the matching practical/data/problem-solving assessment item.

OBSERVE DEMONSTRATION

Primary 4-6 | Water-Smart Garden

SET UP

Define the question, samples/comparison and safe measurement method for water movement and productivity. Check tools before class.

DEMONSTRATE

Model how to observe with repeatable technique, clear units and a labeled data record.

ASK

Is the comparison fair? What stays the same? What pattern appears? Is there an unusual value? What limitation matters?

TD-281 | OBSERVE -> CHECK -> CLOSE

OBSERVE

Check sample identity, repeat measurements, units, table quality and whether conclusions match the evidence.

CHECK LEARNING

Learner produces comparable data plus a calculation/graph or defensible evidence-based explanation.

CLOSE

Discuss pattern and limitation, state one practical implication, clean the area and assign the linked mission/journal task.

LINK THE LEARNING

Record evidence in the GrowMeal journal -> assign the related Garden Mission Card -> use the matching practical/data/problem-solving assessment item.

MEASURE DEMONSTRATION

Primary 4-6 | Water-Smart Garden

SET UP

Define the question, samples/comparison and safe measurement method for water movement and productivity. Check tools before class.

DEMONSTRATE

Model how to measure with repeatable technique, clear units and a labeled data record.

ASK

Is the comparison fair? What stays the same? What pattern appears? Is there an unusual value? What limitation matters?

TD-282 | OBSERVE -> CHECK -> CLOSE

OBSERVE

Check sample identity, repeat measurements, units, table quality and whether conclusions match the evidence.

CHECK LEARNING

Learner produces comparable data plus a calculation/graph or defensible evidence-based explanation.

CLOSE

Discuss pattern and limitation, state one practical implication, clean the area and assign the linked mission/journal task.

LINK THE LEARNING

Record evidence in the GrowMeal journal -> assign the related Garden Mission Card -> use the matching practical/data/problem-solving assessment item.

QUESTION DEMONSTRATION

Primary 4-6 | Water-Smart Garden

SET UP

Define the question, samples/comparison and safe measurement method for water movement and productivity. Check tools before class.

DEMONSTRATE

Model how to question with repeatable technique, clear units and a labeled data record.

ASK

Is the comparison fair? What stays the same? What pattern appears? Is there an unusual value? What limitation matters?

TD-283 | OBSERVE -> CHECK -> CLOSE

OBSERVE

Check sample identity, repeat measurements, units, table quality and whether conclusions match the evidence.

CHECK LEARNING

Learner produces comparable data plus a calculation/graph or defensible evidence-based explanation.

CLOSE

Discuss pattern and limitation, state one practical implication, clean the area and assign the linked mission/journal task.

LINK THE LEARNING

Record evidence in the GrowMeal journal -> assign the related Garden Mission Card -> use the matching practical/data/problem-solving assessment item.

SAMPLE DEMONSTRATION

Primary 4-6 | Water-Smart Garden

SET UP

Define the question, samples/comparison and safe measurement method for water movement and productivity. Check tools before class.

DEMONSTRATE

Model how to sample with repeatable technique, clear units and a labeled data record.

ASK

Is the comparison fair? What stays the same? What pattern appears? Is there an unusual value? What limitation matters?

TD-284 | OBSERVE -> CHECK -> CLOSE

OBSERVE

Check sample identity, repeat measurements, units, table quality and whether conclusions match the evidence.

CHECK LEARNING

Learner produces comparable data plus a calculation/graph or defensible evidence-based explanation.

CLOSE

Discuss pattern and limitation, state one practical implication, clean the area and assign the linked mission/journal task.

LINK THE LEARNING

Record evidence in the GrowMeal journal -> assign the related Garden Mission Card -> use the matching practical/data/problem-solving assessment item.

INVESTIGATE DEMONSTRATION

Primary 4-6 | Water-Smart Garden

SET UP

Define the question, samples/comparison and safe measurement method for water movement and productivity. Check tools before class.

DEMONSTRATE

Model how to investigate with repeatable technique, clear units and a labeled data record.

ASK

Is the comparison fair? What stays the same? What pattern appears? Is there an unusual value? What limitation matters?

TD-285 | OBSERVE -> CHECK -> CLOSE

OBSERVE

Check sample identity, repeat measurements, units, table quality and whether conclusions match the evidence.

CHECK LEARNING

Learner produces comparable data plus a calculation/graph or defensible evidence-based explanation.

CLOSE

Discuss pattern and limitation, state one practical implication, clean the area and assign the linked mission/journal task.

LINK THE LEARNING

Record evidence in the GrowMeal journal -> assign the related Garden Mission Card -> use the matching practical/data/problem-solving assessment item.

CALCULATE DEMONSTRATION

Primary 4-6 | Water-Smart Garden

SET UP

Define the question, samples/comparison and safe measurement method for water movement and productivity. Check tools before class.

DEMONSTRATE

Model how to calculate with repeatable technique, clear units and a labeled data record.

ASK

Is the comparison fair? What stays the same? What pattern appears? Is there an unusual value? What limitation matters?

TD-286 | OBSERVE -> CHECK -> CLOSE

OBSERVE

Check sample identity, repeat measurements, units, table quality and whether conclusions match the evidence.

CHECK LEARNING

Learner produces comparable data plus a calculation/graph or defensible evidence-based explanation.

CLOSE

Discuss pattern and limitation, state one practical implication, clean the area and assign the linked mission/journal task.

LINK THE LEARNING

Record evidence in the GrowMeal journal -> assign the related Garden Mission Card -> use the matching practical/data/problem-solving assessment item.

GRAPH DEMONSTRATION

Primary 4-6 | Water-Smart Garden

SET UP

Define the question, samples/comparison and safe measurement method for water movement and productivity. Check tools before class.

DEMONSTRATE

Model how to graph with repeatable technique, clear units and a labeled data record.

ASK

Is the comparison fair? What stays the same? What pattern appears? Is there an unusual value? What limitation matters?

TD-287 | OBSERVE -> CHECK -> CLOSE

OBSERVE

Check sample identity, repeat measurements, units, table quality and whether conclusions match the evidence.

CHECK LEARNING

Learner produces comparable data plus a calculation/graph or defensible evidence-based explanation.

CLOSE

Discuss pattern and limitation, state one practical implication, clean the area and assign the linked mission/journal task.

LINK THE LEARNING

Record evidence in the GrowMeal journal -> assign the related Garden Mission Card -> use the matching practical/data/problem-solving assessment item.

ANALYZE DEMONSTRATION

Primary 4-6 | Water-Smart Garden

SET UP

Define the question, samples/comparison and safe measurement method for water movement and productivity. Check tools before class.

DEMONSTRATE

Model how to analyze with repeatable technique, clear units and a labeled data record.

ASK

Is the comparison fair? What stays the same? What pattern appears? Is there an unusual value? What limitation matters?

TD-288 | OBSERVE -> CHECK -> CLOSE

OBSERVE

Check sample identity, repeat measurements, units, table quality and whether conclusions match the evidence.

CHECK LEARNING

Learner produces comparable data plus a calculation/graph or defensible evidence-based explanation.

CLOSE

Discuss pattern and limitation, state one practical implication, clean the area and assign the linked mission/journal task.

LINK THE LEARNING

Record evidence in the GrowMeal journal -> assign the related Garden Mission Card -> use the matching practical/data/problem-solving assessment item.

EXPLAIN DEMONSTRATION

Primary 4-6 | Water-Smart Garden

SET UP

Define the question, samples/comparison and safe measurement method for water movement and productivity. Check tools before class.

DEMONSTRATE

Model how to explain with repeatable technique, clear units and a labeled data record.

ASK

Is the comparison fair? What stays the same? What pattern appears? Is there an unusual value? What limitation matters?

OBSERVE

Check sample identity, repeat measurements, units, table quality and whether conclusions match the evidence.

CHECK LEARNING

Learner produces comparable data plus a calculation/graph or defensible evidence-based explanation.

CLOSE

Discuss pattern and limitation, state one practical implication, clean the area and assign the linked mission/journal task.

LINK THE LEARNING

Record evidence in the GrowMeal journal -> assign the related Garden Mission Card -> use the matching practical/data/problem-solving assessment item.

RECOMMEND DEMONSTRATION

Primary 4-6 | Water-Smart Garden

SET UP

Define the question, samples/comparison and safe measurement method for water movement and productivity. Check tools before class.

DEMONSTRATE

Model how to recommend with repeatable technique, clear units and a labeled data record.

ASK

Is the comparison fair? What stays the same? What pattern appears? Is there an unusual value? What limitation matters?

TD-290 | OBSERVE -> CHECK -> CLOSE

OBSERVE

Check sample identity, repeat measurements, units, table quality and whether conclusions match the evidence.

CHECK LEARNING

Learner produces comparable data plus a calculation/graph or defensible evidence-based explanation.

CLOSE

Discuss pattern and limitation, state one practical implication, clean the area and assign the linked mission/journal task.

LINK THE LEARNING

Record evidence in the GrowMeal journal -> assign the related Garden Mission Card -> use the matching practical/data/problem-solving assessment item.

OBSERVE DEMONSTRATION

Primary 4-6 | Intro Soilless Garden

SET UP

Define the question, samples/comparison and safe measurement method for media, flow, pH and EC. Check tools before class.

DEMONSTRATE

Model how to observe with repeatable technique, clear units and a labeled data record.

ASK

Is the comparison fair? What stays the same? What pattern appears? Is there an unusual value? What limitation matters?

TD-291 | OBSERVE -> CHECK -> CLOSE

OBSERVE

Check sample identity, repeat measurements, units, table quality and whether conclusions match the evidence.

CHECK LEARNING

Learner produces comparable data plus a calculation/graph or defensible evidence-based explanation.

CLOSE

Discuss pattern and limitation, state one practical implication, clean the area and assign the linked mission/journal task.

LINK THE LEARNING

Record evidence in the GrowMeal journal -> assign the related Garden Mission Card -> use the matching practical/data/problem-solving assessment item.

MEASURE DEMONSTRATION

Primary 4-6 | Intro Soilless Garden

SET UP

Define the question, samples/comparison and safe measurement method for media, flow, pH and EC. Check tools before class.

DEMONSTRATE

Model how to measure with repeatable technique, clear units and a labeled data record.

ASK

Is the comparison fair? What stays the same? What pattern appears? Is there an unusual value? What limitation matters?

TD-292 | OBSERVE -> CHECK -> CLOSE

OBSERVE

Check sample identity, repeat measurements, units, table quality and whether conclusions match the evidence.

CHECK LEARNING

Learner produces comparable data plus a calculation/graph or defensible evidence-based explanation.

CLOSE

Discuss pattern and limitation, state one practical implication, clean the area and assign the linked mission/journal task.

LINK THE LEARNING

Record evidence in the GrowMeal journal -> assign the related Garden Mission Card -> use the matching practical/data/problem-solving assessment item.

QUESTION DEMONSTRATION

Primary 4-6 | Intro Soilless Garden

SET UP

Define the question, samples/comparison and safe measurement method for media, flow, pH and EC. Check tools before class.

DEMONSTRATE

Model how to question with repeatable technique, clear units and a labeled data record.

ASK

Is the comparison fair? What stays the same? What pattern appears? Is there an unusual value? What limitation matters?

OBSERVE

Check sample identity, repeat measurements, units, table quality and whether conclusions match the evidence.

CHECK LEARNING

Learner produces comparable data plus a calculation/graph or defensible evidence-based explanation.

CLOSE

Discuss pattern and limitation, state one practical implication, clean the area and assign the linked mission/journal task.

LINK THE LEARNING

Record evidence in the GrowMeal journal -> assign the related Garden Mission Card -> use the matching practical/data/problem-solving assessment item.

SAMPLE DEMONSTRATION

Primary 4-6 | Intro Soilless Garden

SET UP

Define the question, samples/comparison and safe measurement method for media, flow, pH and EC. Check tools before class.

DEMONSTRATE

Model how to sample with repeatable technique, clear units and a labeled data record.

ASK

Is the comparison fair? What stays the same? What pattern appears? Is there an unusual value? What limitation matters?

TD-294 | OBSERVE -> CHECK -> CLOSE

OBSERVE

Check sample identity, repeat measurements, units, table quality and whether conclusions match the evidence.

CHECK LEARNING

Learner produces comparable data plus a calculation/graph or defensible evidence-based explanation.

CLOSE

Discuss pattern and limitation, state one practical implication, clean the area and assign the linked mission/journal task.

LINK THE LEARNING

Record evidence in the GrowMeal journal -> assign the related Garden Mission Card -> use the matching practical/data/problem-solving assessment item.

INVESTIGATE DEMONSTRATION

Primary 4-6 | Intro Soilless Garden

SET UP

Define the question, samples/comparison and safe measurement method for media, flow, pH and EC. Check tools before class.

DEMONSTRATE

Model how to investigate with repeatable technique, clear units and a labeled data record.

ASK

Is the comparison fair? What stays the same? What pattern appears? Is there an unusual value? What limitation matters?

TD-295 | OBSERVE -> CHECK -> CLOSE

OBSERVE

Check sample identity, repeat measurements, units, table quality and whether conclusions match the evidence.

CHECK LEARNING

Learner produces comparable data plus a calculation/graph or defensible evidence-based explanation.

CLOSE

Discuss pattern and limitation, state one practical implication, clean the area and assign the linked mission/journal task.

LINK THE LEARNING

Record evidence in the GrowMeal journal -> assign the related Garden Mission Card -> use the matching practical/data/problem-solving assessment item.

CALCULATE DEMONSTRATION

Primary 4-6 | Intro Soilless Garden

SET UP

Define the question, samples/comparison and safe measurement method for media, flow, pH and EC. Check tools before class.

DEMONSTRATE

Model how to calculate with repeatable technique, clear units and a labeled data record.

ASK

Is the comparison fair? What stays the same? What pattern appears? Is there an unusual value? What limitation matters?

TD-296 | OBSERVE -> CHECK -> CLOSE

OBSERVE

Check sample identity, repeat measurements, units, table quality and whether conclusions match the evidence.

CHECK LEARNING

Learner produces comparable data plus a calculation/graph or defensible evidence-based explanation.

CLOSE

Discuss pattern and limitation, state one practical implication, clean the area and assign the linked mission/journal task.

LINK THE LEARNING

Record evidence in the GrowMeal journal -> assign the related Garden Mission Card -> use the matching practical/data/problem-solving assessment item.

GRAPH DEMONSTRATION

Primary 4-6 | Intro Soilless Garden

SET UP

Define the question, samples/comparison and safe measurement method for media, flow, pH and EC. Check tools before class.

DEMONSTRATE

Model how to graph with repeatable technique, clear units and a labeled data record.

ASK

Is the comparison fair? What stays the same? What pattern appears? Is there an unusual value? What limitation matters?

TD-297 | OBSERVE -> CHECK -> CLOSE

OBSERVE

Check sample identity, repeat measurements, units, table quality and whether conclusions match the evidence.

CHECK LEARNING

Learner produces comparable data plus a calculation/graph or defensible evidence-based explanation.

CLOSE

Discuss pattern and limitation, state one practical implication, clean the area and assign the linked mission/journal task.

LINK THE LEARNING

Record evidence in the GrowMeal journal -> assign the related Garden Mission Card -> use the matching practical/data/problem-solving assessment item.

ANALYZE DEMONSTRATION

Primary 4-6 | Intro Soilless Garden

SET UP

Define the question, samples/comparison and safe measurement method for media, flow, pH and EC. Check tools before class.

DEMONSTRATE

Model how to analyze with repeatable technique, clear units and a labeled data record.

ASK

Is the comparison fair? What stays the same? What pattern appears? Is there an unusual value? What limitation matters?

TD-298 | OBSERVE -> CHECK -> CLOSE

OBSERVE

Check sample identity, repeat measurements, units, table quality and whether conclusions match the evidence.

CHECK LEARNING

Learner produces comparable data plus a calculation/graph or defensible evidence-based explanation.

CLOSE

Discuss pattern and limitation, state one practical implication, clean the area and assign the linked mission/journal task.

LINK THE LEARNING

Record evidence in the GrowMeal journal -> assign the related Garden Mission Card -> use the matching practical/data/problem-solving assessment item.

EXPLAIN DEMONSTRATION

Primary 4-6 | Intro Soilless Garden

SET UP

Define the question, samples/comparison and safe measurement method for media, flow, pH and EC. Check tools before class.

DEMONSTRATE

Model how to explain with repeatable technique, clear units and a labeled data record.

ASK

Is the comparison fair? What stays the same? What pattern appears? Is there an unusual value? What limitation matters?

TD-299 | OBSERVE -> CHECK -> CLOSE

OBSERVE

Check sample identity, repeat measurements, units, table quality and whether conclusions match the evidence.

CHECK LEARNING

Learner produces comparable data plus a calculation/graph or defensible evidence-based explanation.

CLOSE

Discuss pattern and limitation, state one practical implication, clean the area and assign the linked mission/journal task.

LINK THE LEARNING

Record evidence in the GrowMeal journal -> assign the related Garden Mission Card -> use the matching practical/data/problem-solving assessment item.

RECOMMEND DEMONSTRATION

Primary 4-6 | Intro Soilless Garden

SET UP

Define the question, samples/comparison and safe measurement method for media, flow, pH and EC. Check tools before class.

DEMONSTRATE

Model how to recommend with repeatable technique, clear units and a labeled data record.

ASK

Is the comparison fair? What stays the same? What pattern appears? Is there an unusual value? What limitation matters?

TD-300 | OBSERVE -> CHECK -> CLOSE

OBSERVE

Check sample identity, repeat measurements, units, table quality and whether conclusions match the evidence.

CHECK LEARNING

Learner produces comparable data plus a calculation/graph or defensible evidence-based explanation.

CLOSE

Discuss pattern and limitation, state one practical implication, clean the area and assign the linked mission/journal task.

LINK THE LEARNING

Record evidence in the GrowMeal journal -> assign the related Garden Mission Card -> use the matching practical/data/problem-solving assessment item.
