

SSS 1-3 Advanced Production Garden Flashcards 801-820

801. PRODUCTION FUNCTION	A production function represents the relationship between one or more inputs and...
802. SYSTEM BOUNDARY	A production-system boundary defines which material, resource, biological, and m...
803. INPUT INTENSITY	Input intensity expresses the quantity of an input used per unit area, time, pla...
804. PLANT POPULATION	Plant population is determined by establishment, spacing, mortality, and replace...
805. CANOPY DEVELOPMENT	Canopy development describes changes in leaf area, architecture, and ground cove...
806. PHENOLOGY	Phenology is the timing and progression of biological development stages such as...
807. BIOMASS	Biomass is the mass of living plant material and can be partitioned among roots,...
808. YIELD COMPONENT	Yield can be decomposed into components such as plant population, fruits per pla...
809. HARVEST INDEX	Harvest index is the ratio of economically useful harvested biomass to total abo...
810. RESOURCE LIMITATION	A limiting resource or condition constrains production when its availability or ...
811. NUTRIENT-USE EFFICIENCY	Nutrient-use efficiency relates crop output or nutrient recovery to nutrient inp...
812. WATER PRODUCTIVITY	Water productivity relates useful crop output to water consumed or supplied, dep...
813. LABOR PRODUCTIVITY	Labor productivity relates useful output to labor time or effort used in product...
814. PRODUCTION COST	Production cost includes variable and fixed resource expenditures attributable t...
815. UNIT COST	Unit cost is the production cost divided by the quantity of useful output produced.
816. LOSS ANALYSIS	Loss analysis identifies where expected production is reduced during establishme...
817. BENCHMARK	A benchmark is a reference performance value used to compare current results wit...
818. MULTI-CRITERIA PERFORMANCE	Agricultural performance often requires simultaneous consideration of yield, qua...
819. MANAGEMENT SCENARIO	A management scenario specifies a plausible combination of inputs, practices, co...
820. PRODUCTION OPTIMIZATION	Production optimization seeks a feasible management combination that improves de...
