

SSS 1-3 Water Productivity Garden Flashcards 881-900

881. WATER BALANCE	A water balance accounts for water inputs, outputs, and storage changes within a...
882. PRECIPITATION	Precipitation is atmospheric water reaching the surface and may contribute to cr...
883. IRRIGATION	Irrigation is managed water applied to supplement crop water supply.
884. RUNOFF	Runoff is water leaving the defined surface boundary rather than infiltrating in...
885. DEEP PERCOLATION	Deep percolation is water moving below the effective root zone and may represent...
886. SOIL-WATER STORAGE CHANGE	Storage change is the increase or decrease in water held within the defined soil...
887. EVAPOTRANSPIRATION	Evapotranspiration is combined evaporation and plant transpiration and is a majo...
888. REFERENCE ET	Reference evapotranspiration is the atmospheric evaporative demand from a standa...
889. CROP COEFFICIENT	A crop coefficient scales reference evapotranspiration to approximate crop evapo...
890. CROP EVAPOTRANSPIRATION	Crop evapotranspiration is commonly estimated as reference evapotranspiration mu...
891. IRRIGATION REQUIREMENT	Irrigation requirement is supplemental water needed after accounting for crop de...
892. EFFECTIVE WATER SUPPLY	Not all supplied or received water contributes usefully to root-zone crop demand...
893. WATER-USE EFFICIENCY	Water-use efficiency is a family of metrics relating biomass or yield to water u...
894. IRRIGATION WATER PRODUCTIVITY	Irrigation water productivity relates crop output specifically to irrigation wat...
895. ET WATER PRODUCTIVITY	ET water productivity relates crop output to evapotranspiration and differs conc...
896. MARGINAL WATER PRODUCTIVITY	Marginal water productivity describes additional output associated with an addit...
897. WATER DEFICIT	Water deficit occurs when crop water supply is below demand and may reduce growt...
898. DEFICIT IRRIGATION	Deficit irrigation deliberately supplies less than full estimated crop water req...
899. YIELD RESPONSE TO WATER	Yield response to water describes how crop yield changes with water availability...
900. WATER PRODUCTIVITY OPTIMIZATION	Optimization seeks a water-management strategy that improves defined production ...
