

OBSERVE DEMONSTRATION

Primary 4-6 | Grid Experiment Garden

SET UP

Define the question, samples/comparison and safe measurement method for treatments, controls and fair comparisons. Check tools before class.

DEMONSTRATE

Model how to observe with repeatable technique, clear units and a labeled data record.

ASK

Is the comparison fair? What stays the same? What pattern appears? Is there an unusual value? What limitation matters?

TD-221 | OBSERVE -> CHECK -> CLOSE

OBSERVE

Check sample identity, repeat measurements, units, table quality and whether conclusions match the evidence.

CHECK LEARNING

Learner produces comparable data plus a calculation/graph or defensible evidence-based explanation.

CLOSE

Discuss pattern and limitation, state one practical implication, clean the area and assign the linked mission/journal task.

LINK THE LEARNING

Record evidence in the GrowMeal journal -> assign the related Garden Mission Card -> use the matching practical/data/problem-solving assessment item.

MEASURE DEMONSTRATION

Primary 4-6 | Grid Experiment Garden

SET UP

Define the question, samples/comparison and safe measurement method for treatments, controls and fair comparisons. Check tools before class.

DEMONSTRATE

Model how to measure with repeatable technique, clear units and a labeled data record.

ASK

Is the comparison fair? What stays the same? What pattern appears? Is there an unusual value? What limitation matters?

TD-222 | OBSERVE -> CHECK -> CLOSE

OBSERVE

Check sample identity, repeat measurements, units, table quality and whether conclusions match the evidence.

CHECK LEARNING

Learner produces comparable data plus a calculation/graph or defensible evidence-based explanation.

CLOSE

Discuss pattern and limitation, state one practical implication, clean the area and assign the linked mission/journal task.

LINK THE LEARNING

Record evidence in the GrowMeal journal -> assign the related Garden Mission Card -> use the matching practical/data/problem-solving assessment item.

QUESTION DEMONSTRATION

Primary 4-6 | Grid Experiment Garden

SET UP

Define the question, samples/comparison and safe measurement method for treatments, controls and fair comparisons. Check tools before class.

DEMONSTRATE

Model how to question with repeatable technique, clear units and a labeled data record.

ASK

Is the comparison fair? What stays the same? What pattern appears? Is there an unusual value? What limitation matters?

TD-223 | OBSERVE -> CHECK -> CLOSE

OBSERVE

Check sample identity, repeat measurements, units, table quality and whether conclusions match the evidence.

CHECK LEARNING

Learner produces comparable data plus a calculation/graph or defensible evidence-based explanation.

CLOSE

Discuss pattern and limitation, state one practical implication, clean the area and assign the linked mission/journal task.

LINK THE LEARNING

Record evidence in the GrowMeal journal -> assign the related Garden Mission Card -> use the matching practical/data/problem-solving assessment item.

SAMPLE DEMONSTRATION

Primary 4-6 | Grid Experiment Garden

SET UP

Define the question, samples/comparison and safe measurement method for treatments, controls and fair comparisons. Check tools before class.

DEMONSTRATE

Model how to sample with repeatable technique, clear units and a labeled data record.

ASK

Is the comparison fair? What stays the same? What pattern appears? Is there an unusual value? What limitation matters?

TD-224 | OBSERVE -> CHECK -> CLOSE

OBSERVE

Check sample identity, repeat measurements, units, table quality and whether conclusions match the evidence.

CHECK LEARNING

Learner produces comparable data plus a calculation/graph or defensible evidence-based explanation.

CLOSE

Discuss pattern and limitation, state one practical implication, clean the area and assign the linked mission/journal task.

LINK THE LEARNING

Record evidence in the GrowMeal journal -> assign the related Garden Mission Card -> use the matching practical/data/problem-solving assessment item.

INVESTIGATE DEMONSTRATION

Primary 4-6 | Grid Experiment Garden

SET UP

Define the question, samples/comparison and safe measurement method for treatments, controls and fair comparisons. Check tools before class.

DEMONSTRATE

Model how to investigate with repeatable technique, clear units and a labeled data record.

ASK

Is the comparison fair? What stays the same? What pattern appears? Is there an unusual value? What limitation matters?

TD-225 | OBSERVE -> CHECK -> CLOSE

OBSERVE

Check sample identity, repeat measurements, units, table quality and whether conclusions match the evidence.

CHECK LEARNING

Learner produces comparable data plus a calculation/graph or defensible evidence-based explanation.

CLOSE

Discuss pattern and limitation, state one practical implication, clean the area and assign the linked mission/journal task.

LINK THE LEARNING

Record evidence in the GrowMeal journal -> assign the related Garden Mission Card -> use the matching practical/data/problem-solving assessment item.

CALCULATE DEMONSTRATION

Primary 4-6 | Grid Experiment Garden

SET UP

Define the question, samples/comparison and safe measurement method for treatments, controls and fair comparisons. Check tools before class.

DEMONSTRATE

Model how to calculate with repeatable technique, clear units and a labeled data record.

ASK

Is the comparison fair? What stays the same? What pattern appears? Is there an unusual value? What limitation matters?

TD-226 | OBSERVE -> CHECK -> CLOSE

OBSERVE

Check sample identity, repeat measurements, units, table quality and whether conclusions match the evidence.

CHECK LEARNING

Learner produces comparable data plus a calculation/graph or defensible evidence-based explanation.

CLOSE

Discuss pattern and limitation, state one practical implication, clean the area and assign the linked mission/journal task.

LINK THE LEARNING

Record evidence in the GrowMeal journal -> assign the related Garden Mission Card -> use the matching practical/data/problem-solving assessment item.

GRAPH DEMONSTRATION

Primary 4-6 | Grid Experiment Garden

SET UP

Define the question, samples/comparison and safe measurement method for treatments, controls and fair comparisons. Check tools before class.

DEMONSTRATE

Model how to graph with repeatable technique, clear units and a labeled data record.

ASK

Is the comparison fair? What stays the same? What pattern appears? Is there an unusual value? What limitation matters?

TD-227 | OBSERVE -> CHECK -> CLOSE

OBSERVE

Check sample identity, repeat measurements, units, table quality and whether conclusions match the evidence.

CHECK LEARNING

Learner produces comparable data plus a calculation/graph or defensible evidence-based explanation.

CLOSE

Discuss pattern and limitation, state one practical implication, clean the area and assign the linked mission/journal task.

LINK THE LEARNING

Record evidence in the GrowMeal journal -> assign the related Garden Mission Card -> use the matching practical/data/problem-solving assessment item.

ANALYZE DEMONSTRATION

Primary 4-6 | Grid Experiment Garden

SET UP

Define the question, samples/comparison and safe measurement method for treatments, controls and fair comparisons. Check tools before class.

DEMONSTRATE

Model how to analyze with repeatable technique, clear units and a labeled data record.

ASK

Is the comparison fair? What stays the same? What pattern appears? Is there an unusual value? What limitation matters?

TD-228 | OBSERVE -> CHECK -> CLOSE

OBSERVE

Check sample identity, repeat measurements, units, table quality and whether conclusions match the evidence.

CHECK LEARNING

Learner produces comparable data plus a calculation/graph or defensible evidence-based explanation.

CLOSE

Discuss pattern and limitation, state one practical implication, clean the area and assign the linked mission/journal task.

LINK THE LEARNING

Record evidence in the GrowMeal journal -> assign the related Garden Mission Card -> use the matching practical/data/problem-solving assessment item.

EXPLAIN DEMONSTRATION

Primary 4-6 | Grid Experiment Garden

SET UP

Define the question, samples/comparison and safe measurement method for treatments, controls and fair comparisons. Check tools before class.

DEMONSTRATE

Model how to explain with repeatable technique, clear units and a labeled data record.

ASK

Is the comparison fair? What stays the same? What pattern appears? Is there an unusual value? What limitation matters?

TD-229 | OBSERVE -> CHECK -> CLOSE

OBSERVE

Check sample identity, repeat measurements, units, table quality and whether conclusions match the evidence.

CHECK LEARNING

Learner produces comparable data plus a calculation/graph or defensible evidence-based explanation.

CLOSE

Discuss pattern and limitation, state one practical implication, clean the area and assign the linked mission/journal task.

LINK THE LEARNING

Record evidence in the GrowMeal journal -> assign the related Garden Mission Card -> use the matching practical/data/problem-solving assessment item.

RECOMMEND DEMONSTRATION

Primary 4-6 | Grid Experiment Garden

SET UP

Define the question, samples/comparison and safe measurement method for treatments, controls and fair comparisons. Check tools before class.

DEMONSTRATE

Model how to recommend with repeatable technique, clear units and a labeled data record.

ASK

Is the comparison fair? What stays the same? What pattern appears? Is there an unusual value? What limitation matters?

TD-230 | OBSERVE -> CHECK -> CLOSE

OBSERVE

Check sample identity, repeat measurements, units, table quality and whether conclusions match the evidence.

CHECK LEARNING

Learner produces comparable data plus a calculation/graph or defensible evidence-based explanation.

CLOSE

Discuss pattern and limitation, state one practical implication, clean the area and assign the linked mission/journal task.

LINK THE LEARNING

Record evidence in the GrowMeal journal -> assign the related Garden Mission Card -> use the matching practical/data/problem-solving assessment item.
